Can you please find out what time the State of Michigan employee volunteers are meeting tomorrow before they begin going door to door? If it's before 9 a.m., the Lt. Governor would like to meet with them briefly.

Please send me the location, time, and who the contact would be on-site. The Gov's Office will coordinate this visit.

Just got a follow-up text on the below. If it's only 9 a.m. it won't work out for tomorrow so particularly looking to know if there is a later meet-up time.

Subject: LG & Volunteers

The Lt. Gov. is hoping to meet a group of state employee volunteers tomorrow to say a few words of thanks before they head out on delivery. Are there multiple times volunteers meet or do they all meet at 9 a.m. and that's it?

Looking for times and locations.

Nicole,

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. The on-site contact will be Lt. Paul Pummill and his cell is

Hi Mike,

Please see below, would it be possible for the Lt. Governor to meet with them?

Can you please find out what time the State of Michigan employee volunteers are meeting tomorrow before they begin going door to door? If it's before 9 a.m., the Lt. Governor would like to meet with them briefly.

Please send me the location, time, and who the contact would be on-site. The Gov's Office will coordinate this visit.

Subject: Sit Rep for 1/15

Teams have been distributing water all day. 3228 homes have been visited today by the state teams. 660 homes were visited by the Red Cross.

4 Gas cards provided by DTMB for rental vehicles being used in Water Response Teams. The cards are being delivered to F/Lt. Kish or Lt. Dehner by DEQ.

Worked with DTMB to restore iPads as they went down due to a software issue. This was being resolved by DTMB.

DTMB provided credit card information for the Survey Monkey tool so reports could be collected with all pertinent information. Instructions were drafted for IOD personnel to access Survey Monkey and obtain volunteer information.

ICS 208 created for 1/16/16-1/9/16 to include updated weather information provided by the National Weather Service.

We worked with the American Red Cross regarding the logistics for the Water Response Teams and distribution of water, filters, and test kits. The plan was discussed with the Local Water Response Team commander, Capt. Kapp, and Insp. Sipes at 1700 and the operational plan was distributed to the commander at that time. The plan will be implemented over the weekend to streamline the actions of the Water Response Teams and increase efficiency. The problems/concerns identified by LTC Gorksi should be addressed by this plan.

We have 70 state of Michigan employee volunteers scheduled for Saturday.

MI-CIMS Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

Edit Record Back Archive Create PDF

EXECUTIVE SUMMARY

Teams have been distributing water all day. 3902 homes have been visited today.

The EOC in Flint advised that Genesee County Sheriff Department did not have the resources to provide security for the resource warehouses in the evening. Lt. Pummill was notified at 9:19 a.m. regarding this issue. Lt. Pummill did not believe this would be an issue because the warehouses are fenced in.

10:24 a.m. - Lt. Pummill advised that Sgt. Keith Sparks, MSP Safety Officer is currently evaluating the security at the resource warehouses for this evening.

1241 p.m. - Sgt. Sparks has completed his assessment of the resource warehouse and he responded with the following; My assessment of the facility is that it is adequate to secure the Red Cross vehicles as long as the vehicles are locked up and the gate is closed and locked. It will also be beneficial for the security of the vehicles when the outdoor lights are brought back into working order. Note: Personnel are currently working on the lights issue. They will know if the light are in working order at the facility by 5:00 p.m. today. I contacted Lt. Pummill at 6:06 p.m. for status on lights at warehouse. Lt. Pummill is having MSP personnel check to see if the lights were repaired. 6:37 p.m. - There are now lights on the south side of the warehouse, per Lt. Pummill. The south side of the building are where the delivery trucks are parked.

1:35 p.m. - MSP was asked for the exact number or state agency volunteers that reported today (Saturday 1-16-16) and to also confirm they went out in 10 teams. This information was forwarded to Lt. Pummill at 1:41 p.m.

2:06 p.m. Lt. Pummill advised 62 volunteers were utilized on 11 teams today.

ICS 208 created for 1/17/16-1/18/16 to include updated weather information provided by the National Weather Service.

We have 114 state of Michigan employee volunteers scheduled for Sunday Jan 17th and 125 scheduled for Monday Jan 18th.

Subject: Update: Request for additional Troopers/County and or Local LE for Door to Door Operations

F/Lt. Kish,

The Governor has approved the use of the National Guard for the Door to Door Operations in Flint. So, please proceed with the planning process for obtaining the additional Troopers/County and or Local Officers with marked patrol vehicles to assist the National Guard. As stated below, they plan on deploying 20 teams on Wednesday 1-20-16.

** Critical Info** Capt. Kelenske has asked that the above information not be released to the media or any personnel outside the SEOC or Local EOC's. This information will probably be announced by the Governor during his State of the State Address tomorrow (1-19-16).

Thank you for your assistance,

Spl/Lt. Mardella Horhn

F/Lt. Kish,

Below is just to give you a heads-up.

The SEOC may be requesting additional 20 – 30 Troopers/County or Local Officers along with marked patrol vehicles to assist with the Door to Door Operations with the National Guard staring tomorrow (1-19-16). The SEOC is still waiting for the Governor to approve the use of National Guard personnel. We should know more this afternoon. If approved the National Guard will be deploying the below:

- A total of 180 National Guard personnel will be assisting with the Door to Door Operations.
- There will also be 20 National Guard Command Officers responding to supervise personnel.
- On Tuesday (1-19-16) 100 of the National Guard personnel will be arriving. The Door to Door Operations will be split into to two groups. 50 National Guard personnel will be involved in the Door to Door Operations in the morning and 50 National Guard personnel will be Deployed for the Door to Door Operations in the afternoon.
- The remaining 80 National Guard personnel will be arriving on Wednesday (1-20-16).

I will let you know if and when the use of the National Guard personnel are approved for use.

Updated Information (1:55 p.m.):

- If approved, all **200 National Guard** personnel will be arriving on Wednesday (1-20-16). As stated above, **180** of the National Guard personnel will be boots on the ground assisting with the Door to Door Operations and **20** will be **National Guard Command Officers.** Upon arrival the National Guard personnel will report to the local EOC for briefing and will be deployed into the field using Michigan Department of Corrections transport vehicles. There will be approximately 20 teams deployed.

Please note: Still waiting on Governors approval.

Thank you,
Spl/Lt. Mardella Horhn

To: Operations, Lts, Lieutenants (MSP); Jones, Valencia (MSP); Johnson, Michael (MSP)
Subject: *SEOC coverage by MSP through 1-30*

Lencia,

We need to provide coverage to the SEOC through Saturday, the 30th of January. Please check the schedule and look for double coverages to include when Sgt. McKee is working that he might be able to cover the Ops Desk, providing that there is sufficient coverage at the watch desk.

Lt. Johnson, if your available any dates next week, please coordinate those dates to Lt. Jones.

Thank you both!
M
Lt. Garland

Inspector Bolger,

See the attached e-mail from F/Lt. Kish. I did not want to post anything into MICIMS until you had a chance to look over the response.

Please let me know how you would like me to proceed.

Lt. Garland told me you were coming back to the SEOC later today.

Thanks

Subject: MSP Troopers for Water Emergency

Inspector,

With the (proposed)deployment schedule moving to an afternoon shift, this will have significant impacts upon trooper availability for the water emergency from our post. Is this a necessary change? Is it possible to spot check residences on an "as needed" basis on an afternoon shift? We could probably make that accommodation. At this point, I'm not sure that completely changing the schedule that has been so effective up to this point is really necessary.

Subject: SEOC - Group 4 Staffing

Dave

The purpose of this request is to identify the amount of hours worked by our Group 4 employees associated with the SEOC activation and determine if they should receive Project Pay.

I know that Insp. Bolger and F/Lt. Johnson have both worked in the SEOC for the past couple of weeks which required hours well beyond the normal 8-5 schedule. As Group 4 employees, they are not eligible for OT but can be compensated with Project Pay.

Can you provide the number of hours worked by each of them that that exceeded the normal 8 hour work day or 40 hour work week.

Do you have a recommendation on either of them receiving project pay?

All,

You are receiving this email because you are identified as the contact person on at least one of the initiatives listed in the Department's IT Strategic Plan (ITSP). In an effort to streamline the time and effort for accomplishing accurate reporting of the ITSP, a bi-yearly update form is being provided as well as the latest update of the ITSP. Completed projects have not been included.

Please review the ITSP for project information accuracy, complete an update for each initiative you are responsible for by COB January 15, 2016, and return to me.

Once compiled, this information will be provided to the Executive Council and the IT Steering Committee. It will also be provided to the project contacts.
Thanks for your continued support of this important program and happy holidays!

Thanks
Mary

Johnson, Michael (MSP)

From: Johnson, Michael (MSP)
Sent: Thursday, January 21, 2016 2:14 PM
To: Kelly, David (MSP)
Subject: Training at NPS
Attachments: 2016APEX(1).docx

Capt.,

The training in California is for anyone who graduated from NPS (similar to the seminars for FBI graduates). For two days they bring in speakers who discuss national and world issues related to homeland security. Upon reviewing the agenda this would provide me an opportunity to learn more about the intelligence, security, response and coordination of the San Bernardino shootings. This is important to the operations section because the dispatchers may be the first to receive the call, the intelligence is pushed through the watch desk, and the operations desk disseminates the information. We are also the Emergency Manager for MSP so when incidents happen, such as Flint and the Detroit flooding incident, we respond to the SEOC and help coordinate field assets with EMHSD. There are several other courses such as ISIS and radicalization, global health implications for the American public, coordinating and supporting tribal nations, the role of media in homeland security, cyber threats, and a lessons learned from the aviation industry on emergency response that I feel would be beneficial.

I will provide you a memo outlining what I learned and provide recommendations for any changes I feel would be beneficial to the agency.

Thanks, Mike

Hi Mike –

Can you look at the exchange below. I have pointed them to the website but they are looking for something more. Do you have any suggestions on where I can sent them?

Steph

Show Images

Bob Pratt

Steph, Wonderful running into you at Hannah tonight. Michael Hood and Laurie Carpenter are social workers who are helping with the Flint situation. We spent the day at Mission of Hope Church and Pastor Bob Jackson (Mike has his contact info) They are distributing water and filters to inner city residents.

MIKE, Steph works with the State Police and believes they have a command center set up. I told her about your social work cadre that is looking to get plugged in.

Chief any idea who from Flint FD is coordinating? Would love to get Pastor Jackson hooked up with them so we are not missing gaps or doing redundant deliveries. Thanks for everyone's help!!

Show Images

Laurie Carpenter

Thanks for the connection, Bob - we would certainly love to get any information available re: coordination of services in Flint. GREAT WORK TODAY. smile emoticon

Stephanie Dawe Horton

I will see what I can find out for you all in terms of who and where coordination is being handled at an MSP level. Can someone fill me in on who you have attempted to contact?

Show Images

Michael Hood

Hi Stephanie - I am social worker and volunteer coordinator with 24+ years of experience working with at risk populations and getting aid and services to those populations and coordinating with volunteers other agencies as well to do same.

I have been in touch with Hurley, United Way, DEQ, Greater Flint Health Coalition, Community Foundation of Greater Flint, Geneses County CMH, Red Cross, and of course Mission of Hope. Had very little positive response from anyone regarding knowledge of or involvement in any coordination or cooperative multi-agency efforts whatsoever. I have a pretty fair number of volunteers at my disposal including approximately 100+ social workers and social service workers and others with a wide variety of skill sets and availability.

Happy to put my troops in the field but have had little direction, enthusiasm or follow up from anyone other than Bobby Jackson for doing that. His is a very small agency (Mission of Hope) so likely wouldn't be able to use the bulk of my people. I hope this helps and thank you.

I am also working with a volunteer who has access to state of the art water purifiers customized and fine tuned to deal with the water problems specific to Flint. Local water samples are at the state labs at this very minute - expect them back within next 24 48 hours. This results will be used to calibrate the technology. We have four high capacity devices being readied to be placed and set up for use. High capacity devices these are. Happy to do whatever is called for. I can lead, follow or get out of the way. Wind me up and point me. Thank you for your questions. My email is oldvoyageur@gmail.com Ph is ~ Michael

Stephanie Dawe Horton

Good morning,

My initial information is that this website is the starting point for coordination.

Have you tried filling out the form?

http://www.helpforflint.com/

Laurie Carpenter

Hi Stephanie - I did and got a response last night - they're sending folks on to the Red Cross. We're interested in helping coordinate efforts across agencies and organizations to make sure there are no service delivery holes, and that volunteer sign-up is to get plugged in to tasks such as delivering water and filters, entering data, etc. We'd like to help, if possible, at a more systemic level, given the skills we bring to the effort.

gorgeousbrown1 Peace to you all! I have been slightly obsessed with the #FlintWaterCrisis #environmentalracism So I asked some FB friends to put me on with some activist/residents on the ground in Flint. Here's what they requested:

1. Spanish and Arabic translators. These vulnerable populations are not getting the messages regarding the level of poison in the water.

2. Undocumented families are now in fear of going to get water because ICE has been in the area grocery stores to apprehend them for deportation proceedings.

3. Alternate locations (churches, private orgs, businesses) are needed to distribute water; places without the National Guard. The occupied force is not comforting.

4. Low income neighborhoods are not getting door to door service. This is where you can make a difference. Delivery is everything.

5. You should subscribe to the Gov. Snyder's daily updates if only to see how his office continues to spin this crisis.

6. Here are some people to follow on twitter: @nayyirahshariff @hectorsolon @flintgate

Stephanie,

I apologize for the delay, I traveled all day on Friday and just saw this, my recommendation would be report to the American Red Cross as they are the only ones as of tomorrow that will be running distribution teams, or have them get a hold of DHHS and see if they could use their expertise in the field.

Thanks, Mike

Subject: Standing with Flint Event at Flint City Hall Today, 2 p.m.

Good Morning,

The Genesee County Volunteer Militia Facebook event page, "Standing with Flint," now shows 65 individuals will be attending the rally, 105 are interested, and 713 have been invited. Again, they have indicated long rifles are not welcome at the event but uniforms, insignia, and side arms are acceptable. https://www.facebook.com/events/214710922205978/

They have posted on Facebook that "no vehicles or driving on the lawn of city hall, do not impede pedestrian sidewalk traffic, and do not block or impede traffic on the streets."

This is expected to be a peaceful show of support to collect water for the citizens of Flint.

I will continue to monitor this event for public safety and situational awareness. I will send an update if new information is posted in the event page. Please let me know if you have any questions.

Thanks,

Sue

This works Linda.

Thanks!

On Jan 26, 2016, at 1:55 PM, Cwiek, Linda (MSP) <CwiekL@michigan.gov> wrote:

I just gave the following message to the Director to approve. I hope to get her okay within the next few minutes and push it out to the bureaus. Anything I missed before I send it out? I'll coordinate the names and get them to you so you don't have to bother with it.

The State Emergency Operations Center is in immediate need of temporary clerical staff to assist with computer entry of 7,000 records from the water response teams. They have four computers available beginning at 2 p.m. today until the record entry has been completed.

Would you please poll your Lansing area command staff and ask them to contact me immediately if they have administrative staff available to volunteer for this assignment? We'll do an initial schedule of:

2-5 p.m. today (if they are available)
8 a.m. – 5 p.m. Wednesday
8 a.m. – 5 p.m. Thursday

We'll review the status of data entry Wednesday afternoon to determine if we need to extend the schedule beyond this.

Thank you.

Subject: SEOC Administrative Assistance

Thank you for volunteering to help the SEOC with their data entry project. Below is the schedule for tomorrow and Thursday. Please report to the SEOC at 4000 Collins Road at your appointed time and ask for F/Lt. Mike Johnson. Please make sure you have your state ID with you.

Wednesday

1. Amy Lowery, SOD (8 a.m. – 5 p.m.)
2. Heather Luebs, SOD (8 a.m. – 5 p.m.)

3a. Lori Higgins, SSB (8 a.m. - noon)
3p. Jo Klotz, OOD (1 – 5 p.m.)
4a. Linda Cwiek, OOD (8 a.m. – noon)
4p. Kit Marks, BID (1 – 5 p.m.)

Thursday

1. Coreen Williams, Communications (8 a.m. – 5 p.m.)
2. Elyce Babcock, IOD (8 a.m. – 5 p.m.)
3. K.C. Gimmey, IOD (8 a.m. – 5 p.m.)

4a. Renae Lugibihl, First DHQ (8 a.m. – noon)
4p. Tammy Stahelin, IOD (1 – 5 p.m.)

If something comes up and you are unable to fill your assigned spot, please email me or call me at 517-282-8875 so I can find a replacement.

We will evaluate our progress tomorrow afternoon and make a determination at that time as to whether we need to schedule additional dates. Thanks again for your willingness to step up and help. It is greatly appreciated.

Subject: Flint Water MSP SEOC Schedule (1-14 thru 2-6-16)
Attachments: Flint Water MSP SEOC Schedule (1-24 thru 2-6-16).docx

To all,

The SEOC staffing needs are being extended for another week 1-31-16 thru 2-6-16. The operational hours will remain 8:00 a.m. to 8:00 p.m. I have attached a new schedule with open shifts highlighted in yellow. Please advise what shifts you are available to work by either sending an email to Lt. Valencia Jones (Scheduling Lieutenant) or by signing up on the sheet at the Ops Desk.

The MICIMS incident is **2015-10-01-City of Flint-Water Contamination/Shortage**
Make sure you are logging into MICIMS in the role of SEOC OPS Public Safety MSP

Our assignment at the SEOC is dual at this time.
1) We are in the Ops Section as the Public Safety Coordinator
2) We are also serving as the Safety Officer for the SEOC

We would like to first schedule lieutenants that may be doubled up on a shift. However, if overtime is used to fill a shift please use the following coding:

Index 28900 with PCA 28670

Thank you,

Spl/Lt. Mardella Horhn

Subject: MSP Escort

Sgt. Faccio,

Per our conversation, the DMVA is requesting a MSP escort from JFHQ, 3411 North Martin Luther King BLVD, Lansing to the Local EOC in Flint. Departure time is approximately 1200 on 28JAN16. The escorted person is Kim Graham. POC is LT Rogers- This is a cash escort that is being delivered to the soldiers working the Flint Water Crisis.

Local EOC Location: Genesee County Admin Bldg., 1101 Beach Street, Flint, MI

MSP SEOC Contact Person: F/Lt. Michael Johnson, SEOC Desk# 517-324-2318

Please have the person assigned to the escort advise the SEOC when they are en route and when the escort is completed.

Thank you for your assistance.

Importance: High

All,

We no longer need to be present at the SEOC, however, it is expected that all operations Lts. be logged into MICIMS and monitor any resource / task request for MSP. Please fulfill all reasonable requests, if there are any questions, concerns, or decisions that you feel you need assistance with then please contact Insp. Bolger or myself and we will make the appropriate decision.

Please feel free to contact me if you have questions.

Thanks, Mike

Subject: MSP Escort

Sgt. Faccio,

Per our conversation, the DMVA is requesting a MSP escort from JFHQ, 3411 North Martin Luther King BLVD, Lansing to the Local EOC in Flint. Departure time is approximately 1200 on 28JAN16. The escorted person is Kim Graham. POC is LT Rogers- This is a cash escort that is being delivered to the soldiers working the Flint Water Crisis.

Local EOC Location: Genesee County Admin Bldg., 1101 Beach Street, Flint, MI

MSP SEOC Contact Person: F/Lt. Michael Johnson, SEOC Desk#

Please have the person assigned to the escort advise the SEOC when they are en route and when the escort is completed.

Thank you for your assistance.

Good morning!

I will evaluate progress around 1pm this afternoon and should be able to determine if we will need more help. Is that too late? We will be over at the new SEOC tomorrow, so I will also need to ensure there will be available computers!

We appreciate everyone's willingness to help! It has helped tremendously!

Thanks,
Brianna

Subject: Data Entry

Hi, Brianna:

I'm not sure who I should ask about this, so I thought I'd start with you. Inspector Bolger is the one who contacted me about the data entry assistance, but I understand he'll be in Flint for the next few days.

You should have four people in the SEOC all day today doing data entry of the Red Cross sheets. Can someone please let me know when it's determined whether or not you'll need people scheduled for additional days? If you do need more scheduled, I'll just need to know the dates you'll want them and where they need to report.

Thanks.

Capt. Kelenske,

Below is the daily summary for events in the SEOC today. The Sit Rep has been reviewed by Peter Manning and is published on MI CIMS.

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/24/16 – 20th Day (19th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store, and increase quantities of supplies.
- Increase efficiency of warehouse operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC teams only.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.

Attached Documents:

- Situation Report # 19
- Maps:
    - Parcel Contact Status, includes data as of 5 pm today.
        - The first one indicates based upon the outreach that has been conducted, which parcels have had contact with a resident and which parcels have not had any contact with a resident.
    - Parcel Filter Status (Multi-Tenant Excluded), includes GIS data as of 5 pm today.
        - The second map indicates the status of residents that have or have not received a filter.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 10 ARC, type 5 teams (2-4 personnel).

Items to Note

- Deployed 15 National Guard/state/local teams and 19 ARC Flint Water Response Teams to the field today.
- JIC was operational with limited staff out of the SEOC today. Co-located JIC in Flint will be back and operational tomorrow.
- Evening activity news release will go out before COB today.

- SEOC Logistics worked with MDOC on warehouse management transition.
- Recovery Branch began demobilization of trucks and vans.
- Demobilization of National Guard Water Response Teams will be effective as of Monday, January 25.
- SEOC Finance Donations Management team to obtain list of donors and donations for White House request.
- SEOC Planning Section worked on burn rate data from FWRT and PODS for White House request.
- GIS continued to clean up V2 Dataset (patched approximately 1000 records).
- GIS coordinated with the DEQ to transfer lead service line mapping to their GIS department tomorrow.
- Information reported to the JIC:
    - As of 1/24/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase I	Phase II	1/24/2016
30,770	37,844	7,012 National Guard 4,132 ARC

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	164,991
b. Filters	91,763
c. Filter cartridges	197,775
d. Test kits	28,763

3. Total number of customers on the Flint water system
    a. 29,944 current water system subscribers
    b. ~45,000 hookups (This is our high end target #)
    c. ~39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 141,982 (additional 24,634 donated)
    b. Filters 124,052
    c. Filter Cartridges 285,586
    d. Test kits 62,701

5. Teams going out tomorrow:
    a. 10 ARC (2-4 people) type 5 teams -- Goal tomorrow 100 homes per team

New Standing Information Requirements

1. **Number of homes visited each day:**
    a. 1/24/16, as of 5 pm, 11,144 homes were visited today
2. **Total number of homes visited:**
    a. Phase II: 37,844
3. **Total number of National Guard on the ground:**
    a. 276
        i. Number in PODs: 65
        ii. Number on Cyber Mission: 3
        iii. Number with FWRTs: 185
        iv. Command and Control Staff for NG Personnel: 23
4. **Total Number of Volunteers each day:**
    a. 315 volunteers for 1/24/2016.

5. ***Number of homes with filters:**
    a. 17,595 homes had filters, per entered GIS data as of 1/22/2016.
6. **Number of Water filters distributed (each day and to date):**
    a. 4,920 were distributed on 1/24/2016, and total distributed to date is 91,763.
7. **Cases of Bottle water distributed (each day and to date):**
    a. 16,125 were distributed on 1/24/2016, and total distributed to date is 164,991.
8. **Number of testing kits distributed (each day and to date):**
    a. 3,177 were distributed on 1/24/2016, and total distributed to date is 28,763.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Unknown at this time, CHECC will begin providing numbers on 1/25/2016.
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Unknown at this time, CHECC will begin providing numbers on 1/25/2016.
11. **Number of homes with safe drinking water (Not sure whether it's possible right now to provide this number):**
    a. 577 homes, per data from September 3, 2015 to January 20, 2016. Note, per MDEQ, this data is from uncontrolled samples provided by residents.

*This is an estimate from Phase I data. We are cleaning up the data to get a more accurate number – Phase II questions were developed to help clean this up.

Local EOC

Operations:

- Distribution of supplies at five water resource sites in the City of Flint.
- Door-to-door distribution of supplies with 34 water response teams (19 ARC volunteer teams, 15 MSP/GCSO/NG teams).
- Facilitating rapid response deliveries to homebound residents and special locations by three teams staffed by Team Rubicon, and Lt. de Castro (MSP/EMHSD).
- Improved logistics for rapid response teams by providing transportation and iPads starting on 01/25/2016.
- Coordinated with ARC for distribution of additional iPads for data entry.
- Identified alternative warehouse locations for lose donations.
- Directed volunteer requests to appropriate state agencies.
- Started coordination for resource demobilization.

Subject: Cindy in the SEOC

Hi Mike,

I was wondering if it would be okay to tap Cindy on occasion to help with Logistics at the SEOC? With all-hands-on-deck with EMHSD staff, we are out of options for relief staff. We want to be able to give people breaks occasionally, but there is no one that isn't doing something. She has her PEM and struggles every year to come up with relevant activities that keeps her certification up. I'm not asking for a huge commitment, just on occasion to fill in the gaps and mostly evenings.

If you approve, Tonya will connect with her on availability.

Thanks!

Wendy

Sir,

I received the below request from EMHSD for Cindy Homant to work logistics for them during the disaster. They are advising this would not be a huge time commitment and would mostly be evenings.

My recommendation is its fine if it's mainly or only evenings as she's already assisting them with the GLHS Conference.

Please let me know if you concur.

Thanks, Mike

Subject: RE: SAFETY AT THE EOC

Joshua,

I left three printed documents on your chair in the office you are using at the Collins Road Facility. These emergency documents are for the new SEOC. The documents I left in your office are as follows: Lansing Area DTMB (Department of Management & Budget) Emergency Preparedness Guide, DTMB Facilities-Emergency Information (this document will be printed in orange and posted throughout the facility) and How to respond to an Active Shooter.

I am currently working on getting electronic copies of these documents along with an electronic copy of the floor plan for the facility.

Please let me know if this is the information you needed, once you have had the opportunity to review them.

Thank you,
Spl/Lt. Mardella Horhn
SEOC Safety Officer

Good morning,

Pleasure meeting you. Myself as well as Uche Ikemba are the FEMA Safety Officials assigned to EM-3375-MI. We were hoping to touch base with the States Safety Official. We are trying to locate any Emergency Occupant Plans for the new EOC building. Any help you can give us would be great.

Thank you,

Josh

Subject: Availability Hours

Brian and Jackie,

Please advise your personnel Insp. Bolger will not be able to attend the availability hours scheduled for this Thursday in Gaylord and Friday in Negaunee. Insp. Bolger has been assigned to work in the Joint Information Center for the Flint water crisis and Capt. has to remain at HQ due to the potential cyber-attacks on the state network.

These hours will be rescheduled as soon as possible.

Thanks, F/Lt. Johnson

Subject: Civil Unrest Preparation Meeting 2-5-16

Good Morning

I am requesting your attendance **(To)** for a preparation meeting this Friday, February 5th from 8:30am to 10am, in the 1920s room MSP HQ. This meeting will discuss possible scenarios, current trends, and response, to possible civil unrest in Flint this year. In addition assignments will be made to ensure the best possible outcomes.

Individual discussion categories:

F/Lt. Boucher – Please be prepared to discuss:

- Current trends in protesting and law enforcement responses.
- In addition to the Lansing Cut Trailer is there another available that can be moved to Flint.
- A current list of cut team members.

- Current State Facility Camera, location, accessibility, and connection coordination concerns. (F/Lt. Carter)

F/Lt. Carter - Please be prepared to discuss:

- TSU deployment - ability of cameras in the downtown/city hall Flint area.
- Timeline to place cameras with connection to District HQ Conference Room - MIOC.
- Equipment –purchases needed.
- Coordinate with F/Lt. Kish & the MIOC & on best/anticipated locations.

F/Lt. Kish - Please be prepared to discuss:

- Secondary Command Center Locations – work with Jim Tchorzynski on mapping
- Possible Staging Areas – primary and secondary.
- Observation areas identified in suspected areas.
- Update on conversations with; CAUTION, Flint Chief, County Sheriff, etc....
- Lodging Options.

D/F/Lt. Pennell - Please be prepared to discuss:

- Protective Intelligence Teams, concerns and coordination.
- Arrest Processing.
- Equipment needed.

MIOC – Designee - Please be prepared to discuss:

- Current thoughts on organized civil unrest in Flint.
- Information flow.
- Questions on mobilization.

BID – Designee - Please be prepared to discuss:

- Technologies available
- Facial recognition capabilities

This is an early on discussion and will be followed by updated assignments, the addition of other MSP Assets, and discussions on specifics such as aviation. It is our intention to begin preparation for a possible event and build with suggestions. Please call me with any questions you have prior to this meeting. I will be sending an appointment to your calendar, feel free to designate someone in the event you cannot attend.

Thank you

Subject: SEOC SIT Report 02/5/16

To all,

11:38 a.m. MSP Operations received NRC Report# 1139847 reporting a spill into the Flint River that occurred July 1, 2015. This information was forwarded the EMHSD Duty Officer Tonya Nobach and EMHSD 3rd District Coordinator Lt. B.J. Roach.
****Mardella Horhn - SEOC OPS Public Safety MSP - HorhnM@michigan.gov at 12:20:29 on 2/5/2016****

11:17 a.m. - Brent Travelbee from DOC called Operations to request a trooper to respond to the Clio Road Warehouse to take an accident report for one of his drivers. Genesee County Dispatch was contacted at 11:28 to dispatch a trooper for the report.
****Mardella Horhn - SEOC OPS Public Safety MSP - HorhnM@michigan.gov at 12:15:54 on 2/5/2016****

Request received from SEOCLGC to find out Customs procedure for Canadian carrier company interested in arranging efforts to have truckloads of water brought across the border. These shipments require an importer of record and must be entered through US Customs and FDA. Spoke with officer at CBP and sent an email that will be forwarded through their chain of command. Will contact us with an answer.

> This is on a Moveon page by Michael Moore about the water crisis in Flint, MI. In a post on this page, James Addison states that Gov. Snyder and his wife should be publicly executed. If you click on Replies to his comment, Addison goes on to say that Gov.Snyder's wife and children should be forced to drink poison water. He also says that he is a sociopath, and that killing them wouldn't bother him. I hope it's just some young guy blowing off steam, but so many violent, crazy things have happened, how do you know? So I hope I'm doing the right thing. Btw, James Addison's facebook page is at m.facebook.com/james.addison There's a Darth Vader picture on it.

To: Kelenske, Chris (MSP)
Cc: Katarsky, Anthony (MSP); Johnson, Michael (MSP)
Subject: Daily Summary
Attachments: 20160207_Residents_Sampled_Results-Lead.pdf; 20160207_Residents_Sampled_Results-copper.pdf; 2015-10-01 City of Flint Water Contamination-Shortage SitRep 33 2016-01-07.pdf; GovReport_Reformatted 20160207.2.pdf; GovReport_Reformatted 20160207.2.2.pdf

Capt. Kelenske,

Below is the summary of today's events. The Sit Rep has been reviewed by Peter Manning.

Update 2/7/16 – 34th Day (33rd Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Shift Water Response Teams operations to a targeted effort to provide filters into homes where data shows filters have not been provided.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data.
2. Sit Rep #33.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Monday, February 8, 2016.
- The Kroger warehouse will be operational on Monday, February 8, 2016 and managed by MDOC.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Priority for the weekend is homes that did not have contacts during previous sweeps.
- State VAL is working on the Category B and Individuals and Households appeal.
- There continues to be a concern that EPA refuses to work with the state teams in addressing the high lead level homes.

- Genesee County EM expressed concerns about lead poisoning in service/companion animals. MDARD has initiated contact with their partners to address this concern.
- 28 addresses have copper testing that exceeds the "action level" (1,300 ppb). DHHS is currently working on messaging regarding this issue, and DEQ is discussing filtering options.

Unified Coordination Group (UCG):

- Task Forces Health & Medical: working on creating a flow chart for visual of testing results.
- EPA conducted 11 filter grabs yesterday, and will be doing 2 today. This includes up to 33 samples per grab. A grab would be considered a location/residence. They are also following up on the AmeriCorps volunteers (2) that have rashes.

Local EOC

- Establishing objectives and IAP for next operational period, 02/08/2016 – 02/12/2016.
- Awaiting additional information regarding companion animals with potential lead and chlorine poisoning from MDARD.
- Establishing plans for Elevated Copper Initial Assessment Task Force starting 02/08/2016 and follow-up outreach to homes with water lead levels over 150 ppb starting 02/10/2016.
- Aligning resources and supplies for Elevated Copper Initial Assessment Task Force and follow-up outreach to homes with water lead levels over 150 ppb.
- Analyzing locations of faith-based organizations and churches for integration into long-term recovery plans.

Hi Michael,

Could you call Chief Gary Hagler, EMC for the DEQ, regarding the law enforcement resource denial for the sentinel sampling teams? Chief Hagler's cell phone is

Brian Flickinger

DEQ REPRESENTATIVE

Lori,

I'm out of the office but would say I have approximately 200-300 emails reference the Flint Water Crisis. Many of them will be group messages that were sent from the SEOC.

The department has been directed to provide copies of all records in our possession related to the Flint water matter to the Governor's office. You are receiving this email because you have been identified as an individual who may have records that must be produced. If there are any department members who you think may be in possession of records related to Flint water, please forward this message to those members.

Records include memos, handwritten notes, emails and attachments, and text messages in your possession, regardless of who produced the record. Be sure when you search your email messages that you look in your inbox, sent box, and trash. In preparation for the production, you must estimate the number of records you have in your possession and provide that estimate to Ms. Lori Hinkley no later than **2:00 PM on Friday, February 12, 2016.**

You must then provide a copy of each record in your possession to the Legislative and Legal Resources Section no later than close of business on **Thursday, February 18, 2016.**

Members who work at Headquarters must provide paper copies to F/Lt. Chris Hawkins in the Office of the Director. Members who work at the State Secondary Complex must provide a paper copies Ms. Lori Hinkley. Ms. Hinkley is located on the second floor of the new Headquarters building. Department members who work outside of these worksites may send copies of records in their possession via e-mail to MSP-FOIAProject@michigan.gov.

In addition to this initial production of records, the department is required to provide copies of newly created records on an ongoing basis. Until further notice, copies of all newly created records shall be forwarded to MSP-FOIAProject@michigan.gov.

REMINDER: Public records can only be disposed of consistent with an approved retention schedule. As it applies to emails and text messages related to the Flint water matter, please use the retention schedule in place for general correspondence which is **two years.** Please save all emails and text messages for at least two years. Prior to expiration of the two year period you will have an opportunity to re-evaluate the content of the messages to determine if an additional retention period is necessary. If you have issues with accommodating emails based on your mailbox size, please archive them. Do not print and file them as the metadata must be retained as well.

If you have any questions with these instructions, please contact Ms. Lori Hinkley.

Flint Water Response Team Plan
Tuesday, 02.03.16 - FINAL

Key

WRT	Water Response Team
OIC	Officer In Charge
ARC	American Red Cross
HH	*Household*
LEOC	Local Emergency Operations Center

Key Leaders

ARC OIC	Kristy Gallagher		Kristy.gallagher@redcross.org

Plan

Agency	Team Types	Mission
ARC	10 Type V	1000 HH

Resource Status

ARC

Team Type & Quantity	**Type:** Type V **Quantity:** 10 (10 ERV)				
Resource	**Required**	**Confirmed**	**Notes**	**Date**	**Time**
Team Leader	10	10		2/2/16	6:00 pm
ARC ERV	10	10		2/2/16	6:00 pm
ARC ERV Driver	10	10		2/2/16	6:00 pm
Team Member	20-40	20-40		2/2/16	6:00 pm
Team Transport Vehicle for 2-4 Team Members	10	10		2/2/16	6:00 pm
Team Transport Vehicle Driver	10	10		2/2/16	6:00 pm
iPads	10	10		2/2/16	6:00 pm
Hand Warmers	40	40		2/2/16	6:00 pm
Distribution Kit	1000	1000		2/2/16	6:00 pm

Execution:

Key Locations

ARC	ARC 1401 S Grand Traverse St, Flint	0730-1600
Warehouse	4315 North Clio Road, Flint	0700-1900

Team Assignment – Target Areas

Team Priority – Apartment Complexes with 60 Units or less – list attached

Map Support

Map has been provided to provide detailed information on complex locations. Teams will target specific complexes to assure that each door has been knocked on and contact attempt made.

Sample Script for Team Members:

We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.

Execution Support:

Product Replenishment Process:

Team	Replenishment Trigger	Replenishment Location	Process
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

Warehouse

Tactics:

1. Load a minimum of 2 trucks in preparation for replenishment requests with product loads corresponding to Team Typing Matrix.

Lunch

Lunch will be provided by the ARC.

Reporting:

Tactics:

1. All WRTs will utilize iPads as the primary reporting method and the WRT Distribution Tracking Tool as a secondary method if iPads fail.

Flint Water Response Team Plan
Thursday, 01.28.16 - FINAL

Key

WRT	Water Response Team
OIC	Officer In Charge
ARC	American Red Cross
HH	Household
LEOC	Local Emergency Operations Center

Key Leaders

ARC OIC	Kristy Gallagher	989-326-1853	Kristy.gallagher@redcross.org

Plan

Agency	Team Types	Mission
ARC	10 Type V	1000 HH

Resource Status

ARC

Team Type & Quantity	**Type:** Type V **Quantity:** 10 (10 ERV)				
Resource	**Required**	**Confirmed**	**Notes**	**Date**	**Time**
Team Leader	10	10		1/28/16	8:00 am
ARC ERV	10	10		1/28/16	8:00 am
ARC ERV Driver	10	10		1/28/16	8:00 am
Team Member	2-4	2-4		1/28/16	8:00 am
Team Transport Vehicle for 2-4 Team Members	10	10		1/28/16	8:00 am
Team Transport Vehicle Driver	10	10		1/28/16	8:00 am
iPads	10	10		1/28/16	8:00 am
Hand Warmers	40	40		1/28/16	8:00 am
Distribution Kit	1000	1000		1/28/16	8:00 am

Execution:

Key Locations

ARC	ARC 1401 S Grand Traverse St, Flint	0730-1600
Warehouse	4315 North Clio Road, Flint	0700-1900

Team Assignment – Target Areas – Continuation of January 28th Team Assignment list – see below

Priority – City Sections 3, 9, 11, 17, 19, 20, 23

Secondary – City Sections 2, 10, 28

Map Support

Maps and addresses will be provided daily to provide detailed information on city sections. Teams will target specific homes requiring follow up.

Sample Script for Team Members:

We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.

Execution Support:

Product Replenishment Process:

Team	Replenishment Trigger	Replenishment Location	Process
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

Warehouse

Tactics:

1. Load a minimum of 2 trucks in preparation for replenishment requests with product loads corresponding to Team Typing Matrix.

Lunch

Lunch will be provided by the ARC.

Reporting:

Tactics:

1. All WRTs will utilize iPads as the primary reporting method and the WRT Distribution Tracking Tool as a secondary method if iPads fail.

Damage Assessment and Emergency Status Report

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

Operational Period

Operational Period Begin:	01/19/2016 08.00:00
Operational Period End:	01/26/2016 08:00:00
Situation Report No.	19
SEOC Status:	Full
SEOC Hours of Operation Begin:	01/24/2016 08 00:00
SEOC Hours of Operation End:	01/24/2016 20:00:00

Executive Summary

SEOC Update:
Accomplished today (January 24):

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Resources.
- Public Information Control.

- Logistics:
- Worked with FEMA/DHHS on warehouse tracking status/strategy.
- Worked with MDOC on warehouse management transition.
- Ordering and projecting future orders of water resources and commodities.
- Working future resource planning.
- Working on local business commodity supply plan.
- Coordinated and followed through on various resources requests with state agencies.
- Continuing inventory monitoring, rapid response resolution, and tracking

- JIC.

o JIC was operational with limited staff out of the SEOC today. Co-located JIC in Flint will be back and operational tomorrow.
o Evening activity news release will go out before COB today

- Recovery Branch:
- Reviewed and provided feedback on the Flint Water Operations Plan.
- Updated comments in ICS 204 forms (Objective 6).
- Began demobilization of trucks and vans
- Attended Local Brief, Operations Plan Meeting, and Distribution Process Meeting.

o Data is for 1/24/16 as of 5:00 pm:
o Total homes visited.
- 30,483 (round 2 total).
- 11,578 (today).

o Water Cases
- 17,340 (round 2 total).
- 7,278 (today).

o Replacement Cartridges.
- 6,631 (round 2 total).
- 2,352 (today).

o Faucet Filters.
- 9,345 (round 2 total).
- 4,337 (today).

- Planning Section:
o Published Sit Rep # 19.
o Worked with Recovery and GIS for route planning on FWRT for Monday.
o Participated in daily conference calls (local, state agency and distribution process meeting).
o Provided burn rate data from PODs and FWRT to FEMA.

- Operations Section
o MDOC will assume all warehousing responsibilities as of Monday, January 25.
o Demobilization of National Guard Water Response Teams will be effective as of Monday, January 25.
o 105 Red Cross volunteers were active across the operation today.
o 210 Event based volunteers were active on the operation today.
o National Guard personnel will remain:
o ill be at Local EOC.
o will provide POD support.
o are assigned to Cyber Protection.

o Warehouse Numbers as of 1800.
❑ Water (cases).
• 64188.
❑ Filters (faucet).
• 23,707.
❑ Replacement cartridges.
• 173,248.
❑ Filters (pitcher).
• 0.
❑ Test Kits (prepped).
• 7,240.
❑ Test kits (un-prepped).
• 16,704.

o PODs (1700 1/23 – 1600 1/24).
❑ Water (cases)
• 8,127.
❑ Filters (faucet).
• 583
❑ Replacement Cartridges
• 801.
❑ Filters (pitcher).
• 0.
❑ Test kits.
• 399.

• Finance Section:
• Worked with Donations Management team to obtain list of donors and donations for White House request.
o Provided information to FEMA to forward as requested.
• Reviewed actual expenditures posted to Michigan Accounting and Information Network (MAIN) for EMHSD to account for emergency costs.
• Reviewed packing slips received by DHHS from warehouse.

• GIS Branch Updates'
• Continued to clean up V2 Dataset (patched approximately 1000 records).
• Continued consolidating field team and POD data to parcels (can display total parcels contacted, water test kit, filter status, and occupancy breakdowns)
• Flint Water Response Team maps were updated.
• Maps to be distributed by the JIC have been updated.
• Lead service line maps have been prepared for the DEQ.
• Coordinated with the DEQ to transfer lead service line mapping to their GIS department tomorrow.
• Provided maps and statistics on field team activities to National Guard for their daily update briefings.
• Cleaned up V3 data as it came in today.
• Worked with ARC to remedy paper entry issues and handle technical issues with data entry.

DTMB:
• Worked with the department of corrections today to coordinate state assets for continued support of operations tomorrow.
• Worked with logistics to return rented vehicles and consolidate resources.
• Secured additional space in Flint office building for FEMA staff.
• Secured additional supplies for warehouse staff

DHHS-CH.
• Coordinating with the DEQ to ensure household testing data is available to the public.
• CHECC remains operational today to field information requests.

DEQ.
• Working with state agencies to address issues in EPA letter.
• 305 samples delivered to the state laboratory yesterday.
• Working with GIS to obtain maps of lead service lines.

Local EOC Update.
• Distribution of supplies at five water resource sites in the City of Flint.
• Door-to-door distribution of supplies with 34 water response teams (19 ARC volunteer teams, 15 MSP/GCSO/NG teams).
• Facilitating rapid response deliveries to homebound residents and special locations by three teams staffed by Team Rubicon, and Lt. deCastro (MSP/EMHSD).
• Improved logistics for rapid response teams by providing transportation and iPads starting on 01/25/2016.
• Coordinated with ARC for distribution of additional iPads for data entry.
• Identified alternative warehouse locations for lose donations.
• Directed volunteer requests to appropriate state agencies.
• Started coordination for resource demobilization.

Incident Response/Recovery Priorities/Objectives

1. Ensure all households within impacted community have required resources.
2. Ensure accurate tracking and accounting of all commodities.
3 Improve and maintain public information strategy and process.
4. Develop a long term public health and services plan.
5. Ensure adequate staffing to support operational requirements
6. Identify possible assistance programs
7. Maintain GIS strategy.
8. Maintain coordination between partner agencies and organizations to include FEMA IMAT.
9. Enhance situational awareness and common operating picture of all activities.
10. Develop a comprehensive Recovery Plan.

Weather Conditions

Watches/Warnings

Upcoming Forecast

Forecast Update for Flint, MI - January 24

- On and off light snow or brief freezing drizzle possible Sunday (January 24) afternoon. No significant accumulation of snow or ice expected Drizzle may make walking surfaces slick.
- Mix of Rain and snow likely late Monday (January 25), with on and off snow possible Monday Night and Tuesday (January 26). Less than 1 inch of snow accumulation expected.
- Breezy Sunday (January 24) through Tuesday (January 26). Wind gusts under 30 mph.

High temperatures Sunday (January 24) through Saturday (January 30) will be in the upper 20s to mid 30s

Risk for frostbite from exposure over the next week is low unless the individual outside for several hours with little to no activity

Damage Assessment Summary

Agency Summaries

Joint Information Center / Public Information Officer

The Joint Information Center (JIC) is operating from the State Emergency Operations Center on Saturday, January 23 and Sunday,

January 24.

Tasks accomplished:
• Created a media monitoring report and looked for misinformation. Found none requiring correction.
• Continued work on redesigning the Flint water website.
• Pushed out social media content based on Saturday's nightly press release.
• Working on adding the palm card and foreign language palm cards to the website.
• Updated internal and general talking points about the ongoing Flint water emergency.
• Participated in a planning call to make arrangements for a press availability on Monday with key state agencies to provide operational update.
• JIC is planning on issuing the nightly activity news release.

Agriculture and Rural Development (MDARD)

Sunday, Jan 24 - planning for next week: MDARD Food program staff will continue assessments at remaining medium level risk area food businesses and collect samples from remaining high risk area businesses and those that have requested an appointment to pick up samples. We may get results from last week's samples sometime this week, that will impact responses and priorities.
We will meet on Monday to set goals for coordination with other agencies and communication needs relating to pets and other animals.

American Red Cross (ARC)

The American Red Cross continued assembly of water test kits at ARC headquarters.
We deployed and supported 19 teams for neighborhood canvassing (Water Response). We will field fewer teams on Monday
We supplied lunches for all of the event-based volunteers
The Volunteer Reception Center (VRC) was in full operation today.
We continued to provide warehouse and inventory management. We will relinquish this mission at the close of warehouse operations this evening.

Civil Rights (MDCR)

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC entities

Community Health (MDCH)

The CHECC remains activated at a Level 2. Phone bank calls referred from 211 decreased today.

DEQ confirmed that a multidisciplinary team will be revising the process for home lead level test results being reported to the household. Letters are being revised to reflect one way of reporting the lead levels and actions to be taken. DEQ reports that households will be able to be pull up their own results on the web.

The CHECC worked with MDHHS purchasing to process a request for additional blood lead level testing supplies.

The CHECC is developing a request that will be provided to HHS/CDC that identifies the specific types of public health technical support that will be required of staff deployed to MI.

Corrections (MDOC)

We continue to fill resource requests and track/monitor all ground resources throughout the day and report the final assets in evening reports. Executive Team (MDOC) was briefed as follows:

1. The primary duty of our employees is to transport and support the (18) ten member Flint Water Resource Teams on the ground, going door to door providing water, filters and special individual needs. This team is made up primarily of Michigan National Guard troops and Michigan State Police staff.
2. Provide for the pickup and transportation of the water samples from the seven designated collection sites in Flint and deliver to the DEQ Laboratory daily.
3. Assist the Flint Food Bank to deliver/transport emergency food deliveries to ensure available warehouse space is available to receive additional emergency food items.
4. Provide pickup and delivery of water bottle testing kits from the warehouse to the American Red Cross so they can be assembled and transported back to the warehouse where they will be delivered to the citizens by the Water Resource Teams.
5. Provide management and organizational support to the main 80,000 square foot main warehouse located on Clio Road.
6. Provide prisoner work crew support inside the warehouse to load and unload, stack water deliveries and assist in garbage/debris management.
7. The weekend operational period requires an increase in the need for logistical support due to the notable increase in available volunteers. Specifically, the weekend force is expected to increase by over 300 persons. Each of these volunteers will be assigned as a Flint Water Resource Team and require transportation, supplies, law enforcement security oversight and lunch. Our staff are a primary source of transportation for Water Resource Teams and their participation is critical to the success of the mission.
8. Beginning Monday 1/25/2016 at 0730 the MDOC will be assuming management duties at the Warehouse. This assignment is currently set to expire Monday February 1 at 1930 hours.

Education (MDE)

Michigan School for the Deaf:

As of 1/23/16: LARA and DEQ teams on site; water testing complete in school building and LRC dorm. Stevens Hall will be tested when landlord finishes upgrades.

As of 1/23/16: all water faucets replaced in Stevens Hall. 3 new drinking fountains on order; expected mid-week. Once fountains are installed, Stevens Hall will be scheduled for water testing.

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities today:

• Coordinated for maps from MSP-GIS showing known lead service lines based off of geographical locations and zip codes. Wall maps provided for Chief Hagler, SEOC DEQ staff and Director Creagh.

• Coordinated with the local plumbers and pipe fitters union who is providing free filter installs to provide future data showing whether houses are serviced by lead lines or not. Further coordination needs to happen to capture the data.

• Samples transported to the lab today by MDOC.

• Working on a MDEQ Flint working group secure SharePoint for information distribution for senior management.

Human Services (MDHS)

MDHHS Budget working to procure blood lead testing kits and supplies.

Home Depot reports no knowledge of incidents where water filtration devices are being returned for refund The process of marking through the barcode is effective at alerting of any attempts.

CHECC continues to maintain a Level 2 Activation

Licensing and Regulatory Affairs (LARA)

-Updated the LARA Executive Team

-Assisting with translation of water analysis request forms.

-Finalizing Health Care Facility survey information and comparison.

Military and Veterans Affairs (DMVA)

Commanders Situation Report (SITREP)

1. DTG: 2416302016

2. UNIT: DMVA

3. SEOC POC: MAJ Keith, Ryan J. Cell. Email: ryan j keith6.mil@mail.mil

4. PRESENT LOCATION: State EOC, 4000 Collins Rd., Lansing, MI

5. SITUATION OVERVIEW: MIARNG has Soldiers and Airmen deployed to the Flint Water Crisis in support of Distribution Operations at the Points of Distributions (PODs). Daily operations consist of receiving, tracking, and issuing out water, filters, replacement filters, and water test kits.

6. OWN SITUATION DISPOSITION /STATUS:

a. 71 Soldiers are assigned and divided to man (5) Pods. One Soldier is assigned to the Genesee County EOC. Three Soldiers are assigned as Cyber Protection. All these Soldiers will continue duty.

b. Completing duty tonight, and not continuing tomorrow: Soldiers providing Command and Control, Soldiers and Airmen working the Community Engagement Teams, and Soldiers providing warehouse support.

7. OPERATIONS: Operations for the next 24 hours are to continue water/filter distributions throughout the 5 designated fire stations.

8. PERSONNEL: Soldiers are assigned and divided to man (5) Pods. One Soldier is assigned to the Genesee County EOC. Three Soldiers are assigned as Cyber Protection. All these Soldiers will continue duty.

9. INTELLIGENCE / FORCE PROTECTION: No force threats have been identified. Traffic is a force protection measure.

10. LOGISTICS: Pallet jacks and dollys will be worked internally with DMVA. No request has been submitted to the SEOC.

11. COMMUNICATIONS: No communications issues at this time

P: 800 MHz radios issued to PODs and WRTs.
A: RRF cell phones alternate for WRTs.
C: Personal cell phone
E: Runner

12. NARRATIVE: N/A

13. COMMANDER'S EVALUATION: Nothing Significant To Report.

National Weather Service (NWS)

Jim Maczko from NWS Grand Rapids will participate in SEOC morning briefings via phone call and will coordinate support with local forecast office that serves Flint - NWS Detroit/Pontiac.

NWS Detroit will begin providing morning SEOC brief and Activity Log posts effecting Tuesday, January 26th. Jim Maczko from NWS Grand Rapids will be the contact point for any changes in NWS Support and will also continue to update the Sit Rep Executive Summary as needed.

Participation in afternoon SEOC briefings is planned only if significant changes in the forecast occur.

Natural Resources (MDNR)

MDNR LED continues to support its QOL partners with staffing at the SEOC.

Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

State Police (MSP)

MSP and GCSD supported 15 National Guard staffed teams that were out today and there were 40 Red Cross teams. 7,012 homes were visited today.

MSP WRT assignments are concluded following todays end of operational period. All WRT duties to be completed by the Red Cross.

The 3 cyber trained personnel from MING who were called upon to support Michigan State Police, Michigan Cyber Command Center at the MC3 located on the 3rd Floor of State Police Headquarters reported to Headquarters on 1/22/16. MING personnel are currently on stand-by and will be called upon when needed.

Supreme Court

08.50 - State Judiciary EMC John Ort reported to the SEOC regarding the Flint water emergency. Nothing to report from the Judiciary regarding the emergency. DEQ website resources shared with our State Court Administrative Office (attn: Region II) in case our Genesee County courts have any questions regarding the emergency.

Technology, Management and Budget (MDTMB)

Sent Laptop, printer, cell phone to warehouse in Flint for warehouse MDOC staff.
Genesee Sherriff Dept is retaining 20 IPADs for extended use
Arabic Palm Cards sent to Print and Graphics services, expect to be completed 1/25.
3 trucks to be redeployed for POD resupply 1/25

Transportation (MDOT)

MDOT is providing traffic measures at Fire Station #6 on Pierson Rd. and Fire Station #3 on Martin Luther King Blvd:
-4 portable changeable message boards (2 each site).
-100 grabber traffic cones (narrow reflective cones) (50 each site)

PIERCE ELEMENTARY SCHOOL

Outlet Sampling and Plumbing Assessment Recommendations

1101 West Vernon Drive, Flint, Michigan 48503

DEQ

BACKGROUND INFORMATION

On Friday, November 6, 2015, the Department of Licensing and Regulatory Affairs (DLARA) and the Department of Environmental Quality (DEQ) conducted an assessment of Pierce Elementary School's plumbing system to gain a comprehensive understanding of how water moves through the building and what types of plumbing materials are used. The southernmost out-building, in addition to the main school building, were included in the assessment. The assessment identified the following potential sources of lead leaching into drinking water:

- Lead solder joints on copper piping
- Brass valves and brass fittings
- Brass components in fixtures
- Galvanized piping

The assessment identified 34 faucets or fountains that provide water for drinking, cooking, and/or food preparation: 32 faucets/fountains in the main school building and two faucets/fountains in the southernmost out-building. The other two out-buildings had no working water fixtures. A total of five additional faucets or fountains were identified as inoperable and were not assessed or labeled for sampling, as follows:

- Main building, Room 112, classroom faucet (no cold water connection)
- Main building, Gym, drinking water fountain
- Main building, Gym, drinking water fountain
- Main building, Hallway to out-buildings, near Room 306, drinking water fountain
- Middle out-building, drinking water fountain

The DEQ and DLARA Team (Team) developed a sequence for sampling the faucets/fountains in each building based on how the water is expected to travel through each building.

On Saturday, November 7, 2015, the DEQ and the DLARA completed sampling of the 32 faucets/fountains in the main school building, and the two faucets/fountains in the southernmost out-building, each in the order determined by the plumbing assessment from the previous day, following a stagnation period of over 12 hours. At each of the 34 faucets/fountains identified, the Team collected four samples. Two initial, 125-milliliter samples (P1 and P2), were collected immediately after turning on the tap. The water was then flushed for 30 seconds and a third, 125-milliliter sample (F01) was collected. Finally, the water was flushed for another two minutes, and the fourth 125-milliliter sample (F02) was collected. These samples were used to determine the impact of any lead sources in and around each specific faucet/fountain and its connecting plumbing.

The Team then completed consecutive sampling at three of the 32 faucets/fountains in the main school building, and one of the two faucets/fountains in the southernmost out-building. This consecutive sampling was used to determine the impact of any lead sources located deep in the supply plumbing at each of these buildings. The four sites comprised of one site at the far end of the northern supply line, two sites along the south supply line near the mid-point and at the far end, and one site at the out-building. At each of these four sites, the Team collected 10, 1-liter samples. The 10 samples were collected immediately after turning on the tap, and consecutively, without any flushing time in between.

WATER SERVICE INFORMATION

A four-inch diameter cast iron or ductile iron water service line enters the boiler room. The boiler room is located near the middle of the west side of the main building. The water line enters on the south side of the room. The cold water piping transitions into copper piping inside the boiler room. In one area beneath pipe insulation, staff observed what appeared to be a lead bushing. The cold water supply line exits the boiler room. Exiting the boiler room, one cold water supply line appears to serve the north corridor, and one cold water supply line appears to serve the south corridor.

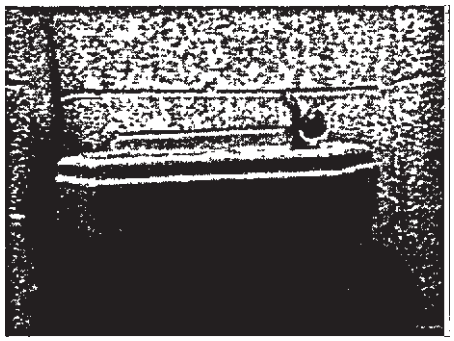
The middle and southernmost out-building appears to be served from the main building off of the supply line serving the south corridor of the school. Skirting around the bottom of the out-building unit prevented an assessment of the service line to this building. The northernmost out-building is not occupied and was not assessed.

Outlets with Lead Levels Greater than 15 Parts per Billion

The DEQ recommends school facilities take action if samples from any drinking water outlets show lead levels greater than 15 parts per billion. Based on the sampling conducted at 34 faucets/fountains on November 7, 2015, the following 25 drinking water outlets had lead water level results greater than 15 parts per billion. Each of these 25 outlets is listed below with its sample results, including a description of the potential source(s) of lead, and recommended actions to be taken by the school.

Outlet: **Bubbler Drinking Fountain (01DW001)**

Location: Hallway next to Boiler Room, behind Stage
Results: P1=20 parts per billion, P2=2 parts per billion
F01=2 parts per billion, F02=non-detect

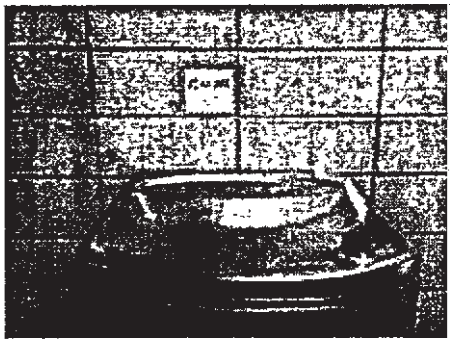


These results suggest the highest contribution of lead may be from the bubbler itself. This bubbler fixture is made of chrome-plated brass. Connecting plumbing should be checked for brass components, including brass valves.

Replacement of this bubbler tap and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

Outlet: **Water Cooler Fountain (01WC002)**

Location: Hallway next to Mechanical Room, north corridor
Results: P1=8 parts per billion, P2=13 parts per billion
F01=35 parts per billion, F02=19 parts per billion



These results suggest the lead may be from the water cooler unit and the connecting plumbing. The water cooler is an Elkay model. This model may contain brass components. Connecting plumbing to the cooler unit may also contain brass components.

Replacement of this water cooler and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location and needs to be completed for use. If replacement is not currently feasible, SHUT OFF THIS WATER COOLER FOUNTAIN AND **DO NOT USE THIS WATER COOLER FOR DRINKING OR COOKING.**

Outlet: Sink Faucet (01CF003)

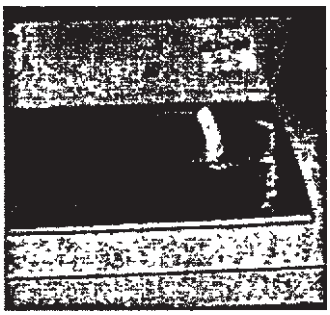
Location: Classroom 109, northeast wall
Results: P1=26 parts per billion, P2=17 parts per billion
F01=9 part per billion, F02=2 parts per billion

These results suggest the highest contribution of lead may be from the faucet and its connecting plumbing. This model faucet typically has a brass tube in its deck body, and may contain some additional brass components. Connecting plumbing in the cabinet under the sink should be checked for brass components, including brass valves.

Replacement of this faucet and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

This faucet also has an aerator/screen at the outlet. If the faucet is not replaced, the aerator/screen should be removed, inspected for particulate accumulations, scrubbed clean, and reinstalled. If particulates are found, the aerator/screen should be periodically checked and cleaned.

Outlet: Bubbler Fountain (01DW004)



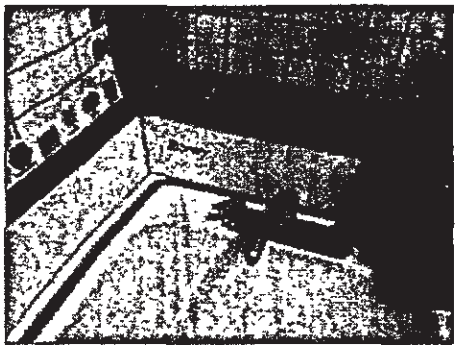
Location: Classroom 109, northwest wall
Results: P1=42 parts per billion, P2=17 parts per billion
F01=3 parts per billion, F02=1 part per billion

These results suggest the highest contribution of lead may be from the bubbler and its connecting plumbing. This bubbler fixture is made of chrome-plated brass and has a brass connector on the underside of the sink. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and a brass shut-off valve.

Replacement of this bubbler tap and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

Outlet: Sink Faucet (01CF007)

Location: Classroom 108, northwest wall
Results: P1=97 parts per billion, P2=132 parts per billion
F01=9 parts per billion, F02=2 parts per billion



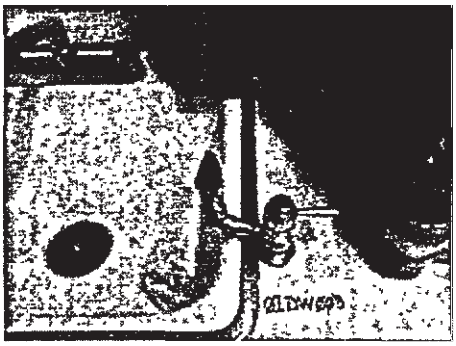
These results suggest the highest contribution of lead may be from the faucet and its connecting plumbing. This faucet appears to be manufactured by Central Brass. This model faucet typically has a brass tube in its deck body, may contain some additional brass components, and has a brass spout. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and brass shut-off valves.

Replacement of this faucet and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

This faucet also has an aerator/screen at the outlet. If the faucet is not replaced, the aerator/screen should be removed, inspected for particulate accumulations, scrubbed clean, and reinstalled. If particulates are found, the aerator/screen should be periodically checked and cleaned.

Outlet: Bubbler Fountain (01DW008)

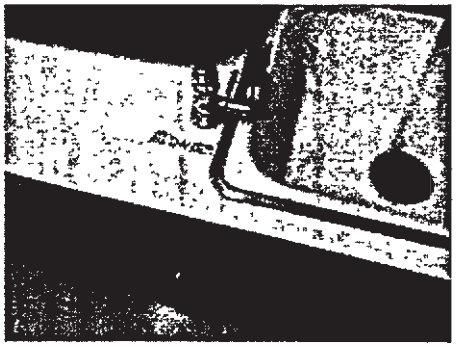
Location: Classroom 108, northwest wall
Results: P1=468 parts per billion, P2=75 parts per billion
F01=6 parts per billion, F02=4 parts per billion



These results suggest the highest contribution of lead may be from the bubbler and its connecting plumbing. This bubbler fixture is made of chrome-plated brass, with a brass operating valve, and a brass connector on the underside of the sink. Connecting plumbing under the sink should be checked for brass components and copper piping with lead solder.

Replacement of this bubbler tap and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

Outlet: Bubbler Fountain (01DW009)

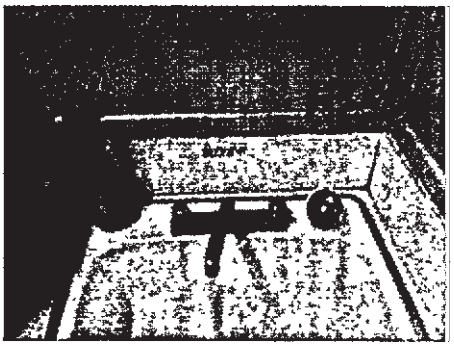


Location: Classroom 111, northeast wall
Results: P1=26 parts per billion, P2=38 parts per billion
F01=7 parts per billion, F02=3 parts per billion

These results suggest the highest contribution of lead may be from the bubbler and its connecting plumbing. This bubbler fixture is made of chrome-plated brass, with a brass operating valve, and a brass connector on the underside of the sink. Connecting plumbing in the cabinet under the sink should be checked for brass components and copper piping with lead solder.

Replacement of this bubbler tap and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

Outlet: Sink Faucet (01CF010)



Location: Classroom 111, northeast wall
Results: P1=43 parts per billion, P2=22 parts per billion
F01=3 parts per billion, F02=3 parts per billion

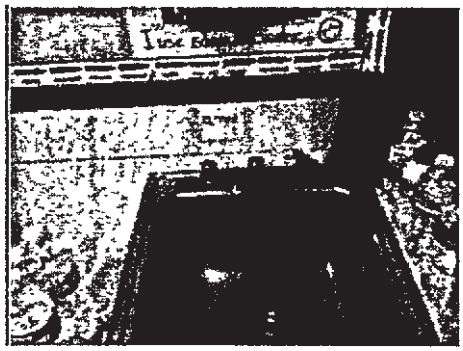
These results suggest the highest contribution of lead may be from the faucet and its connecting plumbing. This faucet appears to be manufactured by Central Brass. This model faucet typically has a brass tube in its deck body, may contain some additional brass components, and has a brass spout. The spout's chrome finish is worn down to the brass. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and brass shut-off valves.

Replacement of this faucet and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

This faucet also has an aerator/screen at the outlet. If the faucet is not replaced, the aerator/screen should be removed, inspected for particulate accumulations, scrubbed clean, and reinstalled. If particulates are found, the aerator/screen should be periodically checked and cleaned.

Outlet: Sink Faucet (01CF011)

Location: Classroom 107, southwest wall
Results: P1=25 parts per billion, P2=11 parts per billion
F01=3 parts per billion, F02=2 parts per billion



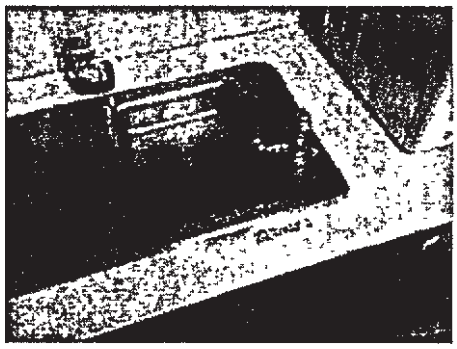
These results suggest the highest contribution of lead may be from the faucet and its connecting plumbing. This faucet appears to be manufactured by Central Brass. This model faucet typically has a brass tube in its deck body, may contain some additional brass components, and has a brass spout. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and brass shut-off valves.

Replacement of this sink faucet and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

At the time of assessment, the faucet aerator/screen was found removed. If the faucet is not replaced and the aerator/screen is going to be reinstalled, it should be inspected for particulate accumulations, and scrubbed clean. If particulates are found, the aerator/screen should be periodically checked and cleaned.

Outlet: Bubbler Fountain (01DW012)

Location: Classroom 112, southwest wall
Results: P1=78 parts per billion, P2=11 parts per billion
F01=4 parts per billion, F02=3 parts per billion

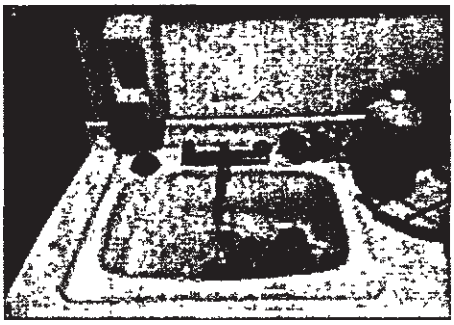


These results suggest the highest contribution of lead may be from the bubbler and its connecting plumbing. This bubbler fixture is made of chrome-plated brass, with a brass operating valve and a brass connector on the underside of the sink. Connecting plumbing under the sink should be checked for brass components and copper piping with lead solder.

Replacement of this bubbler tap and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

Outlet: Sink Faucet (01CF018)

Location: Classroom 301, northwest wall
Results: P1=13 parts per billion, P2=16 parts per billion
F01=4 parts per billion, F02=1 part per billion



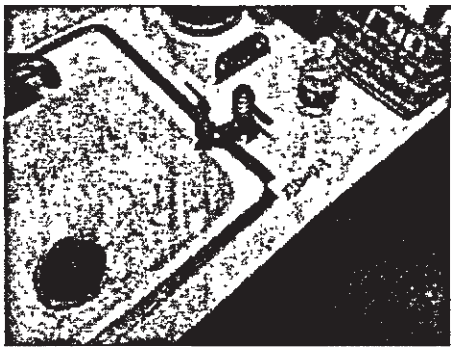
These results suggest the highest contribution of lead may be from the faucet and its connecting plumbing. This faucet appears to be manufactured by Central Brass. This model faucet typically has a brass tube in its deck body, may contain some additional brass components, and has a brass spout. The spout's chrome finish is worn down to the brass. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and brass shut-off valves.

Replacement of this faucet and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

This faucet also appears to have an aerator/screen at the outlet. If the faucet is not replaced, the aerator/screen should be removed, inspected for particulate accumulations, scrubbed clean, and reinstalled. If particulates are found, the aerator/screen should be periodically checked and cleaned.

Outlet: Bubbler Fountain (01DW019)

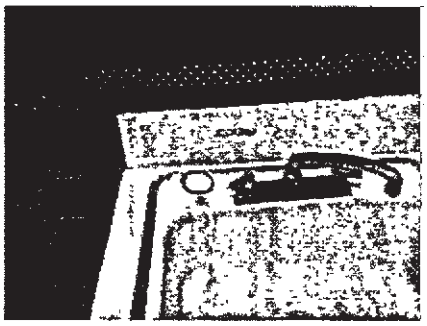
Location: Classroom 302, southwest wall
Results: P1=220 parts per billion, P2=23 parts per billion
F01=3 parts per billion, F02=2 parts per billion



These results suggest the highest contribution of lead may be from the bubbler and its connecting plumbing. This bubbler fixture is made of chrome-plated brass, with a brass operating valve, and a brass connector on the underside of the sink. Connecting plumbing in the cabinet under the sink should be checked for brass components and copper piping with lead solder.

Replacement of this bubbler tap and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

Outlet: Sink Faucet (01CF020)



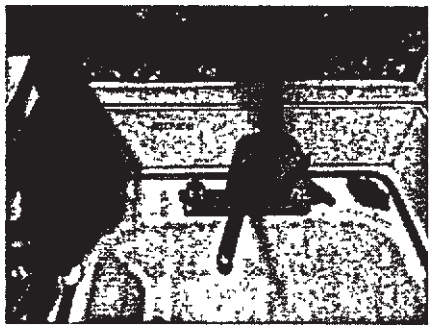
Location: Classroom 302, southwest wall
Results: P1=53 parts per billion, P2=30 parts per billion
F01=1 part per billion, F02=non-detect

These results suggest the highest contribution of lead may be from the faucet and its connecting plumbing. This faucet appears to be manufactured by Central Brass. The base of this faucet is chrome-plated brass, has brass components within the base, and a brass spout. The spout's chrome finish is worn down to the brass. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and brass shut-off valves.

Replacement of this faucet and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

This faucet also appears to have an aerator/screen at the outlet. If the faucet is not replaced, the aerator/screen should be removed, inspected for particulate accumulations, scrubbed clean, and reinstalled. If particulates are found, the aerator/screen should be periodically checked and cleaned.

Outlet: Sink Faucet (01CF021)



Location: Classroom 306, southwest wall
Results: P1=15 parts per billion, P2=50 parts per billion
F01=8 parts per billion, F02=3 parts per billion

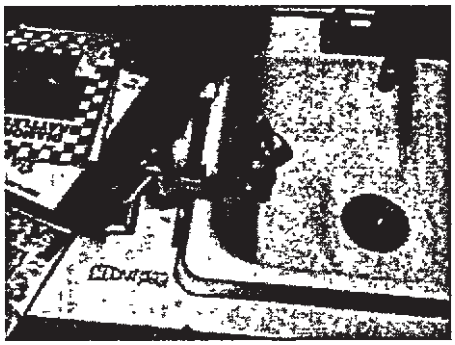
These results suggest the highest contribution of lead may be from the faucet and its connecting plumbing. This faucet appears to be manufactured by Central Brass. This model faucet typically has a brass tube in its deck body, may contain some additional brass components, and has a brass spout. The spout's chrome finish is worn down to the brass. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and brass shut-off valves.

Replacement of this faucet and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

This faucet also appears to have an aerator/screen at the outlet. If the faucet is not replaced, the aerator/screen should be removed, inspected for particulate accumulations, scrubbed clean, and reinstalled. If particulates are found, the aerator/screen should be periodically checked and cleaned.

Outlet: Bubbler Fountain (01DW022)

Location: Classroom 306, southwest wall
Results: P1=17 parts per billion, P2=6 parts per billion
F01=4 parts per billion, F02=13 parts per billion

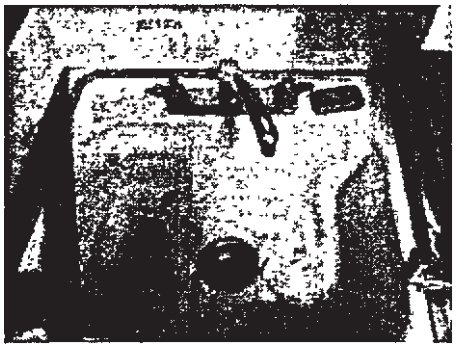


These results suggest lead may be from the bubbler and its connecting plumbing. This bubbler fixture is made of chrome-plated brass, with a brass operating valve, and a brass connector on the underside of the sink. Connecting plumbing in the cabinet under the sink should be checked for brass components and copper piping with lead solder. The increase in the fourth sample (F02) results may be a result of excessive water stagnation in this area of the building.

Replacement of this bubbler and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location, along with an overall flushing program. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

Outlet: Sink Faucet (01CF023)

Location: Classroom 312, southeast wall
Results: P1=22 parts per billion, P2=14 parts per billion
F01=9 parts per billion, F02=6 parts per billion



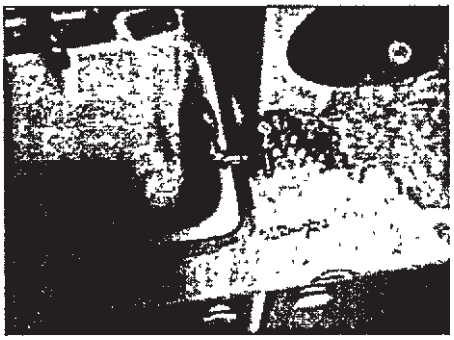
These results suggest the highest contribution of lead may be from the faucet and its connecting plumbing. This faucet appears to be manufactured by Chicago Specialty. This model faucet typically has a brass tube in its deck body, may contain some additional brass components, and has a brass spout. The spout's chrome finish is worn down to the brass. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and brass shut-off valves.

Replacement of this faucet and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

This faucet also appears to have an aerator/screen at the outlet. If the faucet is not replaced, the aerator/screen should be removed, inspected for particulate accumulations, scrubbed clean, and reinstalled. If particulates are found, the aerator/screen should be periodically checked and cleaned.

Outlet: Bubbler Fountain (01DW024)

Location: Classroom 312, southeast wall
Results: P1=36 parts per billion, P2=8 parts per billion
F01=6 parts per billion, F02=4 parts per billion

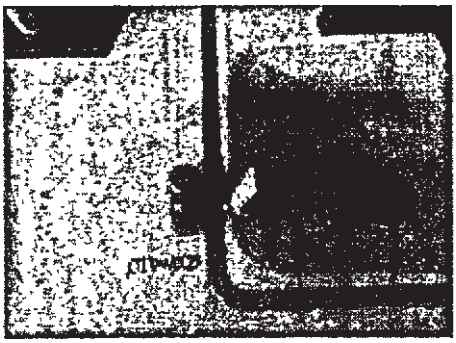


These results suggest the highest contribution of lead may be from the bubbler and its connecting plumbing. This bubbler fixture is made of chrome-plated brass, with a brass operating valve, and a brass connector on the underside of the sink. Connecting plumbing in the cabinet under the sink should be checked for brass components and copper piping with lead solder.

Replacement of this bubbler tap and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

Outlet: Bubbler Fountain (01DW025)

Location: Classroom 307, southwest wall
Results: P1=191 parts per billion, P2=69 parts per billion
F01=28 parts per billion, F02=6 parts per billion



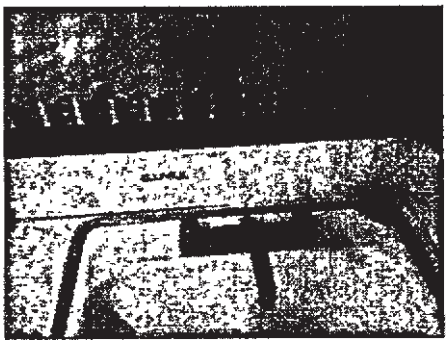
These results suggest the highest contribution of lead may be from the bubbler and its connecting plumbing. This bubbler fixture is made of chrome-plated brass and has a brass connector on the underside of the sink. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and a brass shut-off valve.

Copper results for sample P1 at this location were also at levels above which the DEQ recommends school facilities take action. Copper results suggest these same brass components are contributing to this condition.

Replacement of this bubbler tap and its connecting plumbing with lead-free materials will significantly reduce lead and copper exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead and copper concentrations and lead and copper exposure.

Outlet: Sink Faucet (01CF026)

Location: Classroom 307, southwest wall
Results: P1=61 parts per billion, P2=36 parts per billion
F01=7 parts per billion, F02=4 parts per billion



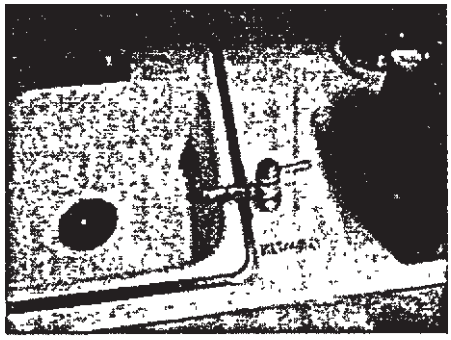
These results suggest the highest contribution of lead may be from the faucet and its connecting plumbing. This faucet appears to be manufactured by Central Brass. This model faucet typically has a brass tube in its deck body and, may contain some additional brass components, and has a brass spout. The spout's chrome finish is worn down to the brass. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and brass shut-off valves.

Replacement of this faucet and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

This faucet also appears to have an aerator/screen at the outlet. If the faucet is not replaced, the aerator/screen should be removed, inspected for particulate accumulations, scrubbed clean, and reinstalled. If particulates are found, the aerator/screen should be periodically checked and cleaned.

Outlet: Bubbler Fountain (01DW027)

Location: Classroom 311, southeast wall
Results: P1=23 parts per billion, P2=19 parts per billion
F01=61 parts per billion, F02=20 parts per billion

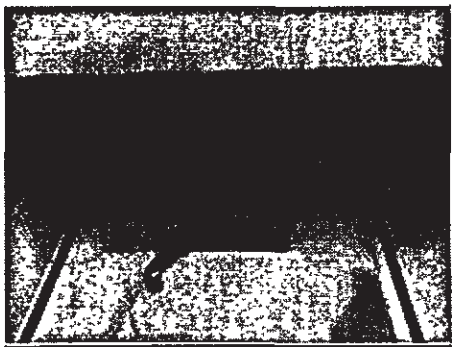


These results suggest lead may be from the bubbler and its connecting plumbing. This bubbler fixture is made of chrome-plated brass, with a brass operating valve, and a brass connector on the underside of the sink. Connecting plumbing in the cabinet under the sink should be checked for brass components and copper piping with lead solder. The increase in the third (F01) and fourth sample (F02) results may be a result of excessive water stagnation in this area of the building.

Replacement of this bubbler tap and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location and needs to be completed. In addition, an overall flushing program is required – even after this bubbler is replaced. If replacement is not currently feasible, SHUT OFF THIS BUBBLER AND **DO NOT USE THIS BUBBLER FOR DRINKING OR COOKING.**

Outlet: Sink Faucet (01CF028)

Location: Classroom 311, southeast wall
Results: P1=17 parts per billion, P2=19 parts per billion
F01=38 parts per billion, F02=15 parts per billion



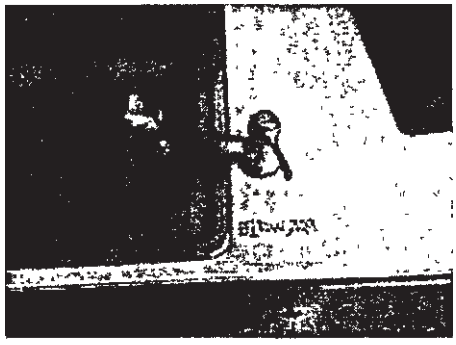
These results suggest the highest contribution of lead may be from the faucet and its connecting plumbing. This faucet appears to be manufactured by Central Brass. This model faucet typically has a brass tube in its deck body, may contain some additional brass components, and has a brass spout. The spout's chrome finish is worn down to the brass. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and brass shut-off valves.

Replacement of this faucet and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location and needs to be completed. In addition, an overall flushing program is required – even after this faucet is replaced. If a replacement is not currently feasible, **DO NOT USE THIS FAUCET FOR DRINKING OR COOKING.**

This faucet also appears to have an aerator/screen at the outlet. If the faucet is not replaced, the aerator/screen should be removed, inspected for particulate accumulations, scrubbed clean, and reinstalled. If particulates are found, the aerator/screen should be periodically checked and cleaned.

Outlet: Bubbler Fountain (01DW029)

Location: Classroom 308, northwest wall
Results: P1=78 parts per billion, P2=23 parts per billion
F01=5 parts per billion, F02=2 parts per billion

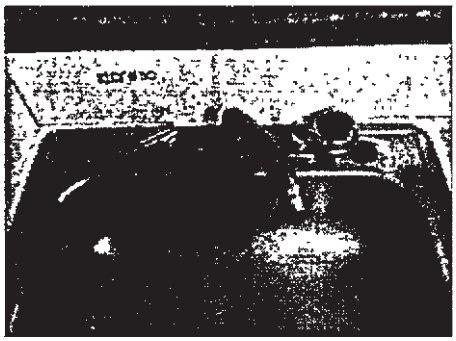


These results suggest the highest contribution of lead may be from the bubbler and its connecting plumbing. This bubbler fixture is made of chrome-plated brass, with a brass operating valve, and a brass connector on the underside of the sink. The bubbler also has been modified with added copper couplings below the spout. Connecting plumbing in the cabinet under the sink should be checked for brass components and copper piping with lead solder.

Replacement of this bubbler tap and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes.

Outlet: Sink Faucet (01CF030)

Location: Classroom 308, northwest wall
Results: P1=60 parts per billion, P2=9 parts per billion
F01=11 parts per billion, F02=3 parts per billion



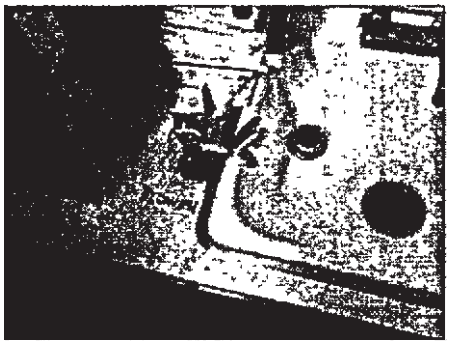
These results suggest the highest contribution of lead may be from the faucet and its connecting plumbing. This faucet appears to be manufactured by Central Brass. This model faucet typically has a brass tube in it deck body, may contain some additional brass components, and has a brass spout. The spout's chrome finish is worn down to the brass. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and brass shut-off valves.

Replacement of this faucet and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

This faucet also appears to have an aerator/screen at the outlet. If the faucet is not replaced, the aerator/screen should be removed, inspected for particulate accumulations, scrubbed clean, and reinstalled. If particulates are found, the aerator/screen should be periodically checked and cleaned.

Outlet: Bubbler Fountain (01DW031)

Location: Classroom 310, northeast wall
Results: P1=29 parts per billion, P2=35 parts per billion
F01=73 parts per billion, F02=3 parts per billion



These results suggest the highest contribution of lead may be from the bubbler and its connecting plumbing. This bubbler fixture is made of chrome-plated brass and has a brass connector on the underside of the sink. Connecting plumbing in the cabinet under the sink should be checked for brass components and copper piping with lead solder.

Replacement of this bubbler tap and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

Outlet: Water Cooler (02DW034)

Location: South out-building, Temporary Classroom, northeast wall
Results: P1= non-detect, P2=54 parts per billion
F01=36 parts per billion, F02=2 parts per billion

These results suggest the lead may be from the water cooler unit. This model may contain brass components. Connecting plumbing to the cooler unit may also contain brass components.

Copper results for sample P1 at this location were also at levels above which the DEQ recommends school facilities take action. Copper results suggest these same brass components are contributing to this condition.

Replacement of the entire unit is recommended and will significantly reduce lead and copper exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead and copper concentrations and lead and copper exposure.

Outlets with Lead Levels 15 Parts per Billion or Less

While the remaining nine outlets showed sample results to be at levels requiring no further action, several recommendations have been identified.

The fourth sample (F02) at all nine outlets following approximately three minutes of use and flushing at a reduced flow resulted in reduced lead concentrations. This indicates that flushing these nine taps used for drinking, cooking, and/or food preparation for four minutes following periods of stagnation will further reduce lead exposure.

Five of these nine outlets are comprised of similar materials as the outlets listed above and could potentially experience higher lead levels under extended periods of stagnation. These faucets/fountains include:

- Bubbler Fountains in main corridor next to Men's Restroom, east of Library (01DW017), and Classroom 100 (01DW015)
- Sink Side Bubbler Unit in Classroom 110 (01DW006)
- Chrome-Plated Brass Base Faucets in Classroom 100 (01CF013), and Classroom 310 (01CF032)

Replacement of these fixtures with lead-free materials is also recommended.

The classroom faucet and four drinking water fountains identified as out of service in the Background Information, should be sampled prior to being placed back into service, or replaced with lead-free materials.

The remaining four outlets showed sample results of 15 parts per billion or less, requiring no further action or additional recommendations. These faucets/fountains include:

- Sink Faucets in Classroom 110 (01CF005), Classroom 100 (01CF014), and south out-building, Temporary Classroom (02KC033)
- Kitchen Faucet in the Teacher's Lounge (01KC016)

Consecutive Sampling Results and Building Plumbing Recommendations

The consecutive samples taken on November 7, 2015, at three sites in the main school building, and one in the southernmost out-building, provide additional confirmation that overall, the highest contribution of lead appears to be from the individual faucet/fountains and not from the larger diameter supply plumbing within the main school building or the out-building units. However, results from Classroom 310 also suggest that the southern supply line extending beyond the restrooms may be impacted by minimal water use and stagnation – specifically, the cold water line serving Classrooms 306-312.

A operational flushing procedure may further reduce lead contributions from this supply line caused by stagnant conditions related to its use. Routine flushing of the larger diameter supply plumbing at the end points of the distribution system, (for example at Classroom 100, Classroom 310 and Classroom 311) should be performed on a regular basis. Even if the identified outlets are replaced, the south end of the corridor serving Classrooms 306-312 may still benefit from a flushing procedure to further reduce lead contributions and other effects of stagnant water in this supply line.

Results of the consecutive sample monitoring are listed in the table below.

Consecutive Sample No.	1	2	3	4	5	6	7	8	9	10
LOCATION	LEAD RESULT (PARTS PER BILLION; ND = NOT-DETECTED)									
Classroom 100 Sink Faucet (01CF013)	2	2	2	2	2	2	2	2	3	3
Classroom 301 Sink Faucet (01CF018)	4	2	2	2	1	1	1	1	1	ND
Classroom 310 Sink Faucet (01CF032)	4	5	6	4	3	3	3	3	3	2
Out-building Southernmost Kitchen Faucet (01KC033)	ND	ND	ND	ND	ND	ND	ND	ND	ND	ND

PIERCE ELEMENTARY SCHOOL

Outlet Sampling and Plumbing Assessment Recommendations

1101 West Vernon Drive, Flint, Michigan 48503

DEQ

BACKGROUND INFORMATION

On Friday, November 6, 2015, the Department of Licensing and Regulatory Affairs (DLARA) and the Department of Environmental Quality (DEQ) conducted an assessment of Pierce Elementary School's plumbing system to gain a comprehensive understanding of how water moves through the building and what types of plumbing materials are used. The southernmost out-building, in addition to the main school building, were included in the assessment. The assessment identified the following potential sources of lead leaching into drinking water:

- Lead solder joints on copper piping
- Brass valves and brass fittings
- Brass components in fixtures
- Galvanized piping

The assessment identified 34 faucets or fountains that provide water for drinking, cooking, and/or food preparation: 32 faucets/fountains in the main school building and two faucets/fountains in the southernmost out-building. The other two out-buildings had no working water fixtures. A total of five additional faucets or fountains were identified as inoperable and were not assessed or labeled for sampling, as follows:

- Main building, Room 112, classroom faucet (no cold water connection)
- Main building, Gym, drinking water fountain
- Main building, Gym, drinking water fountain
- Main building, Hallway to out-buildings, near Room 306, drinking water fountain
- Middle out-building, drinking water fountain

The DEQ and DLARA Team (Team) developed a sequence for sampling the faucets/fountains in each building based on how the water is expected to travel through each building.

On Saturday, November 7, 2015, the DEQ and the DLARA completed sampling of the 32 faucets/fountains in the main school building, and the two faucets/fountains in the southernmost out-building, each in the order determined by the plumbing assessment from the previous day, following a stagnation period of over 12 hours. At each of the 34 faucets/fountains identified, the Team collected four samples. Two initial, 125-milliliter samples (P1 and P2), were collected immediately after turning on the tap. The water was then flushed for 30 seconds and a third, 125-milliliter sample (F01) was collected. Finally, the water was flushed for another two minutes, and the fourth 125-milliliter sample (F02) was collected. These samples were used to determine the impact of any lead sources in and around each specific faucet/fountain and its connecting plumbing.

The Team then completed consecutive sampling at three of the 32 faucets/fountains in the main school building, and one of the two faucets/fountains in the southernmost out-building. This consecutive sampling was used to determine the impact of any lead sources located deep in the supply plumbing at each of these buildings. The four sites comprised of one site at the far end of the northern supply line, two sites along the south supply line near the mid-point and at the far end, and one site at the out-building. At each of these four sites, the Team collected 10, 1-liter samples. The 10 samples were collected immediately after turning on the tap, and consecutively, without any flushing time in between.

WATER SERVICE INFORMATION

A four-inch diameter cast iron or ductile iron water service line enters the boiler room. The boiler room is located near the middle of the west side of the main building. The water line enters on the south side of the room. The cold water piping transitions into copper piping inside the boiler room. In one area beneath pipe insulation, staff observed what appeared to be a lead bushing. The cold water supply line exits the boiler room. Exiting the boiler room, one cold water supply line appears to serve the north corridor, and one cold water supply line appears to serve the south corridor.

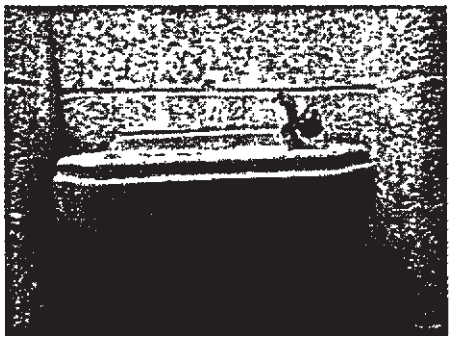
The middle and southernmost out-building appears to be served from the main building off of the supply line serving the south corridor of the school. Skirting around the bottom of the out-building unit prevented an assessment of the service line to this building. The northernmost out-building is not occupied and was not assessed.

Outlets with Lead Levels Greater than 15 Parts per Billion

The DEQ recommends school facilities take action if samples from any drinking water outlets show lead levels greater than 15 parts per billion. Based on the sampling conducted at 34 faucets/fountains on November 7, 2015, the following 25 drinking water outlets had lead water level results greater than 15 parts per billion. Each of these 25 outlets is listed below with its sample results, including a description of the potential source(s) of lead, and recommended actions to be taken by the school.

Outlet: **Bubbler Drinking Fountain (01DW001)**

Location: Hallway next to Boiler Room, behind Stage
Results: P1=20 parts per billion, P2=2 parts per billion
F01=2 parts per billion, F02=non-detect

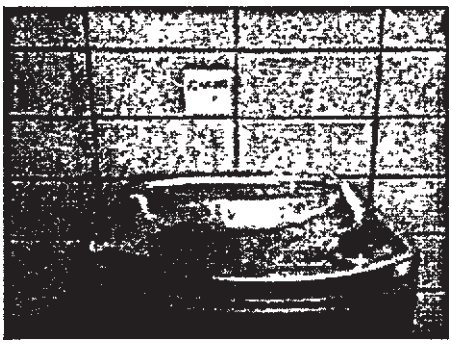


These results suggest the highest contribution of lead may be from the bubbler itself. This bubbler fixture is made of chrome-plated brass. Connecting plumbing should be checked for brass components, including brass valves.

Replacement of this bubbler tap and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

Outlet: **Water Cooler Fountain (01WC002)**

Location: Hallway next to Mechanical Room, north corridor
Results: P1=8 parts per billion, P2=13 parts per billion
F01=35 parts per billion, F02=19 parts per billion



These results suggest the lead may be from the water cooler unit and the connecting plumbing. The water cooler is an Elkay model. This model may contain brass components. Connecting plumbing to the cooler unit may also contain brass components.

Replacement of this water cooler and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location and needs to be completed for use. If replacement is not currently feasible, SHUT OFF THIS WATER COOLER FOUNTAIN AND **DO NOT USE THIS WATER COOLER FOR DRINKING OR COOKING.**

Outlet: Sink Faucet (01CF003)

Location: Classroom 109, northeast wall
Results: P1=26 parts per billion, P2=17 parts per billion
F01=9 part per billion, F02=2 parts per billion

These results suggest the highest contribution of lead may be from the faucet and its connecting plumbing. This model faucet typically has a brass tube in its deck body, and may contain some additional brass components. Connecting plumbing in the cabinet under the sink should be checked for brass components, including brass valves.

Replacement of this faucet and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

This faucet also has an aerator/screen at the outlet. If the faucet is not replaced, the aerator/screen should be removed, inspected for particulate accumulations, scrubbed clean, and reinstalled. If particulates are found, the aerator/screen should be periodically checked and cleaned.

Outlet: Bubbler Fountain (01DW004)

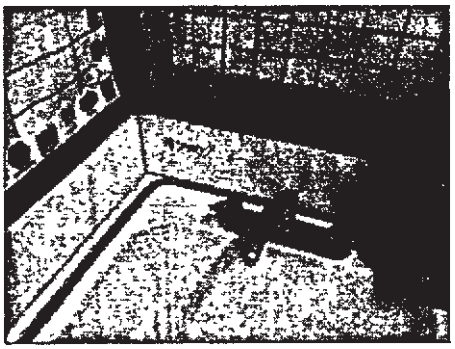
Location: Classroom 109, northwest wall
Results: P1=42 parts per billion, P2=17 parts per billion
F01=3 parts per billion, F02=1 part per billion

These results suggest the highest contribution of lead may be from the bubbler and its connecting plumbing. This bubbler fixture is made of chrome-plated brass and has a brass connector on the underside of the sink. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and a brass shut-off valve.

Replacement of this bubbler tap and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

Outlet: Sink Faucet (01CF007)

Location: Classroom 108, northwest wall
Results: P1=97 parts per billion, P2=132 parts per billion
F01=9 parts per billion, F02=2 parts per billion



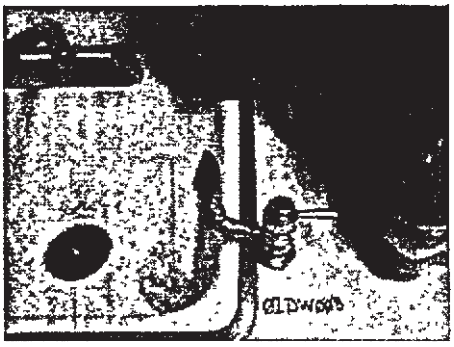
These results suggest the highest contribution of lead may be from the faucet and its connecting plumbing. This faucet appears to be manufactured by Central Brass. This model faucet typically has a brass tube in its deck body, may contain some additional brass components, and has a brass spout. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and brass shut-off valves.

Replacement of this faucet and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

This faucet also has an aerator/screen at the outlet. If the faucet is not replaced, the aerator/screen should be removed, inspected for particulate accumulations, scrubbed clean, and reinstalled. If particulates are found, the aerator/screen should be periodically checked and cleaned.

Outlet: Bubbler Fountain (01DW008)

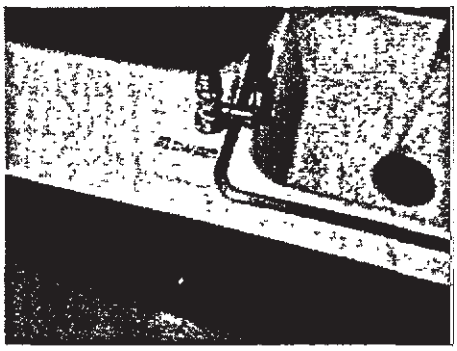
Location: Classroom 108, northwest wall
Results: P1=468 parts per billion, P2=75 parts per billion
F01=6 parts per billion, F02=4 parts per billion



These results suggest the highest contribution of lead may be from the bubbler and its connecting plumbing. This bubbler fixture is made of chrome-plated brass, with a brass operating valve, and a brass connector on the underside of the sink. Connecting plumbing under the sink should be checked for brass components and copper piping with lead solder.

Replacement of this bubbler tap and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

Outlet: Bubbler Fountain (01DW009)

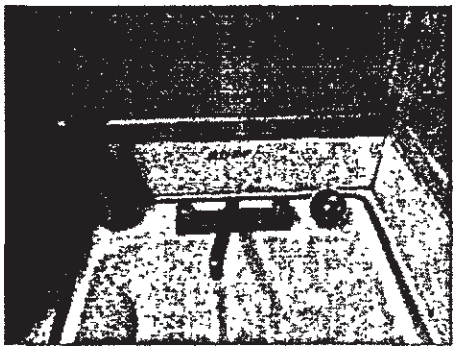


Location: Classroom 111, northeast wall
Results: P1=26 parts per billion, P2=38 parts per billion
F01=7 parts per billion, F02=3 parts per billion

These results suggest the highest contribution of lead may be from the bubbler and its connecting plumbing. This bubbler fixture is made of chrome-plated brass, with a brass operating valve, and a brass connector on the underside of the sink. Connecting plumbing in the cabinet under the sink should be checked for brass components and copper piping with lead solder.

Replacement of this bubbler tap and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

Outlet: Sink Faucet (01CF010)



Location: Classroom 111, northeast wall
Results: P1=43 parts per billion, P2=22 parts per billion
F01=3 parts per billion, F02=3 parts per billion

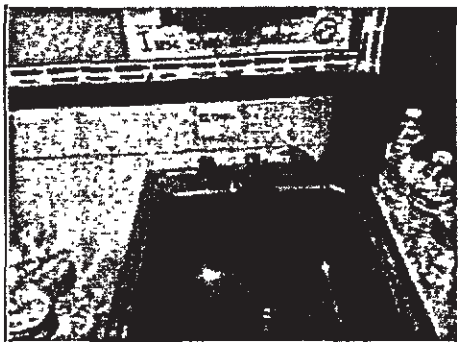
These results suggest the highest contribution of lead may be from the faucet and its connecting plumbing. This faucet appears to be manufactured by Central Brass. This model faucet typically has a brass tube in its deck body, may contain some additional brass components, and has a brass spout. The spout's chrome finish is worn down to the brass. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and brass shut-off valves.

Replacement of this faucet and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

This faucet also has an aerator/screen at the outlet. If the faucet is not replaced, the aerator/screen should be removed, inspected for particulate accumulations, scrubbed clean, and reinstalled. If particulates are found, the aerator/screen should be periodically checked and cleaned.

Outlet: Sink Faucet (01CF011)

Location: Classroom 107, southwest wall
Results: *P1=25 parts per billion, P2=11 parts per billion*
F01=3 parts per billion, F02=2 parts per billion



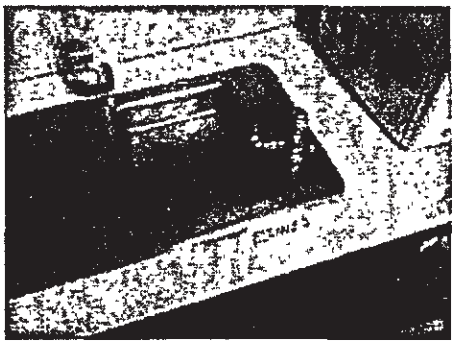
These results suggest the highest contribution of lead may be from the faucet and its connecting plumbing. This faucet appears to be manufactured by Central Brass. This model faucet typically has a brass tube in its deck body, may contain some additional brass components, and has a brass spout. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and brass shut-off valves.

Replacement of this sink faucet and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

At the time of assessment, the faucet aerator/screen was found removed. If the faucet is not replaced and the aerator/screen is going to be reinstalled, it should be inspected for particulate accumulations, and scrubbed clean. If particulates are found, the aerator/screen should be periodically checked and cleaned.

Outlet: Bubbler Fountain (01DW012)

Location: Classroom 112, southwest wall
Results: P1=78 parts per billion, P2=11 parts per billion
F01=4 parts per billion, F02=3 parts per billion

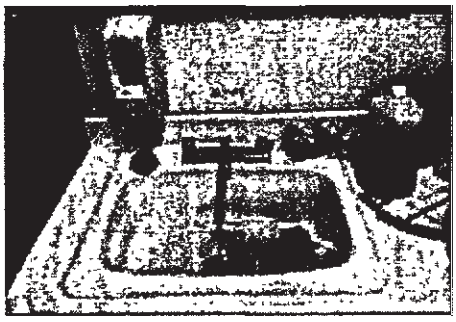


These results suggest the highest contribution of lead may be from the bubbler and its connecting plumbing. This bubbler fixture is made of chrome-plated brass, with a brass operating valve and a brass connector on the underside of the sink. Connecting plumbing under the sink should be checked for brass components and copper piping with lead solder.

Replacement of this bubbler tap and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

Outlet: Sink Faucet (01CF018)

Location: Classroom 301, northwest wall
Results: P1=13 parts per billion, P2=16 parts per billion
F01=4 parts per billion, F02=1 part per billion



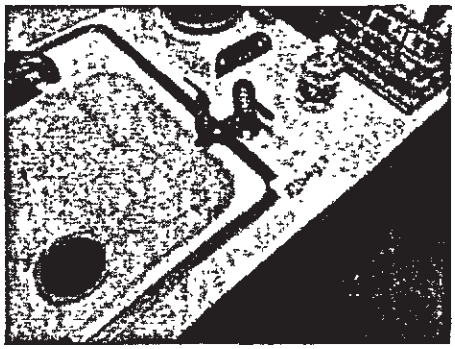
These results suggest the highest contribution of lead may be from the faucet and its connecting plumbing. This faucet appears to be manufactured by Central Brass. This model faucet typically has a brass tube in its deck body, may contain some additional brass components, and has a brass spout. The spout's chrome finish is worn down to the brass. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and brass shut-off valves.

Replacement of this faucet and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

This faucet also appears to have an aerator/screen at the outlet. If the faucet is not replaced, the *aerator/screen should be removed, inspected for particulate accumulations, scrubbed clean, and reinstalled.* If particulates are found, the aerator/screen should be periodically checked and cleaned.

Outlet: Bubbler Fountain (01DW019)

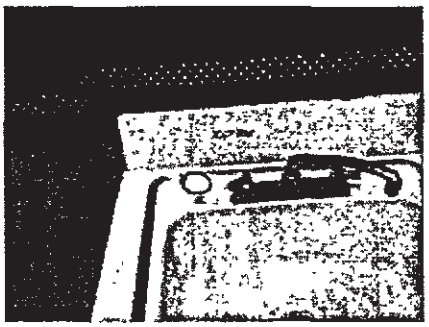
Location: Classroom 302, southwest wall
Results: P1=220 parts per billion, P2=23 parts per billion
F01=3 parts per billion, F02=2 parts per billion



These results suggest the highest contribution of lead may be from the bubbler and its connecting plumbing. This bubbler fixture is made of chrome-plated brass, with a brass operating valve, and a brass connector on the underside of the sink. Connecting plumbing in the cabinet under the sink should be checked for brass *components and copper piping with lead solder.*

Replacement of this bubbler tap and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

Outlet: Sink Faucet (01CF020)



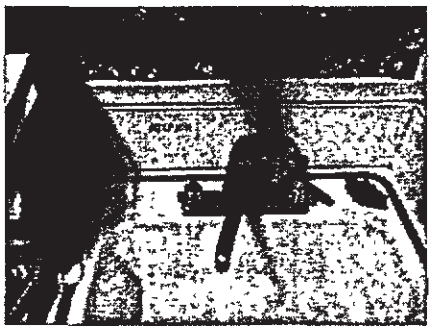
Location: Classroom 302, southwest wall
Results: P1=53 parts per billion, P2=30 parts per billion
F01=1 part per billion, F02=non-detect

These results suggest the highest contribution of lead may be from the faucet and its connecting plumbing. This faucet appears to be manufactured by Central Brass. The base of this faucet is chrome-plated brass, has brass components within the base, and a brass spout. The spout's chrome finish is worn down to the brass. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and brass shut-off valves.

Replacement of this faucet and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

This faucet also appears to have an aerator/screen at the outlet. If the faucet is not replaced, the aerator/screen should be removed, inspected for particulate accumulations, scrubbed clean, and reinstalled. If particulates are found, the aerator/screen should be periodically checked and cleaned.

Outlet: Sink Faucet (01CF021)



Location: Classroom 306, southwest wall
Results: P1=15 parts per billion, P2=50 parts per billion
F01=8 parts per billion, F02=3 parts per billion

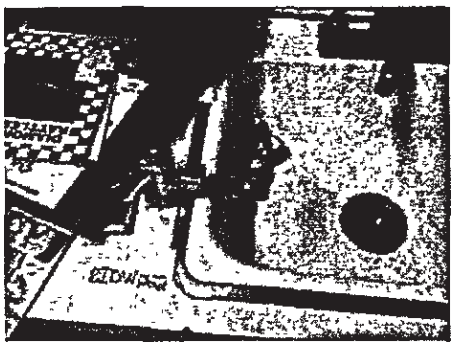
These results suggest the highest contribution of lead may be from the faucet and its connecting plumbing. This faucet appears to be manufactured by Central Brass. This model faucet typically has a brass tube in its deck body, may contain some additional brass components, and has a brass spout. The spout's chrome finish is worn down to the brass. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and brass shut-off valves.

Replacement of this faucet and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

This faucet also appears to have an aerator/screen at the outlet. If the faucet is not replaced, the aerator/screen should be removed, inspected for particulate accumulations, scrubbed clean, and reinstalled. If particulates are found, the aerator/screen should be periodically checked and cleaned.

Outlet: Bubbler Fountain (01DW022)

Location: Classroom 306, southwest wall
Results: P1=17 parts per billion, P2=6 parts per billion
F01=4 parts per billion, F02=13 parts per billion

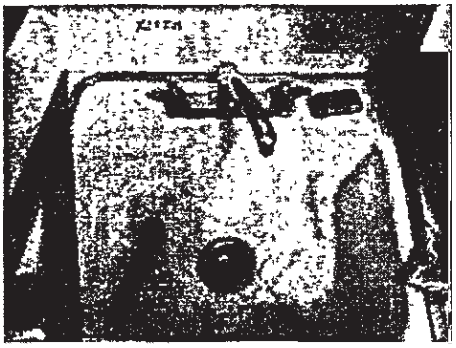


These results suggest lead may be from the bubbler and its connecting plumbing. This bubbler fixture is made of chrome-plated brass, with a brass operating valve, and a brass connector on the underside of the sink. Connecting plumbing in the cabinet under the sink should be checked for brass components and copper piping with lead solder. The increase in the fourth sample (F02) results may be a result of excessive water stagnation in this area of the building.

Replacement of this bubbler and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location, along with an overall flushing program. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

Outlet: Sink Faucet (01CF023)

Location: Classroom 312, southeast wall
Results: P1=22 parts per billion, P2=14 parts per billion
F01=9 parts per billion, F02=6 parts per billion



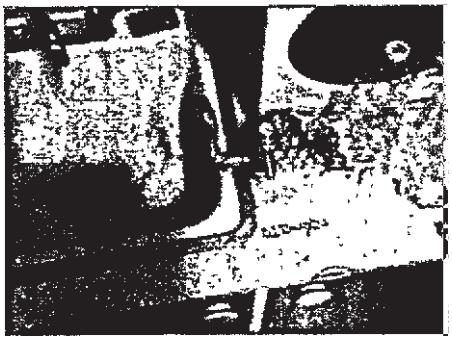
These results suggest the highest contribution of lead may be from the faucet and its connecting plumbing. This faucet appears to be manufactured by Chicago Specialty. This model faucet typically has a brass tube in its deck body, may contain some additional brass components, and has a brass spout. The spout's chrome finish is worn down to the brass. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and brass shut-off valves.

Replacement of this faucet and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

This faucet also appears to have an aerator/screen at the outlet. If the faucet is not replaced, the aerator/screen should be removed, inspected for particulate accumulations, scrubbed clean, and reinstalled. If particulates are found, the aerator/screen should be periodically checked and cleaned.

Outlet: Bubbler Fountain (01DW024)

Location: Classroom 312, southeast wall
Results: P1=36 parts per billion, P2=8 parts per billion
F01=6 parts per billion, F02=4 parts per billion

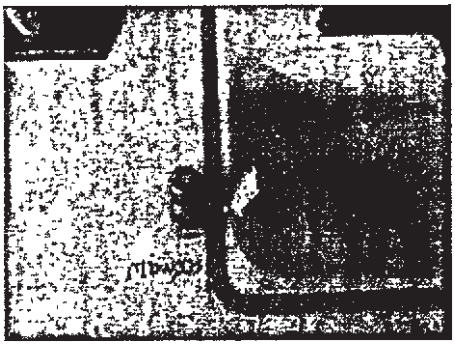


These results suggest the highest contribution of lead may be from the bubbler and its connecting plumbing. This bubbler fixture is made of chrome-plated brass, with a brass operating valve, and a brass connector on the underside of the sink. Connecting plumbing in the cabinet under the sink should be checked for brass components and copper piping with lead solder.

Replacement of this bubbler tap and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

Outlet: Bubbler Fountain (01DW025)

Location: Classroom 307, southwest wall
Results: P1=191 parts per billion, P2=69 parts per billion
F01=28 parts per billion, F02=6 parts per billion



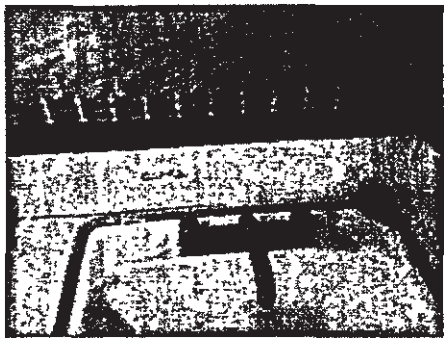
These results suggest the highest contribution of lead may be from the bubbler and its connecting plumbing. This bubbler fixture is made of chrome-plated brass and has a brass connector on the underside of the sink. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and a brass shut-off valve.

Copper results for sample P1 at this location were also at levels above which the DEQ recommends school facilities take action. Copper results suggest these same brass components are contributing to this condition.

Replacement of this bubbler tap and its connecting plumbing with lead-free materials will significantly reduce lead and copper exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead and copper concentrations and lead and copper exposure.

Outlet: Sink Faucet (01CF026)

Location: Classroom 307, southwest wall
Results: *P1=61 parts per billion, P2=36 parts per billion*
F01=7 parts per billion, F02=4 parts per billion



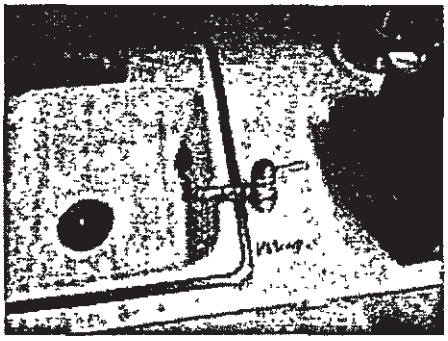
These results suggest the highest contribution of lead may be from the faucet and its connecting plumbing. This faucet appears to be manufactured by Central Brass. This model faucet typically has a brass tube in its deck body and, may contain some additional brass components, and has a brass spout. The spout's chrome finish is worn down to the brass. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and brass shut-off valves.

Replacement of this faucet and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

This faucet also appears to have an aerator/screen at the outlet. If the faucet is not replaced, the aerator/screen should be removed, inspected for particulate accumulations, scrubbed clean, and reinstalled. If particulates are found, the aerator/screen should be periodically checked and cleaned.

Outlet: Bubbler Fountain (01DW027)

Location: Classroom 311, southeast wall
Results: P1=23 parts per billion, P2=19 parts per billion
F01=61 parts per billion, F02=20 parts per billion

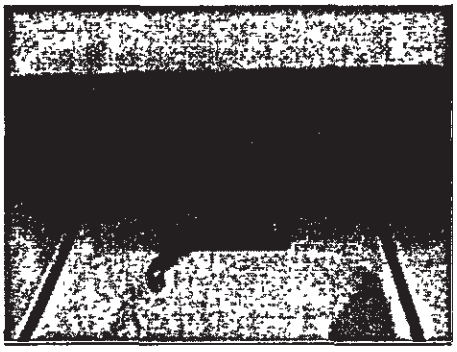


These results suggest lead may be from the bubbler and its connecting plumbing. This bubbler fixture is made of chrome-plated brass, with a brass operating valve, and a brass connector on the underside of the sink. Connecting plumbing in the cabinet under the sink should be checked for brass components and copper piping with lead solder. The increase in the third (F01) and fourth sample (F02) results may be a result of excessive water stagnation in this area of the building.

Replacement of this bubbler tap and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location and needs to be completed. In addition, an overall flushing program is required – even after this bubbler is replaced. If replacement is not currently feasible, SHUT OFF THIS BUBBLER AND **DO NOT USE THIS BUBBLER FOR DRINKING OR COOKING.**

Outlet: Sink Faucet (01CF028)

Location: Classroom 311, southeast wall
Results: P1=17 parts per billion, P2=19 parts per billion
F01=38 parts per billion, F02=15 parts per billion



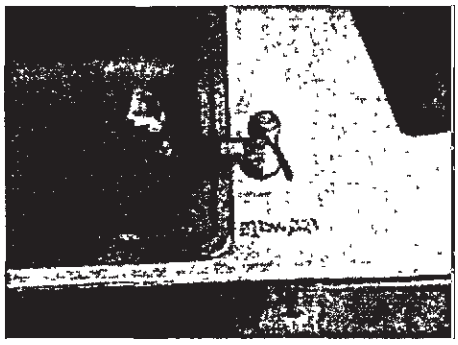
These results suggest the highest contribution of lead may be from the faucet and its connecting plumbing. This faucet appears to be manufactured by Central Brass. This model faucet typically has a brass tube in its deck body, may contain some additional brass components, and has a brass spout. The spout's chrome finish is worn down to the brass. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and brass shut-off valves.

Replacement of this faucet and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location and needs to be completed. In addition, an overall flushing program is required – even after this faucet is replaced. If a replacement is not currently feasible, **DO NOT USE THIS FAUCET FOR DRINKING OR COOKING.**

This faucet also appears to have an aerator/screen at the outlet. If the faucet is not replaced, the aerator/screen should be removed, inspected for particulate accumulations, scrubbed clean, and reinstalled. If particulates are found, the aerator/screen should be periodically checked and cleaned.

Outlet: Bubbler Fountain (01DW029)

Location: Classroom 308, northwest wall
Results: P1=78 parts per billion, P2=23 parts per billion
F01=5 parts per billion, F02=2 parts per billion

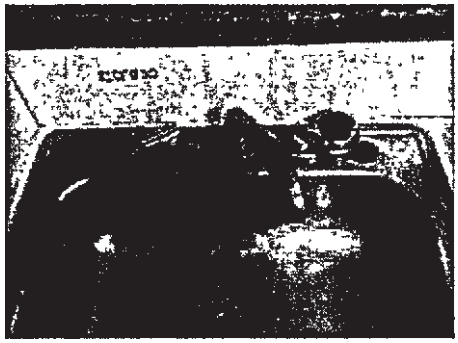


These results suggest the highest contribution of lead may be from the bubbler and its connecting plumbing. This bubbler fixture is made of chrome-plated brass, with a brass operating valve, and a brass connector on the underside of the sink. The bubbler also has been modified with added copper couplings below the spout. Connecting plumbing in the cabinet under the sink should be checked for brass components and copper piping with lead solder.

Replacement of this bubbler tap and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes.

Outlet: Sink Faucet (01CF030)

Location: Classroom 308, northwest wall
Results: P1=60 parts per billion, P2=9 parts per billion
F01=11 parts per billion, F02=3 parts per billion



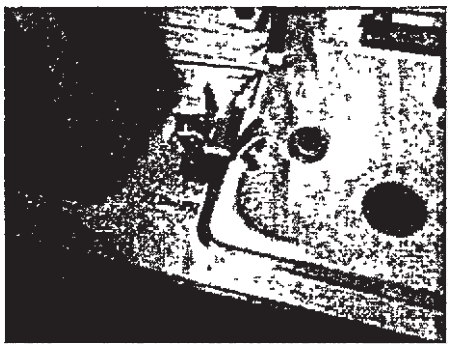
These results suggest the highest contribution of lead may be from the faucet and its connecting plumbing. This faucet appears to be manufactured by Central Brass. This model faucet typically has a brass tube in it deck body, may contain some additional brass components, and has a brass spout. The spout's chrome finish is worn down to the brass. Connecting plumbing in the cabinet under the sink should be checked for brass connectors, copper piping with lead solder, and brass shut-off valves.

Replacement of this faucet and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

This faucet also appears to have an aerator/screen at the outlet. If the faucet is not replaced, the aerator/screen should be removed, inspected for particulate accumulations, scrubbed clean, and reinstalled. If particulates are found, the aerator/screen should be periodically checked and cleaned.

Outlet: Bubbler Fountain (01DW031)

Location: Classroom 310, northeast wall
Results: P1=29 parts per billion, P2=35 parts per billion
F01=73 parts per billion, F02=3 parts per billion



These results suggest the highest contribution of lead may be from the bubbler and its connecting plumbing. This bubbler fixture is made of chrome-plated brass and has a brass connector on the underside of the sink. Connecting plumbing in the cabinet under the sink should be checked for brass components and copper piping with lead solder.

Replacement of this bubbler tap and its connecting plumbing with lead-free materials will significantly reduce lead exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead concentrations and lead exposure.

Outlet: Water Cooler (02DW034)

Location: South out-building, Temporary Classroom, northeast wall
Results: P1= non-detect, P2=54 parts per billion
F01=36 parts per billion, F02=2 parts per billion

These results suggest the lead may be from the water cooler unit. This model may contain brass components. Connecting plumbing to the cooler unit may also contain brass components.

Copper results for sample P1 at this location were also at levels above which the DEQ recommends school facilities take action. Copper results suggest these same brass components are contributing to this condition.

Replacement of the entire unit is recommended and will significantly reduce lead and copper exposure at this location. If replacement is not currently feasible, sample results indicate that flushing this tap for three minutes following periods of stagnation is likely to reduce lead and copper concentrations and lead and copper exposure.

Outlets with Lead Levels 15 Parts per Billion or Less

While the remaining nine outlets showed sample results to be at levels requiring no further action, several recommendations have been identified.

The fourth sample (F02) at all nine outlets following approximately three minutes of use and flushing at a reduced flow resulted in reduced lead concentrations. This indicates that flushing these nine taps used for drinking, cooking, and/or food preparation for four minutes following periods of stagnation will further reduce lead exposure.

Five of these nine outlets are comprised of similar materials as the outlets listed above and could potentially experience higher lead levels under extended periods of stagnation. These faucets/fountains include:

- Bubbler Fountains in main corridor next to Men's Restroom, east of Library (01DW017), and Classroom 100 (01DW015)
- Sink Side Bubbler Unit in Classroom 110 (01DW006)
- Chrome-Plated Brass Base Faucets in Classroom 100 (01CF013), and Classroom 310 (01CF032)

Replacement of these fixtures with lead-free materials is also recommended.

The classroom faucet and four drinking water fountains identified as out of service in the Background Information, should be sampled prior to being placed back into service, or replaced with lead-free materials.

The remaining four outlets showed sample results of 15 parts per billion or less, requiring no further action or additional recommendations. These faucets/fountains include:

- Sink Faucets in Classroom 110 (01CF005), Classroom 100 (01CF014), and south out-building, Temporary Classroom (02KC033)
- Kitchen Faucet in the Teacher's Lounge (01KC016)

Consecutive Sampling Results and Building Plumbing Recommendations

The consecutive samples taken on November 7, 2015, at three sites in the main school building, and one in the southernmost out-building, provide additional confirmation that overall, the highest contribution of lead appears to be from the individual faucet/fountains and not from the larger diameter supply plumbing within the main school building or the out-building units. However, results from Classroom 310 also suggest that the southern supply line extending beyond the restrooms may be impacted by minimal water use and stagnation – specifically, the cold water line serving Classrooms 306-312.

A operational flushing procedure may further reduce lead contributions from this supply line caused by stagnant conditions related to its use. Routine flushing of the larger diameter supply plumbing at the end points of the distribution system, (for example at Classroom 100, Classroom 310 and Classroom 311) should be performed on a regular basis. Even if the identified outlets are replaced, the south end of the corridor serving Classrooms 306-312 may still benefit from a flushing procedure to further reduce lead contributions and other effects of stagnant water in this supply line.

Results of the consecutive sample monitoring are listed in the table below.

Consecutive Sample No.	1	2	3	4	5	6	7	8	9	10
LOCATION	LEAD RESULT (PARTS PER BILLION; ND = NOT-DETECTED)									
Classroom 100 Sink Faucet (01CF013)	2	2	2	2	2	2	2	2	3	3
Classroom 301 Sink Faucet (01CF018)	4	2	2	2	1	1	1	1	1	ND
Classroom 310 Sink Faucet (01CF032)	4	5	6	4	3	3	3	3	3	2
Out-building Southernmost Kitchen Faucet (01KC033)	ND	ND	ND	ND	ND	ND	ND	ND	ND	ND

Pierce Elementary

Flint Water Response Team Plan for Monday, 01.25.16 FINAL

Key

WRT	Water Response Team
OIC	Officer In Charge
ARC	American Red Cross
HH	Household
LEOC	Local Emergency Operations Center

Key Leaders

ARC OIC	Robert Gaskill-Clemons	

Plan

Agency	Team Types	Mission
ARC	10 Type V	1000 HH

Resource Status

ARC

Team Type & Quantity	**Type:** Type V **Quantity:** 10 (10 ERV)				
Resource	**Required**	**Confirmed**	**Notes**	**Date**	**Time**
Team Leader	10	10		1/25/16	8:00 am
ARC ERV	10	10		1/25/16	8:00 am
ARC ERV Driver	10	10		1/25/16	8:00 am
Team Member	2-4	2-4		1/25/16	8:00 am
Team Transport Vehicle for 2-4 Team Members	10	10		1/25/16	8:00 am
Team Transport Vehicle Driver	10	10		1/25/16	8:00 am
iPads	10	10		1/25/16	8:00 am
Hand Warmers	40	40		1/25/16	8:00 am
Distribution Kit	1000	1000		1/25/16	8:00 am

Execution:

Key Locations

Team	Assembly Area	Hours of Operation
LEOC	Genesee County Administration Building 1101 Beach St, Flint	0830-1600

ARC	ARC 1401 S Grand Traverse St, Flint	0730-1600
Warehouse	4315 North Clio Road, Flint	0700-1900

Map Support

Maps will be provided daily to provide detailed information on city sections. Teams will target specific homes not originally reached during the first two rounds of canvassing.

Sample Script for Team Members:

We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.

Execution Support:

Product Replenishment Process:

Team	Replenishment Trigger	Replenishment Location	Process
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

Warehouse

Tactics:

1. Load a minimum of 2 trucks in preparation for replenishment requests with product loads corresponding to Team Typing Matrix.

Lunch

Lunches will be provided by the ARC.

Reporting:

Tactics:

1. All WRTs will utilize iPads as the primary reporting method and the WRT Distribution Tracking Tool as a secondary method if iPads fail.

Team Member	150-300	150-300	Islamic Relief & Others	1/22/16	1525
Team Transport Vehicle for 2-4 Team Members	30	30	10 from warehouse & 20 from ARC	1/22/16	1525
Team Transport Vehicle Driver	30	30	Sourced from ARC	1/22/16	1525
Patrol Car	0	0		1/22/16	1525
iPads	40	10		1/22/16	1525
Hand Warmers	60	382		1/22/16	1525
Distribution Kit	7000	7000		1/22/16	1525

Execution:

Key Locations

Team	Assembly Area	Hours of Operation
OGCS/MSP	LEOC Genesee County Administration Building	0830-1600

	1101 Beach St, Flint	
ARC	ARC 1401 S Grand Traverse St, Flint	0730-1600
Warehouse	4315 North Clio Road, Flint	0700-1900

Critical Task: Assemble, coordinate, and monitor WRTs

OGCS/MSP Process:

1. Assign team leaders, team members, and routes to teams
2. Team Member check in
3. Conduct pre-deployment briefing to include team mission assignments, concept of operations, deployment locations, replenishment process, reporting process, and safety briefings (refer to OGCS_MSP WRT Volunteer Assembly Information V2.0_011816 for detailed information on volunteer processing at LEOC)
5. Provide training to new team members
6. Issue vest and badge to team members
7. Execute morning distribution assignment
8. Lunch served between 1230-1330
9. WRT OIC and Team Leaders midday brief
10. Execute afternoon distribution assignment
11. Conduct post-deployment debrief with team leaders and members
12. Collect vest and badge from team members

Sample Script for Team Members:

We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.

Execution Support:

Product Replenishment Process:

Team	Replenishment Trigger	Replenishment Location	Process
GCSO/MSP	0 Distribution Kits Remaining	Distribution Route: exact location determined by Team Leader	1. Contact warehouse to request replenishment truck 2. Coordinate replenishment location with warehouse 3. Exchange replenishment truck with empty truck
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

Warehouse

Tactics:

1. Load a minimum of 2 trucks in preparation for replenishment requests with product loads corresponding to Team Typing Matrix

Lunch

OGCS/MSP WRTs lunches will be provided by the ARC and coordinated by LEOC Logistics.

Reporting:

Tactics:

1. All WRTs will utilize iPads as the primary reporting method and the WRT Distribution Tracking Tool as a secondary method if iPads fail.

Flint Water Response Team Plan for Wednesday, 01.20.16_V2.0_FINAL

Changes are highlighted in red

iPads	10-20	10		1/19/16	2004
Hand Warmers	60	382		1/19/16	2004
Distribution Kit	100	1200		1/19/16	2004

Execution:

Key Locations

Team	**Assembly Area**	**Hours of Operation**
OGCS/MSP	LEOC Genesee County Administration Building	0830-1600

	1101 Beach St, Flint	
ARC	ARC 1401 S Grand Traverse St, Flint	0730-1600
Warehouse	4315 North Clio Road, Flint	0700-1900

Critical Task: Assemble, coordinate, and monitor WRTs

OGCS/MSP Process:

1. Assign team leaders, team members, and routes to teams
2. Team Member check in
3. Conduct pre-deployment briefing to include team mission assignments, concept of operations, deployment locations, replenishment process, reporting process, and safety briefings (refer to OGCS_MSP WRT Volunteer Assembly Information V2.0_011816 for detailed information on volunteer processing at LEOC)
5. Provide training to new team members
6. Issue vest and badge to team members
7. Execute morning distribution assignment
8. Lunch served between 1230-1330
9. WRT OIC and Team Leaders midday brief
10. Execute afternoon distribution assignment
11. Conduct post-deployment debrief with team leaders and members
12. Collect vest and badge from team members

Sample Script for Team Members:

We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.

Execution Support:

Product Replenishment Process:

Team	Replenishment Trigger	Replenishment Location	Process
GCSO/MSP	0 Distribution Kits Remaining	Distribution Route: exact location determined by Team Leader	1. Contact warehouse to request replenishment truck 2. Coordinate replenishment location with warehouse 3. Exchange replenishment truck with empty truck
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

Warehouse

Tactics:

1. Load a minimum of 2 trucks in preparation for replenishment requests with product loads corresponding to Team Typing Matrix

Lunch

OGCS/MSP WRTs lunches will be provided by the ARC and coordinated by LEOC Logistics.

Reporting:

Tactics:

1. All WRTs will utilize ipads as the primary reporting method and the WRT Distribution Tracking Tool as a secondary method if ipads fail.

Water Response Team: Concept of Operations and Support V2.0_011816

Mission: Distribute filters and additional resources to all households within the impacted area

Concept of Operations and Support

1. Planning & Prioritization
    a. Plan Components
        i. Team Type: Mission, Resources (example: Vehicles, Team Members, Product)
        ii. Priority: Priority locations for distribution within the impact area
            1. Priority locations are determined based on 3 projections: lead concentration, locations of vulnerable populations, and previous distribution locations
    b. Accountable: SEOC Recovery Branch Director
    c. Approval: State EM Director
2. Resource Support
    a. Resource Components
        i. Vehicles
        ii. Product
        iii. Personnel
        iv. Team Support (example: lunch, rain ponchos)
    b. Accountable: SEOC Logistics Section Chief
    c. Responsible: SEOC Logistics, SEOC Warehouse, American Red Cross Volunteer Resource Center
3. Execution
    a. Water Resource Team Daily Distribution
    b. Accountable: Office Genesee County Sheriff (OGCS)/Michigan State Police (MSP)
    c. Responsible: Water Response Team Officer In Charge (OIC), American Red Cross (ARC) OIC
4. Execution Support
    a. Team Replenishment
    b. Accountable: SEOC Logistics Section Chief
    c. Responsible: SEOC Warehouse
5. Reporting
    a. Distribution Reporting
    b. Accountable: Water Response Team OIC
    c. Responsible: All Water Response Teams

The below quantities are planning factors and will be continually refined based on data from WRT feedback

Team Typing

Type	Mission	Truck	Team Leader	Team Member	Team Transport Vehicle	Team Transport Driver	Patrol Car	iPad	Distribution Kit
Type I	500 HH	1 – 26' - 24' Box	1	10-20	1+	1+	1-2	1-2	500
Type II	400 HH	1 - 20' 18' Box	1	8-16	1+	1+	1-2	1-2	400
Type III	300 HH	1 16' Box	1	6-9	1+	1+	1-2	1-2	300

Warehouse	4315 North Clio Road, Flint	0700-1900

Critical Task: Assemble, coordinate, and monitor WRTs

OGCS/MSP Process:

1. Assign team leaders, team members, and routes to teams
2. Team Member check in

3. Conduct pre-deployment briefing to include team mission assignments, concept of operations, deployment locations, replenishment process, reporting process, and safety briefings (refer to OGCS_MSP WRT Volunteer Assembly Information V2.0_011816 for detailed information on volunteer processing at LEOC)
    5. Provide training to new team members
    6. Issue vest and badge to team members
    7. Execute morning distribution assignment
    8. Lunch served between 1230-1330
    9. WRT OIC and Team Leaders midday brief
    10. Execute afternoon distribution assignment
    11. *Conduct post-deployment debrief with team leaders and members*
    12. Collect vest and badge from team members

Sample Script for Team Members:

We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.

Execution Support:

Product Replenishment Process:

Team	Replenishment Trigger	Replenishment Location	Process
GCSO/MSP	100 Distribution Kits Remaining	Distribution Route: exact location determined by Team Leader	1. Contact warehouse to request replenishment truck 2. Coordinate replenishment location with warehouse 3. Exchange replenishment truck with empty truck
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

Warehouse

Tactics:

1. Load a minimum of 2 trucks in preparation for replenishment requests with product *loads corresponding to Team Typing Matrix*

Lunch

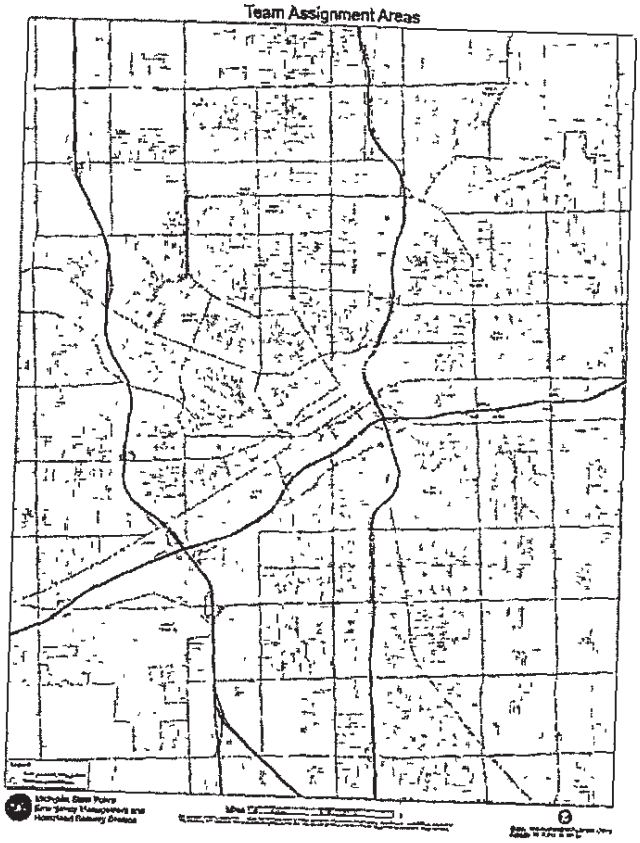
OGCS/MSP WRTs lunches will be provided by the ARC and coordinated by LEOC Logistics.

Reporting:

Tactics:

1. All WRTs will utilize ipads as the primary reporting method and the WRT Distribution Tracking Tool as a secondary method if ipads fail.

Priority Distribution Areas



OGCS/MSP WRT Volunteer Assembly Information V2.0_011816

1. Volunteer check in at 8:30am at 1101 Beach Street, Flint, MI 48502 (Genesee County Administration Building).
2. Volunteers are able to park at the overflow lot of First Trinity Missionary Baptist Church located at 1226 Beach Street Flint, MI 48502. This lot is located directly to the east of the church. The parking structure to the east of 1101 Beach Street can also be used for parking. Parking tickets will be validated. Access to the parking structure can be gained on Eighth Street just east of Beach Street. Access to the building can be gained from the southeast and southwest doors on each side of the building. Upon entering the building proceed to the basement for sign in.
3. Assignments and briefing will follow between 8:30am and 9:15am. Efforts will be made to keep groups together if requested. Volunteers should inform their team leaders of any medical, security or other needs.
4. Teams will deploy to assigned areas. Volunteers should be able to walk long distances with difficult terrain. Transportation will be provided to and from the assignment location.
5. Teams will return to 1101 Beach Street for lunch from 12:30pm-1:00pm. Lunch will be provided.
6. Teams will redeploy to the field with afternoon assignments.
7. Shifts will end between 4:30pm and 5:00pm with a return to 1101 Beach Street. All items assigned to volunteers must be returned to their team leader at the end of the day. This includes high visibility vest, tablets/IPADS, stylus, lanyards, carrying bags and paperwork.
8. Appropriate clothing should be worn for the projected weather of the day. Boots, hats and gloves are strongly encouraged.

Priority Distribution Areas

Water Response Team: Concept of Operations and Support V2.0_011816

Mission: Distribute filters and additional resources to all households within the impacted area

Concept of Operations and Support

1. Planning & Prioritization
    a. Plan Components
        i. Team Type: Mission, Resources (example: Vehicles, Team Members, Product)
        ii. Priority: Priority locations for distribution within the impact area
            1. Priority locations are determined based on 3 projections: lead concentration, locations of vulnerable populations, and previous distribution locations
    b. Accountable: SEOC Recovery Branch Director
    c. Approval: State EM Director
2. Resource Support
    a. Resource Components
        i. Vehicles
        ii. Product
        iii. Personnel
        iv. Team Support (example: lunch, rain ponchos)
    b. Accountable: SEOC Logistics Section Chief
    c. Responsible: SEOC Logistics, SEOC Warehouse, American Red Cross Volunteer Resource Center
3. Execution
    a. Water Resource Team Daily Distribution
    b. Accountable: Office Genesee County Sheriff (OGCS)/Michigan State Police (MSP)
    c. Responsible: Water Response Team Officer In Charge (OIC), American Red Cross (ARC) OIC
4. Execution Support
    a. Team Replenishment
    b. Accountable: SEOC Logistics Section Chief
    c. Responsible: SEOC Warehouse
5. Reporting
    a. Distribution Reporting
    b. Accountable: Water Response Team OIC
    c. Responsible: All Water Response Teams

The below quantities are planning factors and will be continually refined based on data from WRT feedback

Team Typing

Type	Mission	Truck	Team Leader	Team Member	Team Transport Vehicle	Team Transport Driver	Patrol Car	iPad	Distribution Kit

Water Response Team: Concept of Operations and Support

Mission: Distribute filters and additional resources to all households within the impacted area

Concept of Operations and Support

1. Planning & Prioritization
    a. Plan Components
        i. Team Type: Mission, Resources (example: Vehicles, Team Members, Product)
        ii. Priority: Priority locations for distribution within the impact area
            1. Priority locations are determined based on 3 projections: lead concentration, locations of vulnerable populations, and previous distribution locations
    b. Accountable: SEOC Recovery Branch Director
    c. Approval: State EM Director
2. Resource Support
    a. Resource Components
        i. Vehicles
        ii. Product
        iii. Personnel
        iv. Team Support (example: lunch, rain ponchos)
    b. Accountable: SEOC Logistics Section Chief
    c. Responsible: SEOC Logistics, SEOC Warehouse, American Red Cross Volunteer Resource Center
3. Execution
    a. Water Resource Team Daily Distribution
    b. Accountable: Genesee County Sheriff Office (GCSO)/Michigan State Police (MSP)
    c. Responsible: Water Response Team Officer In Charge (OIC), American Red Cross OIC
4. Execution Support
    a. Team Replenishment
    b. Accountable: SEOC Logistics Section Chief
    c. Responsible: SEOC Warehouse
5. Reporting
    a. Distribution Reporting
    b. Accountable: Water Response Team OIC
    c. Responsible: All Water Response Teams

Patrol Car	10-20				
iPads	10-20			1/16/16	1450

Distribution Kit	3000	[redacted]		1/16/16	2010

Team Type & Quantity	Type: Type V Quantity: 10				
Resource	**Required**	**Confirmed**	**Notes**	**Date**	**Time**
Team Leader	10	[redacted]		1/16/16	1450
ARC ERV	10			1/16/16	1450
ARC ERV Driver	10			1/16/16	1450
Team Member	30-60			1/16/16	1450
Team Transport Vehicle for 2-4 Team Members	10			1/16/16	1450
Team Transport Vehicle for Driver	10			1/16/16	1450
Patrol Car	0			1/16/16	1450
iPads	10-20			1/16/16	2010
Distribution Kit	1000			1/16/16	2010

Execution:

Key Locations

Team	Assembly Area	Hours of Operation
GCSO/MSP	LEOC Genesee County Administration Building 1101 Beach St, Flint	0830-1600
ARC	ARC 1401 S Grand Traverse St, Flint	0730-1600
Warehouse	4315 North Clio Road, Flint	0700-1900

Critical Task: Assemble, coordinate, and monitor WRTs

GCSO/MSP Process:

1. Assign team leaders, team members, and routes to teams
2. Team Member check in
3. Conduct pre-deployment briefing to include team mission assignments, concept of operations, deployment locations, replenishment process, reporting process, and safety briefings (refer to GCSO_MSP_Volunteer Assembly Information_V1.0_011716 for detailed information on volunteer processing at LEOC)
5. Provide training to new team members
6. Issue vest and badge to team members
7. Execute morning distribution assignment
8. Lunch served between 1230-1330
9. WRT OIC and Team Leaders midday brief
10. Execute afternoon distribution assignment

11. Conduct post-deployment debrief with team leaders and members
7. Collect vest and badge from team members

Sample Script for Team Members:

We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.

Execution Support:

Product Replenishment Process:

Team	Replenishment Trigger	Replenishment Location	Process
GCSO/MSP	100 Distribution Kits Remaining	Distribution Route: exact location determined by Team Leader	1. Contact warehouse to request replenishment truck 2. Coordinate replenishment location with warehouse 3. Exchange replenishment truck with empty truck
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

Warehouse

Tactics:

1. Load a minimum of 2 trucks in preparation for replenishment requests with product loads corresponding to Team Typing Matrix

Lunch

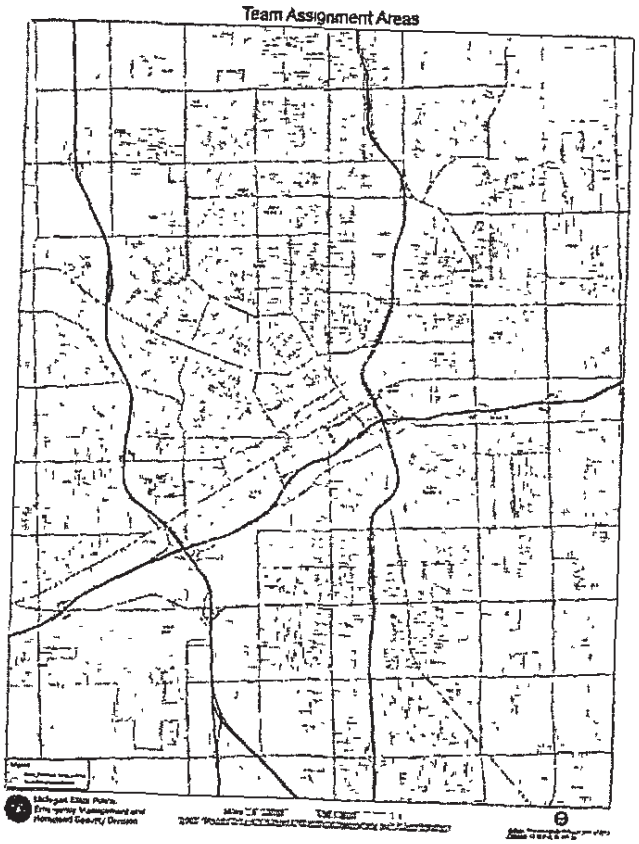
- GCSO/MSP WRTs lunches will be provided by the ARC and coordinated by LEOC Logistics.

Reporting:

Tactics:

1. All WRTs will utilize ipads as the primary reporting method and the WRT Distribution Tracking Tool as a secondary method if ipads fail. Refer to WRT Distribution Tracking Tool_V1.0_011716

Priority Distribution Areas



Water Resource Team: Concept of Operations and Support

Goal: Increase the number of households served per day by the Water Resource Teams through scalable resource optimization

How: Standardize and Support

1. Standardize the team composition and resource requirements
2. Provide end to end support to the Water Resource Teams

Concept of Operations and Support

1. Planning & Prioritization
    a. Plan Components
        i. Team Type: Mission, Resources (Vehicles, Members) Product
        ii. Priority: Wards/Precincts
    b. Accountable: SEOC Recovery Branch Director
    c. Approval: State EM Director
2. Resource Support
    a. Resource Components
        i. Vehicles
        ii. Product
        iii. Personnel
        iv. Lunch
    b. Accountable: SEOC Logistics Section Chief
    c. Responsible: SEOC Logistics, SEOC Warehouse, American Red Cross Volunteer Resource Center
3. Execution
    a. Water Resource Team Daily Distribution
    b. Accountable: MSP
    c. Responsible: MSP Water Resource Commander, American Red Cross OIC
4. Execution Support
    a. Team Replenishment
    b. Accountable: SEOC Logistics Section Chief
    c. Responsible: SEOC Warehouse
5. Reporting
    a. Distribution Reporting
    b. Accountable: MSP Water Resource Commander
    c. Responsible: All Water Resource Teams

Target Area Prioritization Map

Key

MSP	Black 1-7
ARC	Blue 1-6

1. Situation:

There are 45,000 active water meters in the impacted area
As of 2130 on 01.13.16 17, 276 households have received water filters
MAP

2. Mission Statement:

Ensure all households within the impacted area have the required resources

3. Execution
   a. Commander's Intent
      i. Distribute filters and additional resources to all impacted households within 5 days. The priority of effort is the Fixed Points of Distribution (PODs).
   b. Concept of Operations
      i. Distribution of resources will be conducted using 4 methods: Fixed PODs, Mobile Distribution Teams, Rapid Response Distributions, and Local Partner Distributions.
      ii. Tasks
         i. Fixed PODs
            1. Red Cross will staff all sites through ~~XXX~~1/14
            2. Red Cross will conduct transition brief with Michigan National Guard on ~~XXX~~1/15
            3. Michigan National Guard will assume staffing responsibility as of ~~XXX~~1/15
         ii. Mobile Distribution is being conducted via Water ~~Resource~~ Response Teams
            1. Recovery Branch Support will determine Water ~~Resource~~ Response Team composition, standards, resource requirements, and priority areas for distribution
            2. Michigan State Police will provide command and control (assemble, coordinate, monitor) of Water ~~Resource~~ Response Teams
         iii. Rapid Response Distributions
            1. Local EOC Operations Section Chief/District Coordinator will approve partner requests for distribution support
            2. Local EOC Operations Logistics will execute Rapid Response Distributions
         iv. Local Partner Distributions
            1. Local EOC Operations Section Chief/District Coordinator will approve partner requests for distribution support
            2. XXX will execute partner requests for distribution support
   c. Coordinating Instructions
      i. Fixed PODs are located at 5 fire stations.
         i. POD Locations

Water Resource Site Fire Station 1	310 East Fifth, Flint, MI 48502	0900-2100
Water Resource Site Fire Station 3	1525 Martin Luther King Ave. Flint, MI 48503	0900-2100
Water Resource Site Fire Station 5	3402 Western Rd, Flint, MI	0900-2100
Water Resource Site Fire Station 6	716 West Pierson Rd, Flint, MI	0900-2100

	48505	
Water Resource Site Fire Station 8	202 East Atherton, Flint, MI 48507	0900-2100

2. POD Product Composition
    1. **NEED FROM SHAWN**

ii. Mobile Distribution is being conducted via Water ~~Resource~~ Response Teams
    1. **Assembly area**
    2. **Mission Ready Packets**

iii. Rapid Response Distributions
    1. **NEED PROCESS FROM MICHELLE**

iv. Local Partner Distributions
    1. **NEED PROCESS FROM MICHELLE**

d. Concept of Support
    i. Resourcing support for all distribution methods will be provided via a consolidated logistics pipeline. Replenishment will be conducted automatically and on demand. Reception, Staging, and Onward Integration (RSOI) of material resources will be managed via a warehouse system and RSOI of personnel resources will be managed via a Volunteer Reception Center and XXX (State Employees)
    ii. Tasks
        1. SEOC Logistics Section Chief is accountable for resourcing support for all distribution methods and maintaining end to end visibility of all resources requests
        2. SEOC Logistics Order Unit~~Support~~ Staff is accountable for maintaining the Pipeline Report to ensure accurate resource tracking
        3 Red Cross Warehouse Managers will provide warehouse management and are accountable to the SEOC Logistics Section Chief
        ~~3~~ 4. SEOC Planning Resources Unit is responsible for tracking resources that are deployed.
        4. Red Cross will manage the Volunteer Reception Center in coordination w/ local EOC
        5. Local EOC Logistics will provide logistics support to the Rapid Response Distributions

    iii. Warehouse System
        1. Currently operating 3 locations with intent to consolidate to single, central location

Name	Location	Hours of Operation	POC
GCARD	2727 Lippincott, Flint , MI		Shawn
Clio	4315 North Clio Road, Flint, MI	Somehow mark this as the final warehouse were	John Foust

		everything will go???	
Court	3086 East Court Street		John Foust

iv. Volunteer Reception Center
   1. 1 location managed by American Red Cross
   2. The volunteer intake process takes 20-30 minutes.

Name	Location	Hours of Operation	POC
American Red Cross	1401 S Grand Traverse Flint, MI 48503	0900-1900	

v. Resource Request and Tracking Process
   1. Pipeline Report
   2. ~~https://goo.gl/G31kyJhttps://docs.google.com/spreadsheets/d/1wXVQvQ2IJ6N-ORpo8bvtBIEQJrDxkyoPg-EjZRtNepg/edit?usp=sharing~~
   2. All resource requests and offers of support (people, product, facilities, vehicles, etc) will be entered into MI CIMS as a resource request to the SEOC Logistic Section Chief.
   3. The SEOC Logistic Section Chief will task it out to the State or Volunteer Agency that can fill that request or procure as necessary
   4. All resource requests and offers of support will be tracked and monitored via the Pipeline report (Google docs collaboration document)
   5. Warehouse inventories will be sent to the SEOC Logistic Section Chief daily at 1800 and incorporated into the Pipeline report
   6. Volunteer Workforce Request for Volunteer Reception Center
      1. REQUIRED INFORMATION:
         i. Who is the Point Of Contact?
         ii. Who is the supervisor?
         iii Where do volunteers report?
         iv. What Dates are volunteers needed?
         v. What times are volunteers needed?
         vi. How many volunteers are needed?
         vii. Who is providing transportation for the volunteers?
         viii. *Who is providing meals, snacks and beverages?*
         ix. Are there any qualifications needed?
         x. IMPORTANT NOTE:
            - Brief job description is required
            - The requestor of the volunteers must understand they assume responsibility for the volunteer's safety and the volunteer's actions.
            - The requestor of the volunteers are responsible for managing and providing direction.
            - 48 hour advance notification required for request.
            - Reasonable expectations of the volunteer workforce

2. POD inventory will be provided to local EOC or SEOC Planning resource unit (this needs to be determined) hourly

Formatted

3. POD distribution report provided to local EOC or SEOC Planning resource unit (this needs to be determined) at 1200 and 1800 (This is a list of equipment that has been taken off the trucks and put in the PODs).
4. Fixed PODs, SEOC Planning resource unit needs to know total staff from each agency for tracking at 1000 each day.
5. Mobile Distribution is being conducted via Water Response Teams, SEOC Planning resource unit needs to know total staff from each agency for tracking at 1000 each day.
6. Mobile Distribution is being conducted via Water Response Teams, SEOC Planning resource unit needs to know amounts that have been distributed for tracking at 1800 each day.
7. Rapid Response Distributions, SEOC Planning resource unit needs to know amounts that have been distributed for tracking at 1800 each day.
8. Local Partner Distributions, SEOC Planning resource unit needs to know amounts that have been distributed for tracking at 1800 each day.

1. Situation:

There are 45,000 active water meters in the impacted area
As of 2130 on 01.13.16 17, 276 households have received water filters
MAP

2. Mission Statement:

Ensure all households within the impacted area have the required resources

3. Execution
   a. Commander's Intent
      i. Distribute filters and additional resources to all impacted households within 5 days. The priority of effort is the Fixed Points of Distribution (PODs).
   b. Concept of Operations
      i Distribution of resources will be conducted using 4 methods: Fixed PODs, Mobile Distribution Teams, Rapid Response Distributions, and Local Partner Distributions.
      ii. Tasks
         i. Fixed PODs
            1. Red Cross will staff all sites through ~~XXX~~1/14
            2. Red Cross will conduct transition brief with Michigan National Guard on ~~XXX~~1/15
            3. Michigan National Guard will assume staffing responsibility as of ~~XXX~~1/15
         ii. Mobile Distribution is being conducted via Water ~~Resource~~ Response Teams
            1. Recovery Branch Support will determine Water ~~Resource~~ Response Team composition, standards, resource requirements, and priority areas for distribution
            2. Michigan State Police will provide command and control (assemble, coordinate, monitor) of Water ~~Resource~~ Response Teams
         iii. Rapid Response Distributions
            1. Local EOC Operations Section Chief/District Coordinator will approve partner requests for distribution support
            2. Local EOC Operations Logistics will execute Rapid Response Distributions
         iv. Local Partner Distributions
            1. Local EOC Operations Section Chief/District Coordinator will approve partner requests for distribution support
            2. XXX will execute partner requests for distribution support
   c. Coordinating Instructions
      i. Fixed PODs are located at 5 fire stations.
         i. POD Locations

Water Resource Site Fire Station 1	310 East Fifth, Flint, MI 48502	0900-2100
Water Resource Site Fire Station 3	1525 Martin Luther King Ave. Flint, MI 48503	0900-2100
Water Resource Site Fire Station 5	3402 Western Rd, Flint, MI	0900-2100
Water Resource Site Fire Station 6	716 West Pierson Rd, Flint, MI	0900-2100

	48505	
Water Resource Site Fire Station 8	202 East Atherton, Flint, MI 48507	0900-2100

2. POD Product Composition
    1. **NEED FROM SHAWN**

ii. Mobile Distribution is being conducted via Water ~~Resource~~ Response Teams
    1. **Assembly area**
    2. **Mission Ready Packets**

iii. Rapid Response Distributions
    1. **NEED PROCESS FROM MICHELLE**

iv. Local Partner Distributions
    1. **NEED PROCESS FROM MICHELLE**

d. Concept of Support
    i. Resourcing support for all distribution methods will be provided via a consolidated logistics pipeline. Replenishment will be conducted automatically and on demand. Reception, Staging, and Onward Integration (RSOI) of material resources will be managed via a warehouse system and RSOI of personnel resources will be managed via a Volunteer Reception Center and XXX (State Employees)
    ii. Tasks
        1. SEOC Logistics Section Chief is accountable for resourcing support for all distribution methods and maintaining end to end visibility of all resources requests
        2. SEOC Logistics Order Unit~~Support~~ Staff is accountable for maintaining the Pipeline Report to ensure accurate resource tracking
        3 Red Cross Warehouse Managers will provide warehouse management and are accountable to the SEOC Logistics Section Chief
        ~~3~~ 4. SEOC Planning Resources Unit is responsible for tracking resources that are deployed.
        4. Red Cross will manage the Volunteer Reception Center in coordination w/ local EOC
        5. Local EOC Logistics will provide logistics support to the Rapid Response Distributions

    iii. Warehouse System
        1. Currently operating 3 locations with intent to consolidate to single, central location

Name	Location	Hours of Operation	POC
GCARD	2727 Lippincott, Flint , MI		Shawn
Clio	4315 North Clio Road, Flint, MI	Somehow mark this as the final warehouse were	John Foust

		everything will go???	
Court	3086 East Court Street		John Foust

iv. Volunteer Reception Center
   1. *1 location managed by American Red Cross*
   2. The volunteer intake process takes 20-30 minutes.

Name	Location	Hours of Operation	POC
American Red Cross	1401 S Grand Traverse Flint, MI 48503	0900-1900	

v. Resource Request and Tracking Process
   1. Pipeline Report
   2. ~~https://goo.gl/G31kyJhttps://docs.google.com/spreadsheets/d/1wXVQvQ2IJ6N_ORpo8bvtBIEQJrDxkyoPg_EiZRtNepg/edit?usp=sharing~~
   2. All resource requests and offers of support (people, product, facilities, vehicles, etc) will be entered into MI CIMS as a resource request to the SEOC Logistic Section Chief.
   3. The SEOC Logistic Section Chief will task it out to the State or Volunteer Agency that can fill that request or procure as necessary
   4. All resource requests and offers of support will be tracked and monitored via the Pipeline report (Google docs collaboration document)
   5. Warehouse inventories will be sent to the SEOC Logistic Section Chief daily at 1800 and incorporated into the Pipeline report
   6. Volunteer Workforce Request for Volunteer Reception Center
      1. REQUIRED INFORMATION:
         i. Who is the Point Of Contact?
         ii. Who is the supervisor?
         iii. Where do volunteers report?
         iv. What Dates are volunteers needed?
         v. What times are volunteers needed?
         vi. How many volunteers are needed?
         vii. Who is providing transportation for the volunteers?
         viii. Who is providing meals, snacks and beverages?
         ix. Are there any qualifications needed?
         x. *IMPORTANT NOTE:*
            - Brief job description is required
            - The requestor of the volunteers must understand they assume responsibility for the volunteer's safety and the volunteer's actions.
            - The requestor of the volunteers are responsible for managing and providing direction.
            - 48 hour advance notification required for request.
            - Reasonable expectations of the volunteer workforce

2. POD inventory will be provided to local EOC or SEOC Planning resource unit (this needs to be determined) hourly

Formatted

3. *POD distribution report provided to local EOC or SEOC Planning resource unit (this needs to be determined) at 1200 and 1800. (This is a list of equipment that has been taken off the trucks and put in the PODs).*
4. Fixed PODs, SEOC Planning resource unit needs to know total staff from each agency for tracking at 1000 each day.
5. Mobile Distribution is being conducted via Water Response Teams, SEOC Planning resource unit needs to know total staff from each agency for tracking at 1000 each day.
6. Mobile Distribution is being conducted via Water Response Teams, SEOC Planning resource unit needs to know amounts that have been distributed for tracking at 1800 each day.
7. Rapid Response Distributions, SEOC Planning resource unit needs to know amounts that have been distributed for tracking at 1800 each day.
8. Local Partner Distributions, SEOC Planning resource unit needs to know amounts that have been distributed for tracking at 1800 each day.

Request/Task Details

Mission Name

Motorola XTS 5000 Battery replacements and charging stations

Detailed description

Genesee County Sheriff has given radios to the red cross teams for status checks from the EOC on inventory. The battery life is not sufficient for the duration of the daily activities and are dying. If National Guard is going to be using the radios they will still need to battery replacements and charging stations.

Requesting 20 replacement batteries
Requesting 5 charging stations.

Serial number on the battery pack is 5000010BE829

1/13/16 - Message left for both F/Lt. Heindel and Sgt. Leece reference this request.

                2. Red Cross will conduct transition brief with Michigan National Guard on **XXX**
                3. Michigan National Guard will assume staffing responsibility as of **XXX**
            ii. Mobile Distribution is being conducted via Water Resource Teams
                1. Recovery Branch Support will determine Water Resource Team composition, standards, resource requirements, and priority areas for distribution
                2. Michigan State Police will provide command and control (assemble, coordinate, monitor) of Water Resource Teams
            iii. Rapid Response Distributions
                1. Local EOC Operations Section Chief/District Coordinator will approve partner requests for distribution support
                2. Local EOC Operations Logistics will execute Rapid Response Distributions
            iv. Local Partner Distributions
                1. Local EOC Operations Section Chief/District Coordinator will approve partner requests for distribution support
                2. **XXX** will execute partner requests for distribution support
    c. Coordinating Instructions
        i. Fixed PODs are located at 5 fire stations.
            i. POD Locations

Water Resource Site Fire Station 1	310 East Fifth, Flint, MI 48502	0900-2100
Water Resource Site Fire Station 3		
Water Resource Site Fire Station 5		
Water Resource Site Fire Station 6		
Water Resource Site Fire Station 8		

2. POD Product Composition
    1. **NEED FROM SHAWN**

ii. Mobile Distribution is being conducted via Water Resource Teams
    1. **Assembly area**
    2. **Mission Ready Packets**

iii. Rapid Response Distributions
    1. **NEED PROCESS FROM MICHELLE**

iv. Local Partner Distributions
    1. **NEED PROCESS FROM MICHELLE**

d. Concept of Support
    i. Resourcing support for all distribution methods will be provided via a consolidated logistics pipeline. Replenishment will be conducted automatically and on demand. Reception, Staging, and Onward Integration (RSOI) of material resources will be managed via a warehouse system and RSOI of personnel resources will be managed via a Volunteer Reception Center and XXX (State Employees)
    ii. Tasks
        1. SEOC Logistics Section Chief is accountable for resourcing support for all distribution methods and maintaining end to end visibility of all resources
        2. SEOC Logistics Support Staff is accountable for maintaining the Pipeline Report to ensure accurate resource tracking
        3. Red Cross Warehouse Managers will provide warehouse management and are accountable to the SEOC Logistics Section Chief
        4. Red Cross will manage the Volunteer Reception Center
        5. Local EOC Logistics will provide logistics support to the Rapid Response Distributions

    iii. Warehouse System
        1. Currently operating 3 locations with intent to consolidate to single, central location

Name	Location	Hours of Operation	POC
GCARD	2727 Lippincott, Flint , MI		Shawn
Clio	4315 North Clio Road, Flint, MI		John Foust
Court	3086 East Court Street		John Foust

    iv. Volunteer Reception Center
        1. 1 location managed by American Red Cross
        2. The volunteer intake process takes 20-30 minutes.

Name	Location	Hours of Operation	POC
American Red Cross	1401 S Grand Traverse Flint, Mi 48503	0900-1900	

v. Resource Request and Tracking Process

1. Pipeline Report
   https://docs.google.com/spreadsheets/d/1wXVQvQ2lJ6N_ORpo8bvtBIEQJrDxkyoPg-EjZRtNepg/edit?usp=sharing
2. All resource requests and offers of support (people, product, facilities, vehicles, etc) will be entered into MI CIMS as a resource request to the SEOC Logistic Section Chief.
3. The SEOC Logistic Section Chief. will task it out to the State or Volunteer Agency that can fill that request or procure as necessary
4. All resource requests and offers of support will be tracked and monitored via the Pipeline report (Google docs collaboration document)
5. Warehouse inventories will be sent to the SEOC Logistic Section Chief. daily at 1800 and incorporated into the Pipeline report
6. Volunteer Workforce Request for Volunteer Reception Center
   1. REQUIRED INFORMATION:
      i. Who is the Point Of Contact?
      ii. Who is the supervisor?
      iii. Where do volunteers report?
      iv. What Dates are volunteers needed?
      v. What times are volunteers needed?
      vi. How many volunteers are needed?
      vii. Who is providing transportation for the volunteers?
      viii. Who is providing meals, snacks and beverages?
      ix. Are there any qualifications needed?
      x. IMPORTANT NOTE:
         - Brief job description is required
         - The requestor of the volunteers must understand they assume responsibility for the volunteer's safety and the volunteer's actions.
         - The requestor of the volunteers are responsible for managing and providing direction.
         - 48 hour advance notification required for request.
         - Reasonable expectations of the volunteer workforce

STATE OF MICHIGAN
EXECUTIVE OFFICE
LANSING

RICK SNYDER
GOVERNOR

BRIAN CALLEY
LT. GOVERNOR

PROCLAMATION

DECLARATION OF EMERGENCY

WHEREAS, Section 1 of Article V of the Michigan Constitution of 1963 vests the executive power of the state of Michigan in the Governor; and

WHEREAS, under the Emergency Management Act, Act No. 390 of the Public Acts of 1976, as amended, MCL 30.401 to 30.421, the Governor is responsible for coping with dangers to this state or the people of this state presented by a disaster or emergency or threat thereof, and may issue executive orders and proclamations, having the force and effect of law to implement the Act; and

WHEREAS, under Section 3 of the Emergency Management Act, 1976 Public Act 390, MCL 30.403, the Governor shall, by executive order or proclamation, declare a state of emergency if the Governor finds that an emergency has occurred or that the threat of an emergency exists; and

WHEREAS, on April 25, 2014 the City of Flint, Michigan switched from the Detroit water system to the Flint River as a water source, the harmful effects of untreated water struck the city's water infrastructure, causing leaching of lead into the water which caused damage to the water system and potential negative health impacts to the citizens; and

WHEREAS, the area affected includes parts of the City of Flint, within the County of Genesee; and

WHEREAS, the damaged water infrastructure and leaching of lead into the city's water caused damage to public and private water infrastructure, and has either caused or threatened to cause elevated blood lead levels, especially in the population of children and pregnant women, and causing a potential immediate threat to public health and safety and disrupting vital community services; and

WHEREAS, from October 1, 2015 to this date, the County of Genesee and the City of Flint have taken a number of actions to cope with the situation, including but not limited to, switching back to the Detroit water system on October 16th, declaring local states of emergency, activating the emergency response and recovery aspects of their emergency operations plan, marshaling

and distributing required resources on a city-wide level, and issuing emergency public information and bulletins; and

WHEREAS, local resources have been insufficient to address the situation, and additional assistance from voluntary organizations and the state is required to protect public health, safety, and property, and to lessen or avert the threat of more severe and long lasting impacts to the community;

NOW, THEREFORE, I, RICHARD D. SNYDER, Governor of the state of Michigan, pursuant to the Constitution of the state of Michigan and provisions of Act No. 390 of the Public Acts of 1976, as amended, do hereby proclaim that a state of emergency exists in the aforementioned county and municipality; and

FURTHER, the Emergency Management and Homeland Security Division of the Department of State Police shall coordinate and maximize all state efforts, and may call upon all state departments to utilize resources at their avail to assist in the emergency area pursuant to the Michigan Emergency Management Plan; and

FURTHER, termination of this emergency will occur at such time as the threats to public health, safety, and property caused by the emergency no longer exist and appropriate programs have been implemented to recover from the effects of this emergency, but in no case longer than February 1, 2016, unless extended as provided by Act No. 390.

Given under my hand and the Great Seal of the State of Michigan this 5th day of January in the Year of Our Lord, Two Thousand and Sixteen.

RICHARD D. SNYDER
GOVERNOR

DECLARATION OF EMERGENCY

WHEREAS, Section 1 of Article V of the Michigan Constitution of 1963 vests the executive power of the state of Michigan in the Governor; and

WHEREAS, under the Emergency Management Act, Act No. 390 of the Public Acts of 1976, as amended, MCL 30.401 to 30.421, the Governor is responsible for coping with dangers to this state or the people of this state presented by a disaster or emergency or threat thereof, and may issue executive orders and proclamations, having the force and effect of law to implement the Act; and

WHEREAS, under Section 3 of the Emergency Management Act, 1976 Public Act 390, MCL 30.403, the Governor shall, by executive order or proclamation, declare a state of emergency if the Governor finds that an emergency has occurred or that the threat of an emergency exists; and

WHEREAS, on April 25, 2014 the City of Flint, Michigan switched from the Detroit water system to the Flint River as a water source, the harmful effects of untreated water struck the city's water infrastructure, causing leaching of lead into the water which caused damage to the water system and potential negative health impacts to the citizens; and

WHEREAS, the area affected includes parts of the City of Flint, within the County of Genesee; and

WHEREAS, the damaged water infrastructure and leaching of lead into the city's water caused damage to public and private water infrastructure, and has either caused or threatened to cause elevated blood lead levels, especially in the population of children and pregnant women, and causing a potential immediate threat to public health and safety and disrupting vital community services; and

WHEREAS, from October 1, 2015 to this date, the County of Genesee and the City of Flint have taken a number of actions to cope with the situation, including but not limited to, switching back to the Detroit water system on October 16th, declaring local states of emergency, activating the emergency response and recovery aspects of their emergency operations plan, marshaling

and distributing required resources on a city-wide level, and issuing emergency public information and bulletins; and

WHEREAS, local resources have been insufficient to address the situation, and additional assistance from voluntary organizations and the state is required to protect public health, safety, and property, and to lessen or avert the threat of more severe and long lasting impacts to the community;

NOW, THEREFORE, I, RICHARD D. SNYDER, Governor of the state of Michigan, pursuant to the Constitution of the state of Michigan and provisions of Act No. 390 of the Public Acts of 1976, as amended, do hereby proclaim that a state of emergency exists in the aforementioned county and municipality; and

FURTHER, the Emergency Management and Homeland Security Division of the Department of State Police shall coordinate and maximize all state efforts, and may call upon all state departments to utilize resources at their avail to assist in the emergency area pursuant to the Michigan Emergency Management Plan; and

FURTHER, termination of this emergency will occur at such time as the threats to public health, safety, and property caused by the emergency no longer exist and appropriate programs have been implemented to recover from the effects of this emergency, but in no case longer than February 1, 2016, unless extended as provided by Act No. 390.

Given under my hand and the
Great Seal of the State of Michigan this
5th day of January in the Year of Our
Lord, Two Thousand and Sixteen.

RICHARD D. SNYDER
GOVERNOR

BY THE GOVERNOR:

Incident Action Plan

Flint Water Incident

2015-10-01

1/28/2016

INCIDENT OBJECTIVES	1. Incident Name Flint Water 2015-10-01	2. Date 1/27/2016	3. Time 1830

4. *Operational Period*
1-28-2016 0800 - 1700

5. General Control Objectives for the Incident (include alternatives)

Maintain a *Unified Command* System and work to complete the objectives charged to the Flint Water Incident by the Director.

Maintain clear communications and flow of information with the divisions and agencies working on the Flint Water Incident.

Continue Implementation of steps in accordance to the plan to fulfill or meet the tasks handed down in the EPA Order of January 21, 2016.

Continue Implementation of steps as outlined in the plan and timeline to establish safe drinking water through appropriate DEQ staff.

7. Control Operations

-Implement actions in accordance with the Safe Drinking Water Act and EPA Administration Order: The Michigan Department of Environmental Quality (MDEQ) will work cooperatively with the United States Environmental Protection Agency (EPA) and the City of Flint to implement the department's duties under the Safe Drinking Water Act and the EPA Administrative Order issued on January 21, 2016.

-Continue Coordination with the City of Flint: The DEQ and other State agencies will continue to meet with the City of Flint at least weekly to identify additional actions needed until these meetings are no longer applicable.

8. Special Instructions

-Review timelines pertaining to EPA order and make sure deadlines are met.
-Identify personnel available for implementing group operations

7. Control Operations

-Inventory City of Flint Lead Service Lines: The DEQ will consult and coordinate with other services (such as plumbers, contractors, etc) to prepare a comprehensive inventory through the use of mapping which covers the inside of the schools in regards to lead service lines in Flint.

- Inventory City of Flint Lead Service Lines: The DEQ will consult and coordinate with other services (such as plumbers, contractors, etc) to prepare a comprehensive inventory through the use of mapping which covers the outside infrastructure of the schools in regards to lead service lines in Flint.

-Identify replacement faucets at Schools and Other Public Locations: The Michigan Department of Licensing and Regulatory Affairs will be working in conjunction with DEQ to replace all problematic fixtures in Flint's 200 public schools, daycares, and other places of congregation.

8. Special Instructions

-Provide any mapping information to GIS support.

-Identify personnel available for implementing group operations.

7. Control Operations

-Establish metrics needed to meet criteria for Safe Drinking Water: The DEQ will coordinate with all partners, including the Department of Health and Human Services (DHHS), the City of Flint, Genesee County Health Department, EPA, and others, to determine what criteria are needed in order to declare the water in Flint Safe.
-Evaluate plan for KWA source; consult long term plan and appropriate leadership.
-Create workgroup to devise Long Term Goals.

8. Special Instructions

-Identify and set up a meeting with the pertinent entities once initial data points are obtained.
-Identify personnel available for implementing group operations.
-Plan for technical staff, Richard Benzie to have a follow up meeting with EPA science based team with in the next four business days.
-Plan for DEQ resource staff, Richard Benzie and Mike Prizbee to attend 1/29 Flint City Meeting to speak to the KWA system.
-Identify your working groups and group leaders by planning meeting 1/28.

7. Control Operations

-Complete sampling of highest priority homes: Those areas identified as having the greatest risk for lead exposure. Ensure training needs are met for the Flint Drinking Water Sampling Teams on how to properly pull a sample for collection purposes. The team will visit the 200 identified sites once every two weeks for two months (February-March) to pick up samples, verify integrity of samples and maintain good processes.

-Assure Access to Sampling for all Flint Residents: Outside the greatest risks areas provide additional sampling to all residents. Ensure Residents will receive an official laboratory report, indicating whether or not lead or copper were detected in their water.

-Monitor Blood Levels of Residents in High Priority Homes: Blood level testing and analysis will occur by the DHHS or Genesee County Health Department. Blood level testing will occur in conjunction with the first, second, third and fourth samples of water testing.

-At schools and other public locations the Michigan Department of Licensing and Regulatory Affairs will be working in conjunction with DEQ to replace all problematic fixtures in Flint's 200 public schools, daycares, and other places of congregation.

-Test Drinking Water Distribution System: The DEQ will coordinate with the City of Flint on weekly testing of the drinking water distribution system to determine if there are any issues with lead occurring within the system.

-Verify Lab Results: All residential, school, distribution system, and other tests will be completed at the DEQ laboratory. A random set of samples will be split and samples will be analyzed by the National Science Foundation (NSF) to validate the results.

8. Special Instructions.

-Identify sampling teams and provide the information to ECC
-Ensure sampling follows Testing Plan Process and Protocals
-Identify personnel available for implementing group operations
-Consider ways to increase sampling as needed.

DRINKING WATER WARNING

The City of Flint water system lost pressure and contamination may have occurred
BOIL YOUR FILTERED WATER BEFORE USING

Due to a drop in pressure in the City of Flint water supply, bacterial contamination may have occurred in the water system. Bacteria are generally not harmful and are common throughout our environment. Corrective measures are currently being undertaken to correct the situation.

What should I do?

AS A PRECAUTIONARY MEASURE, DO NOT DRINK THE WATER WITHOUT BOILING IT FIRST. Bring all FILTERED water to a boil, let it boil for one minute, and let it cool before using, or use bottled water. If you are currently NOT using a filter to remove lead from drinking water, FLUSH your water for AT LEAST 7 minutes before collecting any to boil. Boiled FILTERED, boiled FLUSHED, or bottled water should be used for drinking, making ice, brushing teeth, washing dishes, and preparing food. Boiling kills bacteria and other organisms in the water. Continue using boiled or bottled water until further notice.

Due to the pressure loss, there may be trapped air and loose sediment in your water lines. The air and sediment may be removed by flushing you water system. DO NOT FLUSH YOUR SYSTEM THROUGH THE FILTER. The resulting air and sediment may affect the performance of your filter and the filter cartridge should be replaced.

What happened? What is being done?

These precautionary actions are being taken due to the loss of water pressure in the water distribution system caused by a water transmission main break on February 9, 2016. Whenever a water system loses pressure for any significant length of time, precautionary measures are recommended.

The City of Flint Water Department is working to get pressure restored, and water staff will be taking other remedial actions such as flushing and collecting bacteriological samples from around the system. The samples will be collected to determine that the water quality meets the state drinking water standards. We will inform you when tests show no bacteria and you no longer need to boil your water. We anticipate resolving the problem later today. This precautionary boil water notice shall remain in effect until results from the sampling verify the water is safe to drink. **Customers will be advised when the boil water advisory has been lifted.**

For more information, please contact The City of Flint Water Department at (810) 766-7202. General guidelines on ways to lessen the risk of infection by microbes are available from the EPA Safe Drinking Water Hotline at 1(800) 426-4791.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

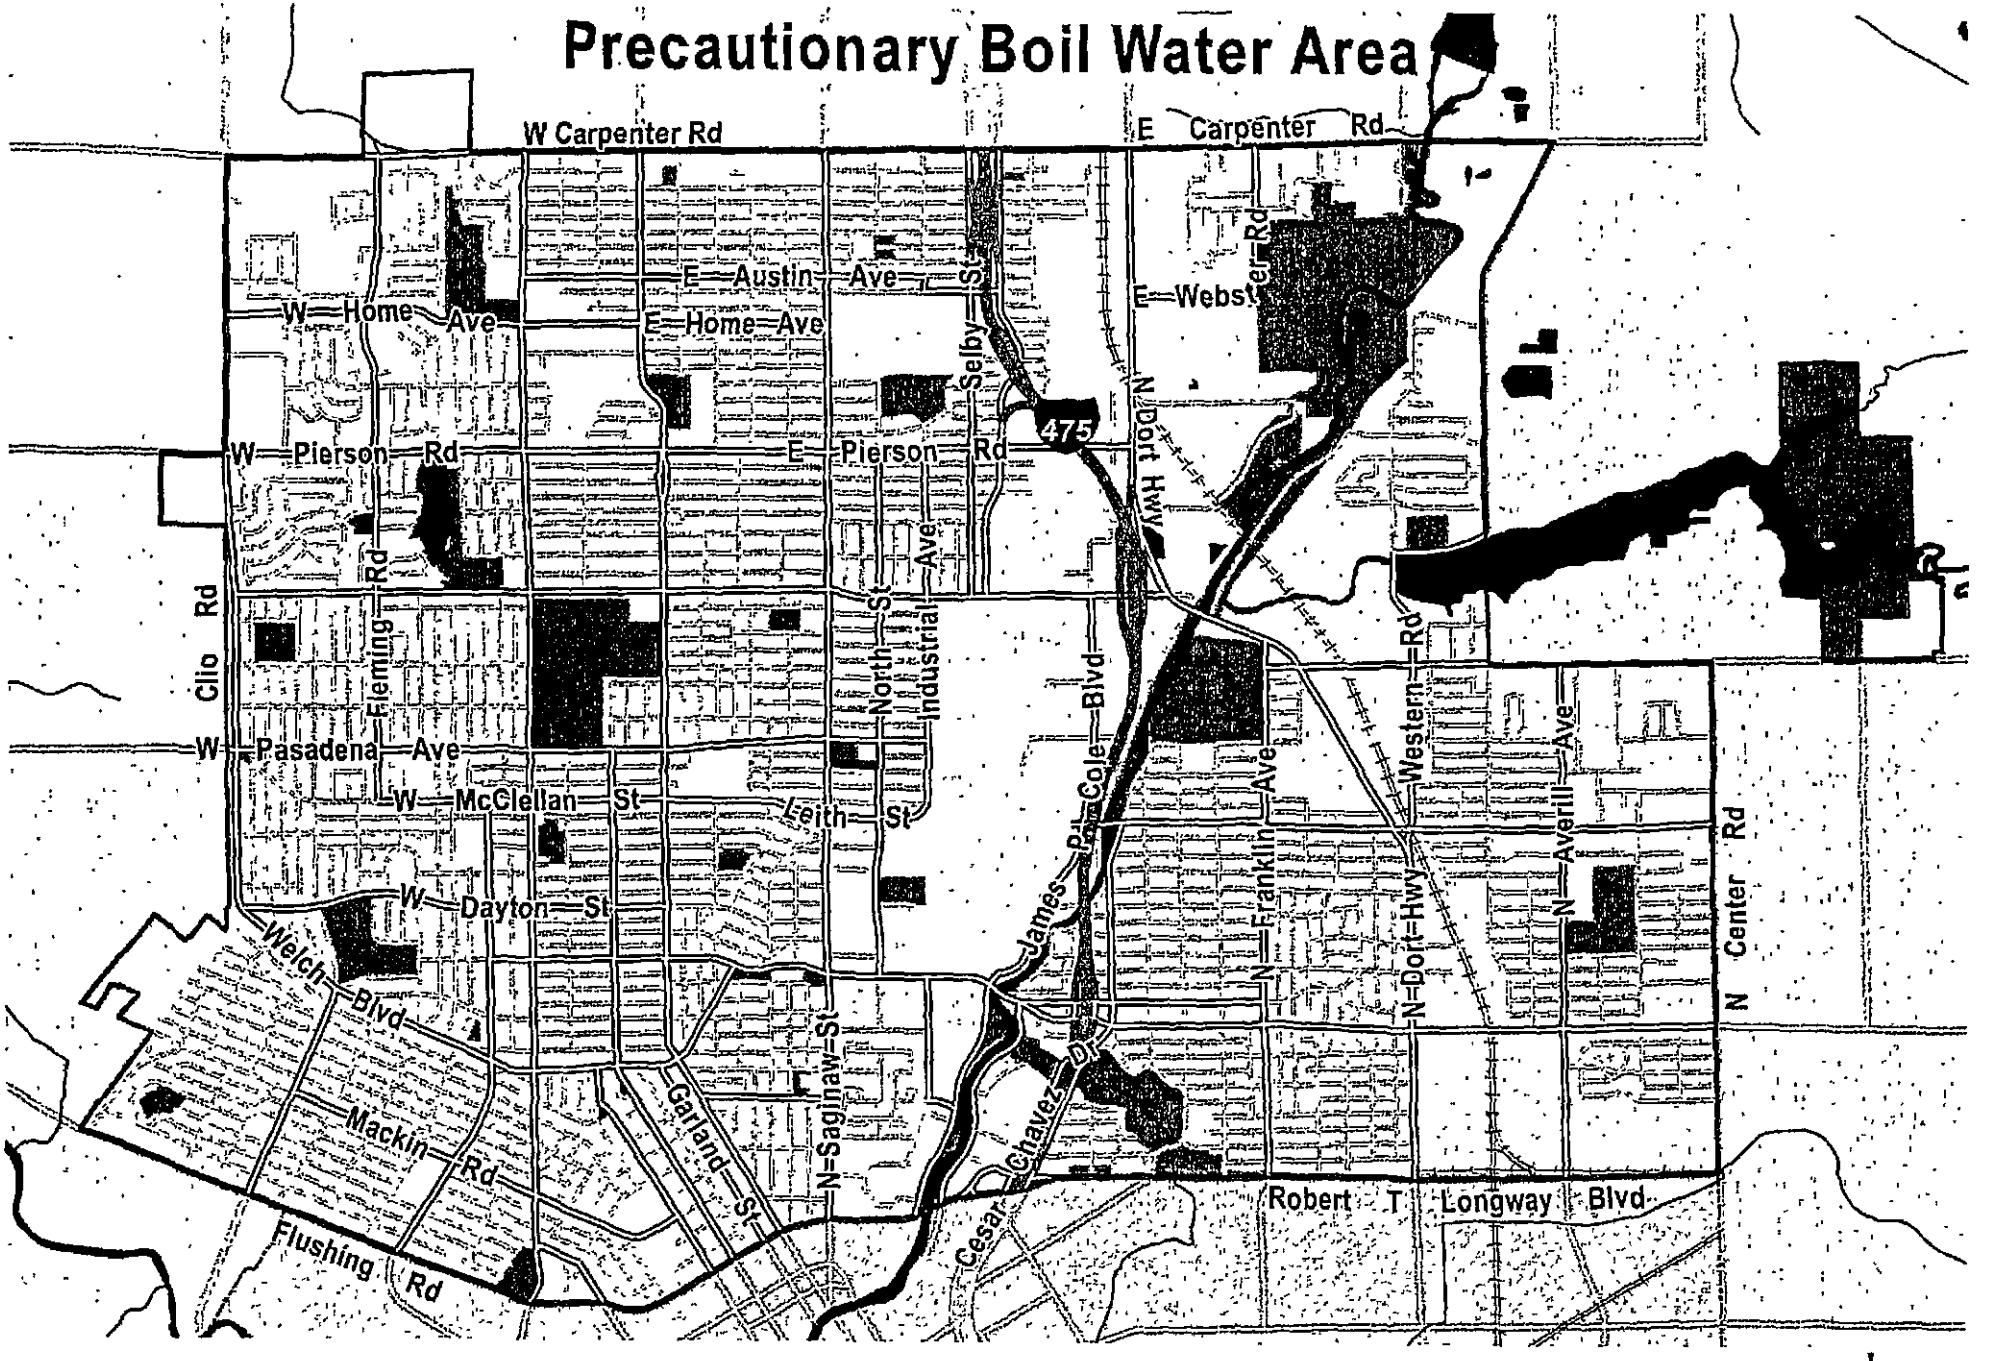
CERTIFICATION: WSSN: 2310

I certify that this water supply has fully complied with the public notification requirements in the Michigan Safe Drinking Water Act, 1976 PA 399, as amended, and the administrative rules.

Michael Glasgow	UTILITIES ADMINISTRATOR	2/9/16
Signature	Title	Date Distributed

Reminder to water supplier: This notice / certification must be sent to the DEQ.

Precautionary Boil Water Area



SEOC SUMMARY OF JANUARY 28, 2016 EVENTS:

John Tilden
Liz/Amy Kelly
Dy Brenda

Multiagency Coordination

- Several reach outs to George Krisztian were made reference the development of a consistent message with DHHS, DARD, MDE, DLARA for elevated blood levels and water analysis results with no result. A conference call needs to take place to discuss this issue and develop messaging. Test results are now returning to business owners from DARD inspections and they want direction. At this point they are proposing they will re-test any facility with a result higher than Not Detected. Messaging will go out with no coordination if we do not make this happen. It is critical the message is coordinated.

Test Kits

- Requested MDOC to continue support of sample transport from collection sites to the DEQ Laboratory through February 15, 2016.
- Provided updated test bottle orders to EMHSD finance.

Filters

- Conducted verification of Bluewater filters with WQA. Found filters to not hold the certification. Provided requested information to the Ops Section Chief.

Media Concerns

- Telephone call with Greg Stromberg from Cannedwater4kids to discuss social media targeting ongoing TDS meter concerns. Request for messaging to conduct rumor control sent to JIC. A video is being prepared to address the concerns.
- Provided direction to all involved in supporting the efforts with local public entities regarding the need for credentialing. Subsequent phone calls with Peter Manning, AGs office.

ECC Coordination

- Established procedure for participation of SEOC DEQ Rep in DEQ ECC 1530 Planning Meeting. Mitch Adelman will be present today. The Comm Section can call the SEOC desk line if a liaison is unable to attend.
- Responded to Sue Leeming's request to provide a date when bottled water, filters, test kits and sampling were offered/provided to citizens of Flint. Informed her this was early October and to inquire with ODWMA for an exact date.
- Documentation Unit Leader identified, Carin Sodeman to fill roll. Request submitted for office establishment near SEOC and EM Section.
- Resource request for office equipment for Documentation Unit Leader

GIS

- Facilitated conversation with EMHSD and DNR-GIS reference statistical points relative to provided maps.
- Lead service line mapping completed by DNR GIS
- Sent Resource Request to SEOC-GIS to produce map of water test results through January 28.
- Submitted Resource Request for IPAD data of address of unoccupied homes per 54.C. of 1/21/16 EPA Order (not for public dissemination) per ECC request.

The SEOC hours of operations are 8:00AM – 8:00PM.

TEST BOTTLES DELIVERED TO WAREHOUSE	
Date	Amount
1/8/16	1000
1/11/16	500
1/12/16	1382
1/12/16	4719
1/14/16	1020
1/15/16	10160

1/19/16	7200
1/20/16	7200
1/21/16	720
1/22/16	14400
1/22/16	6048
1/25/16	7774

TEST BOTTLESS ON ORDER NOT YET DELIVERED		
Date	Amount	Expected Delivery Date
1/18/16	7488 (52 cases)	2/3
	540	2/1
	19440	2/5

ISSUES FOR TOMORROW Friday 29 January:

1. The number 1 priority for all agencies is a consistent message to be developed amongst DEQ, DARD, DHHS, DOE, & DLARA, regarding elevated lead level and test results. It is understood that
2. Assure we get additional labels for test kits to ARC HQ
3. Assure water testing results to the web daily per #51 of EPA order, via JIC/MSP & send to GIS for plotting on map
4. Verify that we have a sufficient number of English version of sample request forms.
5. Solidify plan for DEQ participation on EPA sampling teams (ECC)
6. SME Request clarification provided to ECC. Toxicologist not yet identified. Follow up with DEQ staff for assignment. Follow-up with DHHS (epidemiology), after receiving notification from DEQ ECC about SME to participate in subsequent telephone calls/meetings with EPA, CDC, GCHD to discuss response to high lead water test results at individual homes or other locations
7. Obtain DEQ IAP for day
8. Develop SEOC schedule for upcoming weeks
9. Update SEOC contacts, develop org chart, update who does what, print important docs relative to incident and establish binders for ease of locating information regularly referenced.
10. Upon receipt from SEOC GIS, provide addresses of unoccupied homes per 54.C. of 1/21/16 EPA Order (not for public dissemination) per ECC request to Richard Benzie with copy to Sue Sobieski.

1300 M-Fri - DEQ Laboratory Update Call

1. Respond to requests for water test kits & coordinate with DEQ laboratory.
    - Kirby Shane, Acting Director
    - Carol Smith, Unit Chief
    - Julia Pieper, Drinking Water Coordinator

WATER BOTTLE ORDERS

Provide order quantities and expected ship dates to Pam Strobel (Logistics) msp-seoc11@michigan.gov

0930 STATE AGENCY BRIEFING

You may participate by being in the SEOC or via conference call.

LUNCH & DINNER PROVIDED DAILY

ALL SHIPMENTS

State Flint Water Response Warehouse
4315 N Clio Rd
Flint, MI
Shawn (ARC) 563-663-2672

SEOC ACTIVITIES

II. **Log into MiCIMS with 'SEOC OPS Health and Env MDEQ' position**
III. **Select '2015-10-07-City of Flint-Water Contamination/Shortage' from Incident list**
IV. **Review & maintain established Activity Log**
V. **Provide DEQ update in 0930 State Agency Briefing – Stand up and state your name and Dept**
VI. **Watch the Battle Rhythm for Assignments**
    - **ISC 204 Task Assignments are due every other day.**
VII. **Report any assigned 'Deliverable' to the planning section.**
VIII. **Complete the Agency SitRep Executive Summary by 1530 daily**
IX. **Report any completed objectives or deliverables to the planning section by 1530 daily**
X. **Call the Chief and provide updates as needed**
XI. **Send out SEOC Summary at COB daily (Template on desk top in Flint Water folder)**

FILTERS

All Filters and Cartridges must be certified to NSF/ANSI 53 Standards. Research the product upon request and verify on either the NSF website or Water Quality Association (WQA) to determine. If a product lists their certification and Independently Certified it is not certified through NSF and typically is WQA. If unable to locate call the certifying companies and ask, they are very helpful. There may be other independent certification companies....

SCHOOL TEAMS

LARA Submitted a proposal for a faucet replacement plan at Freeman Elementary. This has been approved and the order for implementation given. The teams for this project consist of LARA and DEQ personnel. Jack Schinderle is the coordinator for the free plumbing evaluation program. A plan was submitted to the governor by George Krisztian for the expansion of the program to all charter schools, parochial schools, daycare facilities and similar facilities totaling more than 200. See the School Sampling Overview in the Flint Water folder on the desktop.

The USEPA offers to continue to proceed with their Strike Team procedure whereas 2 EPA staff and one DEQ staff visit the resident and offer to conduct sampling, clean aerators, etc. Of the approximate 30 residents visited, 14 have agreed to sampling. USEPA is conducting analysis at their laboratory and are expecting results to come back today or tomorrow. They are willing to offer the additional services and schedule a time at the residents convenience.

RESOLVE:

A Strike Team is developed without the support of USEPA personnel. All activities can be conducted aside from Hach testing.

The end goal will remain the same.

HIGH LEAD HOME STRIKE TEAM

To address all residents who have summited samples and received an analytical result equal to or greater than 135ppb (total influent challenge level throughout the NSF/ANSI 53 filter test must average 150 (+/- 10%) ppb lead) the State has developed the following plan.

The proposal is to provide for a four member team of specialists from the following local, state and/or federal resources that can deliver services, conduct an investigation and implement measures to mitigate the source of the elevated lead.

- US Environmental Protection Agency
- US Department of Health and Human Services
- Michigan Department of Environmental Quality
- Licensed plumber

The team will conduct the following activities:

- Clean faucet aerators
- Investigate plumbing for possible lead contamination sources and mitigate where able
- Complete a Hach test for field analysis of lead levels, both filtered and unfiltered
- Provide health education and recommendations
- Provide clear instruction of water consumption within the home, until safe levels are restored
- Provide bottled water, filter, filter cartridges 2
- Provide water test kits for state laboratory analysis

USEPA Community Involvement staff will assist the team in identifying phone numbers for residents and attempt to schedule appointments for team investigations. If unable to locate resident contact information the team will visit the home directly.

A door hanger will be developed providing direction for those residences visited but unoccupied.

The Strike Team will report within the Genesee County incident command structure.

The Michigan Department of Environmental Quality will continue to follow up with the resident and conduct subsequent sampling until the residential home sample is below 135ppb, assuring the faucet filtration provides for safe drinking water.

UNIFIED COMMAND RESPONSE

The USEPA has advised that the Unified Command Group has declined this plan due to the following.

RISK: The Strike Team may be made aware of an elevated test result before the resident. Converging on a resident with a team of four of federal and state personnel may not be welcomed.

Subject: Flint Water Detail

The schedule that Denise sent out got screwed up; Karis and Michelle are going today, so that Tammy Blackburn does not have to go alone. I talked to Dawn about it, and she said it was up to me. So, I let them go today, according to Denise's schedule. They will both be in the office tomorrow, and Amy and Laura will be on the Detail.

Just wanted to let you know. I will probably reschedule my staff meeting.

M

Subject: Revised: Volunteers needed for water resource teams in Flint

Note: Dates are January 14 and January 15.

The department is soliciting volunteers from within the department, both enlisted and civilian, to join water resource teams working to hand out bottled water, water filters, replacement cartridges, and water testing kits at homes in the city of Flint. This effort is part of the state's response to the ongoing health and safety issues caused by lead in the city of Flint's drinking water.

Teams are being assembled for shifts on Thursday, January 14 and Friday, January 15. Volunteers will begin their assignment in Flint at 9 a.m. and end by 4 p.m. Volunteers can be available for one or both days. Lunch will be provided.

Employees chosen for this assignment are considered to be working on-duty; this assignment would be considered their scheduled work day. Overtime or compensatory time is not authorized for this

assignment.

Transportation will be provided using state vehicles; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

Interested employees should obtain the approval of their supervisor. **Supervisors must forward the names of approved volunteers and their email addresses through the chain of command to bureau with the date(s) available by 1 p.m. tomorrow, Wednesday, January 13.**

Confirmation of selected employees, along with additional logistical details, will be made via email by 5 p.m. on Wednesday, January 13.

For questions, please contact Insp. Scott Marier at 517-373-7761.

Subject: Flint Water Detail

Attached is a list containing the names of those approved to participate in the Flint Water detail. In order to minimize travel time, location of the volunteers was considered. Each Bureau is responsible for notifying their respective staff members and arranging for carpooling to Flint.

Attire: Appropriate attire for the weather conditions. Jeans are allowable. MSP uniforms including fatigue uniforms are prohibited. Military Surplus attire or attire that could be mistaken as that of the National Guard shall not be worn.

All individuals assigned to work as the Water Response Team in Flint shall report to the [redacted] by 9 am on Thursday and/or Friday.

Location:
Genesee County Administration Building
1101 Beach St
Flint, MI 48502
In the basement or level "G" if someone used the elevator
Parking is available at Trinity Church, on the corner of Beach and Eighth. It is two blocks southeast of the Admin Building.

Lunch will be served at the EOC, Genesee County Admin. Building.

Each enforcement member should bring their assigned radio.

Lori Hinkley—

Attached are emails sent and/or received regarding purchases (primarily for those working in the SEOC, but some also for State employees working in Flint).

I have a feeling there are duplicate emails from January to last Friday.

Please let me know if this is the kind of information you need—since it is primarily internal.

According to Capt. Greg Zarotney's email, copies of newly created records shall be forwarded to the MSP-FOIAProject@michigan.gov email until further notice. I will do this until you tell me otherwise.

Sincerely,

T. Renée Osborn

Subject: RE: Gordon Order

I have pre-approval for the state employee to come in and show their ID this one time and use our account. If they need to do this again they would need to get prior approval again. If they have any issues they can ask for Justin the store manager. We just need to make sure our account is secure.

Hope this works for you. I know she has the receipt for the coffee maker to exchange it and the manager said that wouldn't be a problem. That receipt does have our account number on it should they ask. Please make sure she keeps that receipt secure and sends me the cash register receipt so I can attach it to the invoice for payment.

If there are any other issues they can call Renee Osborne at 517-322-5519 who is the one on the account or myself at

Subject: RE: Gordon Order

Hi Jeanette
2 options
I spoke with Marie the manager at the Edgewood store as our rep hasn't returned out call yet. She spoke with the manager at the Flint store.

Option 1: The person can go to the Flint store and have them call Renee Osborne at 517-322-5519 to get permission to use the account. If someone is going to access our account I'm sure Renee would appreciate knowing who is going ahead of time so she can approve it. I appreciate the fact that Gordon's is being a little particular as we do want our account to stay secure. Renee is only working until 5 pm.

Option 2: Have them take this tax exempt form and just use their Visa and they wouldn't need our account at all.

I would think the second option would be the least amount of hassle anytime they want to go.

Thanks
Michelle

Hi Michelle!

Could you order the following from the Flint GFS store?

30 cup coffee maker
1 case of coffee
1 case of 12 oz Styrofoam cups
12 tubes of sugar
2 boxes of coffee stirrers

Please reply to this email if you are able to place the order and when it will be available for pickup. Could you let them know that we will be exchanging a 30 cup coffee maker from our purchase on 1/24/16 that does not work?

Thank you!

I have pre-approval for the state employee to come in and show their ID this one time and use our account. If they need to do this again they would need to get prior approval again. If they have any issues they can ask for Justin the store manager. We just need to make sure our account is secure.

Hope this works for you. I know she has the receipt for the coffee maker to exchange it and the manager said that wouldn't be a problem. That receipt does have our account number on it should they ask. Please make sure she keeps that receipt secure and sends me the cash register receipt so I can attach it to the invoice for payment.

If there are any other issues they can call Renee Osborne at 517-322-5519 who is the one on the account or myself at

Thank You
Michelle

Hi Jeanette
2 options
I spoke with Marie the manager at the Edgewood store as our rep hasn't returned out call yet. She spoke with the manager at the Flint store.

Option 1: The person can go to the Flint store and have them call Renee Osborne at 517-322-5519 to get permission to use the account. If someone is going to access our account I'm sure Renee would appreciate knowing who is going ahead of time so she can approve it. I appreciate the fact that Gordon's is being a little particular as we do want our account to stay secure. Renee is only working until 5 pm.

Option 2: Have them take this tax exempt form and just use their Visa and they wouldn't need our account at all.

3922 (Rev. 01-11)

STATE OF MICHIGAN
DEPARTMENT OF TREASURY
LANSING

RICK SNYDER
GOVERNOR

ANDY DILLON
STATE TREASURER

Michigan Sales or Use Tax Single Purchase Certificate of Exemption Sales to the State of Michigan

Issued under authority of Section 4h of the General Sales Tax Act, MCL 205.54h

The State of Michigan is exempt from sales and use taxes imposed on its purchases of tangible personal property, or use tax imposed on its purchases of certain services taxed under the Use Tax Act (MCL 205.93a), being telecommunications, rooms or lodging, laundering or cleaning of textiles, and transmission and distribution of electricity.

NOTE: A vendor or contractor who provides a service of constructing, altering, repairing or improving real estate for the State of Michigan shall pay sales or use tax on the cost of materials affixed to the real estate in performance of those services. Tax is due on the cost of materials affixed to real estate regardless of whether the materials are purchased or owned by others, including the State of Michigan itself. Specific limited exemptions exist for non-profit hospitals, church sanctuaries, non-profit housing qualifying under Section 15a of 1966 PA 346 (MCL 125.1415a), etc.

The purchaser may claim a tax exemption at the time of purchase by providing the seller with this signed statement that the purchaser represents a governmental entity.

Purchaser's Certification

I, the undersigned purchaser, certify that the tangible personal property being purchased is not for resale, is paid for with government funds, and is used in connection with the operation of the governmental entity named below.

Name of State of Michigan Department, Institution or Agency Michigan State Police Emergency Management & Homeland Security Division	
Federal Employer Identification Number **38-6000134**	State Sales Tax Number **A-154961**
Name of Authorized Representative (Print or Type) PENNY BURGER	
Signature of Authorized Representative

LANDSTAI

Emergency
Transportation Services

Dear Logistics Chief,

We can help!

T. Renée Osborn of the Emergency Management and Homeland Security Training Center Michigan State Police said to contact you:

Landstar provided the city of New Orleans post Hurricane Katrina with over One hundred Water Tankers to provide **Clean Potable Drinking Water** public schools, hospitals, cruise ships that housed all emergency personnel and other public facilities.

Attached is a document that outlines some of our services.

Landstar offers extensive Emergency Logistics Services:

- Access to over several hundred large 6500 gallon water tankers.
- Straight trucks with lift gates to address any specific need.

Please let me know if we can be of service during this difficult time with the contamination of the water supply in Flint. We can strategically position Tanks around the city to support both public facilities & the local residential communities.

Tankers

- 6500 Gallon Capacity

- Potable Water

Please see attached for your Landstar Contact List

(24/7/365) John 908-675-6806

Thank you,

John

> **Subject: Fwd: Millbrook water Co.**
>
> Hi Louis,
>
> My name is Rick Falck I am a Owner/Partner of Millbrook Water Co. My Sister Rebbecca gave me this email address and as I understand it her husband Scott had some conversation with you about our water co.
>
> We are drinking water co. providing artesain water to homes and businesses. What sets us apart form other companies is not only our quality of water but our ability to deliver in bulk as well. We have five gallon bottles like others but with our potable water hauling license we also haul in bulk with stainless steel tankers.
>
> We have helped with projects in both Oakland and Macomb county and see an opportunity to help in Flint. Seems the need to deliver to all the addresses makes it difficult to support all being able to be delivered. I envision fill locations in the city with large tanks that we can keep full with the good municipal water that is available now. Jugs can be provided and residents will come to these sites for refills. I see this also helping in building back the credibility of water as residents will be receiving "the good" Detroit water until new lines are run at which time they

will be receiving the same water. There are other options available as well.

I am looking for a little direction to get in front of the right people to propose. Any help is greatly appreciated.

Rick Falck
Owner/Partner
Millbrook Water Co.

Subject: LANDSTAR EMERGENCY TRANSPORTATION SERVICES - DISASTER RELIEF - FLINT MI WATER SUPPLY
Importance: High

Emergency
Transportation Services

Dear Sirs,

Landstar provided the city of New Orleans post Hurricane Katrina with over One hundred Water Tankers to provide **Clean Potable Drinking Water** public schools, hospitals, cruise ships that housed all emergency personnel and other public facilities.

Attached is a document that outlines some of our services.

Landstar offers extensive Emergency Logistics Services:

- Access to over several hundred large 6500 gallon water tankers.
- Straight trucks with lift gates to address any specific need.

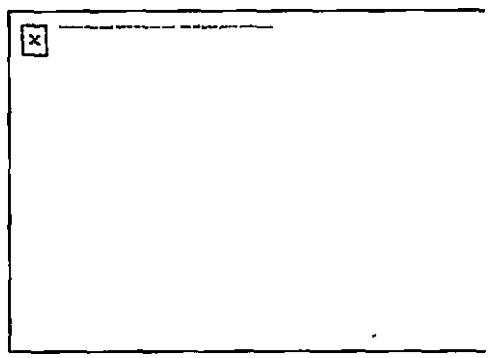
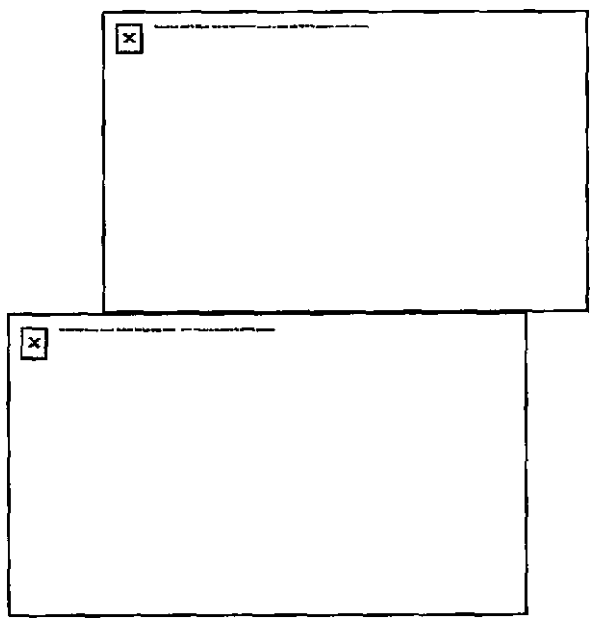
Please let me know if we can be of service during this difficult time with the contamination of the water supply.

Tankers



- 6500 Gallon Capacity
  - Potable Water



Please see attached for your Landstar Contact List (24/7/365) John

Thank you,

John

Hi Michelle,

I spoke again with Dennis, at the Okemos GFS, and he couldn't read the information. All he knew was that it was going to Flint.

Hi Renee
I don't think the first invoice on here is ours. Can't make out the signature? As far as I know we didn't purchase 6 sugars and creamer etc. If it's not yours I will check with Joyce. I put the bottom one in for payment already. Not sure I understand the first one as it says paid in full visa?

Importance: High

LANDSTAR

Emergency
Transportation Services

Dear Sirs,

Landstar provided the city of New Orleans post Hurricane Katrina with over One hundred Water Tankers to provide clean Potable Drinking Water public schools, hospitals, cruise ships that housed all emergency personnel and other public facilities.

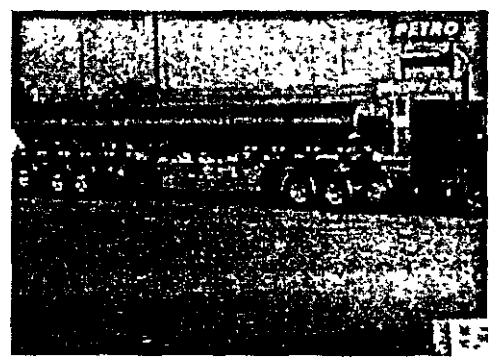
Attached is a document that outlines some of our services.

Landstar offers extensive Emergency Logistics Services:

- Access to over several hundred large 6500 gallon water tankers.
- Straight trucks with lift gates to address any specific need.

Please let me know if we can be of service during this difficult time with the contamination of the water supply.

Tankers



- 6500 Gallon Capacity
  - Potable Water

Please see attached for your Landstar Contact List (24/7/365) John

Thank you,

John

Hi Renee

I authorized DTMB to use the Gordon's account to purchase water for taking to Flint. Same with Jodie. If you can send the invoices to me when you get them I'd appreciate it.

Michelle G. will probably continue to keep the SEOC stocked with supplies as needed.

Thanks
Penny

Hi Joyce,

I emailed the attachments to Penny—per her request to Carol.

What you need to do is get a stamp from one of the other secretaries and write in not only your Index and PCA, but also the following:

Vendor ID:

Mail Code: 000

Commodity Code:

Your Index

Your PCA

COBJ:

Hope this helps.

Renée

Importance: High

All,

There is an active FOIA request for all information regarding the Flint Water Emergency. We have to download and print all of the information from MI CIMS. We would like a copy of the Production database so that we can load it on our Sandbox and work with it from there for this initial data grab.

Is it possible for us to get a copy of the database today? One of us could run downtown to pick it up.

We need this ASAP as we have to have the information all printed by next Thursday.

Also – when I tried to call Ramesh's desk phone it said that number is no longer working.

Thank you!

Jaclyn

Is it possible for us to get a copy of the database today? One of us could run downtown to pick it up.

We need this ASAP as we have to have the information all printed by next Thursday.

Also – when I tried to call Ramesh's desk phone it said that number is no longer working.

Thank you!

Subject: RE: FOIA

They will be in the Governor's Conference Rooms A & B.

Phones in Governor's Conference Room A:

-
- (Polycom Conference Phone)

Phones in Governor's Conference Room B:

-
- (Polycom Conference Phone)

There is an additional phone in each room that is not currently working, but we will work on getting them fixed.

There are 2 desktop computers setup that they can use. There is no special requirement for the thumb drives, they will just have to encrypt them per DTMB policy.

The contractors are just finishing up in Room B with the IT/AV and hope to be finished in about 1.5 hours.

There is 1 dry erase board in there as well.

Sent: Friday, February 12, 2016 10:14 AM
To: MSP-EMHSD-Division
Subject: FOIA REQUEST FOR RECORDS - DEADLINE 2:00 p.m. TODAY

Please remember to send Lori Hinkley **an estimate of the number of records** in your possession pertaining to the Flint water crisis.

"Records" is defined as: e-mails, hand written notes, documents, text messages and anything else pertaining to the Flint water crisis. This includes ALL records you've received or generated, including general govdelivery correspondence, news releases – essentially anything that says "Flint Water."

To recover deleted e-mails in outlook, go to your toolbar and select: Folder - Recover Deleted Items. This will provide you with a list of everything you have deleted within the last 30 days. Please recover all Flint related records and archive them for future reference and include them in your estimate to Lori.

You will need to send this information to Lori Hinkley **no later than 2:00 today**. Further information regarding the need for printing documents will be provided to you next week. We are only looking for estimates of the number of records right now.

Let me know if you have any questions.

Subject: FW: URGENT - Records Request

Importance: High

See email below: You need to email Lori Hinkley with your estimate of records include memos, handwritten notes, emails and attachments, and text messages in your possession by 2 p.m. today.

From: Zarotney, Greg (MSP)
Sent: Thursday, February 11, 2016 5:01 PM
Subject: URGENT - Records Request
Importance: High

The department has been directed to provide copies of all records in our possession related to the Flint water matter to the Governor's office. You are receiving this email because you have been identified as an individual who may have records that must be produced. If there are any department members who you think may be in possession of records related to Flint water, please forward this message to those members.

Records include memos, handwritten notes, emails and attachments, and text messages in your possession, regardless of who produced the record. Be sure when you search your email messages that you look in your inbox, sent box, and trash. In preparation for the production, you must estimate the number of records you have in your possession and provide that estimate to Ms. Lori Hinkley no later than **2:00 PM on Friday, February 12, 2016.**

You must then provide a copy of each record in your possession to the Legislative and Legal Resources Section no later than close of business on **Thursday, February 18, 2016.**

Members who work at Headquarters must provide paper copies to F/Lt. Chris Hawkins in the Office of the Director. Members who work at the State Secondary Complex must provide a paper copies Ms. Lori Hinkley. Ms. Hinkley is located on the second floor of the new Headquarters building. Department members who work outside of these worksites may send copies of records in their possession via e-mail to MSP-FOIAProject@michigan.gov.

In addition to this initial production of records, the department is required to provide copies of newly created records on an ongoing basis. Until further notice, copies of all newly created records shall be forwarded to MSP-FOIAProject@michigan.gov.

REMINDER: Public records can only be disposed of consistent with an approved retention schedule. As it applies to emails and text messages related to the Flint water matter, please use the retention schedule in place for general correspondence which is **two years.** Please save all emails and text messages for at least two years. Prior to expiration of the two year period you will have an opportunity to re-evaluate the content of the messages to determine if an additional retention period is necessary. If you have issues with accommodating emails based on your mailbox size, please archive them. Do not print and file them as the metadata must be retained as well.

If you have any questions with these instructions, please contact Ms. Lori Hinkley.

Subject: RE: SEOC Over Assigned phone number 517.284.3696

There are several issues here.

- Myself, Jaclyn Barcroft, Rich Law, Jim Tchorzynski, Malyssa Suarez, Walter Chomentowski, and Matt McCormick are all part of the technical support group for EMHSD. We all should be able to request reset of voice mail boxes for EMHSD staff and the SEOC. EMHSD does not function as other departments. To fulfill our emergency management functions we require these personnel to be authorized to request voice mail resets for any number on our LMW.
- Jaclyn is resetting voice mail boxes in this role. The request is not related to her assigned voice mail.
- Please reassign the numbers as Kelly requests.

Cc: Bouffard, Donald (MSP); Strobel, Pamela (MSP)
Subject: RE: SEOC Over Assigned phone number 517.284.3696

According to the LMW that we submitted before their move, Jaclyn Bancroft was supposed to be assigned 517-284-3996 so please assign her that number.

As for the State of Director EMHSD that one I do see is a duplicate, can you please assign them 517-284-3729

The Open Position 1 (DNR) was also a duplicate of this number, can you please assign them 517-284-3728

Thank you!

Kelly

Don-Please let me know if this is going to be an issue...Thank you!

Subject: SEOC Over Assigned phone number 517.284.3696

Ms. Costa,

I have a ticket from Jaclyn Bancroft to reset a PIN on a voicemail box for the number 517.284.3696. The voicemail box has already been setup by Zachary Baker. The phone number is assigned to three phones, Open Position 1 (DNR), State Director of EMHS, and Zachary Baker. Does Jaclyn hold one of these two open positions? Should I find two unused numbers to assign to Open Position 1 (DNR), and State Director of EMHS?

Thanks,
Tom

Good morning,

Can you please send me the login information for the email account MSP-SEOCPIO@michigan.gov as I will be monitoring it from home this weekend?

Also, as of now, in case anyone asks, I plan to come into the SEOC on Monday (President's Day) to participate in the first two briefings and to prepare Captain Kelenske's talking points for Tuesday's congressional briefing. I am hoping to leave by noon.

Thanks,

Shanon

Subject: Phone Message Retrieval in SEOC

DEQ just asked, and has learned how, to set up password for voice mail. She found the instructions on the desk, and followed it. When setting up a new password, she used the 7 digit phone number. I'm not sure if your intention is to do so for all state agencies? Will we do it? Do need to advise everyone in here to do that? Is that the way we want it done?

Extract this into the Startup folder so it automatically runs when the computer is turned on. This will keep the screen from falling asleep. I use this on the DTMB Central Control computers as they do not always interact with the computers they monitor and it keeps the displays on all the time.

Sent: Friday, February 05, 2016 8:11 PM
To: Law, Richard (MSP)
Subject: RE: SEOC PC Setup Checklist

So I got all of the PC locations labeled with a sticky note. There were a couple I was unclear on and I think TED was forgotten so I swapped them in a spot.

I think we should switch with the Security Officer location (less people lurking at our back I think – what do you think of that?) – when will they be finishing that back row?

I started setting up the PC for Treasury, but have trouble logging into that email account. If I remember correctly that one was screwed up.

I have a manilla folder on my desk with all of the info in it.

I also wiped down the back two rows of tables, but as we move PCs we should probably wipe down the rest of them, they are pretty dirty.

Think that is all for now.

Hope you have a good weekend!

Subject: Acces to the conference folder in SEOC?

Hi Rich,

Is there a way I get access to the S: drive conference folder in the SEOC? Since I'm working in here so much I can get some things done but I can't access it.

Thanks so much!
CH

Anna,
I did find one user that was having issues His laptop and docking station will not pick up and IP through his phone the user is Jay Eickholt the phone number is 284-3982 he is deployed to flint right now but I have a laptop we can use to test the circuit. When he was in the laptop was connected directly to the drop and he was able to pick up and IP bypassing the phone.

Subject: RE: EMHSD - GOB

Oh darn! I wish you would have contacted me 2 hours ago. I was out there following up on another system that we called a ticket in on with Dell. I spoke with Rich Law and he said everything computer-wise was good except for waiting for print queues for some network printers. At this point, I am not doing other projects. They will need to be called in.

Incidentally, we did check all computers that we set up and all were working. What are you meaning by "not working"? The reason I ask is because it may be a very simple fix without having to wait for a tech to come look at it.

>
> The technician was on site until a few minutes ago trying to determine the problem. He was not able to determine what the problem was but did down load data from the unit and sent it to tech support for review to determine what happened. Hopefully tomorrow we will known the problem and will be able to address it.

Until the UPS unit is fixed, it has been bypassed so that the server room will have power to it. If the utility power fails the generators will start and provide power. This will cause a 7 to 10 second power outage in the served room.

I will keep you in the loop as I get more information.

Darren,

Telecom lost communication with the firewalls and switches at about 5:45pm today. They were down until about 8:40.

Do you know if there was a power outage in the server room this evening?

I have a meeting with telecom at 9am. I'm hoping to have an explanation for them if possible.

Are they still down?

They were taking power down to connect the second circuit 3:30ish. But it came right back up. But . . . . that room is on UPS, there shouldn't be a power outage.

Ok, both queues have been modified for new IP address and name. See below:

Once the subnet is flip over to the new EOC building and these printers are power cycled, we will make the change on the EOC print server to reflect the 10.29.22.x addresses they used to have.

Subject: MSP SEOC move for Wednesday (Disconnect & Reconnect) TAS000006484556 & TAS000006484557

The moved went very well. We were able to set up all computers including the 21 new systems. There were 19 SEOC computers and 1 GIS computer making a total of 20 systems packaged and moved from 4000 Collins Rd. to the GOB new wing. We assisted unboxing the 21 new systems and assembled them. We set up all 41 systems. No systems were missing anything and all were verified working except for 4 of the new systems as there was no power in the area and no other place we could place them at that time.

I and my team of 14 will be coming back to 4000 Collins Rd. on Friday morning to disconnect the rest of the 45 SEOC computers first thing in the morning. Shortly after that, Rachael Parkhurst will take a team of 5 over to the new building and reconnect those while the rest of the team stays at Collins Rd. to start the disconnecting of the business office computers.

Jaclyn,
There was not much in the way of IT for us today. On the other hand the phones were not working because they lost their programming
So they were without phones for two hours. The color printer is now printing in the SEOC print room if needed. I'll send you a email on print que for it.

Hi Jaclyn,

Does Cindy have a MICIMS username and password? She's going to come in today to begin learning logistics so she can assist us going forward. She will need access and rights as a Logistics Group Chief. Thanks.

>
> The technician was on site until a few minutes ago trying to determine the problem. He was not able to determine what the problem was but did down load data from the unit and sent it to tech support for review to determine what happened. Hopefully tomorrow we will known the problem and will be able to address it.

Until the UPS unit is fixed, it has been bypassed so that the server room will have power to it. If the utility power fails the generators will start and provide power. This will cause a 7 to 10 second power outage in the served room.

I will keep you in the loop as I get more information.

Subject: FW: power outage

Darren,

Telecom lost communication with the firewalls and switches at about 5:45pm today. They were down until about 8:40.

Do you know if there was a power outage in the server room this evening?

I have a meeting with telecom at 9am. I'm hoping to have an explanation for them if possible.

Thanks

Are they still down?

They were taking power down to connect the second circuit 3:30ish. But it came right back up. But . . . . that room is on UPS, there shouldn't be a power outage.

Ok, both queues have been modified for new IP address and name. See below:

Once the subnet is flip over to the new EOC building and these printers are power cycled, we will make the change on the EOC print server to reflect the 10.29.22.x addresses they used to have.

Subject: RE: MSP SEOC move for Wednesday (Disconnect & Reconnect) TAS000006484556 & TAS000006484557

Dawn, when these two moves (SEOC & CAR) are done, I would like to do an After Action Review to see where we can improve our processes. I believe this will be valuable in the long run for future complex moves.

Thank you .

Subject: MSP SEOC move for Wednesday (Disconnect & Reconnect) TAS000006484556 & TAS000006484557

The moved went very well. We were able to set up all computers including the 21 new systems. There were 19 SEOC computers and 1 GIS computer making a total of 20 systems packaged and moved from 4000 Collins Rd. to the GOB new wing. We assisted unboxing the 21 new systems and assembled them. We set up all 41 systems. No systems were missing anything and all were verified working except for 4 of the new systems as there was no power in the area and no other place we could place them at that time.

I and my team of 14 will be coming back to 4000 Collins Rd. on Friday morning to disconnect the rest of the 45 SEOC computers first thing in the morning. Shortly after that, Rachael Parkhurst will take a team of 5 over to the new building and reconnect those while the rest of the team stays at Collins Rd. to start the disconnecting of the business office computers.

Jaclyn,
There was not much in the way of IT for us today. On the other hand the phones were not working because they lost their programming
So they were without phones for two hours. The color printer is now printing in the SEOC print room if needed. I'll send you a email on print que for it.

>
> The technician was on site until a few minutes ago trying to determine the problem. He was not able to determine what the problem was but did down load data from the unit and sent it to tech support for review to determine what happened. Hopefully tomorrow we will known the problem and will be able to address it.

Until the UPS unit is fixed, it has been bypassed so that the server room will have power to it. If the utility power fails the generators will start and provide power. This will cause a 7 to 10 second power outage in the served room.

I will keep you in the loop as I get more information.

Darren,

Telecom lost communication with the firewalls and switches at about 5:45pm today. They were down until about 8:40.

Do you know if there was a power outage in the server room this evening?

I have a meeting with telecom at 9am. I'm hoping to have an explanation for them if possible.

Subject: RE: power outage

Are they still down?

They were taking power down to connect the second circuit 3:30ish. But it came right back up. But . . . . that room is on UPS, there shouldn't be a power outage.

Ok, both queues have been modified for new IP address and name. See below:

Once the subnet is flip over to the new EOC building and these printers are power cycled, we will make the change on the EOC print server to reflect the 10.29.22.x addresses they used to have.

Jen,
We will be moving these 2 non leased printers to the SEOC early here is the printer information.

Did you get the other information on the non-leased printers yet?

Richard Law

Subject: MSP SEOC move for Wednesday (Disconnect & Reconnect) TAS000006484556 & TAS000006484557

The moved went very well. We were able to set up all computers including the 21 new systems. There were 19 SEOC computers and 1 GIS computer making a total of 20 systems packaged and moved from 4000 Collins Rd. to the GOB new wing. We assisted unboxing the 21 new systems and assembled them. We set up all 41 systems. No systems were missing anything and all were verified working except for 4 of the new systems as there was no power in the area and no other place we could place them at that time.

I and my team of 14 will be coming back to 4000 Collins Rd. on Friday morning to disconnect the rest of the 45 SEOC computers first thing in the morning. Shortly after that, Rachael Parkhurst will take a team of 5 over to the new building and reconnect those while the rest of the team stays at Collins Rd. to start the disconnecting of the business office computers.

Hey guys, since we're not going to be sitting at the MSP-EOC-MDSP, desk in the SEOC, is it possible to set an "auto forward by rule" for that mailbox (MSP-EOC-MDSP@michigan.gov) to the operationslts@michigan.gov so we don't miss anything?

Thanks!
M

All,

We no longer need to be present at the SEOC, however, it is expected that all operations Lts. be logged into MICIMS and monitor any resource / task request for MSP. Please fulfill all reasonable requests, if there are any questions, concerns, or decisions that you feel you need assistance with then please contact Insp. Bolger or myself and we will make the appropriate decision.

Please feel free to contact me if you have questions.

Thanks, Mike

Nina,
EMHSD has 21 new PC in storage that were purchased on ITRAC number We would like to have them installed into the new SEOC facility the week of February 15, 2016 if they cannot be installed that week on they can be installed on either the week before or the week after that date. Please use as the PC for the duplicate software load.
If you have any questions please let me know.

Thanks
Rich

From: Strobel, Pamela (MSP)
Sent: Tuesday, January 26, 2016 5:58 PM
To: Strobel, Pamela (MSP)
Subject: IMPORTANT: Informational Update for all State Agency Emergency Management Coordinators and First Alternates
Attachments: GOB Parking and Entrance Map.pdf

Importance: High

Dear State Agency Emergency Management Coordinators:

As you are aware, the State Emergency Operation Center (SEOC) will be relocating from 4000 Collins Road, Lansing to 7150 Harris Drive, Dimondale (known as the General Office Building – GOB) on Friday, January 29, 2016.

All State Agency Emergency Management Coordinators (SEMC) currently working on the Flint Water Emergency need to report to the new facility at 8 a.m. on Friday, January 29, 2016.

Please park in the standard area and enter at the main entrance of the GOB (see attached parking and entrance map). EMHSD staff will be on site by 7:45 a.m. to greet and escort you to the new SEOC.

We ask for your patience as we all learn our way around and with new equipment. It may be necessary for us to assign "temporarily" locations of computers in the SEOC; therefore, you may not be located in your permanent sitting position until early next week.

It has been mentioned to the SEMC or alternate working within the SEOC throughout the week, it is important that you secure documents and files you may have stored on the PC's or desktops at Collins Road by saving to a memory stick or you may also talk to the IT support within the SEOC (Rich or Jaclyn) about saving information to the S Drive. You will most likely be working on a different PC, and we want to ensure you have the files you need to continue operations with as little interruption as possible. If you have manuals specific to your discipline in the current SEOC, please take those with you on Thursday and bring them to the Harris Road SEOC on Friday morning. If you are not working in the SEOC at this time and have manuals specific to your discipline, please stop by before Thursday night to retrieve them. Any materials left behind will be discarded.

Please return your ADT access card for Collins Road, by Thursday. A container will be placed near the SEOC sign in-sheet for this purpose.

New phone numbers will be established in the SEOC and will be provided as soon as permanent locations are set. Until then, we recommend using your cell if someone needs to contact you.

If you have any questions, please contact me.

Thank you,
Pam

Civil Service suggested that everyone call in on the phone rather than use the mic, but this may overwhelm the system.

I don't know if this will help or not, but can each branch call using 1 phone in the SEOC and have everyone in that branch do their reports through the 1 phone and the mic, so that everyone on the phone can hear the information.

Or move the phone to be by the speaker or vice a versa.

Just trying to help...Just my 2 cents...

Subject: UPDATED: Flint Volunteer Efforts

Dear State Employees,

The hyperlinks in the email sent out Friday did not work. Here are the updated links:

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.

For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.

Sincerely, Mike Zimmer
Office of Good Government Director
Dept. of Licensing and Regulatory Affairs Director

This e-mail was sent to lawr@michigan.gov using GovDelivery on behalf of: the State of Michigan, 111 S. Capitol Ave., Lansing, MI. *You are receiving this message because you are a State of Michigan employee.*

Subject: Status of non-SOM network

Importance: High

I would like to know ASAP the status of the non-SOM network, including the non-SOM wireless, specified on sheet T4.2.

This is urgent as it is a resource that needs to be used when we move for managing the Flint Water Crisis.

Subject: RE: SEOC workstations

Ok, those two machines should be good to go. There were some issues with Bitlocker not understanding what drive was available for encryption.

- bitlocker should fire off on its own when someone logs on. If not I can walk you or that person through manually launching it
- bitlocker is currently running, temp pin is bicklocker. You can change this, I can walk you through it if you need assistance.

Jacki/Rick,

Have the 19 workstations that we are moving on Wednesday been turned on and logged into recently? We want to make sure they are current on their patching, so I wanted to see if they could be turned on and logged in past bitlocker for the weekend.

If not, they may get updates while people are trying to use them on Friday. We just want to make sure we are ahead of that before Friday.

Thanks

Jen,

Here are the computer names the first two computers on the list should be looked at carefully because I think they may not be getting software at least bitlocker on them is not turned on.

Jacki/Rick,

Have the 19 workstations that we are moving on Wednesday been turned on and logged into recently? We want to make sure they are current on their patching, so I wanted to see if they could be turned on and logged in past bitlocker for the weekend.

If not, they may get updates while people are trying to use them on Friday. We just want to make sure we are ahead of that before Friday.

Thanks

Subject: Email Alerts from Yesterday

Do you still have the email from when MI CIMS went down yesterday and was at 100% CPU usage?

Ryan just talked with me and it was a topic of discussion at the DTMB executive conference call. David Behen is not happy that our servers are not being monitored properly. DTMB has a team in place for over the weekend, however I don't think its because Ramesh/Gordon set something up.

Hi Rich,

I do not need information on the PCs other than what Jackie has provided.

What I do need is the information for the 2 printers going with the 19 computers. The queue name, current IP, and their permanent location in the new SEOC. Chuck will assign a temporary IP. But because the printers are moving, we need to change the queue name a little.

Thanks

Subject: RE: SEOC test

It may be better if we can find a jack in the area the SEOC is moving to for a better test. That way you can say it worked through the same switch that the SEOC is going through. This will probably mean testing from the plan A location and plan B location to be safe. We can have someone there at 9:00 to make sure the connections are correct for your test.

If we get a chance to preselect the jacks on Saturday then I will reply back to this email with the Jack numbers and approximate locations and we can make changes from our desks if needed.
Does that sound OK to you?

Hi Rich,
On the PC test you are doing on Monday, we are not installing patchcords on Saturday because they may not have the cables all tested by then and we have a few days next week to get them installed. Do you plan to connect into a port on the data switch in the server room or find a jack in GOB 1A? If needed we can meet you out there on Monday and activate a jack.

Randy, thanks for the list.

In reviewing the 10.29.96. IP's listed (100, 101, 222, 223 & 224) these are all servers that will move when the subnet moves.

Unless I am missing something, I believe we are good at this point.

Anyone else see something that gives you pause?

Thank you .

Randy, I do not believe there is "Cross" Subnet rules in place, to my knowledge.

What your email does spell out is that we will need to reserve IP's for specific rules that are in place I.E. 10.29.96.224.

Could I request that all of the firewall rules for these two subnets be sent to us so we can ensure we capture all of these reservation.

Thank you .

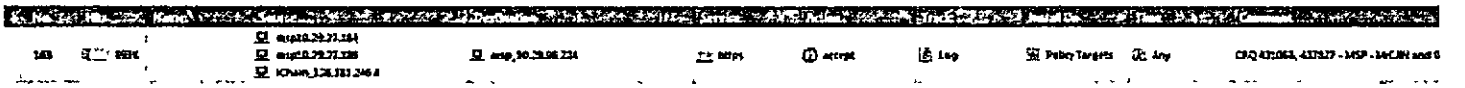
Subject: RE: SEOC Activation - Temporary set up for move day

All the rules from Collins firewall have been duplicated on the new SEOC firewall.

In those rules there are a few that have reference to individual addresses. If you need to map that to a I would need to know what host address you plan to use.

Example, here is a rule that has a as the destination:



Would you need a added to this rule in the destination to match the If so, I would need to know

Both the and are referenced in the "msp_m1_segments" group, which most of the rules reference.

Subject: SEOC Activation - Temporary set up for move day

All,

Following are notes from the meeting we had today at noon. All activities below are contingent on issuance of the Certificate of Occupancy by 1/27.

I put an "??" where I didn't have complete notes and couldn't remember what was said. If there's anything else I missed, please reply to all.

Meeting attendees are listed below. If I missed your name, let me know.

DTMB - Jennifer Poirier, Jim Ostrowski, Randy Swindell, Tom Hengesbach, Matt Cain, Cicely Merrell, Tami Zbojniewicz, Jim Bense, Helen Dennis, Chuck Seaton, Peggy Thacker, Patrick Horgan, Michael Thompson, Jim Herrin, Jeff Jenkins, Paul Cordes, Vicki Meyer, Robert from Telecom, Andy from Telecom

MSP - Dawn Davis, Jim Porcello, Rich Law, Allison Pemberton, Jacki Hampton, Don Bouffard

Temporary SEOC set up during move

1. Setting up 21 PCs in the new SEOC facility for use by 8am 1/29/16 – Tami working with OA
    a. Field Services is building these at the MSP annex on 1/20
    b. Need tables in place and power and data by noon 1/28 in order to get the workstations set up in the SEOC for use by 8am 1/29.
        i. Table installation to begin on 1/25 and should take 2-3 days.
        ii. Electrician and telecom will follow behind to make sure they have power and data
    c. Rich Law submitting admin rights requests for 21 new workstations
    d. Tami and Jennifer will work to get the workstations set up in the SEOC by COB 1/28
        i. Does FS have anyone that can assist?
    e. GIS computer for mapping – Rich has 1 GIS workstation that can be moved without interruption to Collins SEOC

f. Video PCs?

2. Printers – New SEOC will need printers on 1/29 – Jennifer to work with Chuck Seaton
    a. Jackie will work on getting a Ricoh moved by COB 1/28
    b. Rich/Don to send me a list of printers moving early (queue name, current IP)
        i. OA will reserve IP on temporary subnet
3. Temporary Network – Telecom will assign one of the new GOB subnets to the SEOC for temporary use during move
    a. Dave Roach will reach out to MCS to get temporary FW rules set up to duplicate FW rules at Collins Road.
        i. Rich and Don – which subnets will have FW rules that need to be duplicated?
    b. Rich has a laptop that can be used to test all functionality once subnet and FWs are established
4. Phones
    a. Needed by COB 1/28
    b. Phones are pre-programmed
    c. Telecom will install phones and test by COB 1/28
    d. Don to work with Allison and Kelly on worksheet – Avaya numbers ported??
        i. 1800 number currently forwarded to Flint SEOC

Move activities

1. SEOC workstations (65)
    a. Disconnect to start at 8am
    b. Trucked to new facility as soon as possible
    c. Reconnect as soon as equipment arrives
        i. Completion time estimated by 11am depending on how long it takes to transport equipment
        ii. Vicki indicated she will get as many staff as needed to get the 65 workstations done quickly
2. Subnet cutover on 1/29 starting time 3:30pm, should be done by 5:30pm
    a. OA to shut down OA file and print server at 3:30
    b. OA to transport server to new facility and put in new rack
    c. Telecom to cut over all SEOC subnets around 5pm
        i. Coordination meeting scheduled for 1/25 to discuss task order
    d. Telecom to assign SEOC subnets to switches in new facility
    e. MSP test network functionality

Other notes:

1. Telecom has requested that SEOC server room cleaning include under the subfloor. Cleaning needs to be complete by COB 1/22.
2. Card Readers – Ryan McKee indicates that 90% complete with installation. Don will give another status by 1/22
    a. Don will check on status of SEOC server room card readers

Thanks

Subject: RE: SEOC Activation - Temporary set up for move day

All the rules from Collins firewall have been duplicated on the new SEOC firewall.

In those rules there are a few that have reference to individua addresses. If you need to map that to a would need to know what host address you plan to use.

Example, here is a rule that has a he destination:

Would you need a added to this rule in the destination to match the ? If so, I would need to know

Both the and are referenced in the "msp_m1_segments" group, which most of the rules reference.

Subject: SEOC Activation - Temporary set up for move day

All,

Following are notes from the meeting we had today at noon. All activities below are contingent on issuance of the Certificate of Occupancy by 1/27.

I put an "??" where I didn't have complete notes and couldn't remember what was said. If there's anything else I missed, please reply to all.

Meeting attendees are listed below. If I missed your name, let me know.

DTMB - Jennifer Poirier, Jim Ostrowski, Randy Swindell, Tom Hengesbach, Matt Cain, Cicely Merrell, Tami Zbojniewicz, Jim Bense, Helen Dennis, Chuck Seaton, Peggy Thacker, Patrick Horgan, Michael Thompson, Jim Herrin, Jeff Jenkins, Paul Cordes, Vicki Meyer, Robert from Telecom, Andy from Telecom

MSP - Dawn Davis, Jim Porcello, Rich Law, Allison Pemberton, Jacki Hampton, Don Bouffard

Temporary SEOC set up during move

1. Setting up 21 PCs in the new SEOC facility for use by 8am 1/29/16 – Tami working with OA
    a. Field Services is building these at the MSP annex on 1/20
    b. Need tables in place and power and data by noon 1/28 in order to get the workstations set up in the SEOC for use by 8am 1/29.
        i. Table installation to begin on 1/25 and should take 2-3 days.
        ii. Electrician and telecom will follow behind to make sure they have power and data
    c. Rich Law submitting admin rights requests for 21 new workstations
    d. Tami and Jennifer will work to get the workstations set up in the SEOC by COB 1/28
        i. Does FS have anyone that can assist?
    e. GIS computer for mapping – Rich has 1 GIS workstation that can be moved without interruption to Collins SEOC
    f. Video PCs?
2. Printers – New SEOC will need printers on 1/29 – Jennifer to work with Chuck Seaton
    a. Jackie will work on getting a Ricoh moved by COB 1/28
    b. Rich/Don to send me a list of printers moving early (queue name, current IP)
        i. OA will reserve IP on temporary subnet
3. Temporary Network – Telecom will assign one of the new GOB subnets to the SEOC for temporary use during move
    a. Dave Roach will reach out to MCS to get temporary FW rules set up to duplicate FW rules at Collins Road.
        i. Rich and Don – which subnets will have FW rules that need to be duplicated?
    b. Rich has a laptop that can be used to test all functionality once subnet and FWs are established
4. Phones
    a. Needed by COB 1/28
    b. Phones are pre-programmed
    c. Telecom will install phones and test by COB 1/28
    d. Don to work with Allison and Kelly on worksheet – Avaya numbers ported??
        i. 1800 number currently forwarded to Flint SEOC

Move activities

1. SEOC workstations (65)
    a. Disconnect to start at 8am
    b. Trucked to new facility as soon as possible
    c. Reconnect as soon as equipment arrives

i. Completion time estimated by 11am depending on how long it takes to transport equipment
ii. Vicki indicated she will get as many staff as needed to get the 65 workstations done quickly

2. Subnet cutover on 1/29 starting time 3:30pm, should be done by 5:30pm
   a. OA to shut down OA file and print server at 3:30
   b. OA to transport server to new facility and put in new rack
   c. Telecom to cut over all SEOC subnets around 5pm
      i. Coordination meeting scheduled for 1/25 to discuss task order
   d. Telecom to assign SEOC subnets to switches in new facility
   e. MSP test network functionality

Other notes:

1. Telecom has requested that SEOC server room cleaning include under the subfloor. Cleaning needs to be complete by COB 1/22.
2. Card Readers – Ryan McKee indicates that 90% complete with installation. Don will give another status by 1/22
   a. Don will check on status of SEOC server room card readers

Thanks

The plotters do not travel well when we move it should only be moved once any more than that we may lose it all together.

We only have one working plotter at the current time the new one is defective and is being repaired. And DTMB will have to move the plotters. They are to large for EMHSD to move

Jackie,

I have reviewed.

One concern, for the GIS staff. I have been advised that they will need a plotter for printing maps (they have been averaging 5 printed maps a day). We need to confirm with the GIS staff working in the Collins Rd. SEOC.

Following is the plan for the relocation of EMHSD and the SEOC (there is a lot of background and technical stuff behind it, but this is the "basics")

Wednesday, Jan 27 - 19 Unused computers in the Collins SEOC will be packed (to include one

GIS computer, 2 printers) (To be done by DTMB or EMHSD IT Staff)

****

Thursday, Jan 28 – 21 new computers plus the 19 taken from Collins will be set up in new SEOC

(to include 1 GIS, 1 printer from SEOC)

One RICHO printer/copier to be relocated to Communications Room in new SEOC

****

Friday, January 29 8:00 am – SEOC working staff will report to Harris Rd SEOC

(Subnet will be established for functionality of SEOC – no S Drive accessibility)

40 computer stations will be functioning with internet

1 GIS computer station will be functioning with internet

2 Printers will be functioning (linked to computers)

4 large monitors will be functioning (at a minimum) (linked as necessary)

Friday, January 29 8:00 am – DTMB will tear down balance of the computers in the old SEOC

Friday, January 29 10:00 am – DTMB will set up balance of SEOC computers in the new SEOC

Friday, January 29 noon – DTMB will begin to tear down staff computers in order designated and begin packing all staff and division files, etc.

PC's will be unloaded and placed on staff workstation desks

Staff and division files will be unloaded and placed in designated areas.

Friday, January 29 3:30 pm – DTMB will take Collins Rd Server down and move to Harris Rd. This will be taken to Harris Rd and re-established asap (anticipate maximum of 3 hours down)

Friday, January 29 8:00 pm – DTMB will switch over server

****

Saturday, January 30 8:00 am – DTMB will unload all items into Harris Rd Facility

NO STAFF SHOULD REPORT TO EMHSD WORKSPACE – THOSE WORKING IN SEOC ONLY SHOULD REPORT TO SEOC

****

Monday – February 1 7:30 am – Staff begin to report to Harris Rd.

Support staff will be on hand to address any issues such as phone and PC connectivity, desk configurations (height), etc.

Subject: RE: One more review before I send to Captain please

We only have one working plotter at the current time the new one is defective and is being repaired. And DTMB will have to move the plotters. They are to large for EMHSD to move

Jackie,

I have reviewed.

One concern, for the GIS staff. I have been advised that they will need a plotter for printing maps (they have been averaging 5 printed maps a day). We need to confirm with the GIS staff working in the Collins Rd. SEOC.

Following is the plan for the relocation of EMHSD and the SEOC (there is a lot of background and technical stuff behind it, but this is the "basics")

Wednesday, Jan 27 - 19 Unused computers in the Collins SEOC will be packed (to include one

GIS computer, 2 printers) (To be done by DTMB or EMHSD IT Staff)

****

Thursday, Jan 28 – 21 new computers plus the 19 taken from Collins will be set up in new SEOC

(to include 1 GIS, 1 printer from SEOC)

One RICHO printer/copier to be relocated to Communications Room in new SEOC

****

Friday, January 29 8:00 am – SEOC working staff will report to Harris Rd SEOC

(Subnet will be established for functionality of SEOC – no S Drive accessibility)

40 computer stations will be functioning with internet

1 GIS computer station will be functioning with internet

2 Printers will be functioning (linked to computers)

4 large monitors will be functioning (at a minimum) (linked as necessary)

Friday, January 29 8:00 am – DTMB will tear down balance of the computers in the old SEOC

Friday, January 29 10:00 am – DTMB will set up balance of SEOC computers in the new SEOC

Friday, January 29 noon – DTMB will begin to tear down staff computers in order designated and begin packing all staff and division files, etc.

PC's will be unloaded and placed on staff workstation desks

Staff and division files will be unloaded and placed in designated areas.

Friday, January 29 3:30 pm – DTMB will take Collins Rd Server down and move to Harris Rd. This will be taken to Harris Rd and re-established asap (anticipate maximum of 3 hours down)

Friday, January 29 8:00 pm – DTMB will switch over server

****

Saturday, January 30 8:00 am – DTMB will unload all items into Harris Rd Facility

NO STAFF SHOULD REPORT TO EMHSD WORKSPACE – THOSE WORKING IN SEOC ONLY SHOULD REPORT TO SEOC

****

Monday – February 1 7:30 am – Staff begin to report to Harris Rd.

Support staff will be on hand to address any issues such as phone and PC connectivity, desk configurations (height), etc.

Randy, thanks for the list.

In reviewing the 10.29.96. IP's listed (100, 101, 222, 223 & 224) these are all servers that will move when the subnet moves.

Unless I am missing something, I believe we are good at this point.

Anyone else see something that gives you pause?

Thank you .

Randy, I do not believe there is "Cross" Subnet rules in place, to my knowledge.

What your email does spell out is that we will need to reserve IP's for specific rules that are in place I.E.

Could I request that all of the firewall rules for these two subnets be sent to us so we can ensure we capture all of these reservation.

Thank you .

Subject: RE: SEOC Activation - Temporary set up for move day

All the rules from Collins firewall have been duplicated on the new SEOC firewall.

In those rules there are a few that have reference to individual addresses. If you need to map that tc ! would need to know what host address you plan to use.

Example, here is a rule that has as the destination:

Would you need a added to this rule in the destination to match the ? If so, I would need to know

Both the an are referenced in the "msp_m1_segments" group, which most of the rules reference.

Randy

Subject: SEOC Activation - Temporary set up for move day

All,

Following are notes from the meeting we had today at noon. All activities below are contingent on issuance of the Certificate of Occupancy by 1/27.

I put an "??" where I didn't have complete notes and couldn't remember what was said. If there's anything else I missed, please reply to all.

Meeting attendees are listed below. If I missed your name, let me know.

DTMB - Jennifer Poirier, Jim Ostrowski, Randy Swindell, Tom Hengesbach, Matt Cain, Cicely Merrell, Tami Zbojniewicz, Jim Bense, Helen Dennis, Chuck Seaton, Peggy Thacker, Patrick Horgan, Michael Thompson, Jim Herrin, Jeff Jenkins, Paul Cordes, Vicki Meyer, Robert from Telecom, Andy from Telecom

MSP - Dawn Davis, Jim Porcello, Rich Law, Allison Pemberton, Jacki Hampton, Don Bouffard

Temporary SEOC set up during move

1. Setting up 21 PCs in the new SEOC facility for use by 8am 1/29/16 – Tami working with OA
    a. Field Services is building these at the MSP annex on 1/20
    b. Need tables in place and power and data by noon 1/28 in order to get the workstations set up in the SEOC for use by 8am 1/29.
        i. Table installation to begin on 1/25 and should take 2-3 days.
        ii. Electrician and telecom will follow behind to make sure they have power and data
    c. Rich Law submitting admin rights requests for 21 new workstations

d. Tami and Jennifer will work to get the workstations set up in the SEOC by COB 1/28
    i. Does FS have anyone that can assist?
e. GIS computer for mapping – Rich has 1 GIS workstation that can be moved without interruption to Collins SEOC
f. *Video PCs?*

2. Printers – New SEOC will need printers on 1/29 – Jennifer to work with Chuck Seaton
    a. Jackie will work on getting a Ricoh moved by COB 1/28
    b. Rich/Don to send me a list of printers moving early (queue name, current IP)
        i. OA will reserve IP on temporary subnet
3. *Temporary Network – Telecom will assign one of the new GOB subnets to the SEOC for temporary use during move*
    a. Dave Roach will reach out to MCS to get temporary FW rules set up to duplicate FW rules at Collins Road.
        i. Rich and Don – which subnets will have FW rules that need to be duplicated?
    b. Rich has a laptop that can be used to test all functionality once subnet and FWs are established
4. Phones
    a. Needed by COB 1/28
    b. Phones are pre-programmed
    c. Telecom will install phones and test by COB 1/28
    d. Don to work with Allison and Kelly on worksheet – Avaya numbers ported??
        i. 1800 number currently forwarded to Flint SEOC

Move activities

1. SEOC workstations (65)
    a. Disconnect to start at 8am
    b. Trucked to new facility as soon as possible
    c. Reconnect as soon as equipment arrives
        i. Completion time estimated by 11am depending on how long it takes to transport equipment
        ii. Vicki indicated she will get as many staff as needed to get the 65 workstations done quickly
2. Subnet cutover on 1/29 starting time 3:30pm, should be done by 5:30pm
    a. OA to shut down OA file and print server at 3:30
    b. OA to transport server to new facility and put in new rack
    c. Telecom to cut over all SEOC subnets around 5pm
        i. *Coordination meeting scheduled for 1/25 to discuss task order*
    d. Telecom to assign SEOC subnets to switches in new facility
    e. MSP test network functionality

Other notes:

1. Telecom has requested that SEOC server room cleaning include under the subfloor. Cleaning needs to be complete by COB 1/22.
2. Card Readers – Ryan McKee indicates that 90% complete with installation. Don will give another status by 1/22
    a. Don will check on status of SEOC server room card readers

Thanks

Subject: RE: SEOC Activation - Temporary set up for move day

All the rules from Collins firewall have been duplicated on the new SEOC firewall.

In those rules there are a few that have reference to individual addresses. If you need to map that to a would need to know what host address you plan to use.

Example, here is a rule that has a as the destination:

Would you need a added to this rule in the destination to match the If so, I would need to know

Both the and are referenced in the "msp_m1_segments" group, which most of the rules reference.

Randy

Subject: SEOC Activation - Temporary set up for move day

All,

Following are notes from the meeting we had today at noon. All activities below are contingent on issuance of the *Certificate of Occupancy* by 1/27.

I put an "??" where I didn't have complete notes and couldn't remember what was said. If there's anything else I missed, please reply to all.

Meeting attendees are listed below. If I missed your name, let me know.

DTMB - Jennifer Poirier, Jim Ostrowski, Randy Swindell, Tom Hengesbach, Matt Cain, Cicely Merrell, Tami Zbojniewicz, Jim Bense, Helen Dennis, Chuck Seaton, Peggy Thacker, Patrick Horgan, Michael Thompson, Jim Herrin, Jeff Jenkins, Paul Cordes, Vicki Meyer, Robert from Telecom, Andy from Telecom

MSP - Dawn Davis, Jim Porcello, Rich Law, Allison Pemberton, Jacki Hampton, Don Bouffard

Temporary SEOC set up during move

1. Setting up 21 PCs in the new SEOC facility for use by 8am 1/29/16 – Tami working with OA
    a. Field Services is building these at the MSP annex on 1/20
    b. Need tables in place and power and data by noon 1/28 in order to get the workstations set up in the SEOC for use by 8am 1/29.
        i. Table installation to begin on 1/25 and should take 2-3 days.
        ii. Electrician and telecom will follow behind to make sure they have power and data
    c. Rich Law submitting admin rights requests for 21 new workstations
    d. Tami and Jennifer will work to get the workstations set up in the SEOC by COB 1/28
        i. Does FS have anyone that can assist?
    e. GIS computer for mapping – Rich has 1 GIS workstation that can be moved without interruption to Collins SEOC
    f. Video PCs?
2. Printers – New SEOC will need printers on 1/29 – Jennifer to work with Chuck Seaton
    a. Jackie will work on getting a Ricoh moved by COB 1/28
    b. Rich/Don to send me a list of printers moving early (queue name, current IP)
        i. OA will reserve IP on temporary subnet
3. Temporary Network – Telecom will assign one of the new GOB subnets to the SEOC for temporary use during move
    a. Dave Roach will reach out to MCS to get temporary FW rules set up to duplicate FW rules at Collins Road.
        i. Rich and Don – which subnets will have FW rules that need to be duplicated?
    b. Rich has a laptop that can be used to test all functionality once subnet and FWs are established
4. Phones
    a. Needed by COB 1/28
    b. Phones are pre-programmed
    c. Telecom will install phones and test by COB 1/28
    d. Don to work with Allison and Kelly on worksheet – Avaya numbers ported??
        i. 1800 number currently forwarded to Flint SEOC

Move activities

1. SEOC workstations (65)
    a. Disconnect to start at 8am
    b. Trucked to new facility as soon as possible
    c. Reconnect as soon as equipment arrives
        i. Completion time estimated by 11am depending on how long it takes to transport equipment
        ii. Vicki indicated she will get as many staff as needed to get the 65 workstations done quickly
2. Subnet cutover on 1/29 starting time 3:30pm, should be done by 5:30pm
    a. OA to shut down OA file and print server at 3:30

b. OA to transport server to new facility and put in new rack
c. Telecom to cut over all SEOC subnets around 5pm
    i. Coordination meeting scheduled for 1/25 to discuss task order
d. Telecom to assign SEOC subnets to switches in new facility
e. MSP test network functionality

Other notes:

1. Telecom has requested that SEOC server room cleaning include under the subfloor. Cleaning needs to be complete by COB 1/22.
2. Card Readers – Ryan McKee indicates that 90% complete with installation. Don will give another status by 1/22
    a. Don will check on status of SEOC server room card readers

Rich,

Can you come over on Monday with your laptop and test? The switches are going in this weekend so there should be connectivity.

Or if you know what your specific FW needs are for the .26 and .29 we can get them implemented.

Thanks

All,

Following are notes from the meeting we had today at noon. All activities below are contingent on issuance of the Certificate of Occupancy by 1/27.

I put an "??" where I didn't have complete notes and couldn't remember what was said. If there's anything else I missed, please reply to all.

Meeting attendees are listed below. If I missed your name, let me know.

DTMB - Jennifer Poirier, Jim Ostrowski, Randy Swindell, Tom Hengesbach, Matt Cain, Cicely Merrell, Tami Zbojniewicz, Jim Bense, Helen Dennis, Chuck Seaton, Peggy Thacker, Patrick Horgan, Michael Thompson, Jim Herrin, Jeff Jenkins, Paul Cordes, Vicki Meyer, Robert from Telecom, Andy from Telecom

MSP - Dawn Davis, Jim Porcello, Rich Law, Allison Pemberton, Jacki Hampton, Don Bouffard

Temporary SEOC set up during move

1. Setting up 21 PCs in the new SEOC facility for use by 8am 1/29/16 – Tami working with OA
    a. Field Services is building these at the MSP annex on 1/20
    b. Need tables in place and power and data by noon 1/28 in order to get the workstations set up in the SEOC for use by 8am 1/29.

i. Table installation to begin on 1/25 and should take 2-3 days.

ii. Electrician and telecom will follow behind to make sure they have power and data

c. Rich Law submitting admin rights requests for 21 new workstations

d. Tami and Jennifer will work to get the workstations set up in the SEOC by COB 1/28

i. Does FS have anyone that can assist?

e. GIS computer for mapping – Rich has 1 GIS workstation that can be moved without interruption to Collins SEOC

f. Video PCs?

2. Printers – New SEOC will need printers on 1/29 – Jennifer to work with Chuck Seaton

a. Jackie will work on getting a Ricoh moved by COB 1/28

b. Rich/Don to send me a list of printers moving early (queue name, current IP)

i. OA will reserve IP on temporary subnet

3. Temporary Network – Telecom will assign one of the new GOB subnets to the SEOC for temporary use during move

a. Dave Roach will reach out to MCS to get temporary FW rules set up to duplicate FW rules at Collins Road.

i. Rich and Don – which subnets will have FW rules that need to be duplicated?

b. Rich has a laptop that can be used to test all functionality once subnet and FWs are established

4. Phones

a. Needed by COB 1/28

b. Phones are pre-programmed

c. Telecom will install phones and test by COB 1/28

d. Don to work with Allison and Kelly on worksheet – Avaya numbers ported??

i. 1800 number currently forwarded to Flint SEOC

Move activities

1. SEOC workstations (65)
    a. Disconnect to start at 8am
    b. Trucked to new facility as soon as possible
    c. Reconnect as soon as equipment arrives
        i. Completion time estimated by 11am depending on how long it takes to transport equipment
        ii. Vicki indicated she will get as many staff as needed to get the 65 workstations done quickly
2. Subnet cutover on 1/29 starting time 3:30pm, should be done by 5:30pm
    a. OA to shut down OA file and print server at 3:30
    b. OA to transport server to new facility and put in new rack
    c. Telecom to cut over all SEOC subnets around 5pm
        i. Coordination meeting scheduled for 1/25 to discuss task order
    d. Telecom to assign SEOC subnets to switches in new facility
    e. MSP test network functionality

Other notes:

1. Telecom has requested that SEOC server room cleaning include under the subfloor. Cleaning needs to be complete by COB 1/22.
2. Card Readers – Ryan McKee indicates that 90% complete with installation. Don will give another status by 1/22
    a. *Don will check on status of SEOC server room card readers*

Subject: SEOC Activation - Temporary set up for move day

All,

Following are notes from the meeting we had today at noon. All activities below are contingent on issuance of the Certificate of Occupancy by 1/27.

I put an "??" where I didn't have complete notes and couldn't remember what was said. If there's anything else I missed, please reply to all.

Meeting attendees are listed below. If I missed your name, let me know.

DTMB - Jennifer Poirier, Jim Ostrowski, Randy Swindell, Tom Hengesbach, Matt Cain, Cicely Merrell, Tami Zbojniewicz, Jim Bense, Helen Dennis, Chuck Seaton, Peggy Thacker, Patrick Horgan, Michael Thompson, Jim Herrin, Jeff Jenkins, Paul Cordes, Vicki Meyer, Robert from Telecom, Andy from Telecom

MSP - Dawn Davis, Jim Porcello, Rich Law, Allison Pemberton, Jacki Hampton, Don Bouffard

Temporary SEOC set up during move

1. Setting up 21 PCs in the new SEOC facility for use by 8am 1/29/16 – Tami working with OA
    a. Field Services is building these at the MSP annex on 1/20
    b. *Need tables in place and power and data by noon 1/28 in order to get the workstations set up in the SEOC for use by 8am 1/29.*
        i. Table installation to begin on 1/25 and should take 2-3 days.
        ii. Electrician and telecom will follow behind to make sure they have power and data
    c. Rich Law submitting admin rights requests for 21 new workstations
    d. Tami and Jennifer will work to get the workstations set up in the SEOC by COB 1/28
        i. Does FS have anyone that can assist?
    e. GIS computer for mapping – Rich has 1 GIS workstation that can be moved without interruption to Collins SEOC
    f. Video PCs?
2. Printers – New SEOC will need printers on 1/29 – Jennifer to work with Chuck Seaton
    a. Jackie will work on getting a Ricoh moved by COB 1/28
    b. Rich/Don to send me a list of printers moving early (queue name, current IP)
        i. OA will reserve IP on temporary subnet
3. Temporary Network – Telecom will assign one of the new GOB subnets to the SEOC for temporary use during move
    a. Dave Roach will reach out to MCS to get temporary FW rules set up to duplicate FW rules at Collins Road.
        i. Rich and Don – which subnets will have FW rules that need to be duplicated?
    b. Rich has a laptop that can be used to test all functionality once subnet and FWs are established
4. Phones
    a. Needed by COB 1/28
    b. Phones are pre-programmed
    c. Telecom will install phones and test by COB 1/28
    d. Don to work with Allison and Kelly on worksheet – Avaya numbers ported??
        i. *1800 number currently forwarded to Flint SEOC*

Move activities

1. SEOC workstations (65)

a. Disconnect to start at 8am
b. Trucked to new facility as soon as possible
c. Reconnect as soon as equipment arrives
    i. Completion time estimated by 11am depending on how long it takes to transport equipment
    ii. Vicki indicated she will get as many staff as needed to get the 65 workstations done quickly

2. Subnet cutover on 1/29 starting time 3:30pm, should be done by 5:30pm
    a. OA to shut down OA file and print server at 3:30
    b. OA to transport server to new facility and put in new rack
    c. Telecom to cut over all SEOC subnets around 5pm
        i. Coordination meeting scheduled for 1/25 to discuss task order
    d. Telecom to assign SEOC subnets to switches in new facility
    e. MSP test network functionality

Other notes:

1. Telecom has requested that SEOC server room cleaning include under the subfloor. Cleaning needs to be complete by COB 1/22.
2. Card Readers – Ryan McKee indicates that 90% complete with installation. Don will give another status by 1/22
    a. Don will check on status of SEOC server room card readers

Rich,

Can you come over on Monday with your laptop and test? The switches are going in this weekend so there should be connectivity.

Or if you know what your specific FW needs are for the .26 and .29 we can get them implemented.

Thanks

Subject: RE: SEOC Activation - Temporary set up for move day

All the rules from Collins firewall have been duplicated on the new SEOC firewall.

In those rules there are a few that have reference to individual . iddresses. If you need to map that . to a ' I would need to know what host address you plan to use.

Example, here is a rule that has a as the destination:

Would you need : added to this rule in the destination to match the f so, I would need to know

Both the and are referenced in the "msp_m1_segments" group, which most of the rules reference.

Randy

Subject: RE: SEOC Activation - Temporary set up for move day

All the rules from Collins firewall have been duplicated on the new SEOC firewall.

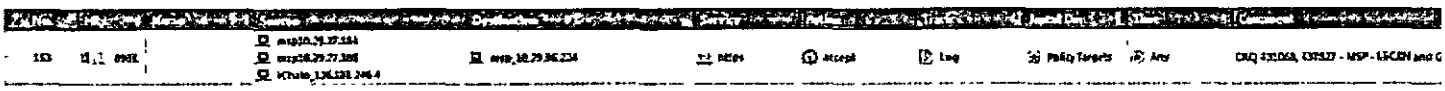
In those rules there are a few that have reference to individual 10.29.96.xx addresses. If you need to map that 10.29.96.x to a 10.29.26.x I would need to know what host address you plan to use.

Example, here is a rule that has a 10.29.96.224 as the destination:



Would you need a added to this rule in the destination to match the ? If so, I would need to know

Both the and are referenced in the "msp_m1_segments" group, which most of the rules reference.

Randy

All,

Following are notes from the meeting we had today at noon. All activities below are contingent on issuance of the Certificate of Occupancy by 1/27.

I put an "??" where I didn't have complete notes and couldn't remember what was said. If there's anything else I missed, please reply to all.

Meeting attendees are listed below. If I missed your name, let me know.

DTMB - Jennifer Poirier, Jim Ostrowski, Randy Swindell, Tom Hengesbach, Matt Cain, Cicely Merrell, Tami Zbojniewicz, Jim Bense, Helen Dennis, Chuck Seaton, Peggy Thacker, Patrick Horgan, Michael Thompson, Jim Herrin, Jeff Jenkins, Paul Cordes, Vicki Meyer, Robert from Telecom, Andy from Telecom

MSP - Dawn Davis, Jim Porcello, Rich Law, Allison Pemberton, Jacki Hampton, Don Bouffard

Temporary SEOC set up during move

1. Setting up 21 PCs in the new SEOC facility for use by 8am 1/29/16 – Tami working with OA
    a. Field Services is building these at the MSP annex on 1/20
    b. Need tables in place and power and data by noon 1/28 in order to get the workstations set up in the SEOC for use by 8am 1/29.
        i. Table installation to begin on 1/25 and should take 2-3 days.
        ii. Electrician and telecom will follow behind to make sure they have power and data
    c. Rich Law submitting admin rights requests for 21 new workstations
    d. Tami and Jennifer will work to get the workstations set up in the SEOC by COB 1/28
        i. Does FS have anyone that can assist?
    e. GIS computer for mapping – Rich has 1 GIS workstation that can be moved without interruption to Collins SEOC
    f. Video PCs?
2. Printers – New SEOC will need printers on 1/29 – Jennifer to work with Chuck Seaton
    a. Jackie will work on getting a Ricoh moved by COB 1/28
    b. Rich/Don to send me a list of printers moving early (queue name, current IP)
        i. OA will reserve IP on temporary subnet

3. Temporary Network – Telecom will assign one of the new GOB subnets to the SEOC for temporary use during move
    a. Dave Roach will reach out to MCS to get temporary FW rules set up to duplicate FW rules at Collins Road.
        i. Rich and Don – which subnets will have FW rules that need to be duplicated?
    b. Rich has a laptop that can be used to test all functionality once subnet and FWs are established
4. Phones
    a. Needed by COB 1/28
    b. Phones are pre-programmed
    c. Telecom will install phones and test by COB 1/28
    d. Don to work with Allison and Kelly on worksheet – Avaya numbers ported??
        i. 1800 number currently forwarded to Flint SEOC

Move activities

1. SEOC workstations (65)
    a. Disconnect to start at 8am
    b. Trucked to new facility as soon as possible
    c. Reconnect as soon as equipment arrives
        i. Completion time estimated by 11am depending on how long it takes to transport equipment
        ii. Vicki indicated she will get as many staff as needed to get the 65 workstations done quickly
2. Subnet cutover on 1/29 starting time 3:30pm, should be done by 5:30pm
    a. OA to shut down OA file and print server at 3:30
    b. OA to transport server to new facility and put in new rack
    c. Telecom to cut over all SEOC subnets around 5pm
        i. Coordination meeting scheduled for 1/25 to discuss task order
    d. Telecom to assign SEOC subnets to switches in new facility
    e. MSP test network functionality

Other notes:

1. Telecom has requested that SEOC server room cleaning include under the subfloor. Cleaning needs to be complete by COB 1/22.
2. Card Readers – Ryan McKee indicates that 90% complete with installation. Don will give another status by 1/22
    a. Don will check on status of SEOC server room card readers

Subject: RE: SEOC Activation - Temporary set up for move day

I talked with Vicki McPherson and this will be approved by MCS. It will be approved for a 7 days so we need to ensure we are solid on our dates and testing of the subnets.

The request is to duplicate any Firewall rule on and on the subnet.

Once the testing is done after the move for .26 & .96, we will notify MCS the rules on .122 can be removed.

We will then need to submit a request for the M1 rule set to be applied to the .122 subnet.

Thank you .

Subject: Fwd: SEOC Activation - Temporary set up for move day

Rich and Vicki,

With the SEOC activated for the Flint water issue and to also keep the CAR/SEOC moves on track, I would like to do a temporary duplication of firewall rules.

We would duplicate what is on the two SEOC subnets on a new subnet at the GOB to allow MSP SEOC to function during the move. Once we are at a point to move the current subnets and test them, we would then remove the rules from the GOB subnet.

Duration would be 5 to 7 days to ensure we have full functionality.

Do you see an issue with this approach?

1. SEOC workstations (65)
   a. Disconnect to start at 8am
   b. Trucked to new facility as soon as possible
   c. Reconnect as soon as equipment arrives
      i. Completion time estimated by 11am depending on how long it takes to transport equipment
      ii. Vicki indicated she will get as many staff as needed to get the 65 workstations done quickly
2. Subnet cutover on 1/29 starting time 3:30pm, should be done by 5:30pm
   a. OA to shut down OA file and print server at 3:30
   b. OA to transport server to new facility and put in new rack
   c. Telecom to cut over all SEOC subnets around 5pm
      i. Coordination meeting scheduled for 1/25 to discuss task order
   d. Telecom to assign SEOC subnets to switches in new facility
   e. MSP test network functionality

Other notes:

1. Telecom has requested that SEOC server room cleaning include under the subfloor. Cleaning needs to be complete by COB 1/22.
2. Card Readers – Ryan McKee indicates that 90% complete with installation. Don will give another status by 1/22
   a. Don will check on status of SEOC server room card readers

Thanks

Cc: Law, Richard (MSP)
Subject: RE: SEOC Activation - Temporary set up for move day

I talked with Vicki McPherson and this will be approved by MCS. It will be approved for a 7 days so we need to ensure we are solid on our dates and testing of the subnets.

The request is to duplicate any Firewall rule on and on the subnet.

Once the testing is done after the move for & we will notify MCS the rules on .122 can be removed.

We will then need to submit a request for the M1 rule set to be applied to the .122 subnet.

Thank you .

Subject: Fwd: SEOC Activation - Temporary set up for move day

Rich and Vicki,

With the SEOC activated for the Flint water issue and to also keep the CAR/SEOC moves on track, I would like to do a temporary duplication of firewall rules.

We would duplicate what is on the two SEOC subnets on a new subnet at the GOB to allow MSP SEOC to function during the move. Once we are at a point to move the current subnets and test them, we would then remove the rules from the GOB subnet.

Duration would be 5 to 7 days to ensure we have full functionality.

Do you see an issue with this approach?

Subject: SEOC Activation - Temporary set up for move day

All,

Following are notes from the meeting we had today at noon. All activities below are contingent on issuance of the Certificate of Occupancy by 1/27.

I put an "??" where I didn't have complete notes and couldn't remember what was said. If there's anything else I missed, please reply to all.

Meeting attendees are listed below. If I missed your name, let me know.

DTMB - Jennifer Poirier, Jim Ostrowski, Randy Swindell, Tom Hengesbach, Matt Cain, Cicely Merrell, Tami Zbojniewicz, Jim Bense, Helen Dennis, Chuck Seaton, Peggy Thacker, Patrick Horgan, Michael Thompson, Jim Herrin, Jeff Jenkins, Paul Cordes, Vicki Meyer, Robert from Telecom, Andy from Telecom

MSP - *Dawn Davis, Jim Porcello, Rich Law, Allison Pemberton, Jacki Hampton, Don Bouffard*

Temporary SEOC set up during move

1. Setting up 21 PCs in the new SEOC facility for use by 8am 1/29/16 – Tami working with OA
    a. Field Services is building these at the MSP annex on 1/20
    b. Need tables in place and power and data by noon 1/28 in order to get the workstations set up in the SEOC for use by 8am 1/29.
        i. Table installation to begin on 1/25 and should take 2-3 days.
        ii. Electrician and telecom will follow behind to make sure they have power and data
    c. Rich Law submitting admin rights requests for 21 new workstations
    d. Tami and Jennifer will work to get the workstations set up in the SEOC by COB 1/28
        i. Does FS have anyone that can assist?
    e. GIS computer for mapping – Rich has 1 GIS workstation that can be moved without interruption to Collins SEOC
    f. Video PCs?
2. Printers – New SEOC will need printers on 1/29 – Jennifer to work with Chuck Seaton
    a. Jackie will work on getting a Ricoh moved by COB 1/28
    b. Rich/Don to send me a list of printers moving early (queue name, current IP)
        i. OA will reserve IP on temporary subnet
3. Temporary Network – Telecom will assign one of the new GOB subnets to the SEOC for temporary use during move
    a. Dave Roach will reach out to MCS to get temporary FW rules set up to duplicate FW rules at Collins Road.
        i. Rich and Don – which subnets will have FW rules that need to be duplicated?
    b. Rich has a laptop that can be used to test all functionality once subnet and FWs are established
4. Phones
    a. Needed by COB 1/28
    b. Phones are pre-programmed
    c. Telecom will install phones and test by COB 1/28
    d. Don to work with Allison and Kelly on worksheet – Avaya numbers ported??

i. 1800 number currently forwarded to Flint SEOC

Move activities

1. SEOC workstations (65)
    a. Disconnect to start at 8am
    b. Trucked to new facility as soon as possible
    c. Reconnect as soon as equipment arrives

    c. Rich Law submitting admin rights requests for 21 new workstations
    d. Tami and Jennifer will work to get the workstations set up in the SEOC by COB 1/28
        i. Does FS have anyone that can assist?
    e. GIS computer for mapping – Rich has 1 GIS workstation that can be moved without interruption to Collins SEOC
    f. Video PCs?
2. Printers – New SEOC will need printers on 1/29 – Jennifer to work with Chuck Seaton
    a. Jackie will work on getting a Ricoh moved by COB 1/28
    b. Rich/Don to send me a list of printers moving early (queue name, current IP)
        i. OA will reserve IP on temporary subnet

3. Temporary Network – Telecom will assign one of the new GOB subnets to the SEOC for temporary use during move
    a. Dave Roach will reach out to MCS to get temporary FW rules set up to duplicate FW rules at Collins Road.
        i. Rich and Don – which subnets will have FW rules that need to be duplicated?
    b. Rich has a laptop that can be used to test all functionality once subnet and FWs are established
4. Phones
    a. Needed by COB 1/28
    b. *Phones are pre-programmed*
    c. Telecom will install phones and test by COB 1/28
    d. Don to work with Allison and Kelly on worksheet – Avaya numbers ported??
        i. 1800 number currently forwarded to Flint SEOC

Move activities

1. SEOC workstations (65)
    a. Disconnect to start at 8am
    b. Trucked to new facility as soon as possible
    c. *Reconnect as soon as equipment arrives*
        i. Completion time estimated by 11am depending on how long it takes to transport equipment
        ii. Vicki indicated she will get as many staff as needed to get the 65 workstations done quickly
2. Subnet cutover on 1/29 starting time 3:30pm, should be done by 5:30pm
    a. OA to shut down OA file and print server at 3:30
    b. OA to transport server to new facility and put in new rack
    c. Telecom to cut over all SEOC subnets around 5pm
        i. Coordination meeting scheduled for 1/25 to discuss task order
    d. Telecom to assign SEOC subnets to switches in new facility
    e. MSP test network functionality

Other notes:

1. Telecom has requested that SEOC server room cleaning include under the subfloor. Cleaning needs to be complete by COB 1/22.
2. Card Readers – Ryan McKee indicates that 90% complete with installation. Don will give another status by 1/22
    a. Don will check on status of SEOC server room card readers

Thanks

Hi Jackie:

Came down to see you but missed you. I am serving in the FEMA Planning SITL Role here in Lansing for the incident. I was instructed by my leadership to request access to the MI WebEOC for Situational Awareness purposes.

If it speeds things up/makes things easier, I had an account shortly after the conversion from E-Team. (Was probably under my old va.gov e-mail.) Training cert attached. Failing that, this e-mail and contact information works great.

Thank you,
Chris

DTMB is going to be moving items to the SEOC Server Room this Saturday (1/23). We need to have this room secure by 1/22 with only card access. I need to receive conformation that this can be completed.

After 1/23, all contractors will need to have a complete MSP background check to access this room. Please let me know if there are any issues. Thank you.

Subject: SEOC move options/decision points

Hi Dawn,

Attached is the email from Mitzi regarding the SEOC server room security once the production firewall and Cisco equipment is moved to racks in that room. Based on the requirements that Mitzi needs, following is from DTMB:

- Telecom will need a key to the server room once it is locked
- All telecom staff are MSP background checked
- The following teams will need access to the room once it's locked: Wiring, Switch, firewall, phones.
- Telecom has a locked box in their office where they keep the keys for the various closets that they need access to. The rack keys and the room key will be located in this box.

DTMB can provide a temporary subnet for MSP to set up workstations in the new facility.

- This subnet will provide workstations with MSP Zone 3 network and the internet as well as the SEOC resources at Collins road, as long as the network at Collins is up.
- Placing PCs in the SEOC hardened facility is contingent on the installation of the tables, power and data.
    - If we can have 11 tables with power and data by noon 1/28, we can have the 21 PCs ready for people by beginning of day 1/29
    - If this is not possible, we can put the PCs in one of the rooms in the EMHSD
- Cutting the subnet over will not interrupt or cause downtime for the people on the temporary subnet at the new facility
- I need to know when the 65 workstations for Collins road can be moved
- DTMB needs to know what MSPs plans are for moving the 65 workstations that are in the Collins road SEOC
    - If these need to be moved after hours, we will have to get overtime approved for field services
- DTMB needs to know when MSP will allow the subnet cutover and move of the OA file and print server
    - Rich indicated there are files on the printer that they are using during the activation. He's working on a plan for the move timeline
    - Printers will be down once the OA server and subnet is moved

Hopefully this is everything we discussed. If you have any further questions, let me know.

Thanks

Subject: FW: Server Monitoring Resource Request

Subject: RE: Server Monitoring Resource Request

Ok, with the assistance of TS, MCS, and Telecom, the firewall rules are in place and EM has set up the alerts to the following specifications from EM:

I dropped the CPU threshold down as low as I could (1%) and none of the CPUs went above that for more than 5 minutes. So, no test messages were sent. I've reset the threshold to 75% for 5 minutes, and a reset value of 70%. The alarm will stay in place until the threshold drops back to 70%. The standard polling interval is 5 minutes. We can modify the threshold to require more than 5 minutes before an alarm if we need to.

The list of recipients for the notifications are:

moores3@michigan.gov

christensenc4@michigan.gov

mckeer1@michigan.gov

dtmb-smc@michigan.gov

The message will indicate that there is high CPU usage on the server. I've been watching both machines in Spectrum, and the CPU utilization is staying way down
now. LAN551CIMSRW001 is almost 0% for CPU utilization. LAN551CIMSRD001 is the same. A few CPUs are running at 1% and the rest are at 0. Both machines should send email to the above list if any of the CPUs go above 75% for more than 5 minutes. A cleared message should be sent when that value drops back below 70%. Let us know if that needs to be adjusted.

Thanks

Steve Moore

Going forward if SMC receives any alerts, do you need us to respond in any way? Contact the server team, contact the seoc, etc? At this time, we are set to just receive them. (Excluding if we receive a ping alarm, we would follow normal procedure.)

David we've contacted EM. They're heading into the office. What we need to know is the specific servers. Does anyone have that info, we're having trouble locating by the app name in the CMDB. Also once we have the servers, who would like to get the notifications? Ryan McKee and the Smc is who I have thus far. EM will be able to turn on notifications for high cpu, memory, etc. thanks for your assistance.

Subject: WebEOC issue

Jaclyn,
almost forgot I assigned DTMB a task to monitor the MICIMS servers to watch the load on them so hopefully MICIMS will not crash.

Subject: IT issues for the day

Jaclyn,
FEMA came in today and I helped DTMB set up a wireless network for them with a network printer so they are all set up I also issued FEMA two projectors and a HDMI cable. I put all of the wireless router information in our Activity Log. I issued the FEMA staff cards and put it on the sheet in Porcello's office which had to be redone because none of the numbers were correct.
There was a Denial of Service attack on the state web sites so DTMB was rest restricting access to state websites so Genesee County was blocked out so I worked with DTMB to get the county access to MICIMS.
Captain also wanted to know if the backup MICIMS server was available and what it would take to get it up if necessary. I got with Jennet Doll to tell the DTMB IT staff on what is necessary to get the bring it up if needed. I cc you on that email I will be available by phone if you need me.

Rich

Here is the quick procedure for cutting over to the SEOC WebEOC servers you will need to get with Server Team 3 and DTMB AS CRM DMVA/MSP group

1.The double take connection needs to be disabled between the DTMB hosted database server and the SEOC database server

2. The SQL on the SEOC database server needs to be started

3 We will then hit the SEOC webserver by ip address.

Here is the server information

MI CIMS SEOC Backup DB	
MI CIMS SEOC Backup Web Server	

If you have any questions you can call me at 517-242-4044
Hope we do not have to use this.

All,

I have started a spreadsheet to track all of the cards that have been issued out during the Flint Water Situation.

I think I grabbed all the info from the various Activity Logs.

I do not have a timeline yet of when the JIC will be leaving Flint. If the Presidential request is declared, then we also need to look into additional JIC space for FEMA. Not sure what the plan is for a JFO, if there will be one.

Good Evening:

Can you tell me if you have thought about how much longer the JIC will remain in Flint? I'm sure through next week. We are looking at the request for a tv with cable for the JIC and want to make sure of how long you may be in Flint. The earliest it could be taken care of is Tuesday.

Thanks.

Good evening,

Attached is the list of staff assigned to work in the SEOC through 1/31/16. The hours are 8 a.m. to 8 p.m. Lunch and dinner will be provided. As always, business casual attire is appropriate. No jeans for EMHSD staff.

For Fiscal, your names are not on this schedule but I know it has been worked out within the section for the appropriate staff to cover.

Thanks,

Penny

Jaclyn
There was not much going on today Malyssa added one new user and I need to add Renee to the JIC administrative group. I also answered some questions on the JIC set up for DTMB and I had to remap some printers. I loaded the gate software on the status plotter computer in case you are still stuck in the corner so you can open and close the gate from there (Malyssa just told me that there will be four at the GIS table and the Little Snarky will be in later so you may want to go to the corner). The new plotter is not working and I will have to put in a ticket on it on Tuesday. I spent more time on the new SEOC issues there is still a fight about server room space. If you need anything you can call me.

Hello Dear!

I was wondering if there is anything the CSC needs to know about the Flint SEOC. Once this is fully set up and operational, would the CSC possibly take any calls for issues and problems and are there any special

instructions we need to be aware of? We want to make sure we're prepared to get tickets/calls routed and addressed as quickly as possible.

Let me know if you have anything and we'll get appropriate documentation prepared for our agents.

THANK YOU!

Subject: SEOC move options/decision points
Attachments: RE: Cisco Server and Firewall move to the Server Room

Hi Dawn,

Attached is the email from Mitzi regarding the SEOC server room security once the production firewall and Cisco equipment is moved to racks in that room. Based on the requirements that Mitzi needs, following is from DTMB:

- Telecom will need a key to the server room once it is locked
- All telecom staff are MSP background checked
- The following teams will need access to the room once it's locked: Wiring, Switch, firewall, phones.
- Telecom has a locked box in their office where they keep the keys for the various closets that they need access to. The rack keys and the room key will be located in this box.

DTMB can provide a temporary subnet for MSP to set up workstations in the new facility.

- This subnet will provide workstations with MSP Zone 3 network and the internet as well as the SEOC resources at Collins road, as long as the network at Collins is up.
- Placing PCs in the SEOC hardened facility is contingent on the installation of the tables, power and data.
    - If we can have 11 tables with power and data by noon 1/28, we can have the 21 PCs ready for people by beginning of day 1/29
    - If this is not possible, we can put the PCs in one of the rooms in the EMHSD
- Cutting the subnet over will not interrupt or cause downtime for the people on the temporary subnet at the new facility
- I need to know when the 65 workstations for Collins road can be moved
- DTMB needs to know what MSPs plans are for moving the 65 workstations that are in the Collins road SEOC
    - If these need to be moved after hours, we will have to get overtime approved for field services
- DTMB needs to know when MSP will allow the subnet cutover and move of the OA file and print server
    - Rich indicated there are files on the printer that they are using during the activation. He's working on a plan for the move timeline
    - Printers will be down once the OA server and subnet is moved

Hopefully this is everything we discussed. If you have any further questions, let me know.

Thanks

Good Morning,

Attached are the guidelines for entering your time in DCDS by coding block for those of you that are working **overtime** for the City of Flint Contamination/Shortage event. Please use **Index 28900 with PCA 28670** for overtime worked for this event. Do not use these codes for your regular hours.

Please contact one of the division timekeepers if you need additional guidance in entering the special codes for recording your overtime worked on this special event. Division timekeepers are Michelle Gilsdorf, Richard Sheaffer, and Nancy Downs.

Thank you,
Nancy

Subject: Coding for City of Flint Water Contamination incident

Good Afternoon:

For any **overtime hours** spent working in the SEOC with the City of Flint Water Contamination/Shortage event, please use the following coding:

Index 28900 with PCA 28670

Any **non-payroll** costs (travel, SEOC meals during activation, etc.) should be coded to:

Index 28900 with PCA 28671.

These codes are not yet active in DCDS but will be by the end of the week. Please let me know if you have any questions.

Thanks,
Penny

Law, Richard (MSP)

From: Poirier, Jennifer (DTMB)
Sent: Tuesday, January 12, 2016 8:15 PM
To: Helen Dennis; Law, Richard (MSP); Merrell, Cicely (DTMB)
Subject: RE: Server Move

Hi Helen,

There are 3 sets of servers/support teams:

1. OA file and Print/domain server – OA will be turning this server off on Friday at 4pm and moving the server to the SEOC server room right away. We need this server back up as soon as possible
2. DTMB supported SEOC servers – Cicely's team will turn these servers off and remove them from the rack and put them in a mail tub. Mail and delivery will move these servers. Once these are at the new building, Cicely team will put them in the new rack.
3. SEOC supported servers – Rich will have to provide the logistics for these servers.

- Cicely – Since the domain will be taken down at 4pm, do you need your staff on site to remove your servers at that time?
    - Is there monitoring on these servers that we need to worry about? If the domain is down, monitoring will start opening tickets.
    - Also, when will your team want to install these servers in the racks at the new server room? Friday night, Saturday morning?
        - Rich, does MSP have a requirement to get these server back-up ASAP?

The subnet cutover will be 5:30-6pm. Time will depend on how long it takes OA to get the server moved. I have a meeting scheduled for 1/25 to discuss the subnet cutover/ OA server move.

Thanks

Subject: Server Move

Good Morning,

I am working on the logistics and looking at timing it appears there are different groups that will need to be in the server room, so the server will be shut down at but what will be the order and how much time per group ?

Rich
ST3

OA
Vendor

"Of the 13 servers I looked at with Rich, some were going to be moved by Rich, some by my ST3, some by OA, and some by a vendor. I don't want us all to be on top of each other in that little room so I wanted to talk about how we can accomplish this efficiently as a team. Who is our OA/FS resource? I'd like to reach out to them directly and see if they want to shut down their stuff remotely and have us put it in the bin...I'm assuming I'll need to get shelves for the three tower servers they maintain." Cicely

Do we have a list of the server for labels?

Will DTMB physically move all of them ?

Thanks

Just a note to our section.

I have created a spreadsheet to track all of the MI CIMS accounts that are being created on the fly and any position changes that will be temporary. It is saved here :

If you happen to make any changes please record them on the spreadsheet.

Thanks!
Jaclyn

Good afternoon,

If you are receiving this email, it is because you have been assigned to work in the SEOC this week for the Flint Water Emergency. Attached is the staff assignment list. Please find your name and report to your assignment at 8 a.m. tomorrow (1/11) morning. The hours are 8 a.m. to 5 p.m. Lunch will be provided.

My cell number is

Thank you,

Wendy

Law, Richard (MSP)

From: Barcroft, Jaclyn (MSP)
Sent: Saturday, January 09, 2016 5:44 PM
To: Law, Richard (MSP)
Subject: SEOC Notes

If you can get here around 7:30 AM that would be helpful.

I have set the projector up in the Library again - they are using it for meetings. I think they have a meeting at 8am.

You will also have to open the gate for a handful of people and then someone will also have to let them in the front door. A big group of people between 7:50 -8:15 ish. They also have the phone number for Operations Chief and Jackie Hampton if they need the gate open.

I have completed the PDI scans on the entire back row, executive row, pod of tables in the front left corner (by the big wall map), Main PIT computer (other 2 still need to be run) and IT/NWS. I cleaned up email boxes as well.
The Treasury email won't take the password and the guy logged in as himself on the Civil Rights computer so the email keeps coming up to log in as him.

I had the weather radar up on the corner monitor by the MIOC computers.

I've had to create a few new MI CIMS accounts for people. Go ahead and do that and just keep track of what you have created.

I will be home all day tomorrow most likely so give me a call if you have a questions.

I think Jim P was planning to not come in tomorrow. Matt, Walt & Nikki will be in.

Importance: High

All,

You may have already heard, but just to be sure the SEOC has been activated since last Wednesday for the Flint Water Situation. This will be a long term activation and we are relying on MI CIMS heavily. All seems to be running well so far.

We are currently activated 8A-5P 7 days a week.

Ron,
The JIC e-mail accounts are not accessible through the web they all have the same password which is when DTMB reset the accounts they did not force a password change so they cannot be changes for 15 days some of the accounts are full and will need to be cleaned out. I checked them out and they all work. The login will be and so on.

Rich,
The MSPAD accounts for the JIC mailboxes have been added to the permissions for the corresponding shared mailboxes. If you are logged in to those accounts currently you will need to log out of the computer and back in to receive the rights to be able to set up Outlook.

Subject: Laptops for JIC PIOs

Ron,
Its our suggestion that any PIOs that have their own laptops bring them to the Flint JIC. They will be able to log into the network (other than MSP folks) much easier than our laptops will.

We will still have our 10 that we will bring.

Subject: Staffing the SEOC

Good afternoon,

Attached is the SEOC staffing list for the Flint Water issue. Please find your unit under the Logistics section and place your name on the days you are available to work the remainder of this week and next week. I will fill in the gaps where you are unavailable. Please return to me by 3 p.m. today.

Thanks.

Subject: Coding for City of Flint Water Contamination incident

Good Afternoon:

For any **overtime hours** spent working in the SEOC with the City of Flint Water Contamination/Shortage event, please use the following coding:

Index 28900 with PCA 28670

Any **non-payroll** costs (travel, SEOC meals during activation, etc.) should be coded to:

Index 28900 with PCA 28671.

These codes are not yet active in DCDS but will be by the end of the week. Please let me know if you have any questions.

Thanks,
Penny

Sent: Tuesday, January 05, 2016 4:46 PM
To: MSP-EMHSD-Division
Subject: URGENT - SEOC Activation

On January 4, 2016, Genesee County requested that a "State of Emergency/Disaster" be issued by Governor Snyder. Today, the Governor issued a State of Emergency declaration. EMHSD will **activate the SEOC tomorrow at 0800** and will conduct a briefing at 0900 on the event. All state agencies will be represented. I ask that only those personnel requested to play SEOC roles and section managers attend the 0900 briefing due to space constraints. The initial focus of the SEOC will be to:

- Identify and implement any needed protective actions to protect public health and safety;
- Develop situational awareness;
- Develop understanding of technical aspects;
- Coordinate damage assessment;
- Coordinate public information; and
- Identify programs to assist in remediating damage.

If you have any questions, please let me know.

Subject: Situational Awareness: U of M Flint Campus Detail Updates - Water Filter Distribution

The below updates were provided by Lt. Ryan Pennell of the Flint Post.

5pm Update:

* This will be the final update as U of M Chief Hall has cleared all MSP Units from the detail.
* The organizers have approximately 100 people left in line and will finish the line before closing.
* There will be approximately 1,000 filters remaining.
* There are no protestors at the scene.
* No reported issues or concerns.
* Again, all MSP units are clear the scene and enroute back to their respective posts.

4pm Update:

* 2,100 filters remain.
* Approximately 80 people in line to receive a filter.
* No protestors at the scene.
* No reported issues or concerns.
* Organizers are stating they will shut down at 5pm as planned.

3pm Update:

* Activity has increased slightly. There are 200 people in line to receive a filter
* There are 3,000 filters remaining.
* No protestors at the scene.
* No reported issues or concerns.

1pm Update:

* 600 filters have been handed out.
* No protestors at the scene.
* No reported issues or concerns.
* Approximately 20 people in line to receive a filter.
* Next update will be at 3pm unless there is a significant change or operational need to report sooner.

Noon Update:

* Restrictions on the order in which filters are being handed out have been lifted. Anyone living in a zip code that is affected, and showing proof, will be given a filter as they arrive.
* No protestors at the scene.
* No reported issues or concerns.
* Approximately 20 people in line to receive a filter.

11am Update:
* No protestors at the scene.
* No reported issues or concerns.
* 30 people in line to receive filters.

10am Update:
* Doors are open for filter distribution with everything running smoothly.
* No protestors at the scene.
* Approximately 200 people in line.
* No reported issues or concerns.
* Media is on scene; Channels 12 and 5

The water filter distribution to affected city of Flint residents is expected to start at 10am this morning on the University of Michigan, Flint Campus. No additional filters arrived throughout the night and there are only approximately 5000 filters to hand out.

9am:

* MSP personnel are on scene to assist and currently in a briefing with U of M Chief Ray Hall

* There are no protesters on scene.

* There are 5 people in line to receive a filter.

* There are no reported issues or concerns.

Thank you,

Ryan

Subject: Thanks to You

Dear All,

I can't say thank you enough to everyone who supported me and the entire Flint community. It has been the honor of a lifetime to be mayor of our great City of Flint.

By working together we changed Flint for the better. From the bottom of the recession and through four state-appointed emergency managers, Flint's heart beat continued and positive developments were made in every part of the city.

Good work is being done every day to fix the water, win the war on blight, reduce crime, support new businesses, engage our youth, and provide essential public and community services. I am most proud of how we worked together to develop a comprehensive vision for Flint's future as a 21st Century City in the Imagine Flint Master Plan. The plan will serve as a blueprint for the next chapter in Flint's prosperity.

I am also confident that the positive momentum will be carried forward in the months and years to come. Here at City Hall, there is a strong professional management team in place along with a strategic plan, two-year budget, five-year financial projection and a performance evaluation process. This is very different from what I inherited six years ago when I first came into office as your mayor.

Despite the difficulties we continue to face, I know there is a bright future ahead and my family and I look forward to being involved. Thanks again for your support. You may reach me at

Sincerely,
Dayne Walling

Snyder Asks Legislature For $6M To Reconnect Flint To Detroit Water

FLINT – Governor Rick Snyder said today that Flint will reconnect to the Detroit water system and no longer draw water for its residents and businesses from the Flint River, a move that comes in response to insufficient corrosion treatment for the river water causing unsafe levels of lead to leach into the water.

The announcement follows one of the most serious environmental crises to confront the state and a major outcry that Mr. Snyder's administration, and the man he appointed to run the city when it was in a financial emergency, failed to assure the river water – more corrosive than the water from Lake Huron, where the Detroit system draws its water – was properly treated before making the switch to the river. Testing has shown rising levels of lead in the blood of some children in the city and pockets of the city with lead levels in the water that exceed recognized limits for safety.

Mr. Snyder said it will cost $12 million to shift Flint to Detroit water through next summer, when a new pipeline to Lake Huron is expected to be completed to supply Flint and surrounding areas with its water. He said he is asking the Legislature to supply $6 million. The Mott Foundation will contribute $4 million and the city of Flint will chip in $2 million.

Gongwer News Service will have more on this story in today's Michigan Report.

GOVERNOR'S ACTIVITIES

Sexual assault kits press conference
Worthy: $10 million needed to advance rape kit cases (Detroit News)
Michigan law enforcement authorities need $10 million to help deliver justice for at least 1,350 sexual assault victims whose cases languished for years in a Detroit police storage facility, Wayne County Prosecutor Kym Worthy said Wednesday.

Detroit clears massive backlog of untested rape kits (Freep)
Detroit's huge backlog of untested rape kits has been cleared, with nearly all of the more than 11,000 kits discovered in a police storage facility in 2009 now tested, Michigan Gov. Rick Snyder said at a news conference Wednesday.

Prosecutor: 10,000 untested Detroit rape kits now processed (WDIV)
Testing has been completed by the Michigan State Police on more than 10,000 sexual assault kits found in a Detroit police property storage facility. Gov. Rick Snyder and Wayne County Prosecutor Kym Worthy say the next phase of the process is investigating and prosecuting rape cases associated with the kits.

Governor Snyder Addresses Issue of Sexual Assault Kits (9&10 News)
Governor Rick Snyder touched on the issue of sexual assault Wednesday afternoon. He said he plans to stay on top of the issue on college and university campuses. He made the comments at an event Wednesday, giving an update on the status of untested sexual assault kits found in 2009

Governor Rick Snyder: 10K rape kits from Detroit have been tested (WXYZ)
Michigan Governor Rick Snyder says 10,000 rape kits from Detroit have been tested. Snyder was joined by Michigan State Police, Wayne County Prosecutor Kim Worthy and other sexual violence prevention groups.

Backlogged rape kits in Detroit head for further investigation (Reuters)
Most of the 11,000 rape-evidence kits left languishing in a Detroit warehouse have been analyzed since they turned up several years ago, with DNA matches leading to further investigation in 35 states, Michigan's governor said on Wednesday.

State officials say rape kit backlog almost cleared (Michigan Radio)
Officials say a backlog of more than 11,000 untested rape kits found in an abandoned Detroit crime lab is almost cleared. In some instances, the cases go back more than three decades. But, some victims will still have to wait years for justice. The untested rape kits were discovered six years ago. A combined state, local and private sector effort was launched to clear the backlog.

Testing complete on more than 10,000 abandoned rape kits in Detroit (AP)
Testing has been completed by the Michigan State Police on more than 10,000 sexual assault kits found in a Detroit police property storage facility. Gov. Rick Snyder and Wayne County Prosecutor Kym Worthy say the next phase of the process is investigating and prosecuting rape cases associated with the kits.

State police finish testing 10,000+ shelved rape kits (Fox 17)
Gov. Rick Snyder announced Wednesday that Michigan State Police have finished testing more than 10,000 rape kits that were found in a Detroit warehouse more than five years ago. The Detroit Police Department evidence kits were found in 2009. Of the 10,087 that were tested, 2,616 of them were linked to the FBI's Combined DNA Index System (CODIS), according to a release from the governor's office.

Chinese investment
Chinese company to invest nearly $26 million in Northville Township facility (Oakland Press)
A Chinese bearing manufacturer is investing nearly $26 million to establish a new U.S. headquarters and technical center in Northville Township, creating 125 jobs, Gov. Rick Snyder announced Monday.

Courser/Gamrat
Snyder Staying Out of Sex Scandal (WILX)
After Monday's report that showed Representatives Courser and Gamrat used taxpayer dollars to cover up their affair, Governor Snyder's keeping his mouth shut on whether or not they should resign. He says it's the House's responsibility to decide whether or not to expel the Representatives.

Why Michigan Gov. Rick Snyder isn't publicly calling for Reps. Courser, Gamrat to resign (Mlive)
Michigan Gov. Rick Snyder, unlike some other top Republicans, has not publicly called on GOP state Reps. Todd Courser and Cindy Gamrat to resign over allegations that they misused state resources to hide their extra-marital affair. And the governor, speaking with reporters on Wednesday afternoon, made clear he does not plan to weigh in at this time.

Flags lowered
Mary Lou Parks, Who Served In Michigan House, Dies At 79 (AP)
Former state Rep. Mary Lou Parks, who served six years in the Michigan House representing Detroit, has died. She was 79. Swanson Funeral Home, which is handling arrangements, says Parks died Aug. 23 and details on cause of death weren't released.

Miscellaneous
Kasich talks small government, praises Snyder in Michigan trip (Michigan Daily)
Kasich said he felt a responsibility to help Ohio when he ran for governor, and related his experience with that of Snyder's. "I went in (in Ohio), and we were really just like Governor Snyder, we really were in a deep hole, 20 percent of our operating budget, and so I took on the same approach (as Snyder)," he said.

Let's get the facts straight on Chronic Wasting disease (LSJ)
Jill Fritz with the Humane Society of the United States recently voiced her opinions about the privately owned deer ranches and their role regarding chronic wasting disease in Michigan. While I respect each person's right to voice their opinion, I take issue with nearly every aspect of her editorial. The best course of action to prevent further spread of CWD in Michigan clearly must be based on facts and science. Let's take a look at the bullet points from Ms. Fritz' viewpoint and see if they are science based, or simply fear-mongering meant to advance the anti-hunting agenda of HSUS.

State needs smart long-term planning for public land (Detroit Free Press)
A recent column by state Sens. Tom Casperson and Darwin Booher advocating for bills that would change regulation of state-managed public land raises an important issue for Michigan citizens.

Subject: Changes in Administration

Team,

As you are aware, we have been working closely with the independent task force that has been reviewing state, local and federal actions regarding the serious health issues related to water in Flint.

Although the task force's final report is not yet complete, members have made the Governor aware of some interim findings, and there are interim steps the Governor has decided to take immediately in order to restore trust in how we in state government keep residents safe and informed.

As part of this process, Dan Wyant, director of the Department of Environmental Quality, has offered his resignation, and Governor has reluctantly decided to accept it. There are likely to be other personnel changes in MDEQ as well.

I want to thank Dan for his service. He has been the DEQ director since the start of the administration, and previously headed the Agriculture Department under both Gov. Engler and Gov. Granholm. He is passionate about public service and protecting our state's environment.

The situation in Flint is serious and challenging. We will continue to work closely with the task force and city leaders as we move forward, committed to protecting the health of people living in Flint and around our state.

Sincerely,

Jarrod Agen

Subject: FW: URGENT - SEOC Activation
Attachments: 2016-01-05 Flint Water Governor's Declaration.pdf

Importance: High

FYI ... No action needed. Below contains part of the information sent out to SEMCs.

MICIMS Incident for monitoring: 2015-10-01-City of Flint-Water Contamination / Shortage

Subject: URGENT - SEOC Activation

On January 4, 2016, Genesee County requested that a "State of Emergency/Disaster" be issued by Governor Snyder. Today, the Governor issued a State of Emergency declaration.

EMHSD will activate the SEOC tomorrow at 0800 and will conduct a briefing at 0900 on the event. All state agencies are to send a representative to the 0900 briefing. MDHHS and MDEQ have been directed to brief on the situation. Following initial SEOC briefings, each state agency, in consultation with the State Director, must determine if they need to play a role in ongoing SEOC operations to contribute to addressing the problem. At minimum, MDEQ, MDHHS, Education, DTED, DTMB, and MDARD should maintain a presence in the SEOC. The initial focus of the SEOC will be to:

- Identify and implement any needed protective actions to protect public health and safety;
- Develop situational awareness;
- Develop understanding of technical aspects;
- Coordinate damage assessment;
- Coordinate public information; and
- Identify programs to assist in remediating damage.

STATE OF MICHIGAN
EXECUTIVE OFFICE
LANSING

RICK SNYDER
GOVERNOR

BRIAN CALLEY
LT. GOVERNOR

PROCLAMATION

DECLARATION OF EMERGENCY

WHEREAS, Section 1 of Article V of the Michigan Constitution of 1963 vests the executive power of the state of Michigan in the Governor; and

WHEREAS, under the Emergency Management Act, Act No. 390 of the Public Acts of 1976, as amended, MCL 30.401 to 30.421, the Governor is responsible for coping with dangers to this state or the people of this state presented by a disaster or emergency or threat thereof, and may issue executive orders and proclamations, having the force and effect of law to implement the Act; and

WHEREAS, under Section 3 of the Emergency Management Act, 1976 Public Act 390, MCL 30.403, the Governor shall, by executive order or proclamation, declare a state of emergency if the Governor finds that an emergency has occurred or that the threat of an emergency exists; and

WHEREAS, on April 25, 2014 the City of Flint, Michigan switched from the Detroit water system to the Flint River as a water source, the harmful effects of untreated water struck the city's water infrastructure, causing leaching of lead into the water which caused damage to the water system and potential negative health impacts to the citizens; and

WHEREAS, the area affected includes parts of the City of Flint, within the County of Genesee; and

WHEREAS, the damaged water infrastructure and leaching of lead into the city's water caused damage to public and private water infrastructure, and has either caused or threatened to cause elevated blood lead levels, especially in the population of children and pregnant women, and causing a potential immediate threat to public health and safety and disrupting vital community services; and

WHEREAS, from October 1, 2015 to this date, the County of Genesee and the City of Flint have taken a number of actions to cope with the situation, including but not limited to, switching back to the Detroit water system on October 16th, declaring local states of emergency, activating the emergency response and recovery aspects of their emergency operations plan, marshaling

and distributing required resources on a city-wide level, and issuing emergency public information and bulletins; and

WHEREAS, local resources have been insufficient to address the situation, and additional assistance from voluntary organizations and the state is required to protect public health, safety, and property, and to lessen or avert the threat of more severe and long lasting impacts to the community;

NOW, THEREFORE, I, RICHARD D. SNYDER, Governor of the state of Michigan, pursuant to the Constitution of the state of Michigan and provisions of Act No. 390 of the Public Acts of 1976, as amended, do hereby proclaim that a state of emergency exists in the aforementioned county and municipality; and

FURTHER, the Emergency Management and Homeland Security Division of the Department of State Police shall coordinate and maximize all state efforts, and may call upon all state departments to utilize resources at their avail to assist in the emergency area pursuant to the Michigan Emergency Management Plan; and

FURTHER, termination of this emergency will occur at such time as the threats to public health, safety, and property caused by the emergency no longer exist and appropriate programs have been implemented to recover from the effects of this emergency, but in no case longer than February 1, 2016, unless extended as provided by Act No. 390.

Given under my hand and the
Great Seal of the State of Michigan this
5th day of January in the Year of Our
Lord, Two Thousand and Sixteen.

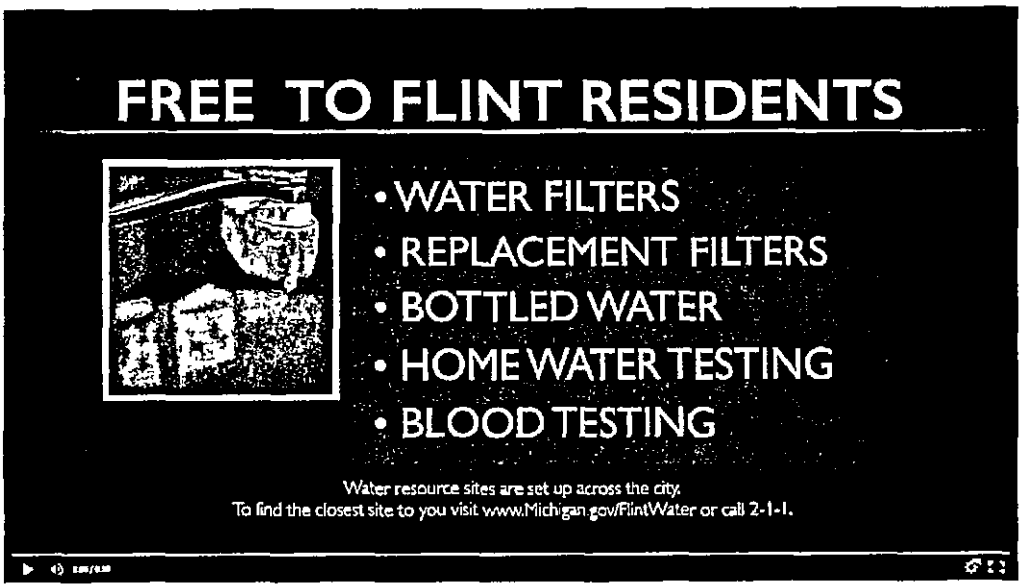
Public service announcement released today provides information on water resources

LANSING, MI - A Public Service Announcement was released today by Gov. Rick Snyder's office in a priority effort to continue providing free water resources to all Flint residents.

The PSA, featuring Capt. Chris Kelenske from the Michigan State Police, provides information about the resources currently available for free to all Flint residents, including water filters, replacement filters, bottled water, water

testing kits, and blood testing.

Click here or below to view the PSA:



Visit **www.michigan.gov/flintwater** or call 211 for more information. Residents who need transportation or any other assistance can call 211.

For more information, contact the Governor's office at 517-335-6397.

From: Colonel Etue <MichStatePolice@govsubscriptions.michigan.gov>
Sent: Tuesday, January 12, 2016 4:25 PM
To: Arnold, Richard (MSP)
Subject: Volunteers needed for water resource teams in Flint

The department is soliciting volunteers from within the department, both enlisted and civilian, to join water resource teams working to hand out bottled water, water filters, replacement cartridges, and water testing kits at homes in the city of Flint. This effort is part of the state's response to the ongoing health and safety issues caused by lead in the city of Flint's drinking water.

Volunteers will begin their assignment in Flint at 9 a.m. and end by 4 p.m. Volunteers can be available for one or both days. Lunch will be provided.

Employees chosen for this assignment are considered to be working on-duty; this assignment would be considered their scheduled work day. Overtime or compensatory time is not authorized for this assignment

Transportation will be provided using state vehicles; mileage reimbursement for personal vehicles is not authorized Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

Interested employees should obtain the approval of their supervisor. **Supervisors must forward the names of approved volunteers and their email addresses through the chain of command to bureau with the date(s) available by 1p.m. tomorrow, Wednesday, January 13.**

Confirmation of selected employees, along with additional logistical details, will be made via email by 5 p.m on Wednesday, January 13.

For questions, please contact Insp. Scott Marier at 517-373-7761

Inspector Marier:

OHSP has five people from OHSP that have volunteered to go to Flint this week. Because they are paid with Federal NHTSA funds, we will be required to code them to our GF line which and this cost would come out of our GF surplus that is turned back to the agency at the end of the year. We just wanted to make you aware of this in case it determines who is approved for this effort.

Sounds like a lot of trouble on their end.

They are provided with a very small amount of GF - I trust Mr Prince to utilize it properly/responsibly. There is no expectation that 100% is returned to MSP.

If they can contribute (your decision based on the resources available/committed) and feel that they are able to participate (budget / time concerns, Mr Prince's decision), I am fine with it. Just be clear participation is limited to regular work hours within their biweekly schedule (no ot, no comp).

Attached is a list containing the names of those approved to participate in the Flint Water detail. In order to minimize travel time, location of the volunteers was considered. Each Bureau is responsible for notifying their respective staff members and arranging for carpooling to Flint.

Attire: Appropriate attire for the weather conditions. Jeans are allowable. MSP uniforms including fatigue uniforms are prohibited. Military Surplus attire or attire that could be mistaken as that of the National Guard shall not be worn.

All individuals assigned to work as the Water Response Team in Flint shall report to the Genesee County EOC by 9 am on Thursday and/or Friday.

Location:
Genesee County Administration Building
1101 Beach St
Flint, MI 48502
In the basement or level "G" if someone used the elevator
Parking is available at Trinity Church, on the corner of Beach and Eighth. It is two blocks southeast of the Admin Building.

Lunch will be served at the EOC, Genesee County Admin. Building.

Each enforcement member should bring their assigned radio.

Subject: RE: Flint Water Detail

Scott

I know I threw this coordination project at you with little direction and a short turn around time.

I appreciate all the work you did to coordinate the personnel from all the Bureaus.

Nice Job!

Subject: Flint Water Detail

Attached is a list containing the names of those approved to participate in the Flint Water detail. In order to minimize travel time, location of the volunteers was considered. Each Bureau is responsible for notifying their respective staff members and arranging for carpooling to Flint.

Attire: Appropriate attire for the weather conditions. Jeans are allowable. MSP uniforms including fatigue uniforms are prohibited. Military Surplus attire or attire that could be mistaken as that of the National Guard shall not be worn.

All individuals assigned to work as the Water Response Team in Flint shall report to the Genesee County EOC by 9 am on Thursday and/or Friday.

Location:
Genesee County Administration Building
1101 Beach St
Flint, MI 48502
In the basement or level "G" if someone used the elevator
Parking is available at Trinity Church, on the corner of Beach and Eighth. It is two blocks southeast of the Admin Building.

Lunch will be served at the EOC, Genesee County Admin. Building.

Each enforcement member should bring their assigned radio.

Subject: Terrorism TTX - To Be Rescheduled

Executive Council

On 12/238/15, I sent an email to members of the Executive Council advising to notify personnel under your command of the Terrorism TTX that was tentatively scheduled for 1/22/2016. Additional discussion was to hold the TTX the day before the Director's meeting on Feb. 9.

The original request identified the following areas to notify: FSB District Commanders and Asst, SSB District Commanders and Asst, Training Division Commander, SOD Commander, FSD Commander and Public Affairs to participate and instructions to log onto MI Train by January 15.

Due to the MSP response to the Flint water crisis and full commitment by EMHSD staff, this Terrorism TTX will be rescheduled for a later date.

Please notify those affected under your command.

Thank you

Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9

a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

Subject: "Gathering" of Militia in Flint at 2 p.m. Sunday, January 24 "Standing with Flint"

The description of the event is as follows:

We the People of the County of Genesee and of the State of Michigan, stand united to say to this government "ENOUGH IS ENOUGH", there have been lives lost and, along with families being ruined from illnesses. We demand that those responsible are held accountable.

To help our effort, The are requesting a show of support on Sunday, January 24, 2016 from Patriots and Patriot groups across the land as a united front, standing with all citizens of the City of Flint, MI. We ask I and all other like groups to wear your uniforms and insignia to this event. All others are welcome to join us as well! We ask that you only wear side arms and not long rifles, this is not about our 2nd Amendment, this is about the infringement on the good people of Flint. . God Bless the Republic,

On behalf of the

They are asking participants to bring water for the citizens of Flint. plans to have two U-Hauls of water to distribute.

I'll continue to monitor the event and provide updates.

Thanks,

Sue

Flint Water Emergency Response
Congressional/Legislative Call
Remarks for Capt. Chris Kelenske

NOT INTENDED TO BE DISSEMINATED TO THE MEDIA OR PUBLIC IN THIS FORMAT

Background

- Yesterday, President Obama approved the Governor's request for a federal emergency in Flint. This action will provide emergency relief in the form of bottled water, water filters, filter replacements, and water test kits. The period of assistance is up to 90 days.
    - Under the Stafford Act, resources totaling $5 million can be used for federal emergencies, with a required state match of 25 percent. It's important to note that we shouldn't view this as a $5 million cap on federal assistance, because if the $5 million is exhausted, Congress has the option to approve additional funding.
    - Governor Snyder had also requested a major disaster declaration, which the President denied based on the legal requirement that under the Stafford Act disaster relief is available only for natural events, fires, floods, or explosions. The state is reviewing the process for appealing the disaster declaration denial.
    - Mr. David Samaniego, our Federal Coordinating Officer (FCO) from FEMA is on the call and will give an update next.

Current Status/Update

- Today, which is our 12th day of coordinating this emergency response, we are continuing to bring all state resources to bear to protect public health and safety.
- One of our most important messages and priorities continues to be making sure residents are aware of the information and free resources available to them, which include bottled water, water filters, replacement cartridges, water test kits.

- *The one-stop shop for finding all these resources is by visiting* www.michigan.gov/FlintWater or calling 2-1-1.

- Including today's activity, water response teams, who are going door-to-door, have distributed resources to nearly 7,000 Flint homes providing residents with free bottled water, filters, replacement cartridges, and water testing kits.

- More than 12,000 homes have been visited by the water response teams, which are a collaborative effort comprised of local and state personnel, American Red Cross personnel, and volunteers.

- The Michigan National Guard has been activated to assist with distribution efforts at the five water resource sites at fire stations in the city. Starting tomorrow, the *number of National Guard members will be further increased to approximately* 70 National Guard members handing out resources at the fire stations in the city.

- From January 9 - 16, the following resources have been distributed to residents, both at the water resource sites and by the water response teams:

    - Nearly 20,900 cases of water
    - Nearly 48,000 water filters
    - More than 3,300 water testing kits

- To help enhance the water testing process, Flint residents can now drop-off water samples to the five water resource sites at fire stations. Samples will only be accepted by using the official water testing kits provided at the water resource *sites and by the water response teams.*

- Water resource sites are open daily from 9 a.m. to 9 p.m. and are located at:

    Fire Station #1
    310 East 5th St.
    Flint, MI 48502

    Fire Station #3
    1525 Martin Luther King Ave.
    Flint, MI 48503

    Fire Station #5
    3402 Western Road
    Flint, MI 48506

    Fire Station #6
    716 West Pierson Road
    Flint, MI 48505

Fire Station #8
202 East Atherton Road
Flint, MI 48507

Filters

- When used properly water filters remove 99% of lead in water.
- Residents are urged to use filtered water for drinking, food preparation, brushing teeth and watering pets. Unfiltered water may be used for bathing and cleaning.
- One filter and one replacement cartridge are being provided per household initially. Each filter is good for approximately 100 gallons of water. The filter has an indicator on it that will turn from green to red when it needs to be replaced.
- The filters do have a five-year, non-replaceable battery that operates the indicator light.
- There is a detailed video posted on www.michigan.gov/flintwater that explains how to properly install a water filter cartridge. We are also working to develop an instruction sheet for 211 to walk through with those individuals without internet access.
- Small business owners seeking water filters at the water resource sites should not be turned away.

Resources for homebound individuals

- 2-1-1 is collecting a list of individuals needing home delivery of water resources and is providing that information to the Genesee County Sheriff's Department, who is making these deliveries.
- The Plumbers and Pipefitters Union has agreed to provide free water filter installation to homebound residents needing assistance. This is being coordinated through 2-1-1.

Outside Support Efforts – Volunteers and Donations

- There has been great cooperation on the ground in Flint by many local agencies, from the city and county to churches and public, private, and non-profit groups to help with this effort.
- The American Red Cross, United Way, 2-1-1, and many other organizations have assisted with water resource distribution efforts and the donations management process.

- Volunteers and donations are being coordinated through 2-1-1, in cooperation with the American Red Cross.

- Persons/organizations wishing to donate 100 cases of water or less can be taken to the American Red Cross located at 1401 S. Grand Traverse in Flint.

- Volunteers can also report to the American Red Cross for processing.

National Guard Mobilization

- Governor Snyder issued an Executive Order on January 12, 2016, to activate Michigan National Guard.
    - Currently they are being used to staff water resource sites to support the distribution of bottled watered, water filters, replacement cartridges, and water testing kits
    - National Guard personnel will not be going door to door with the water resource teams, at this time.
    - National Guard is uniquely prepared and trained to respond quickly in emergency situations.
    - First group of National Guard personnel arrived in Flint on Wednesday, January 13 to conduct assessment and get acclimated.
    - 30 more personnel arrived Friday; expansion to approximately 70 personnel by Monday.
    - This is the second time the Governor has activated the National Guard.
        - Last time was for the Duck Lake Fire in Luce County in May 2012.
    - Per Michigan Emergency Management Plan, the Michigan State Police Director or designee is responsible for coordinating all state efforts, including the Michigan National Guard.
    - Activation of the Michigan National Guard allows the volunteers from the American Red Cross, who have been staffing the water resource sites, to join the water distribution teams.

Water Bills

- The City of Flint is responsible for issuing water shut-off notices for non-payment. Per the Mayor, the city has put a halt on all notices or disconnections. Shut off notices have not been mailed since the beginning of December.

- Water payment inquiries should be referred to the City of Flint.

Attorney General Investigation

- The Michigan Attorney General announced Friday he is investigating whether any Michigan laws were violated in the process that led to this emergency.

Other/Misc.

- Water is being distributed primarily in bottles rather than jugs. The reason for this is that the donations received are largely comprised of bottled water. Requests for water in jugs have been made when donors have inquired about our needs.

- The state recognizes that offering recycling options for empty water bottles is a priority. *Measures are being put in place soon.*

- Legionnaires disease- related inquiries should be directed to MDHHS and Genesee County Health Department.

- Governor has asked the Receivership Transition Advisory Board to transfer the powers and authority currently vested in the city administrator to the mayor. Any inquiries related to this should be referred to the Governor's office.

State Emergency Operations Center

- The State Emergency Operations Center has been activated since January 5 and continues to be staffed seven days a week by members of state agencies and other partners.

January 18, 2016

Flint Water Emergency Response
Talking Points for Capt. Chris Kelenske
Meeting with Republican Caucus

NOT INTENDED TO BE DISSEMINATED TO THE MEDIA OR PUBLIC IN THIS FORMAT

Chronology

- October 1, 2015: Public Health Emergency Declaration issued
- December 14, 2015: State of Emergency declared by City of Flint.
- January 4, 2016: Genesee County Board of Commissioners declared a local emergency
    - In a separate document, Genesee County requested a Governor's Declaration of Emergency
- January 5, 2015: Governor declared State of Emergency
    - State Emergency Operations Center activated in Lansing to coordinate state response
    - Joint Information Center (JIC) activated on January 6, 2016 in Lansing; moved to Flint on January 11, 2016
- January 9, 2016: Water resource sites established at fire stations
- January 12, 2016: Water resource teams began going door-to-door
- January 12, 2016: Governor Snyder issued an Executive Order activating the Michigan National Guard
- January 14, 2016: Governor requested Presidential declaration of emergency and expedited major disaster for Genesee County
- January 16, 2016: President Obama approved the Governor's request for a federal emergency in Flint.
    - Denied request for major disaster

Federal Support

- President Obama's approval of a federal emergency in Flint provides emergency relief in the form of bottled water, water filters, filter replacements, and water test kits. The period of assistance is up to 90 days.

- In addition, the state is working with the Federal Emergency Management Agency (FEMA) to coordinate an interagency recovery plan with other federal agencies to provide resources to Flint.

    - Coordination will include identifying federal agencies that have programs, authorities and/or technical expertise that could be utilized in the ongoing response and recovery efforts in Flint to be made available. Such federal agencies may include the Department of Health and Human Services, Environmental Protection Agency, Department of Housing and Urban Development, and Army Corps of Engineers.

Current Status/Update

- We are continuing to bring all state resources to bear to protect public health and safety.

- One of our most important messages and priorities continues to be making sure residents are aware of the information and free resources available to them, which include bottled water, water filters, replacement cartridges, water test kits.

- The one-stop shop for finding all these resources is by visiting www.michigan.gov/FlintWater or calling 2-1-1.

- To date, more than 21,300 homes have been visited by water response teams who are going door-to-door to distribute free bottled water, filters, replacement cartridges, and water testing kits.

    - Water response teams are a collaborative effort comprised of city, county, state personnel, American Red Cross personnel, and volunteers.

- The Michigan National Guard has been activated to assist with distribution efforts at the five water resource sites at fire stations in the city.
    - There are approximately 70 National Guard members handing out water resources at the fire stations in the city.

- Since January 9, the following resources have been distributed to residents, both at the water resource sites and by the water response teams:

    - More than 37,300 cases of water
    - More than 53,700 water filters
    - More than 7,300 water testing kits

- To help enhance the water testing process, Flint residents can now drop-off water samples to the five water resource sites at fire stations. Samples will only

be accepted by using the official water testing kits provided at the water resource sites and by the water response teams.

- Water resource sites are open daily from 9 a.m. to 9 p.m. and are located at:

  Fire Station #1
  310 East 5th St.
  Flint, MI 48502

  Fire Station #3
  1525 Martin Luther King Ave.
  Flint, MI 48503

  Fire Station #5
  3402 Western Road
  Flint, MI 48506

  Fire Station #6
  716 West Pierson Road
  Flint, MI 48505

  Fire Station #8
  202 East Atherton Road
  Flint, MI 48507

Filters

- When used properly water filters remove 99% of lead in water.

- Residents are urged to use filtered water for drinking, food preparation, brushing teeth and watering pets. Unfiltered water may be used for bathing and cleaning.

- One filter and one replacement cartridge are being provided per household initially. Each filter is good for approximately 100 gallons of water. The filter has an indicator on it that will turn from green to red when it needs to be replaced.

- The filters have a five-year, non-replaceable battery that operates the indicator light.

- There is a detailed video posted on www.michigan.gov/flintwater that explains how to properly install a water filter cartridge. An instruction sheet also has been provided to 2-1-1 to share with those individuals without internet access.

Resources for homebound individuals

- 2-1-1 is collecting a list of limited mobility or homebound individuals needing home delivery of water resources and is providing that information to the Genesee County Sheriff's Department, who is making these deliveries.

- The Plumbers and Pipefitters Union has agreed to provide free water filter installation to homebound residents needing assistance. This is also being coordinated through 2-1-1.

Outside Support Efforts – Volunteers and Donations

- There has been great cooperation on the ground in Flint by many local agencies, from the city and county to churches and public, private, and non-profit groups to help with this effort.

- The American Red Cross, United Way, 2-1-1, and many other organizations have assisted with water resource distribution efforts and the donations management process.

- The American Red Cross has established a volunteer reception center for those wishing to assist with ongoing efforts to distribute water, water filters, replacement cartridges and water test kits.
    - The Volunteer Reception Center is located at the Red Cross office at 1401 S. Grand Traverse St. in Flint.
    - This week, the Volunteer Reception Center hours are:
        - Monday - Friday, 9 a.m. to 7 p.m.
        - Saturday, 9 a.m. to 2 p.m.
        - Sunday, 12 p.m. to 5 p.m.

National Guard Mobilization

- Governor Snyder issued an Executive Order on January 12, 2016, to activate the Michigan National Guard.
    - Currently they are being used to staff water resource sites to support the distribution of bottled watered, water filters, replacement cartridges, and water testing kits.
    - National Guard is uniquely prepared and trained to respond quickly in emergency situations.
    - The first group of National Guard personnel arrived in Flint on January 13 to conduct assessment and get acclimated.
    - 30 more personnel arrived on January 15 and additional soldiers were added on January 18, bringing the current commitment to approximately 70 soldiers.

- This is the second time the Governor has activated the National Guard.
  - Last time was for the Duck Lake Fire in Luce County in May 2012.
- Per the Michigan Emergency Management Plan, the Michigan State Police Director or designee is responsible for coordinating all state efforts, including the Michigan National Guard.
- Activation of the Michigan National Guard allows the volunteers from the American Red Cross, who have been staffing the water resource sites, to join the water distribution teams.

Water Bills

- The City of Flint is responsible for issuing water shut-off notices for non-payment. Per the Mayor, the city has put a halt on all notices or disconnections. Shut off notices have not been mailed since the beginning of December.

- Water payment inquiries should be referred to the City of Flint.

>
> ***Rev. Jesse Jackson is attending as a guest of Rep. Brian Banks.***

The below is an update for tonight's state of the state. This is for situational awareness and not for dissemination. The new information is noted in red. The MIOC will be staffed during the event and sending updates as needed. In the event any staff onsite has suspicious activity please contact the MIOC for immediate assistance.

XXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXX
XXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXX
Protesters have gathered in front of Lansing City Hall.

MIOC investigated a potential threat that was called in to the Attorney General's Department. We believe the caller has been identified as

Participants are to arrive at the Lansing City Hall Courtyard at 124 West Michigan Avenue in Lansing at 5 p.m. The rally will begin after a press conference with Flint families and advocates. There will be a warming center near the Capitol at the Central United Methodist Church at 215 N. Capitol Avenue, Lansing. It isn't clear if the press conference would be held at Lansing City Hall or if the group would march to the Capitol and hold the press conference there.

Bus transportation for protesters has been arranged from Flint, Detroit, Grand Rapids, and Kalamazoo. Many individuals have also indicated they are drivers for carpools. , I expect the number of attendees is actually greater than **737**. (Each bus holds approximately 50 passengers.)

The Michigan Republican Party intends to hold a "Water Drive" for Flint on Tuesday, January 19, 2016, between 4 p.m. and 6 p.m. on the East Capitol Steps. In viewing comments on open source they are unfavorable towards the Republican Party and I could foresee there could be conflict between the n groups and the Republican Party group.

Individuals have indicated Michael Moore, Jesse Jackson, and other dignitaries have been invited to attend. is. There were counter-protesters at Flint City Hall during Michael Moore's presentation. In response to an article published on MLIVE.com related to Mr. Jackson's visit there were no positive comments.
http://www.mlive.com/news/index.ssf/2016/01/jesse_jackson_expected_in_flin.html
The reporter asked readers *"what would you like to ask him related to Flint?"*

- Ask him why he hasn't shown up during the last 50 years while Democrats were running Flint into the ground.

- Ask him to kindly leave. We don't need him inciting race riots like he does wherever he goes.

- Ask him what he is doing about the hundreds of kids being murdered in his own neighborhood by gang violence.

The MIOC will continue to monitor events for public safety and situational awareness recognizing that all citizens have a constitutionally protected right to peacefully assemble and protest. If you have any questions or concerns please don't hesitate to contact the MIOC.

MICHIGAN'S

REINVENTION NEWS

GOVERNOR RICK SNYDER | LT. GOVERNOR BRIAN CALLEY

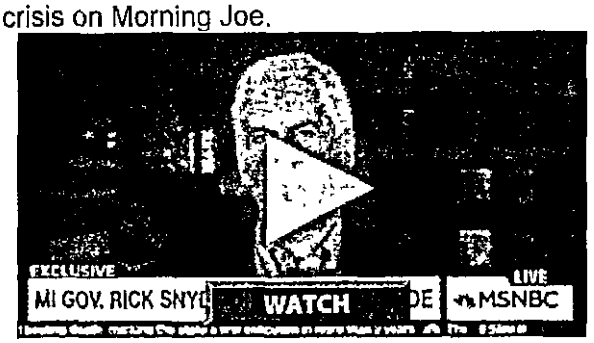
HOME | BLOG | CONTACTS | FACEBOOK | TWITTER | INSTAGRAM

How we are fixing the Flint water crsis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

Governor Snyder on Morning Joe

"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.



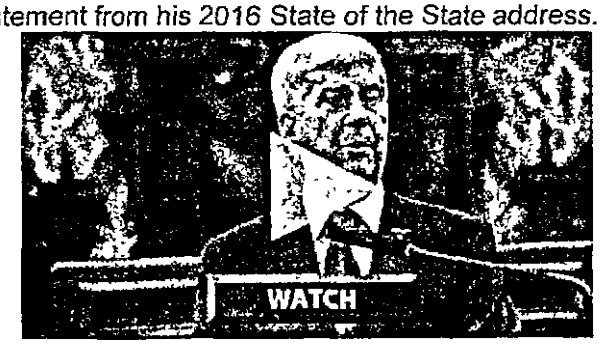
Governor Snyder with Charlie LeDuff on Fox 2 Detroit

"I feel awful about this. These are people. They've been harmed. You .

can't feel good about that. The people of Flint have been harmed and a major influence of that harm came from people who worked for me, and I feel responsible for that. But I am committed to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.

Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.



Governor in USA Today: "I will fix this, and I mean it."

"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." ***Click here to read the*** **Governor's full op-ed.**

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his

own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. **Click here to read the full story in the Washington Post.**

Subject: *Flint Volunteer Efforts*

Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.

For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.

Sincerely, Mike Zimmer
Office of Good Government Director
Dept. of Licensing and Regulatory Affairs Director

Subject: Flint Status Update

All,

As of January 21, Rich Baird has assumed the Lead Point of Contact role for Flint. This has been communicated to the existing team working on the Flint water emergency. As of today, an office has been opened in the State of Michigan building located at 125 Union Street in downtown Flint. In addition to the individual team members listed below, a representative from DEQ, DHHS and the Department of Civil Rights will join Rich's team.

Per Rich, here is a list of the "Mission Flint" team and a summary of roles and responsibilities:

LG Calley—Will establish an office in Flint and provide input to POC Leader. He will also be focused on sustaining a quality partnership with Dr. Mona Hanna-Attisha and DHHS to attest to blood sampling protocols and interpretation, and begin executing additional monitoring/education and remediation for those impacted. He will also provide input and guidance to the EO communications team on ways to be more proactive with messaging and the public narrative (drawing attention to volunteers, community groups, and stories that are happening but not getting into the narrative).

Harvey Hollins—Harvey will continue (with R. Baird) to nurture a quality partnership with Mayor Weaver and her team, pastor groups, and provide grass roots community leadership so that we can stay acutely attuned to the needs of the Flint Community and bring resources to bear. Harvey will also serve as the co-facilitator for the FWIACC with the first meeting occurring on January 27.

Bill Nowling—Bill will step back from the role he is playing as Crisis Leader for Communications Department. Meegan Holland will work closely with LG Calley to improve (department wide) proactive efforts in messaging and narrative. Bill will approve all communications from our Flint Team. He will coordinate the Mercury team communications engagement and engage with Mark Davidoff and the Deloitte team to provide more support to Mayor Weaver (through his associate Ms. Cockrell).

Tori Sachs—Tori will continue playing a "utility" role on a variety of fronts, including supporting the philanthropic campaign, eliciting University engagement (Community Scholars, etc.), monitoring vendors and follow up with third party validation groups, assisting with messaging and volunteer deployment, and supporting Col. Greg Durkac in tracking our critical matters and decisions organization framework.

Colonel Greg Durkac—SME for project management, logistics, and organizational frameworks for critical matters and decisions. He lives in Linden (just outside Flint) and is deferring his retirement for this assignment.

Captain Chris Kelenske--As Chris winds down from Phase 1 Emergency Stabilization, it is important he remain engaged as a spokesperson, coordination expert, and leveraging his expertise as we continue a different model of community outreach (testing, monitoring, engaging resources, etc.). He will also work with Harvey on the FWIACC and in continued community outreach.

Nat Forstner/Ben Geiger— Will take the lead on data collection, analytics, comparative interpretation and communication to Governor Snyder and principals. Need more benchmarking and historical data not just from Michigan but around the country.

Others who have agreed to engage as appropriate are Mike Finney (community outreach), Nick Khouri (treasury support and financing), Chris Rizik (Entrepreneurial recruitment and identification of venture capital/other capital) Peter Remington (Philanthropic and Campaign Strategy) and Matt Rizik (Intergovernmental relations City/County).

Clearly there will many more connection points as represented in the FWIACC but the above represent a type of "executive committee" to lead us into Phase 2 and 3 of "Mission Flint".

Please feel free to reach out to me, Rich or Jarrod if you have any questions or suggestions.

Thanks,

Beth

FOR IMMEDIATE RELEASE
Wednesday, Jan. 27, 2016

Gov. Rick Snyder appoints field experts to oversee long-term solutions for Flint water system

LANSING, Mich. – Gov. Rick Snyder today named a group of medical and field experts to the Flint Water Interagency Coordinating Committee to set in place long-term solutions to Flint's water system.

The 17 member committee, housed within the Michigan State Police, will be asked to make recommendations regarding the health and welfare of people exposed to lead, study Flint's water infrastructure and determine potential upgrades, review Flint Water Task Force recommendations, and establish ways to improve communication between local and state government.

"Flint residents deserve clean, safe drinking water, and I am confident that the expertise represented on this committee will be a tremendous

asset as we continue to address the water crisis in Flint," Snyder said. "I am grateful to these appointees for their willingness to serve on this important committee."

Karen Weaver is the mayor of the city of Flint. She earned a bachelor's degree from Tougaloo College, a master's degree from Long Island University, and a doctorate from Michigan State University.

Jamie Curtis is the chairman of the Genesee County Board of Commissioners. He earned a millwright apprenticeship certificate from Mott College. Curtis is a representative of Genesee County who shall be submitted by the Genesee County Board of Commissioners.

Marc Edwards is a professor at Virginia Tech with numerous awards and honors for his work. He earned a bachelor's degree in bio-physics from SUNY Buffalo, and both a master's and doctorate of science in environmental engineering from the University of Washington. Edwards will represent subject matter experts.

Mona Hanna-Attisha is the director of the pediatric residency program at Hurley Medical Center. She earned a bachelor's degree in resource ecology and management/environmental health from the University of Michigan, a doctorate from Michigan State University College of Human Medicine, and a master's from the University of Michigan School of Public Health.

Natasha Henderson is the city administrator and chief administrator officer for the city of Flint. She earned a bachelor's degree from the University of Arkansas – Pine Bluff, and a master's in business administration from Texas A&M University – Texarkana. Henderson is a representative of the city of Flint who shall be submitted by the mayor of the city of Flint.

Jim Koski retired as the Saginaw county drain commissioner, a role in which he had served from 1977 to 1980 and again in 1996 to 2011. He is a representative of Genesee County who shall be submitted by the Genesee County Board of Commissioners.

Lawrence Reynolds is president and CEO of the Mott Children's Health Center. He earned a bachelor's degree in political science from Wayne State University and a doctorate from Howard University College of Medicine. Reynolds will represent subject matter experts.

Laura Sullivan is a professor of mechanical engineering at Kettering University. She earned a bachelor's degree in premedical engineering

from Arizona State University, and both a master's degree and a doctorate in materials science and engineering from the University of Texas at Arlington. Sullivan is a representative of the city of Flint who shall be submitted by the mayor of the city of Flint.

Mark Valacak is the health officer of the Genesee County Health Department and an instructor at the Michigan State University College of Human Medicine. He earned both a bachelor's degree and a master's of public health degree from the University of Michigan. Valacak is a representative of Genesee County who shall be submitted by the Genesee County Board of Commissioners.

One additional member will be named at a later date.

The following members will also serve on the Coordinating Committee:

- Harvey Hollins, director of Office of Urban Initiatives within the Executive Office of the Governor;
- Col. Chris Kelenske , deputy state director of Emergency Management and Homeland Security within the Michigan Department of State Police;
- Keith Creagh, director of the Department of Environmental Quality, or his or her designee;
- Nick Lyon, director of the Department of Health and Human Services, or his or her designee;
- Mike Zimmer, director of the Department or Licensing and Regulatory Affairs, or his or her designee;
- Nick Khouri, state treasurer, or his or her designee;
- Brian Whiston, superintendent of public instruction, or his or her designee;

Members will serve three-year terms expiring Dec. 31, 2018. Their appointments are not subject to the advice and consent from the Senate.

Subject: Flint Water Emergency

I would like you to schedule a meeting early next week (with all copied on this email) - to discuss the MSP's ongoing role with the Flint Water Emergency.

I would prefer everyone attend in person and no conference call for those invited.

I will create an Agenda of items to discuss.

If you want to put on EC meeting date (with specific time) that could work.

Thanks

RICK SNYDER
EXECUTIVE OFFICE
BRIAN CALLEY

THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams

For employees who would like to further help the people of Flint, please visit www HelpForFlint com to learn how you can do so. For additional information and to sign up for daily updates, please visit www mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

Subject: Governor Rick Snyder in Flint today

Captain Gasper,

Governor Rick Snyder will be in Flint today at 10:00 a.m. located at fire station #1 on fifth st next to the police station with the concern pastors to announce forgiveness of citizens paying there water bills.

Quincy Murphy has appeared before the Board of Canvassers with petitions to recall Governor Snyder. During his first appearance last week the language was rejected. Murphy plans to appear again at the meeting February 8, 2016, with new recall petition language. In the meantime, Murphy has suffered two incidents where an older white male has shot at his home twice in one day. He did report these incidents to the police.

I don't view Murphy as a threat but he may be a target. I do expect Murphy to attend the 10 a.m. announcement.

This information is being shared with you for situational awareness. If you have any questions please don't hesitate to contact me.

Budget recommendation will include $30 million request for Flint water bill repayments

"I agree with Flint residents, that they should not have to pay for water they cannot drink.

My budget recommendation will include the request for the state to make payments to the city's water system for residential bills going back to April 2014."

— Rick Snyder

www.mi.gov FlintWater | www.HelpForFlint.com

When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.

Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly 65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.

LEARN MORE

We spoke with Staff Sgt. Thomas Vega about the critical resources they're providing to Flint families every day. He also encouraged residents to pick up and return their water testing kits to Flint fire stations. Test results will be posted online at www.mi.gov/flintwater. **Click here to watch the video.**

Subject: "Weekly Ann Arbor Protest: ArrestGovSnyder FlintWaterCrisis"
Attachments: Protesters_ 'Arrest Rick Snyder! Make him drink the water!' _ MLive_2-4-2016.pdf

Good Morning,

The first "Weekly Ann Arbor Protest: ArrestGovSnyder FlintWaterCrisis" was held last night in front of Governor Snyder's residence at
that over 80 individuals turned out for the demonstration. Participants loudly chanted, carried posters, and wrote messages on the sidewalk in front of the residence.

The next protest will be held on Wednesday, **February 10 between 5:30 p.m. – 6:30 p.m.** also in front of Governor Snyder's residence in Ann Arbor.

This is for situational awareness only.

Thanks,

Sue

Protesters: 'Arrest Rick Snyder! Make him drink the water!'

It's hard out here for a governor.

Facing continued pressure to resign over the Flint water crisis, Michigan Gov. Rick Snyder has been **publicly heckled** while trying to dine out in Ann Arbor, he's been the subject of criticisms written in chalk on downtown sidewalks, his face is on wanted posters plastered around multiple cities, and then there's the protests.

Dozens of protesters demonstrated once again Wednesday night outside the embattled governor's personal condo in downtown Ann Arbor.

Protest organizer Jan BenDor of Michigan Rising said they're planning to continue holding weekly protests outside the Main Street loft condo the governor and his wife moved into this past year. The Snyders had been living in a gated community just outside the city before deciding to make the move downtown.

"We're just hoping to keep this situation in the public eye," BenDor said of the Flint water crisis. "Often even the worst tragedies just disappear after a week or so of concern, and this is a long-term horrible thing that has happened in our state. So, we want to make sure everybody keeps helping with this."

Protesters: 'Arrest Rick Snyder! Make him drink the water!'

MDHHS begins investigation into rash reports in Flint's water crisis

Free iPhone app shows Flint residents water distribution sites in city

UM-Flint's enrollment dropped 3 percent after water crisis went national

All Stories

The condo's window blinds were closed Wednesday night, and it wasn't clear that anybody was home, but protesters still chanted loudly.

"Arrest Rick Snyder! Make him drink the water!" they yelled as they marched along Main Street.

"Jail the nerd!" they chanted in unison multiple times.

"No more procrastination! We want incarceration!"

The protesters didn't channel all of their energy into anger and frustration toward the governor, though.

They also handed out fliers informing passersby how they can help the residents of Flint, with suggested charities to support.

"We're encouraging people to donate to the **FlintKids.com** website for the long-term health care of the poisoned children," BenDor said. "And we are also encouraging donations to some other agencies that are doing uniquely good work."

The flier also directs people to a CrowdRise page for a charity for Flint residents called **Crossing Water.**

Ann Arbor resident Susan Fecteau was among those protesting. She's also behind the anti-Snyder sidewalk chalk messages seen around downtown.

"You enjoying your clean water up there, Rick?" read one of the messages written on the sidewalk right outside the governor's window Wednesday night.

Fecteau said she's been out chalking just about every day for weeks now and she's been watched and photographed. She's not sure who's doing it, but somebody has been wiping away her messages after she leaves, but she keeps going back.

She said Wednesday's protest was about making sure people are fully aware of what has happened in Flint.

She said people need to take back their government.

"People need to to get educated about it, and understand that when we vote guys in like this, this is what happens, this is the result," she said.

"And I've been stunned as I've been talking to people. I'm surprised people still don't know what has happened. People don't understand about the emergency manager law. They don't understand about FOIA and that he's FOIA-proof."

Not everyone was happy with the protest, though.

Paula Porter, an employee of the Four Directions store on the ground level under the governor's condo, came out and confronted the protesters. She questioned whether what they were doing was constructive or effective.

"I'm on their side, but I'd prefer they go to Flint," she said. "I've lived in Flint. Go spend time in Flint, get things done."

Porter said she doesn't think the governor is going to care much about what protesters outside his condo have to say.

A city police officer was on the scene at one point responding to complaints that people were stuffing fliers into one or more mail slots.

Dave Murray, a spokesman for the governor, said in response to the protest that Snyder is focused on the people of Flint, not politics.

"He's making sure Flint residents are getting the assistance they need as we move forward, addressing issues related to health, education and infrastructure," he said.

"Today the governor discussed his $30 million proposal to bring relief to Flint residents who have been paying for water they cannot use to drink or cook with. This is on top of the $28 million our partners in the Legislature approved last week to provide immediate relief and the $9 million approved in October.

"People across our state, from both sides of the aisle, are coming together to help the people of Flint."

Subject: Publicly posted email - FLINT WATER
Attachments: Wurfel-to-Hollins-Email-Legionnaires_Published_2-4-2016.pdf

All:

For your situational awareness. An email has been posted publically purporting to show that Harvey Hollins, a principal advisor to Governor Snyder, was aware of an uptick in Legionnaires disease in Genesee County and that a county health official was attributing the cases directly to the Flint River as the source of drinking water in Flint.

Capt. Dave Kelly
Commander
Intelligence Operations Division
Michigan State Police

Sent:	Friday, March 13, 2015 6:49 PM
To:	Hollins, Harvey (GOV)
Cc:	Wyant, Dan (DEQ)
Subject:	Part II
Attachments:	FOIA Request Flint Water.doc
Importance:	High

OK D-

This is the second issue I mentioned earlier today.
In December, our staff became peripherally aware that the hospitals in Genesee were seeing an uptick in Legionnaires cases.

Legionnaires is a water-borne illness. It essentially is a type of pneumonia caused by a bacteria. It is treated with antibiotics. Untreated, it can be deadly. It most often manifests in nursing homes and assisted living facilities, because the transmission is through water vapor getting into lungs – via air conditioners, vaporizers or low-flow shower heads that produce a lot of misting. You can drink water with this bacteria in it and not get sick – it has to enter the lungs in vapor.

I don't have any details on the cases, but here is what I understand to this point:

- More than 40 cases reported since last April. That's a significant uptick – more than all the cases in the last five years or more combined.
- April / May is usually the start of Legionnaires season – it proliferates in warmer months – but April also is the point at which the city switched to the Flint River as a source.
- County Health Departments are supposed to perform epidemiological tracebacks on all confirmed cases of this disease, to locate the source and address it. Genesee County Health had not done this work as of November. At a January meeting with area hospitals, MDCH, DEQ and others, Nick Lyon reportedly directed the county health folks, in terms not uncertain, to get this done as a priority. As I'm sitting here today, it still is not done to my knowledge.
- My counterparts at MDCH informed me today that they cannot step in unless they are invited or unless the outbreak is multi-county. They've not been invited until, I believe, today. That may be in part because of the email string and letter I've enclosed here, which was unknown to MDCH until I shared it over to them.

The email thread below is best read bottom-to-top, and read prior to reading the enclosed FOIA to the city.

Essentially, Jim Henry with Genesee County Health is putting up the flare. He's made the leap formally in his email that the uptick in cases is directly attributable to the river as a drinking water source – this is beyond irresponsible, given that is his department that has failed to do the necessary traceback work to provide any conclusive evidence of where the outbreak is sourced, and it also flies in the face of the very thing a drinking water system is designed to do.

DEQ did not receive this FOIA, which appears designed to buttress his position in the email -- that sections of the water delivery system may be harboring this bacteria. We think it would be highly unlikely that anything would be found around the plant, where the water is treated. Most often, this bacteria forms at the building / residential point in the system. Legionnaires is NOT among the 90 water contaminants screened in the Safe Drinking Water Act, but in the absence of action by county health, our staff are now considering taking samples from various points in the system and working with DCH's lab to test for it, if for no other reason than to rule it out.

Regardless, the accusation is serious and the nature of the communication leaves me thinking we would be advantaged to bring together all the agencies asap to share what information we have and develop a response / screening strategy before the weather gets warm again.

I realize these are long emails. Thanks for your patience.

Subject: FW: Information Request and Documentation
Importance: High

The district received this late Tuesday.

Steve Busch has indicated that the district has not received a meeting request from Jim Henry or the Genesee County Health Department as indicated in his email below.

The FOIA is specifically directed to the City of Flint not the DEQ.

While the change in source may have created water quality conditions that could provide additional organic nutrient source to support legionella growth, there is no evidence or confirmation of legionella coming directly from the Water Treatment Plant or in the community water supply distribution system at this time.

Seems like the next step is to communicate with DCH and possibly develop a joint strategy/response. Not sure who in Exec wants to take the lead on this. Steve Busch and Mike Prysby will continue to be lead for us on this. They have been in contact with DCH recently but only to learn that little progress has been made in identifying a source or sources for the illnesses.

EMAIL FROM DEQ TO HENRY SENT THIS AFTERNOON:

Mr. Henry,

The January 27, 2015, FOIA request you provided was directed to the City of Flint, not the DEQ. The DEQ has no record of a FOIA request from your office for such information. It is our understanding that the City has responded to your FOIA request, has helped you adequately redefine your request within the City's scope of public record to address such ambiguities as "any additional areas of concern", and provided you with additional information beyond the scope of your request.

The DEQ fully recognizes the public health threat posed to individuals that contract Legionnaires' Disease with the understanding that the disease is not contracted by ingestion of potable water and therefore not regulated under the federal Safe Drinking Water Act. Your email below claims that you have explicitly explained the situation to our Department. However, since contacting our office early last October to indicate a rise in cases, we have not received any further information regarding your epidemiological investigation into this matter.

Further, conclusions that legionella is coming from the public water system without the presentation of any substantiating evidence from your epidemiologic investigation appears premature and prejudice toward that end.

It is highly unlikely that legionella would be present in treated water coming from the City of Flint water treatment plant given the treatment plant's use of ozone along with complete treatment and chlorine disinfect contact time to comply with federal surface water treatment rules for potable water. Detections of total coliform or heterotrophic bacteria in the City's public water distribution system indicate an environment where bacterial growth may be supported. However, there is no direct correlation that can be made to the presence of legionella. While total organic carbon levels in potable water may serve as a food source for bacteria growth in private plumbing system, water temperatures in the City's distribution system are below legionella growth range, and chlorine residual levels would also limit such growth.

Our office agrees that water main breaks, water leaks, and system repairs are possible vectors for legionella to enter the public water system. These should be investigated as part of your epidemiology. DEQ staff can be made available to assist GCHD and the City regarding such matters, but to date no request by GCHD for any such meeting has been received, let alone declined as alleged in your email.

If GCHD is seeking assistance to complete its epidemiological investigation regarding this matter, such resource requests should be directed to the Michigan Department of Community Health. Our Office agrees that a multi-agency partnership would be beneficial to move forward and develop a unified response. In that respect, if our Office can be of any further assistance you may contact me directly.

Stephen Busch, P.E.
Lansing and Jackson District Supervisor
Office of Drinking Water and Municipal Assistance
MDEQ

Subject: *Information Request and Documentation*

Hello everyone,

The Genesee County Health Department has made several written and verbal requests for specific information since October, 2014, including a Freedom of Information Act Request on January 27, 2015. The information still has not been received and the city's lack of cooperation continues to prevent my office from performing our responsibilities.

The Genesee County Health Department has the responsibility to conduct illness investigations and consider all potential sources, this is not optional. In 2014, Genesee County experienced a significant increase of confirmed Legionella illnesses relative to previous years. Legionella can be a deadly, waterborne disease that typically affects the respiratory system.

The increase of the illnesses closely corresponds with the timeframe of the switch to Flint River water. The majority of the cases reside or have an association with the city. Also, McLaren Hospital identified and mitigated Legionella in their water system. This is rather glaring information and it needs to be looked into now, prior to the warmer summer months when Legionella is at its peak and we are potentially faced with a crisis.

This situation has been explicitly explained to MDEQ and many of the city's officials. I want to make sure, in writing that there are no misunderstandings regarding this significant and urgent public health issue. The Trihalomethane issues "pale in comparison" to the potential public health risks of Legionella.

I am submitting the attached FOIA request again and requesting that the legal obligations of the request are met. If the information is not available, please let me know. In the past, I have requested to meet with the water plant staff and MDEQ regarding Legionella concerns. I did not receive a response from the water plant staff and MDEQ declined. I think it is in the best interest for all stakeholders that we meet and discuss the issues.

Respectfully,

Jim

RE: Flint Water Plant Information Request

Dear FOIA Coordinator,

Under provisions of the Michigan Freedom of Information Act (MCLA 15.231 et seq; MSA 4.1801 (1) et seq) please provide copies of the following:

Provide specific water testing locations and laboratory results within the City of Flint public water system for Coliform, E-coli, Heterotrophic Bacteria and Trihalomethanes from January 1, 2010 to January 27, 2015. Provide any additional water testing that has been conducted for identifying potential public health risks. Include any available mapping of the water testing areas.

Provide a map delineating the boundaries of the City of Flint water distribution system. Include any changes to the boundaries, along with corresponding dates from January 1, 2014 to January 27, 2015.

Provide a map or list of locations, detailing dead ends, pooling, low pressure and any additional areas of concern within the City of Flint water distribution system. Include any modifications to the water distribution system addressing concerns, along with corresponding dates from January 1, 2014 to January 27, 2015.

If you determine that any of the requested information is exempt from disclosure, please detail what is being withheld and cite the exemption under FOIA. I anticipate the request being filled within five working days of receipt of this letter, as provided under FOIA. Please contact me at (810) 257-3618 if there are fees associated to comply with this request.

Sincerely,

Jim Henry

Subject: Budget Presentation

For the last five years, Gov. Snyder has delivered a balanced budget months ahead of schedule. This year will be no different, but the budgeting process to this point has been unlike previous years.

We are amidst a crisis in one of our state's communities and while many steps have been taken already, the road ahead is long for those who have been affected. The time to act is now, and the new budget recommendation accurately reflects both immediate and long-term needs.

The governor is asking today for $195 million in new funding that will bring total investment for Flint's water crisis to $232 million. Attached is an infographic that explains how the $195 million will be spent.

An additional $165 million will aid in statewide infrastructure prioritization, with local projects as the focus.

Under the Governor's recommendation, Detroit Public Schools will have an investment of $72 million per year for 10 years from Michigan's tobacco settlement proceeds. The situation for students in Detroit is dire. It is critical and it is urgent that the Legislature work to turn around the failing system that is currently in place.

There are many other highlights to be proud of in this budget. Some areas being made whole, such as Healthy Kids Dental and higher education, have been a priority of the Governor for years.

- Overall budget growth for FY17 is 0.8 percent, up $438 million from last year. Total spending is $54.9 billion, with 75 percent of that funding health, education and human services statewide
- Healthy Kids Dental will cover all 83 counties in Michigan, with a total of 826,000 kids receiving oral care. In 2011, 61 counties were covered with a total of 285,000 kids.
- Higher Ed funding will be fully restored, with a 4.3 percent increase for universities and a 2.4 percent increase for community colleges.
- MSP's trooper recruit school will graduate 85 new troopers. Number of troopers hired since Dec. 2010 will make up 48 percent of TOTAL troopers.
- Recommendations of the Michigan Prescription Drug and Opioid Abuse Task Force will be implemented.
- Secure Cities Partnership will be expanded to Muskegon Heights, Inkster, Hamtramck, Harper Woods, Highland Park and Benton Harbor.

All of us who work for the governor know that even with the challenges before us, our state's future is brighter for all. These are opportunities to address issues that affect the quality of life, and we will see them through.

Attached is the press release and infographics with additional information.

Please join in watching the presentation at www.michigan.gov/snyderlive and join the conversation on social media using #mibudget. Additional information will be available just prior to the budget presentation at www.michigan.gov/mibudget.

Thank you for your continued service and commitment to the people of Michigan.

Chris Wahmhoff violated his probation by posting a somewhat threatening Facebook comment related to the Flint water situation.

BATTLE CREEK, MI — A Kalamazoo man sentenced to probation for crawling into an Enbridge pipeline as an act of civil disobedience will face a judge this month after a social media post critical of Michigan Gov. Rick Snyder's handling of the Flint water crisis resulted in an alleged violation. Christopher G. Wahmhoff, 37, will face Judge John Hallacy in Calhoun County Circuit Court on Feb. 22 after a comment on Facebook was cited as "threatening behavior" by his probation officer in a show cause affidavit.

Subject: URGENT - Records Request

Importance: *High*

The department has been directed to provide copies of all records in our possession related to the Flint water matter to the Governor's office. You are receiving this email because you have been identified as an individual who may have records that must be produced. If there are any department members who you think may be in possession of records related to Flint water, please forward this message to those members.

Records include memos, handwritten notes, emails and attachments, and text messages in your possession, regardless of who produced the record. Be sure when you search your email messages that you look in your inbox, sent box, and trash. In preparation for the production, you must estimate the number of records you have in your possession and provide that estimate to Ms. Lori Hinkley no later than **2:00 PM on Friday, February 12, 2016.**

You must then provide a copy of each record in your possession to the Legislative and Legal Resources Section no later than close of business on **Thursday, February 18, 2016.**

Members who work at Headquarters must provide paper copies to F/Lt. Chris Hawkins in the Office of the Director. Members who work at the State Secondary Complex must provide a paper copies Ms. Lori Hinkley. Ms. Hinkley is located on the second floor of the new Headquarters building. Department members who work outside of these worksites may send copies of records in their possession via e-mail to MSP-FOIAProject@michigan.gov.

In addition to this initial production of records, the department is required to provide copies of newly created records on an ongoing basis. Until further notice, copies of all newly created records shall be forwarded to MSP-FOIAProject@michigan.gov.

REMINDER: Public records can only be disposed of consistent with an approved retention schedule. As it applies to emails and text messages related to the Flint water matter, please use the retention schedule in place for general correspondence which is **two years**. Please save all emails and text messages for at least two years. Prior to expiration of the two year period you will have an opportunity to re-evaluate the content of the messages to determine if an additional retention period is necessary. If you have issues with accommodating emails based on your mailbox size, please archive them. Do not print and file them as the metadata must be retained as well.

If you have any questions with these instructions, please contact Ms. Lori Hinkley.

VIDEO: What Governor Snyder's FY17 budget means for Michigan

Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of

specialty medications that Michigan residents depend on for better health outcomes.

This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of Michigan's families. **Click here to learn more about the top 6 takeaways from the Governor's FY 2017 state budget.**

From: Maxine Murray [mailto:mmurray@cityofflint.com]
Sent: Friday, February 20, 2015 2:31 PM
To: Maxine Murray
Subject: City of Flint Update

Dear Citizens and Stakeholders:

The City of Flint is continuing its efforts of implementing the adopted master plan and organizational strategic plan. The integration of the strategic plan into the organizational processes is also a key component in the seven point transition management plan to guide the way by which the operation of the City will be assumed by the Mayor and City Council.

Flint City government is focused on enabling Flint to become an attractive place to live, work, play, study, and visit. In order to do this, the city government must become and remain financially stable, must provide residents, businesses, students, and visitors with an adequate level of municipal services. It must also have the capacity to encourage and guide others in the achieving its vision and goals.

Each quarter the City is producing a report. The first quarter of FY15 ended on September 30, 2014 and the results were reported to the public last October. We are now pleased to share the progress which has been made during the second quarter, which ended on December 31, 2014. Also attached is the 2014 summary of accomplishments related to the master plan. We have identified more than 100 strategies underway with nearly $15 million in activities. As you review the summary here and attached reports, please consider sending us your feedback and ideas. The strategic plan is currently being revised to extend to 2020 and the report on the master plan is being expanded by including more projects from partners.

With the strategic plan, over 300 specific objectives are identified in the current plan, with 98 now completed. They include increasing public safety, improving infrastructure, creating jobs and development, eliminating blight, engaging citizens and managing the financial and administrative challenges which are reflective of an organization striving to regain sustainable financial solvency. Much of this work is done in partnership with the community and everyone is to be commended for their willingness to embrace change.

Important areas of progress from this past quarter include:

❖ - Voters approving the creation of a charter commission and the adoption of charter amendments to strengthen financial management and reduce administrative costs.

❖ - City Council supported a package of ordinance reforms to codify the strategic planning process and the best practices in financial management.

❖ - Flint recorded its lowest number of homicides in more than ten years and the overall violent crime rate was down compared with 2013.

❖ - Flint's economy continues to improve steadily with coordinated economic development efforts supporting more than 300 jobs in 2014 including jobs with expanding companies in health care, manufacturing, retail, and environmental technologies along with new small businesses.

❖ - Improvements in infrastructure are progressing in accordance with the strategic plan and completed combined capital improvement plan despite the evident challenges with water quality and costs.

❖ - A new City of Flint website has been launched to provide citizens, businesses, students and visitors have access to timely information regarding services and information.

❖ - The FY2014 audit was completed on time and confirms the reduction in the General Fund deficit to less than $9 million and the stabilization of other City accounts.

❖ - The transition from state oversight to home rule is advancing with the new City Administrator starting and the preparation of a final list of items to be completed before April 2015.

While significant progress has been made on many fronts, significant challenges and risks remain. One primary issue, of course, is water quality. We all know it is a very serious concern, and our staff is working every day to improve water quality with the guidance being provided by independent consultants with expertise in improving water quality where the source of water is a river. We also posted on the City's web site answers to questions which have been raised in the community along with testing data so we are fully transparent. Another issue is the low level of resources available to address public safety issues in the City. As you know, we commissioned an independent study of our police and fire organization in order to assess our capacity and to determine how to best organize our police and fire departments in light of their diminished resources.

The issues surrounding water and public safety emphasize the tenuous financial situation of the City — one which, while significantly improved, will remain tight. The five year financial projections done last year, and the adopted budgets for FY15 and FYI 6, showed financial stability for FY15 and FY26, but projected a very significant gap between revenues and expenses for FY17. Balancing the FY17 budget in a financially responsible manner will be a challenging task. If decisions become necessary to further reduce the workforce and service levels, they will be very difficult, as there are no easy answers. Likewise, responding to demands for high levels of service and lower costs in the form of water rates or taxes will also be difficult.

We will be looking to the community and partners to continue to be engaged and work with us on solutions. For instance, the new Water Advisory Board is being established. If you are interested in participating on the new board, other commissions, or becoming more involved in any way, please contact mayor@cityofflint.com. And again, we welcome your feedback on the revision of the strategic plan and the compilation of master plan accomplishments.

RE: City of Flint Strategic Plan, Second Quarter Report

In 2014 the City Council of Flint adopted a Strategic Plan for the City of Flint. This plan announced a vision, mission, and goals to guide the operation of the City government for the next five years and was adopted in the context of the City's recently adopted Master Plan for the community. It was followed by a statement of budget priorities adopted by the City Council and ultimately by a biennial budget for FY15 and 16. The budget also projected the city finances for the following three years – FY17, FY18, and FY19. During this same period a Deficit Elimination Plan and Reserve Accumulation Plan was approved by the State and a Seven Point Transition Management Plan was enacted to guide the way by which the operation of the City will be assumed by the Mayor and City Council. The integration of the Strategic Plan into the organizational processes of the City is a key component of the Seven Point Transition Management Plan.

In total, these actions comprise a broad framework guiding the direction of the Flint City government as it restores financial stability and once again becomes an active leader focused on making Flint a safe, secure city attractive to residents, businesses, students and visitors.

The first quarter of FY15 ended on September 30, 2014 and the results were reported to the public in October. A copy of that report is available on the City's web site.

We are pleased to report on the progress which has been made during the second quarter, which ended on December 31, 2014. While significant progress has been made on many fronts significant challenges and risks remain.

We wish to commend the Management Team and our employees for their dedicated efforts to move the City forward. We look forward to discussing the contents of the report with you.

City of Flint Strategic Plan

Quarterly Report

October 2014 – December 31, 2014

City of Flint Quarterly Report
October 1, 2014 – December 31, 2014

Overview

The progress of the City of Flint is now defined by the steps it takes to achieve its stated vision, mission, and goals. Flint City government is focused on enabling Flint to become an attractive place to live, work, play, study, and visit. In order to do this, the city government must become and remain financially stable, must provide residents, businesses, students, and visitors with an adequate level of municipal services. It must also have the capacity to encourage and guide others in the achieving its vison and goals.

Achievement of the vison will be measured by the progress which is being made towards specific goals and objectives. Over 300 specific objectives are identified in the current plan, with nearly 100 completed. They include increasing public safety, improving infrastructure, creating jobs and development, eliminating blight, engaging citizens and managing the financial and administrative challenges which are reflective of an organization striving to regain sustainable financial solvency. Much of this work is done in partnership with the community and everyone is to be commended for their willingness to embrace change. Important areas of progress from this past quarter include:

- Voters approving the creation of a charter commission and the adoption of three charter amendments to strengthen financial management and reduce administrative costs.
- City Council supported the first reading of a package of ordinance reforms to codify the strategic planning process and the best practices in financial management.
- Flint recorded its lowest number of homicides in more than ten years and the overall violent crime rate was down in nearly all areas, compared to 2013.
- Flint's economy continues to improve steadily with coordinated economic development efforts supporting more than 300 jobs in 2014 including jobs with expanding companies in health care, manufacturing, retail, and environmental technologies along with new small businesses.
- Improvements in infrastructure are progressing in accordance with the strategic plan and nearly completed combined capital improvement plan.
- A new City of Flint website is ready to be launched in January, providing citizens, businesses, students and visitors have access to timely information regarding services and information.
- The FY2014 audit was completed on time and confirms the reduction in the General Fund deficit to less than $9 million and the stabilization of other City accounts.
- The transition from state oversight to home rule is advancing with the announcement of the new City Administrator and the preparation of a final list of items to be completed before April 2015.

Assuring Accountability to Adopted Plans and Budgets

As the City of Flint continues to work towards its adopted Vision of being, "a well-managed, financially stable, and accountable government," there is a shared commitment to continually updating and improving plans and budgets. The City Council is poised to adopt a package of ordinance reforms to codify the strategic planning process and the best practices in financial management. The ordinance reforms will require the City of Flint to establish priorities, regularly update the five year strategic plan, adopt a biennial budget, receive quarterly reports on the status of the budget, consider quarterly budget amendments, and develop appropriate fund balances and retiree health care reserves.

This is a report on the progress made during the three month period ended December 31, 2014. This three month period is the second quarter of the City's Fiscal Year 2014, which began July 1, 2014. A first quarter report was presented to the community in October, 2014, and is available on the City's web site.

Highlights

Increasing Public Safety

The City of Flint is increasing public safety through the involvement of the community, collaboration with the Michigan State Police, Genesee County Sheriff's Department and other law enforcement partners, and, most importantly, the hard work of the Flint Fire Department and Flint Police Department along with the 911 center and courts. While managing force reductions as required by the budget, success is notable in the following:

- The City has selected the State Records Management System for replacement of its current system.
- The Citizens Radio Patrol is now active and planning on expansion in 2015.
- Leads on Line has been implemented and is functional.
- 100% of Flint school children have been provided with fire safety and prevention education and all Senior Centers have been provided with fire safety and prevention information.
- Fire suppression personnel have distributed arson reward literature in the community.
- A reorganization has been implemented within District Court resulting is reduced costs and upgraded technology.
- A reduction in Violent Part 1 Crimes continues, including a 40% reduction in homicides; with the exception of arsons, other major areas are also showing a decline.
- Response time to calls for service for the Police Department has been reduced by 7.5%, but still short of the goal of 8%.
- An alternate plan to calls for service not requiring direct police response is being developed to further reduce response time and to improve effectiveness of available resources.
- An organizational study of the police and fire organization and staffing is nearing final completion, and will give guidance to future organizational and budgetary decisions regarding public safety.

Improving Infrastructure

The mission of the City of Flint Government is to assure that residents, businesses, students and visitors receive municipal services in a customer friendly and financially responsible manner. Infrastructure, in the form of utilities, streets, trails, and waste collection, are vital municipal services that require ongoing attention due to the age of current systems and the express desire of the community for modern improvements. Despite evident challenges, the Department of Public Works has developed plans and steps are being taken to strengthen Flint's infrastructure systems. Strategic objectives have been met, or are in progress in these areas:

- A list of capital improvement needs for city facilities was developed and provided to the public for review as part of the development of the Capital Improvements Plan portion of the Master Planning process, which is scheduled for final submission to the Planning Commission and the Flint City Council in January 2015.
- Repairs and improvements to the City's water treatment and distribution system are being made to ensure the water is safe to drink and for all other purposes.
- A written pipe replacement matrix has been developed for determining the priority of pipe replacement annual plans.
- Infrastructure repairs on the water and sewer system continue with nearly 40 valves replaced this quarter alone.
- The process of selecting a vendor to replace all inoperable residential meters is underway.
- Engineering has started for the replacement of seven miles of underground pipe. Replacement is scheduled to begin this spring.
- Work has started on rebuilding manholes as a part of the water infiltration elimination program.
- A list of potential shared services opportunities with Genesee County has been developed.
- The process of selecting a vendor and funding mechanism to provide an energy evaluation of the City Hall campus is underway.

Fostering Jobs and Development

The City's Department of Planning and Development has the mission of organizing and facilitating, "targeted investment and rational, well-designed and physically integrated land use and development that advances economic prosperity, eliminates blight and stabilizes neighborhoods, protects the environment, and provides a better quality of life in the city." With the adopted *Master Plan for a Sustainable Flint* as a framework, the Department is working with partners to support long-term planning, comprehensive economic and community development including effective planning, zoning, business licensing and permitting, and parks maintenance. A number of efforts are being made to implement the specific strategies identified in the master plan, including developing a Capital Improvement Plan and a new zoning code. Other initiatives are underway that leverage grants and opportunities that fit within the community's vision. Areas of progress include:

- Coordinated economic development efforts supporting the creation more than 300 jobs and $850 Million in capital investment in 2014 including jobs with expanding companies in health care, manufacturing, retail, and environmental technologies along with new small businesses.

- A review of the process of submitting planning applications was conducted in order to assure that applications are processed in a timely manner.
- At least three "Adopt a Park" agreements have been executed to fulfill the initial commitment in the Strategic Plan and the "Friends of Berston" has been established as an independent non-profit organization.
- The capacity for conducting rental inspections will be increased shortly as a contract for inspection services is being finalized.
- Significant progress has been made with the sale of homes at Smith village, with only 9 of the 39 remaining unsold.
- Ongoing coordination with the Land Bank to continue demolitions.
- A draft of the City's comprehensive 5-Year Blight Elimination Framework has been completed and is being circulated for review by the public, partners and the Planning Commission with the intention of an adoption as a policy document in the coming quarter.
- An agreement with MDOT has been executed which will allow the construction of the Genesee Valley trail and connection to the new Chevy Commons to begin this spring.
- A preliminary draft of the City's Zoning Code has been completed and is being prepared for public review in 2015.
- A draft of the Capital Improvement Plan has been completed and shared with the public; consideration of adoption by City Council is planned for January 2015.
- A planning grant application to the EPA was submitted in order to provide for additional planning for the area around Chevy Commons.

Managing Financial and Administration Challenges

As the City of Flint moves to resolve the financial emergency, a number of financial and administrative challenges are being managed in accordance with the Strategic Plan. The following objectives have been completed:

- The City's accumulated General Fund deficit has now been reduced to less than $9 million from the $12.9 million which existed as of June 30, 2013, more than double the amount targeted in the state adopted Deficit Elimination Plan.
- A City Administrator has been selected to lead the City government as it transitions from oversight by an Emergency Manager back to home rule.
- A formal assessment of the values of both Hurley Hospital and the City's utility system have been completed, concluding that no change in ownership status would be beneficial at this time.
- A decision has been made to rejoin the County 911 Consortium, which will improve service to the Flint community while reducing overall costs.
- Video capabilities have been improved in City Council Chambers, providing for improved recording of Council proceedings.
- A review of professional development needs for city officials, department heads, and employees has been completed.
- A new fixed asset accounting policy has been implemented.
- The FY14 audit has been completed and filed with state
- An Internship program has been established for the Finance Department.
- Staffing is now in place to enhance delinquent collections.
- The office space for the Assessing Division has been renovated to address health and safety issues.

- New labor contracts were negotiated and implemented with AFSCME 1600 and 1799, and FPD Command officers, providing consistent benefit packages, achieving short and long term costs, and improving efficiency of operations.
- A new labor contract was imposed on FPOA for the same purposes.
- Modifications to exempt employee policies were approved for the same purposes.
- A new Family Medical Leave Act administration program was implemented.
- A new Employee Assistance Program was implemented.
- Several specific vehicle and equipment acquisitions were made.
- New lease arrangements for several vehicles were also implemented.
- GPS tracking units were installed on several city vehicles as a pilot project.
- A regular schedule of seasonal meetings with DPW to assess vehicle readiness was established.
- A technology training calendar was established for all employees.

City of Flint Challenges Going Forward

Progress continues on the remaining objectives, with progress to be reported in the next quarterly report. Challenges to the City's progress continue in the form of events such as:

- While the transition from DWSD to KWA is underway, including the use of the Flint River on a temporary basis, the work of producing treated water continues to be complicated by the systems' aging infrastructure and varying temperatures.
- The departure of three key management staff in Finance and Human Resources will affect timelines for completion of some objectives.
- Difficulties in finding qualified candidates for plumbing and mechanical inspectors has affected the timeliness of providing inspections.
- The inability of the City and IAFF to reach a mutually acceptable labor contract patterned after the basic terms and conditions in all other contracts has resulted in a delay in achieving desired cost savings.
- The slow progress of the retiree health care lawsuit continues the uncertainty of the City's financial stability.
- Slow deployment of budgeted personnel assigned to delinquent tax collections may affect the ability to reach targeted revenues amounts.
- Evidence of consistent instances of water theft has required the assignment of public works, finance and public safety personnel to investigate and prosecute offenders.

Objectives Added or Removed

A viable plan must be flexible enough to adjust to unexpected circumstances and these modifications need to be made transparent to the community. Significant adjustments to this plan as of the end of the second quarter include:

- Objectives for improving City 911 operations are being replaced with the objective of transferring City 911 operations to the County 911 Consortium by July 1, 2015.
- An objective of developing an agreement with Genesee County for the consolidation of the 67th and 68th District Courts by January 1, 2016 will be added.
- An objective of improving inventory control in the Utilities and Fleet divisions by June 30, 2015 will be added.
- An objective of selecting permanent replacements for the City Treasurer, Human Resources Director, and Finance Director no later than April 30, 2015 will be added.

- An objective to reduce instances of water theft by 50% no later than June 30, 2015 will be added.
- An objective to develop policy review and recommendation regarding the "My Brother's Keeper Initiative" by February 1, 2015; and to develop and help launch action plan by September 1, 2016 will be added.
- Secure funding and complete construction of a road diet, and addition of bike lane, along Harrison Street by September 1, 2016, per the Master Plan, will be added.

Conclusion

Adoption and implementation of a strategic planning process is one of the elements identified by Flint's Emergency Manager in the 7-point Transition Plan as necessary for the transition back to Home Rule. Progress is being made in accordance with the expectations of the Strategic Plan and its specific objectives. Significant steps are being taken to improve its financial condition and to restructure the organization to improve efficiency and effectiveness. Steps are also being taken to prepare the City for return to traditional Home Rule governance.

The second quarter report shows completion of a number of specific objectives and progress on others. There have also been a number of unexpected events which have or will affect timely completion of objectives, or resulted in the elimination or addition of others. These types of adjustments are to be expected in the implementation of any plan.

The positive progress outlined in this report must be read in the context of the current overall condition of the City of Flint. The level of services currently provided by the City is marginal as it struggles to regain financial solvency. Flint continues to be challenged by population loss, relatively low per capita income, aging infrastructure, and an insufficient revenue stream to support a desired level of services. It still has a significant General Fund deficit to be addressed, along with significant legacy costs. And it still faces the possibility of insolvency should the challenge to changes in retiree health care prevail.

GOVERNANCE AND ADMINISTRATION

VISION Statement

The City of Flint's Governance will adapt to change and be a model of professionalism, transparency, and sustainability in order to provide effective government to each of our City's residents (as written in the Charter Preamble)

MISSION Statement

The Executive Management and Elected Leadership directs and guides the City government in order operate in an open and financially responsible manner, including improving citizen access, focusing on measurable results, improving the City's financial position, and eliminating accumulated deficits within the context of the City of Flint Master Plan.

DIVISIONS	FUNCTIONS	KEY OBJECTIVES FY15 & FY16	1ST QTR STATUS	2ND QTR STATUS
EMERGENCY MANAGER		Formally assess City readiness for Transition Advisory Board and progress towards achievement of Seven-Point Plan	I	C
MAYOR & COUNCIL		Participate with MML and others on an ongoing basis in advocating for state reforms in municipal financing, including PPT and EVIP	C	C
	Management of City Government	Continue to participate with MML and partners with new legislative session in advocating for state reforms in municipal financing, including OPEB and Prop A	I	I
CITY ADMINISTRATOR	Chief Elected Official	Reduce deficit by no less than $1.8 million by end of FY15, and each year thereafter in accord with City Deficit Elimination Plan, and continuing to accumulate an appropriate level of reserves	I	I
	Legislative Body of the City	Begin search for City Administrator	C	C
MAYOR		Formally assess dept head's progress on attaining objectives and then semi-annually thereafter	I	I
		Conduct organizational review of all departments completing Public Safety in FY15 and Public Works in FY16	I	I
CITY COUNCIL		Resolve retiree healthcare lawsuit by December 31, 2015	I	I
		Conduct formal quarterly budget and strategic plan review with Council	I	I
HUMAN RELATIONS		Complete assessment of Hurley's future as a community hospital	I	C
		Apply for 20 grants annually and receive $10 million in competitive/non-entitlement awards, beginning in FY15	I	I
CIVIL SERVICE/OMBUDSMAN		Secure ongoing financial and other support for public safety and blight, including city lock-up, for FY15-FY19	I	I
		Develop proposals for 911 consolidation and courts consolidation	I	I
		Design citizen service system to process up to 500 requests each month	I	I
		All Council members and Mayor to attain MML Level Two certification	I	I
		Update the video capabilities of the City Council chambers to facilitate in-house recording, production and uploading of video	I	C
		EM and Mayor to approve professional development training schedule for department heads	I	C
		EM and Mayor to approve professional development training schedule for employees, based on recommendations from department heads and Human Resources	I	I
		Updated web site to be implemented	I	I
		All appointments to City boards to be current	I	I
		Create 1,000 Volunteer opportunities annually	I	I
		Mayor/EM to implement policies and procedures for improving citizen access to City government	I	I
		Formally assess future city role in promoting economic and community development for consideration in FY16 budget	I	I
		Develop agreement with Genesee County for consolidation of 67th & 68th District Courts by January 1, 2016	-	N

PUBLIC WORKS
(continued)

DIVISIONS	FUNCTIONS	KEY OBJECTIVES FY15 & FY16	1ST QTR STATUS	2ND QTR STATUS
TRANSPORTATION	Maintenance and repair of sidewalks	Complete a sidewalk inventory that identifies the location and surface condition rating of all sidewalks within the City	N	N
STREET MAINTENANCE	Enforcement of Right-of-Way Ordinances	Implement a 50/50 Sidewalk Repair Program targeting enforcement of the Sidewalk Ordinance and repair of 500 sidewalk squares and repair of 1,000 squares	N	I
	Maintenance of City owned streets including paving, plowing and sweeping	Perform preventive maintenance activities on 15 miles of streets and pave 4.5 miles of streets in addition to preventive maintenance on another 15 miles of streets	I	I
	Maintenance of City street trees	Complete an inventory of city street trees	I	I
		Develop a Tree Maintenance plan that identifies the location of street trees, condition, risk factors and schedule of planned maintenance activities over a six-year cycle	I	I
		Initiate a web-based application that will allow the public to electronically report pothole, street, street tree, and sidewalk complaints	C	C
CAPITAL PROJECTS ADMINISTRATION	Capital Improvement Projects (Planning and Management)	Develop and implement a written Public Participation Plan that details how the public will be engaged in the transportation planning process	N	N
		Invest $20,000 in non-motorized facilities by providing funding to secure preliminary engineering services for the Genesee Valley non-motorized trail project	C	C
		Develop a reconfiguration plan for Harrison Street and South Saginaw Street that includes facilities for multi-modal travel and traffic calming devices	I	I
		Identify a funding source to develop engineering plans to reopen Leith Street	N	N
TRAFFIC CONTROL	Maintenance of signs, traffic signals, and pavement markings	Perform an audit of all signalized intersections to identify unwarranted traffic signals and implement a preventive maintenance plan for traffic signals	I	I
	Barricading Activities/Special Events	Perform regulatory and warning sign upgrades in 3 areas of the City in FY15 and an additional 3 areas each year thereafter	I	I
		Complete construction of a road diet and addition of a bike lane along Harrison Street by September 1, 2015, contingent upon identifying of funding source by Planning & Development no later than July 1, 2015	-	N
SANITATION (Contract Management)	Monitoring of residential waste collection, composting, and recycling	Develop and execute a Compost Plan that will result in the processing and removal of compostable materials from the Chevy in the Hole site	C	C
		Issue Waste Collection Services RFP for new contract period	N	N
		Increase the City's recycling participation to 10% in FY15 and 12% in FY16	I	I
		Develop a recommendation on the feasibility of implementing a 96-gallon cart recycling program	I	I
		Monitor Waste Collection Services contractor's collection and disposal activities on a monthly basis to ensure compliance with contract provisions	I	I
		Formally evaluate performance of Waste Collection Services contractor	N	N
		Work with foundations, Police, and City partners to develop a new special event management protocol	C	C
		Provide timely instruction to public with respect to leaf collection process	C	C

DIVISIONS	FUNCTIONS	KEY OBJECTIVES FY15 & FY16	1ST QTR STATUS	2ND QTR STATUS
FACILITY MAINTENANCE	Maintenance of city facilities and grounds	Complete disposition of Police Academy, Fire Station, FAEC, McKinley, and Park Supply buildings	I	I
	Planning for optimal facility usage	Elimination of unneeded storage and relocation of employees into a permanent workspace	I	I
	Facilitating use of city facilities	Implement new staffing plan for Facility Maintenance	C	C
		Increase capacity for maintenance services through a wider network of support vendors	C	C
		Establish a contract management performance review that has a semi-annual written report	C	C
		Develop a comprehensive routine and preventive maintenance plan that documents areas of concern, structures the way we effectuate repairs, and supports the CIP.	I	I
		Develop 5-year capital improvement plan for City facilities and update annually thereafter	C	C
		Replace exterior City Hall lights with LED's and motion sensors	I	I
		Identify a vendor and a funding mechanism to provide an energy evaluation of the City Hall campus, producing a 2015 energy "baseline" in which to measure progress.	I	C
		Modify 5-year Facility capital improvement plan annually prior to the budget presentation to Council	I	C
		Complete the transition of senior center operations to other entities contracting directly with the County for operational support	C	C
CHEVY COMMONS		Infrastructure remediation and Storm Sewer discharge compliance	I	I
	Future usable green space	Development and Construction of Phase 1 Green cap	I	I
		Implementation of USDA Phytoremediation $400k grant	I	I
		Events Management	C	C
		Implement compost operations DEQ Consent Decree	I	I

PLANNING AND DEVELOPMENT

VISION Statement

The Planning and Development Department will partner with residents, businesses, and visitors to implement the Master Plan and help transform Flint into a safe, vibrant, sustainable, and healthy city

MISSION Statement

The Planning and Development Department is committed to ensuring the public safety, health, and well-being of Flint's residents, businesses and visitors through targeted investment and rational, well-designed and physically integrated land use and development that advances economic prosperity, eliminates blight and stabilizes neighborhoods, protects the environment, and promotes a better quality of life in the City.

DIVISIONS	FUNCTIONS	KEY OBJECTIVES FY15 & FY16	1ST QTR STATUS	2ND QTR STATUS
CASE MANAGEMENT	Current Planning	Complete all plan reviews within 3 weeks and inspections within 72 hours	I	I
	Permitting	Implement a comprehensive form-based zoning code that streamlines the approval process for projects that adhere to the regulations	I	I
	Service Counter/Business Support	Process all planning applications within the prescribed time limits and minimize the number of discretionary cases to be reviewed quarterly thereafter	I	C
	Major Cases	Designate designated case manager to guide major projects through the City's determination process	C	C
		Complete acquisition of the Grand Traverse Greenway Trail	I	I
		Coordinate with Redevelopment Ready Communities to reorganize department procedures to provide a seamless case management process for new and existing businesses to help facilitate redevelopment	I	I
	Business Licensing	Implement P & D management of business licensing ordinance	I	I
		Achieve 25% licensing compliance in FY16	N	N
		Achieve 50% licensing compliance in FY17	N	N
		Achieve 90% licensing compliance in FY18	N	N
BLIGHT ELIMINATION & NEIGHBORHOOD STABILIZATION	Code Enforcement	Develop and implement a comprehensive code enforcement program	I	I
	Rental Registration	Implement an updated rental registration ordinance	N	I
		Achieve 25% rental registration compliance FY16	N	N
		Achieve 50% rental registration compliance FY17	N	N
		Achieve 90% rental registration compliance FY18	N	N
	Business License Enforcement	Secure funding and demolition assistance to demolish 1,200 homes and 80 commercial buildings each year for 5 years with progress measured annually	I	I
	Blight Elimination & Street Lighting Coordination	Secure formal commitment of at least 80 neighborhood groups and community organizations to maintain 2,000 vacant parcels	I	I

INFORMATION TECHNOLOGY		Implement Governance Model	I	I
	Oversees the design, purchase, implementation, and operation of the City's technology infrastructure, provides professional and technical advice to departments in utilization of technology; identifies and provides technology related training	Complete implementation of BS&A.net (BS&A implementation contract complete)	I	I
		Develop and schedule implementation of a telecommunications infrastructure upgrade	I	I
		Establish and implement a Technology Training Calendar for all employees	I	C
		Install 22 new fully functioning mobile data computers	I	I
		Maintain uptime for internet and intra net by 95% of the time, as measured by quarterly reports	C	C
		Reduce the number of shadow access systems by 40% (base number as of May 1, 2014)	I	I
		First issue resolution and same day resolution achieved for 70% of Help Desk tickets, as measured by quarterly reports	C	C
		Recommend vendor for Record Management System and propose funding and implementation strategy for inclusion in FY16 budget	I	I
		Complete a federally compliant IT Disaster Recovery and Security Plan	N	N
		Complete a Mobile Device Readiness Assessment	N	N
		Reduce telecommunication expenses by 30%	I	I
		Equip Mayor, Finance, South Bldg, Police and Fire Conference Rooms with access to technology	N	N
		Upgrade IT Training Room	I	I
		Develop plan to convert technology infrastructure to wireless	N	N
		Upgrade space housing IT servers etc.	N	N

IMAGINE FLINT

MASTER PLAN FOR A SUSTAINABLE FLINT

A Year in Review

January 7, 2015

A YEAR IN REVIEW-INTRODUCTION

A YEAR IN REVIEW - MASTER PLAN FOR A SUSTAINABLE FLINT

Since the adoption of the Master Plan on October 28, 2013, the community commitment to advancing the hundreds of strategies found in the plan has truly been amazing. Likewise, the City of Flint has fully embraced the Master Plan, relying on it heavily to develop the five-year strategic plan and two-year budget. Other Flint institutions and organizations have also revised their own strategic plans and priorities to align with the Master Plan. Perhaps most remarkable are Flint's residents who willingly volunteered thousands of hours and contributed a variety of resources to maintain parks, rehabilitate houses, and mow vacant lots in alignment with the Master Plan. As we review our 2014 achievements, it is important to highlight our biggest accomplishment: the creation of a new community culture around Master Plan implementation.

This document a Year in Review is more of a broad synopsis broadly highlighting the master planning work. However, due to our pledge regarding accountability and transparency, the Department of Planning and Development (DPD) will work with the Planning Commission, Steering Committee, and other stakeholders to more accurately quantify the impact of the Master Plan. In February, the DPD will present a draft Annual Report to the Planning Commission for further vetting and ultimate approval for widespread distribution. Even in a more detailed annual report, we recognize that it will be difficult to quantify the collective community impact aligned with the Master Plan.

In drafting this synopsis, we took a very conservative approach in quantifying the impact. The total number of projects identified is tied directly to a Master Plan strategy and involves mostly new grants or shifts in funding to accomplish a specific strategy. In a few instances, the synopsis includes grants awarded to an entity other than the City. In these circumstances, the City was closely involved in securing the grant, but felt the partnering agency was better positioned for implementation.

Over the course of 2014, **118 Master Plan strategies were initiated with an estimated of nearly $15 million.**

2014 accomplishments that have a larger impact that the chapters outline below include:

- Selection by the White House as one of seven Strong Cities, Strong Communities. The initiative is providing additional federal staff support to help implement the Master Plan
- Development of a draft Zoning Code, which will be vetted by the community in early 2015 and transmitted to City Council for consideration in the spring
- Creation of new financial policies and ordinances and ongoing strategic planning to ensure the City operates in an open and financially stable manner

It goes without saying that the achievements outlined in the following pages are really the community's achievements. In particular, we want to thank the Mayor and City Council, Planning Commission, Master Plan Steering Committee, and Implementation Task Groups who continue to guide the Master Plan Implementation.

CIVIC ENGAGEMENT

Civic engagement and community outreach remains at the forefront of Master Plan Implementation. Built through extensive public interaction over the duration of the planning process, trust with Flint residents and community members continues to drive our work. Transparency, accountability, active public participation and collaboration were identified as the key characteristics to uphold a high level of civic life, one of the 6 Guiding Principles identified by Flint citizens throughout *Imagine Flint*.

Over the course of 2014, the City:

- Partnered with 45 neighborhood and block-based groups
- Hosted over 75 public meetings and community events and engaged over 1,500 unique individuals
- Convened and facilitated 34 Implementation Task group meetings connecting with 78 individuals monthly on master plan implementation
- Partnered with Flint Community Schools to host a 21st Century town hall meeting on Community Education, nearly 300 individuals
- Trained and recruited over 50 volunteers for community wide events
- Hosted 2, interactive design-charrettes for planning processes
- Hosted 3 Capital Improvement Meetings drawing over 80 participants
- Launched the "My Brother's Keeper" initiative, engaging over 180 individuals
- Reached 995 "likes" on Facebook, reaching over 1,000 individuals weekly
- Averaged over 50 "hits" weekly on the Imagine Flint website
- Released 11 unique newsletters, reaching over 218 individuals per mailing and generating 2,407 "reads"
- Hosted 11 monthly Steering Committee meetings, attracting over 400 members of the public

Civic Engagement Spotlight:
Imagining Community Education - A 21st Century Town Hall Meeting

In response to the feedback regarding Community Education throughout the master plan process, Flint Community Schools and the City of Flint partnered together to host a first-of-its-kind workshop around Community Education in Flint Schools. Aimed at identifying what Community Education means to Flint residents, participatory tools and technology were used to form consensus, generating real-time polling through small group discussion and data collection.

The workshop presented a tremendous opportunity for residents to assist the Flint Community Schools with crafting a vision for the future of a sustainable model of community education in Flint and addressed a primary strategy in chapter 9 of Imagine Flint: "The reinstitution of a sustainable form of community education through K-12 schools, community centers, and early learning sites". **Over 250 individuals attended** with 78% identifying as Flint residents.

Imagining Community Education Event

HOUSING & NEIGHBORHOODS

Throughout the Master Planning process, it was clear that residents and stakeholders wanted the City to concentrate its efforts on neighborhood stabilization and blight elimination. Thus, the City crafted its Blight Elimination Framework and focused most of the implementation efforts around neighborhood clean-ups, mowing, demolition, and housing rehabilitation. Realizing that better data and planning was needed to more effectively target investment, the City secured funding for a target housing market analysis, received an allocation of eight AmeriCorps VISTAs, and applied for two neighborhood planning grants.

16 Housing & Neighborhoods projects have been undertaken with an estimated value of **$4.8 million** involving support of **51** neighborhood groups and community organizations.

Project Highlights include:

- Development of a CDBG funded neighborhood mini-grant program to distribute more resources to local, grassroots revitalization efforts
- Coordination with the Land Bank, FARO, Diplomat and the neighborhood residents in securing an additional $2,600,000 for demolition in the Civic Park Neighborhood
- Completion of a citywide neighborhood assessment including 51,607 parcels and auditing 11,478 street lights

Housing & Neighborhoods Spotlight:
Beyond Blight 5-Year Elimination Framework

A key strategy within the Housing & Neighborhoods Chapter, the Beyond Blight Elimination Framework was released in 2014. The detailed and data-driven plan lays out an aggressive approach to eliminate blight in Flint within 5-years by focusing on seven key activities for blight elimination. These include: demolition, code enforcement, waste removal, mowing, boarding, vacant lot reuse, and building rehabilitation and redevelopment.

As the five-year cost of removing blight in Flint is estimated at roughly $112 million, the Framework proposes collaborative blight elimination between residents, local government, institutions, community groups, and businesses and developers. It also recommends priorities and strategies for eliminating blight in Flint in alignment with the City's land use plan. A six-month engagement effort occurred after the draft framework was released, with staff hosting 16 gatherings attended by more than 500 individuals. Blight budgeting and mapping exercises were utilized to create highly interactive settings with participants.

Volunteering in the Community

The Master Plan understands the importance of establishing a sustainable, modern, and safe, multi-modal transportation network that efficiently provides for the needs of all people and businesses. Working towards this vision, plan implementation focused on trail construction and acquisition, complete street development, wayfinding and pedestrian improvements, and strategic coordination with the MTA.

10 Transportation & Mobility projects with an *estimated value of over* ***$1.4 million*** *and involving 6* neighborhood groups and community organizations have been initiated.

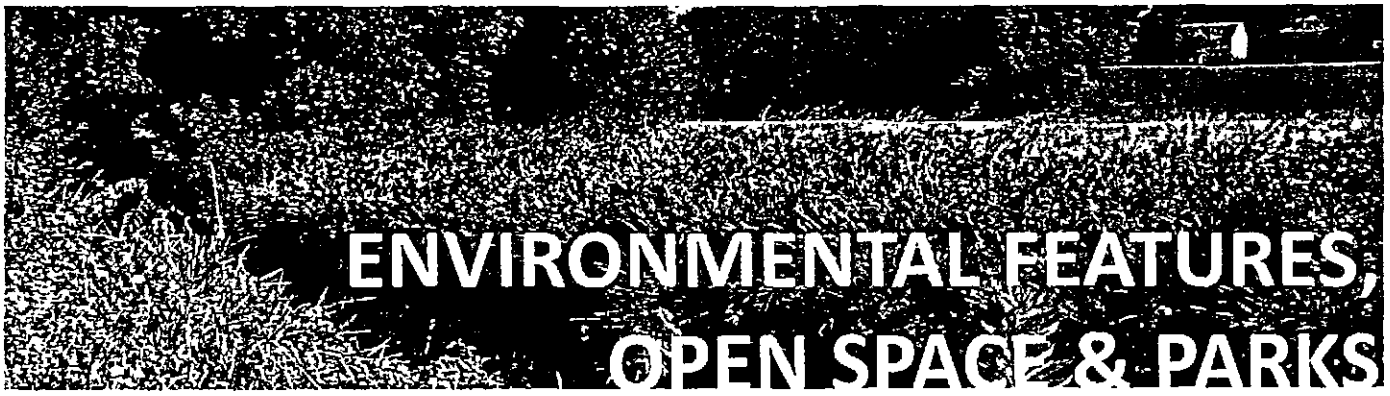
Project highlights include:

- Initiation of the City's first walkability audit carried out by the implementation task group
- Kick off on construction of the the Genesee Valley Trail including over $700,000 of MDOT and CDBG funding
- Design work for complete street conversion of Harrison and Saginaw Streets

Transportation & Mobility Spotlight:
Grand Traverse Greenway Trail Place Plans Initiative

The Greenway Trail is a 3-mile long former rail line that the City is working to acquire and convert to a non-motorized public trail through support from MDNR, MDOT, MSHDA and the Michigan Municipal League. The City and South Saginaw Task Force were awarded a Place Plan designation to guide a community-led design process. They also created a conceptual design that would provide a sense of connection between places along the trail, as well as support both recreational needs and safety interests. Over 70 different individuals were engaged through the multiple meetings and the Place Plan grant was matched through a $6,000 donation from Diplomat Pharmacy. In all an estimated $700,000 worth of investment has been contributed to the project.

Greenway Trail Community Event



ENVIRONMENTAL FEATURES, OPEN SPACE & PARKS

Plan implementation focused on establishing Flint as a proactive environmental leader with a clean, healthy, and equitable system of parks, waterways, and open spaces. To facilitate this goal, the newly formed Department of Planning & Development assumed the day-to-day responsibilities of parks maintenance, programming and improvements in July. With limited funding and staff resources, the new department formalized dozens of partnerships to help maintain and construct public improvements within Flint's network of parks and open space.

20 Environmental Features, Open Space & Park projects were kicked off representing an estimated value of over **$1.4 million** involving partnerships with **18** neighborhood groups and community organizations.

Project highlights include:

- The Max Brandon Eco-Park Initiative
- Park Management Agreements with Crim Fitness Foundation, Genesee County Parks and Recreation, and Genesee Conservation District
- Park stewardship initiatives such as the City Adopt-a-Park partnership with Keep Genesee County Beautiful and neighborhood-led park planning efforts in Brennan Park

Environmental Features & Parks Spotlight: Max Brandon Eco-Park Project

The Max Brandon Eco-Park Project is a 2-year initiative, generously funded through grants from GLAA-C and the Ruth Mott Foundation. As one of the first *Imagine Flint* implementation projects, this $87,500 initiative implements numerous strategies of the Master Plan, including the healthy maintenance of urban woodland, wetland expansion for storm water retention, and habitat restoration through the removal of invasive species and planting of native vegetation. As a collaborative, community based initiative, the Max Brandon Eco-Park project has involved the cooperation of 7 neighborhood groups and community organizations, including the Friends of Max Brandon Park, Salem Housing, Crim Fitness Foundation, Genesee Conservation District, and Genesee County Parks, and has involved the engagement of dozens of residents and community members.

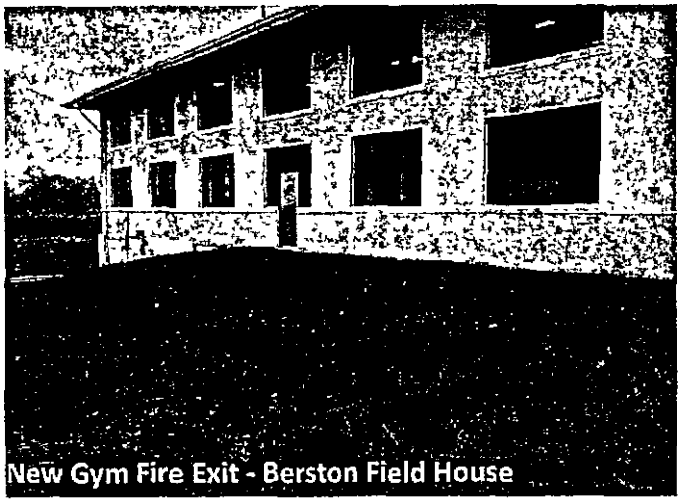
Max Brandon Park

Aging infrastructure coupled with years of deferred maintenance and a lack comprehensive capital improvement planning have further weakened Flint's utility system, adding to the high costs of water and sewer services. Recognizing that better capital improvement planning can improve the efficiency, reliability, and longevity of our infrastructure including water distribution, the Department of Planning & Development in concert with the Department of Public Works drafted the City's first comprehensive Capital Improvement Plan (CIP). This Plan is scheduled to be presented to the City Council by February 2015 for adoption.

In addition to the development of the CIP and approximately $16 million in City capital improvements, **18 Infrastructure & Community Facilities projects** were launched in 2014 with an estimated value of nearly **$200,000** and support of 6 neighborhood groups and community organizations.

Project highlights include:

- CDBG funding for programming and improvements at the Haskell Youth Center through the Flint Police Activities League (PAL) and Boys and Girls Club
- Formation of the non-profit organization Friends of Berston with over $100,000 in capital improvements to Berston Field House through CDBG funding
- Conversion of 50 sodium and mercury street lights into new, high-efficiency LED bulbs in the Central Park Neighborhood saving the City over $2,500 annually. *This is the first LED streetlight conversion that Consumer's Energy has ever installed.*



New Gym Fire Exit - Berston Field House

LED Streetlight in Flint

ECONOMIC DEVELOPMENT & EDUCATION

In 2014, the community strongly coalesced around the Objective #1, Strategy #1 in the Master Plan "re-instituting a sustainable form of community education through K-12, early learning centers, and community centers". As a result, the Mayor and Department of Planning & Development, several community-based organizations, and Flint parents and students committed to working with Flint Community Schools in piloting a community education program at the Brownell/Holmes STEM Academy.

Another education focus this year was literacy. The City contributed significant CDBG resources to Mott Community College for the establishment of the Flint & Genesee Literacy and Basic Skills Network. Through this network, dozens of community stakeholders are helping improve coordination and increasing resources for literacy.

The City has played a vital role in spurring economic development through business attraction, economic development incentives, and case management services. In 2014, the City supported the creation of more than 300 jobs and $850 Million in capital investment and collaborated with regional partners on the development of a Regional Prosperity Plan and Comprehensive Economic Development Strategy. The City has also begun an internal re-organization of its zoning, permitting, and licensing services resulting in better response times. In 2015, the Planning & Development Department will expand online licensing services, create a centralized business counter, and enhance case management services with the goal of receiving Michigan Economic Development Department (MEDC)'s "Redevelopment Ready" certification. **18 Economic Development & Education projects** have been undertaken with an estimated value of **$4.8 million.**

Project highlights include:

- Organization of a 21st Century Town Hall meeting on community education in partnership with Flint Community Schools with nearly 300 participants
- Award of a $2.6 million grant for reconstruction of two critical street segments around Buick City
- Ongoing collaboration with the Flint & Genesee Literacy Network and commitment of nearly $230,000 in CDBG funding for literacy programming
- Award of an EPA grant in the amount of $1.9 million for the construction of a vegetative cap over a brownfield known as Chevy-in-the-Hole

Under Construction - GM Paint Facility

PUBLIC SAFETY HEALTH & WELFARE

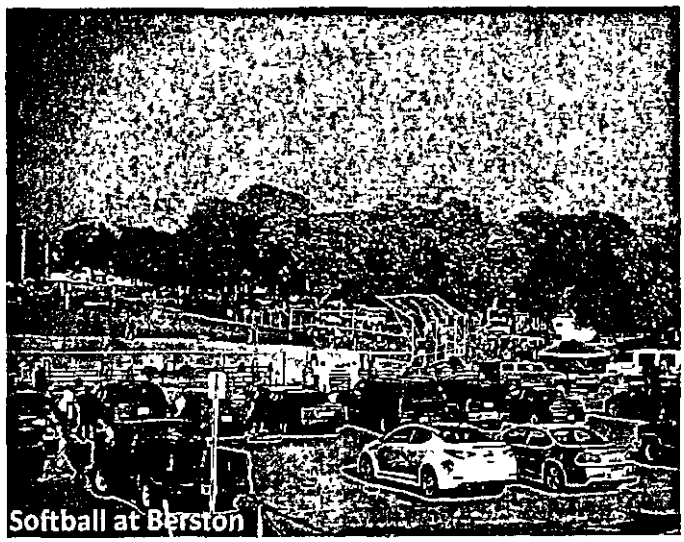
This year, the City has focused on improving efficiency of the Police and Fire Departments, particularly through advances in technology and community involvement. Upgrades to communication systems, better usage of data to target resources, and improved collaboration between law enforcement agencies have helped the City achieve significant reductions in violent crime and arson. For example, in 2014, the City achieved a 42% reduction in homicides from 2013. Moreover, the City has made tremendous strides in rebuilding trust between police and residents, resulting in additional community partnerships such as the newly established Citizens Radio Patrol. This improved community collaboration is generating more leads, more arrests, and solved cases.

Joy Tabernacle Members

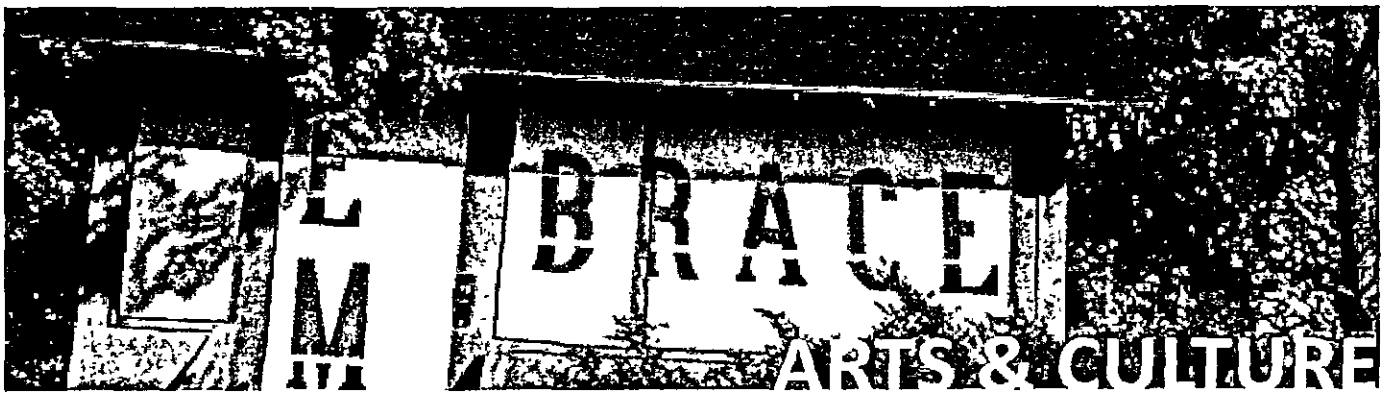
Currently, **26 Public Safety, Health & Welfare projects** have been initiated with an estimated value of over **$2.4 million.**

Project highlights include:

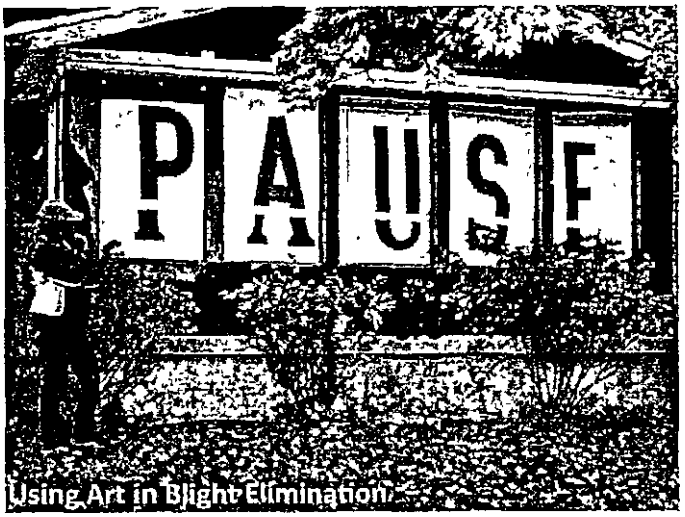
- Construction of a $1.4 million 911 dispatch and communications tower
- Launching of crimemapping.com software to provide easy access to crime data for residents and establishment of a new Citizens Radio Patrol Program
- Award of $1,000,000 from the Justice Department to Kettering University to address safety and crime in the University Avenue Corridor.



Softball at Berston



Over the course of 2014, numerous Flint art and cultural institutions have embraced the Master Plan, expanding offerings to Flint residents and providing free space for Master Plan meetings and events. Many of these institutions have also begun working with Flint Community Schools to reach out to more Flint youth and define their involvement in community based education. At this point it is hard to quantify the overall value of these contributions, but it is clearly in the hundreds of thousands.



Using Art in Blight Elimination

In addition to the related work of these larger arts and culture institution, **10 grassroots Arts & Culture projects** have been undertaken with an estimated value of over **$20,000**, involving the support of **2 neighborhood groups** and community organizations. The City has also partnered with **5 local arts & cultural organizations** to provide access to arts & cultural opportunities in City parks and community centers and provided significant input into the development of the Cultural Center Master Plan.

Project highlights include:

- Partnership with the Flint Public Art Project on the integration of public art within Master Plan subarea locations
- Expansion of more arts & cultural programming in the Neighborhood Center place type and within other neighborhood venues accessible to more residents
- Input in the development of the Cultural Center Master Plan to ensure alignment with the City's Master Plan

Subject: Revised: Volunteers needed for water resource teams in Flint
Reply-To: "MichStatePolice@govsubscriptions.michigan.gov" <MichStatePolice@govsubscriptions.michigan.gov>

Note: Dates are January 14 and January 15.

The department is soliciting volunteers from within the department, both enlisted and civilian, to join water resource teams working to hand out bottled water, water filters, replacement cartridges, and water testing kits at homes in the city of Flint. This effort is part of the state's response to the ongoing health and safety issues caused by lead in the city of Flint's drinking water.

Teams are being assembled for shifts on Thursday, January 14 and Friday, January 15. Volunteers will begin their assignment in Flint at 9 a.m. and end by 4 p.m. Volunteers can be available for one or both days. Lunch will be provided.

Employees chosen for this assignment are considered to be working on-duty; this assignment would be considered their scheduled work day. Overtime or compensatory time is not authorized for this assignment.

Transportation will be provided using state vehicles; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking

Interested employees should obtain the approval of their supervisor. **Supervisors must forward the names of approved volunteers and their email addresses through the chain of command to bureau with the date(s) available by 1 p.m. tomorrow, Wednesday, January 13.**

Confirmation of selected employees, along with additional logistical details, will be made via email by 5 p.m. on Wednesday, January 13.

For questions, please contact Insp. Scott Marier at 517-373-7761.

This email was sent to amoldr@michigan.gov using GovDelivery, on behalf of: Michigan State Police 333 S Grand Ave P O Box 30634 Lansing, MI 48933

Subject: Re: OHSP/Flint Water Volunteers

Sounds like a lot of trouble on their end.

They are provided with a very small amount of GF - I trust Mr Prince to utilize it properly/responsibly. There is no expectation that 100% is returned to MSP.

If they can contribute (your decision based on the resources available/committed) and feel that they are able to participate (budget / time concerns, Mr Prince's decision), I am fine with it. Just be clear participation is limited to regular work hours within their biweekly schedule (no ot, no comp).

Inspector Marier:

OHSP has five people from OHSP that have volunteered to go to Flint this week. Because they are paid with Federal NHTSA funds, we will be required to code them to our GF line which and this cost would come out of our GF surplus that is turned back to the agency at the end of the year. We just wanted to make you aware of this in case it determines who is approved for this effort.

Subject: URGENT - Records Request
Importance: High

The department has been directed to provide copies of all records in our possession related to the Flint water matter to the Governor's office. You are receiving this email because you have been identified as an individual who may have records that must be produced. If there are any department members who you think may be in possession of records related to Flint water, please forward this message to those members.

Records include memos, handwritten notes, emails and attachments, and text messages in your possession, regardless of who produced the record. Be sure when you search your email messages that you look in your inbox, sent box, and trash. In preparation for the production, you must estimate the number of records you have in your possession and provide that estimate to Ms. Lori Hinkley no later than **2:00 PM on Friday, February 12, 2016.**

You must then provide a copy of each record in your possession to the Legislative and Legal Resources Section no later than close of business on **Thursday, February 18, 2016.**

Members who work at Headquarters must provide paper copies to F/Lt. Chris Hawkins in the Office of the Director. Members who work at the State Secondary Complex must provide a paper copies Ms. Lori Hinkley. Ms. Hinkley is located on the second floor of the new Headquarters building. Department members who work outside of these worksites may send copies of records in their possession via e-mail to MSP-FOIAProject@michigan.gov.

In addition to this initial production of records, the department is required to provide copies of newly created records on an ongoing basis. Until further notice, copies of all newly created records shall be forwarded to MSP-FOIAProject@michigan.gov.

REMINDER: Public records can only be disposed of consistent with an approved retention schedule. As it applies to emails and text messages related to the Flint water matter, please use the retention schedule in place for general correspondence which is **two years.** Please save all emails and text messages for at least two years. Prior to expiration of the two year period you will have an opportunity to re-evaluate the content of the messages to determine if an additional retention period is necessary. If you have issues with accommodating emails based on your mailbox size, please archive them. Do not print and file them as the metadata must be retained as well.

If you have any questions with these instructions, please contact Ms. Lori Hinkley.

Hello, Everyone.

I am following up to the email that Penny Burger, State Emergency Operations Center sent informing you that the Office of Internal Audit would be contacting you to discuss your department's expenditures related to the City of Flint Water Emergency. We have reviewed the worksheets that you submitted to Penny which summarizes the total expenditures to date. We will use these worksheets as a starting point for reviewing the Flint Water expenditures recorded in MAIN. We be contacting each of you to make arrangements for us to meet and obtain a description of purchases or services you incurred and the MAIN coding used to record the expenditures.

Our objective is to ensure that all agencies are consistent in tracking, monitoring and maintaining sufficient documentation for the Flint Water expenditures.

Carol O'Callaghan, Audit Specialist or myself, will be contacting you this week or early next week. If you have any questions or concerns you may email us or please feel free to contact me at (517) 285-8041 or Carol at (810) 348-4591.

Thank you,

Daphne Hobson

The intent of the letter is for all agencies impacted by PA3 to submit to the SBO the 20 appropriation mock up for "Flint Declaration of Emergency" using the 88500 code. We still need agency and SBO sign-off to put it in the system. As soon as I receive it, I'll get it in. Has the EBA request been submitted?

Subject:	Assistance to the City of Flint
Importance:	High

Good afternoon all,

PCA 28670 has been established to track the OT worked assisting with the City of Flint with the water contamination. Please continue to use Project # FLTWAT and Phase 16 to track non-OT hours to that are spent assisting with this issue, as this will help us when asked the overall impact of assisting the City of Flint.

If for some reason you run into an issue where meals, lodging, supplies, etc. are necessary for this assistance, please contact me so that I can make a decision on how to handle that cost.

Please let me know if you have any questions.

Thanks,
Dave

Subject: Flint Disaster $$ Tracking

Ryan,

Currently our finance staff at EMHSD is tracking everything the departments are doing – at least, everything we're being told - in support of the Flint response effort, with the exception of regular staff time, as that is not reimbursable under federal or state disaster assistance. Items tracked include:

- Overtime (and related benefits) for MSP and other state agencies.
    - This specifically includes DTMB truck drivers, National Guard troops, DHHS specialists (toxicologists, epidemiologists, health educators)
    - They haven't gotten figures yet from DOC, who have recently come on board with the water distribution efforts.
- Water resources purchases (bottled water, testing kits, filters/cartridges, etc). Where purchases are to be reimbursed, such as water purchased from Wal-Mart and reimbursed by the Wal-Mart foundation, they track those as well.
- They're working with FEMA on tracking donations.
- Travel costs (meals, lodging, vehicles/fuel)
- Water distribution costs (warehouse rental and security, rental trucks, dumpster, etc)
- A range of miscellaneous items (mostly DTMB): reflective vests and poncos for volunteers, I-pads etc, box cutters and shrink wrap.
- Outside responders (GenCo Health Dept and blood level testing investigators).

Departments are working through their emergency management coordinators (in the SEOC) to provide EMHSD with a single point of contact for financial matters. They're working to establish a weekly update schedule (on Monday afternoons) to keep EMHSD apprised of the costs.

Let me know if you need anything else,

Here is what I am working on right now. Still info to verify and some adjustments to be made to water purchases, so it's not final. You make some changes and drop out information as you'd like. Probably would be best not to give SBO any numbers before they are finalized and run up to command.

Subject: RE: SBO Question on Flint $$

Hi Mark:

Even though the legislature divided the supplemental for Flint up to various state agencies, I am still working with each state agency to gather their costs related to the Flint water emergency. The state agency Emergency Management Coordinators have provided me with a financial point of contact for their agency.

The only item that really isn't being tracked at this time is staff regular time, and that is because regular time isn't eligible for reimbursement under federal or state disaster assistance so I don't track it. But anything else is being tracked – overtime with related benefits, water resource purchases, travel costs for field staff, fuel and vehicle costs, blood lead level testing over the baseline – anything that is directly related to this emergency by any state agency. I am trying to get the state agencies on a weekly schedule for sending in updated information with a target of Monday by 4:00 pm for them to submit a report. As you know, we can only get actual payroll costs bi-weekly and non-payroll costs once they have made their way through MAIN. So I get a lot of estimated amounts that I replace with actuals once they are available.

So I am still getting all related costs because Captain Kelenske and the Governor's office want that information at all times, and it is our role. Hope this answers your questions.

Thanks,
Penny

Subject: SBO Question on Flint $$

Hi Penny,

We received a question from the State Budget Office on tracking expenditures related to the Flint emergency.

They're working with the Legislature to develop some sort of regular report tracking what's been expended across all state departments.

Their specific questions are what are we currently tracking, from which departments, and why? (What do we track for match purposes?) What aren't you tracking?

I indicated to him that normally much of the activities would have gone through EMHSD (water distribution supplies, etc) with us providing reimbursement. But with the supplemental, expenditures are going to be much more diffuse.

Thanks,

Team-

Attached is the current draft of the Flint supplemental and summary spreadsheet. The plan is to transmit the supplemental at 10:00am tomorrow(following the Leadership mtg). We may have a couple of minor wording edits in the morning but I do not expect the numbers to change.

Please do not forward until we have the final version. Let me know if you have any questions.

Thanks,

John

Subject: Campus Water Update: Federal Emergency Declared in Flint

Dear Campus Community:

President Barack Obama today declared a federal emergency in Flint in response to the ongoing water crisis. The University will examine in detail what that means to our campus and our community, but I wanted to make sure you were aware of the most recent development. The university will continue ongoing tests to ensure water quality and will maintain water filters installed over the last year on water fountains, break room faucets, water refill stations, and food prep sinks throughout campus — including, but not limited to, University Pavilion vendors, the Early Childhood Development Center, First Street Residence Hall and Riverfront Residence Hall.

We also will continue to keep you up-to-date on information and invite you to find out more at the Campus Water Information webpage, which is available at umflint.edu<http://www.umflint.edu/>.

Sincerely,

Susan E. Borrego, Ph.D.

Does the Flint water matter qualify as a "emergency" under the emergency management act?

If so, it would appear that your boilerplate Section 703(7) is an automatic appropriation:

(7) In addition to the funds appropriated in part 1, there is appropriated from the disaster and emergency contingency fund an amount necessary to cover costs related to any disaster or emergency as defined in the emergency management act, 1976 PA 390, MCL 30.401 to 30.421. Funds shall be expended as provided under sections 18 and 19 of the emergency management act, 1976 PA 390, MCL 30.418 and 30.419, and R 30.51 to R 30.61 of the Michigan administrative code.

Good morning Shawn,

The $200K submitted by DMVA for the National Guard is a duplicate and should come off the list you provided yesterday. The financial folks at DMVA are supposed to remove the $200K request.

I confirmed the $303K amount DMVA provided us and that is the correct amount we are supposed to use. That amount increased a little as they added 2 additional troops to total 35 now. The addition is included in our request.

We added the Project Pay, FSB overtime, and the Flint Interagency Advisory Committee to our supplemental projection.

Revised projected supplemental request is attached. Please let me know if you have any questions.

Thank you,
Nancy

To: Sible, Shawn (MSP)
Cc: Sands, Thomas (MSP); Shaw, Jim (MSP)
Subject: Flint Water Crisis - FSB Response

Good morning Shawn,

I met this morning with FSB to prepare a Budget to provide assistance to the City of Flint. Based on our discussion, FSB would be requesting the following:

Budget per Pay Period:
Lieutenant OT - $16,760 (1 Lieutenant x 6 days per week x 12 OT hours per day)
Trooper OT - $72,565 (5 Troopers x 6 days per week x 12 OT hours per day)
Mileage - $2,275 (Mileage - 1 admin. vehicle driving 10 miles per day & 5 patrol vehicles driving 80 miles per day)
Total - $91,600

We went with a per pay period Budget since we don't know if our commitment will be a few weeks, 3 months, or until the end of the fiscal year? This allows that decision to be made and then the Budget to be finalized.

Please let me know if you have any further questions.

Thanks,
Dave

Subject: Volunteers needed for water resource teams in Flint

From The Desk Of | Col. Kriste Kibbey Etue
Providing Service With A Purpose

The department is soliciting volunteers from within the department, both enlisted and civilian, to join water resource teams working to hand out bottled water, water filters, replacement cartridges, and water testing kits at homes in the city of Flint. This effort is part of the state's response to the ongoing health and safety issues caused by lead in the city of Flint's drinking water.

Volunteers will begin their assignment in Flint at 9 a.m. and end by 4 p.m. Volunteers can be available for one or both days. Lunch will be provided.

Employees chosen for this assignment are considered to be working on-duty; this assignment would be considered their scheduled work day. Overtime or compensatory time is not authorized for this assignment.

Transportation will be provided using state vehicles; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

Interested employees should obtain the approval of their supervisor. **Supervisors must forward the names of approved volunteers and their email addresses through the chain of command to bureau with the date(s) available by 1p.m. tomorrow, Wednesday, January 13.**

Confirmation of selected employees, along with additional logistical details, will be made via email by 5 p.m. on Wednesday, January 13.

For questions, please contact Insp. Scott Marier at 517-373-7761.

This email was sent to elsulaymanh@michigan.gov using GovDelivery, on behalf of: Michigan State Police · 333 S. Grand Ave · P.O. Box 30634 · Lansing, MI 48933

State launches information center for Flint following emergency declaration
MLive
By: Amanda Emery
1.6.16

FLINT, MI -- The state has launched its Joint Information Center to coordinate public information from the State of Emergency Operations Center.

The emergency operations center was activated after Governor Rick Snyder declared a state of emergency for Genesee County on Tuesday, Jan. 5.

The information center is set up to help with health and safety issues caused by lead in Flint's drinking water, according to a news release from the state of Michigan.

The emergency declaration makes available all state resources in cooperation with local response and recovery operations.

The Joint Information Center will serve as the state's central communications hub for the state of emergency, according to the release. It is staffed by public information officers from several state agencies. The hours of operations will be 9 a.m. until 5 p.m. Monday thru Friday, until further notice.

The center is operating out of the Michigan State Police Emergency Management and Homeland Security Division in Lansing, according to the release. State officials are working to move the center to Flint to better partner and coordinate with local agencies.

Public information and updates that include resources for residents, how to obtain free water filters, and lead testing will be made available at www.michigan.gov/FlintWater.

> I'm trying to get an idea of the reimbursement process for DTMB as it relates to the Flint disaster. We are incurring and tracking costs for vehicles, fuel, purchase of iPads, delivery services, warehousing, etc. Will this be reimbursed through MSP or need to be provided at some point for a piece of a supplemental? I'm not concerned about a reimbursement at this point (as we are pooling the costs on the non-appropriated side) but wanted to be able to provide information to senior management and to provide direction for the various programs providing the support. No big rush just want to make sure I'm doing things properly. Thanks.

Flint Water Emergency Response
General Talking Points

NOT INTENDED TO BE DISSEMINATED TO THE MEDIA OR PUBLIC IN THIS FORMAT

Background

- On January 16, President Obama approved Governor Snyder's request for a federal emergency in Flint. This action will provide emergency relief in the form of bottled water, water filters, filter replacements, and water test kits. The period of assistance is up to 90 days.
    - Governor Snyder had also requested a major disaster declaration, which the President denied based on the legal requirement that under the Stafford Act disaster relief is available only for natural events, fires, floods, or explosions. The state is reviewing the process for appealing the disaster declaration denial.
- The State Emergency Operations Center in Lansing has been activated since January 5 and continues to be staffed seven days a week by members of state agencies and other partners to coordinate the state's response.

Current Status/Update

- The state continues to bring all state resources to bear to protect public health and safety. One of our most important messages and priorities continues to be making sure residents are aware of the information and free resources available to them, which include bottled water, water filters, replacement cartridges, water test kits.
- The one-stop shop for finding all these resources is by visiting www.michigan.gov/FlintWater or calling 2-1-1.
- Including today's anticipated activity, water response teams, who are going door-to-door, have distributed resources to nearly 7,000 Flint homes providing residents with free bottled water, filters, replacement cartridges, and water testing kits.

- More than 12,000 homes have been visited by the water response teams, which are a collaborative effort comprised of local and state personnel, American Red Cross personnel, and volunteers.

- The Michigan National Guard has been activated to assist with distribution efforts at the five water resource sites at fire stations in the city. Starting tomorrow, the number of National Guard members will be further increased to approximately 70 National Guard members handing out resources at the fire stations in the city.

- From January 9 - 16, the following resources have been distributed to residents, both at the water resource sites and by the water response teams:

    - Nearly 20,900 cases of water
    - Nearly 48,000 water filters
    - More than 3,300 water testing kits

- To help enhance the water testing process, Flint residents can now drop-off water samples to the five water resource sites at fire stations. Samples will only be accepted by using the official water testing kits provided at the water resource sites and by the water response teams.

- Water resource sites are open daily from 9 a.m. to 9 p.m. and are located at:

    Fire Station #1
    310 East 5th St.
    Flint, MI 48502

    Fire Station #3
    1525 Martin Luther King Ave.
    Flint, MI 48503

    Fire Station #5
    3402 Western Road
    Flint, MI 48506

    Fire Station #6
    716 West Pierson Road
    Flint, MI 48505

    Fire Station #8
    202 East Atherton Road
    Flint, MI 48507

Filters

- When used properly water filters remove 99% of lead in water. Residents are urged to use filtered water for drinking, food preparation, brushing teeth, and watering pets. Unfiltered water may be used for bathing and cleaning.

- One filter and one replacement cartridge are being provided per household initially. Each filter is good for approximately 100 gallons of water. The filter has an indicator on it that will turn from green to red when it needs to be replaced.

- The filters do have a five-year, non-replaceable battery that operates the indicator light.

- There is a detailed video posted on www.michigan.gov/flintwater that explains how to properly install a water filter cartridge.

Resources for homebound individuals

- 2-1-1 is collecting a list of individuals needing home delivery of water resources and is providing that information to the Genesee County Sheriff's Department, who is making these deliveries.

- The Plumbers and Pipefitters Union has agreed to provide free water filter installation to homebound residents needing assistance. This is being coordinated through 2-1-1.

Outside Support Efforts – Volunteers and Donations

- There has been great cooperation on the ground in Flint by many local agencies, from the city and county to churches and public, private, and non-profit groups to help with this effort.

- The American Red Cross, United Way, 2-1-1, and many other organizations have assisted with water resource distribution efforts and the donations management process.

- Volunteers and donations are being coordinated through 2-1-1, in cooperation with the American Red Cross. Persons/organizations wishing to donate 100 cases of water or less can be taken to the American Red Cross located at 1401 S. Grand Traverse in Flint.

- Volunteers can also report to the American Red Cross for processing.

President Obama Signs Emergency Declaration for Michigan

01/16/2016 04:40 PM EST

WASHINGTON, D.C. -- The U.S. Department of Homeland Security's Federal Emergency Management Agency (FEMA) announced that federal emergency aid has been made available to the State of Michigan to supplement state and local

response efforts in the area affected by contaminated water beginning on April 25, 2014, and continuing.

It looks like you are correct that the $3.8 M Disaster and Emergency Contingency Fund plus the $100K for the advisory committee would cover our estimated SEOC costs – less water, filters and DMVA – through March. As far as DMVA, the number of troops that will be working in Flint increased today from 35 to 58, so that will short their mission significantly.

I am a little concerned about the $6.275 for water, filters and replacement cartridges; I just saw an order for cartridges, filters and water go out for $1.9 M through DHHS this afternoon. I'll have to take a look at the orders that have gone out since the SEOC was activated to see what kind of costs we are looking at that were not funded with DHHS supplemental from October.

On the bright side, if we end up with a Presidential declaration, we would be turning the water over to FEMA and I believe the National Guard as well. And if we end up with federal funds, we have a lot of volunteers that we could turn into match for the 25% requirement.

I have discussed with Captain Kelenske so he is aware. Please let me know how I can assist with any of this.

Thanks,
Penny

Please find attached the tentative emergency supplemental request for Flint. This supplemental request will be submitted to the Legislature early next week. It is intended to cover emergency items only. Other supplemental items (or augmentations to these items) may be submitted at a later date or as part of the FY17 budget request.

Please review the items for your agency. Let us know as soon as possible (preferably by 1:00 p.m. tomorrow) if you identify problems or omissions where you must have immediate new funding.

We will be in this week-end and will be checking e-mail and voice mail messages. Feel free to call me directly or call your appropriate office director.

Thanks for your help in identifying potential needs and in a quick response to this message.

Nancy Duncan
Deputy State Budget Director

Subject: City of Flint supplemental meeting follow up
Importance: High

Good morning Shawn,

The $200K submitted by DMVA for the National Guard is a duplicate and should come off the list you provided yesterday. The financial folks at DMVA are supposed to remove the $200K request.

I confirmed the $303K amount DMVA provided us and that is the correct amount we are supposed to use. That amount increased a little as they added 2 additional troops to total 35 now. The addition is included in our request.

We added the Project Pay, FSB overtime, and the Flint Interagency Advisory Committee to our supplemental projection.

Revised projected supplemental request is attached. Please let me know if you have any questions.

Thank you,
Nancy

City of Flint – Water Contamination/Shortage

Supplemental Projection Assumptions

- Average Daily need for Drinking and Cooking is two gallons per person
- Household and Business Count is based on those connected to City Water Utility
- Average number of persons per household is 3
- Average number of persons per business/non-profit is estimated at 10
- Replacement Cartridge Life is 100 gallons which is 16 days for household or 2 per month
- Initial Faucet filter count was for one per household
- Additional Filters and Cartridges will be needed if decision is made to provide for additional faucets
- Overtime estimate is based on operational hours of 8AM to 8PM seven days a week for staff in the SEOC and JIC/local EOC

EXPLANATION: Per Article XVI, Sec.703(7), 2015 PA 84, the department is requesting authorization support the state's costs in response to the governor-declared State of Emergency within the City of Flint. Section 18 of the Emergency Management Act (MCL 30.418) provides that the DECF may be used, upon appropriation, for necessary and reasonable overtime, travel, and subsistence expenses incurred by an employee of a state agency in response to an disaster or emergency and, with concurrence by the governor, for other needs required for the mitigation of the the effects of, or in response to, a disaster or emergency. The DECF may be credited with any funds from the federal goverment or other source providing reimbursement for expenditures from the fund.

Boilerplate Appropriation Authority

Sec 703(7) In addition to the funds appropriated in part 1, there is appropriated from the disaster and emergency contingency fund an amount necessary to cover costs related to any disaster or emergency as defined in the emergency management act, 1976 PA 390, MCL 30.401 to 30.421. Funds shall be expended as provided under sections 18 and 19 of the emergency management act, 1976 PA 390, MCL 30 418 and 30.419, and R 30 51 to R 30 61 of the Michigan administrative code.

Sec. 703(8) Funds in the disaster and emergency contingency fund shall not be expended unless the state budget director approves the expenditure and the department and the state budget office notify the senate and house appropriations committees

Nancy Downs

City of Flint – Water Contamination/Shortage

Assumptions

- Replacement Cartridges one every two weeks per household
- Average Daily need for Drinking and Cooking is two gallons per person
- Household and Business Count is based on those connected to City Water Utility
- Average number of person per household is 3
- Average number of persons per business/non-profit is estimated
- Replacement Cartridge Life is 100 gallons which is 16 days for household or 2 per month

City of Flint - Water Contamination/Shortage

Good evening Mr. Sible

Kevin and Nancy pulled together some information to explain the numbers in the spreadsheet, which is attached.

Please let us know if you have any questions or would like to discuss further.

Thanks
Penny

Subject: Supplemental

I've attached the most current version of the State Emergency Operations Center estimate of spending by month for the balance of the fiscal year. We are using these numbers, plus input from other affected agencies and local partners, to help craft the supplemental request which should be coming over tomorrow. Obviously, all numbers are very fluid and expenditures will change based on the regular re-assessment of need.

Shawn Sible at MSP is available to help explain the assumptions behind the numbers on the spreadsheet if needed.

Nancy Duncan
Deputy State Budget Director
517-373-0870

City of Flint – Water Contamination/Shortage

Supplemental Projection Assumptions

- Average Daily need for Drinking and Cooking is two gallons per person
- Household and Business Count is based on those connected to City Water Utility
- Average number of persons per household is 3
- Average number of persons per business/non-profit is estimated at 10
- Replacement Cartridge Life is 100 gallons which is 16 days for household or 2 per month
- Initial Faucet filter count was for one per household
- Additional Filters and Cartridges will be needed if decision is made to provide for additional faucets
- Overtime estimate is based on operational hours of 8AM to 8PM seven days a week for staff in the SEOC and JIC/local EOC

Quick technical question. Can you tell me where within your appropriations bill we should insert the $100,000 line item for the Flint Water Interagency Coordination Committee in the FY16 supplemental?

The Budget Director is looking at allocating these resources to the SEOC and having them hold for contingency purposes. He will run this by the Executive later and we will apprize accordingly of his direction.

Subject: FW: Disaster Contingency Fund

Attached is an EBA for the DECF using the entire balance. (The appn is rounded up to allow the fund to be fully expended.)

From your questions to Shawn – this would be an "emergency" for which expenditures from the DECF are an appropriate use in support of the state's response to the Flint issue. The statutory definition of an "emergency" is an occasion in which the governor determines state assistance is needed to supplement local efforts and capabilities to save lives, protect property, and the public health and safety, etc. The situation was declared to be an "emergency" by the Governor on 1/5/16.

The Emergency Management Act (MCL 30.418) opens the DECF for expenditure for state agencies in mitigating the effects of, or responding to a disaster or emergency. The act also provides that the fund may be reimbursed for its expenditures by the federal government or another source.

MCL 30.419 opens the DECF for expenditure for direct assistance to local units when federal assistance is not available (i.e. no presidential declaration). Assistance is capped at $100,000.

Thanks,

Mark

Attachments: Copy of Flint Water Supplemental Request 1-15-2016.xlsx

Modified Nancy's chart to break out expends among water distribution/DMVA/MSP, showing expends through March and the rest of the year.

Based on that, the MSP/SEOC costs would be just under $3.8 million through March.

Let me know if you need anything else.

Thanks,

Mark

All,

In continuing State of Emergency water filter distribution operations in the City of Flint, you have been tasked to support security operations tomorrow for MSP volunteers, Thursday January 14, 2016. Please ensure those under your command have been notified about their report time and location. Below is operational assembly information that is critical for you to read as this is very short notice :

MISSION:
Providing water filter escort/traffic control/security for 60+ MSP volunteers (broken into 3 distribution teams) who will be distributing water filters door to door tomorrow in the City of Flint. This mission is being sustained in coordinated support with deputies from the Genesee County Sheriff's Office, who are also supplying marked patrol units.

TIME:

LOCATION:

PARKING:

NOTABLE EQUIPMENT REQUIREMENTS:

RADIO CHANNELS:

MEALS:
Lunch will be provided at noon at the EOC

GROUND OPERATION OIC(s):
Tpr. Rick Jones – Security Group One (3582)
Sgt. Duane Zook (3512)

EOC SITE SAFETY OFFICER:
Lt. Amy Dehner (3504)

OTHER INFORMATION:
This is a high-visibility event for the public and media as well. Please expect members of Executive Council to attend and participate, and/or possibly want to ride along with you in your patrol car.

SECURITY GROUP ONE:

Tpr. Gooch (3573)
Tpr. Poyhonen (3528)
Tpr. Lutz (3578)
Tpr. Easlick (3581)
Tpr. Cairnduff (3045)
Tpr. Stickel (3042)
Tpr. Kramer (3548)
Tpr. Brown (3546)

SECURITY GROUP TWO:
Tpr. Martin (3044)
Tpr. Hessling (3043)
Tpr. Dhooge (3513)
Tpr. Hutchinson (3574)
Tpr. Swales (3350)
Tpr. Richter (3535)
Tpr. Faucette (3529)

Any questions regarding the information contained in this email can be directed to me via cellphone at 989-225-3487.

Third District Commanders

As a heads up I ask you to review this information, make a phone call to F/Lt. Kish or Lt. Dehner, and make arraignments (You and/or a Sgt.) to visit the EOC – Flint. As this effort continues and possibly ramps up, you, your staff, and your troops will be called on for support. The request and direction for troopers will come as soon as we have information they will be needed, and will include details such as DCDS codes and reporting plans.

As a F/Lt. or Lt. you may be specifically assigned as the Water Response Team Commander for all team operations. To prepare, please make every effort to visit the EOC and discuss duties with the on-site commander.

It is my plan to keep Lt. Dehner as a consistent presence / commander in the EOC, but you can be assigned to be part of that team. The following information is for your review and I will keep you advised as information is available.

Current Duties:

- EOC Safety Officer – Sgt.
- Water Response Team Commander for all team operations – F/Lt – Lt. and or assistant.
  - Coordinate and manage Water Response Team structure. This includes Street Sgts.
  - Coordinate and manage Water Response Team resources.
  - Coordinate walking routes with concentration in the most hazardous lead level areas.
  - Coordinate logistics for Water Response Teams.
  - Coordinate iPad distribution and tracking.
  - Coordinate and integrate with state, county, and local personnel as well as volunteers assigned to work on Water Response Teams.
  - Coordinate and manage team security with MSP and County personnel.
  -
  - Coordinate with Sheriff's department resources.
  - Staff each team with the appropriate number of MSP enlisted personnel for security purposes.
  - Provide a daily report of all activities to include best practices and issues or concerns.

In addition there is a 9:30 am and 4:30 pm SEOC briefing via conference call as well as any other conference calls necessary to complete the above mission.

TROOPER MISSION:
Providing water filter escort/traffic control/security for 60+ MSP volunteers (broken into 3 distribution teams) who will be distributing water filters door to door tomorrow in the City of Flint. This mission is being sustained in coordinated support with deputies from the Genesee County Sheriff's Office, who are also supplying marked patrol units.

TIME:

LOCATION:

PARKING:

RADIO CHANNELS:

MEALS:
Lunch will be provided at noon

Please call with any questions and advise me by e-mail if you were able to make a site visit.

Lieutenants,

After meeting with the NG and consulting with the SEOC the reporting hours for your troopers have again been modified to an earlier start and end time. Please make the adjustment and notify your people. Again, we appreciate your flexibility with this fluid situation. As you can imagine, it is difficult to anticipate all of the changes when we have this many players in the game.

All,

We need to sustain (and slightly add) to our current trooper strength now through . Some end-game discussions have already begun. I am requesting the continued use of troopers from Lapeer , Tri-City , and Caro . You'll see that I am asking for I from Lapeer and Tri-City to support the expected National Guard soldiers arriving. Again, our mission is one of security to the water team deliveries. The hours have changed and will be each day. Reporting location

Thank you for your contributions to this critical MSP effort. Call myself or Lt. Dehner with questions.

Good morning Larry,

Apparently I need to be in uniform (or it is preferred I'm in uniform) when assigned to the EOC in Flint for the Flint Water Detail assignments. As a D/F/Lt I was not issued a hat badge per Official Order which makes it difficult to be in full uniform! What, if anything, can I do to get a hat badge issued? Would a memo work explaining the need and would that have to come from Capt or could I submit it?

Thank you,

Ryan

Subject: Questions

Anybody on your team willing to work Flint Water Detail on their days off? I need to provide a number of additional Tprs HST could provide for 12hr shifts, starting this Wed, but it is for OT only right now and has to be on pass days.

Also, I need the serial number for the in-car camera in car 3042. I need to verify the tag # to if it is marked (I'm not sure it will be though; haven't seen that in the past?). Apparently that camera was paid for with funding that requires me to verify it is still installed and working!?

Subject: RE: Troopers for water delivery in Flint

HST could provid bodies Sat, Sun and Mon. They are working Tue-Fri this week and have no other pass days.

For the long term, they have random OT on the weekends but could still provide bodies each weekend if needed. They also have either Fri or Mon off each week but typically schedule OT on one of those pass days. If we need the extra bodies, we could cancel their scheduled OT until this water detail is over and that would allow either Fri-Sun or Sat-Mon of each week with HST being available.

Commanders,

I'm trying to gauge our ability to increase trooper strength by another This is already in addition to the troopers you are supplying now.

How many additional off duty troopers could you muster for 12 hour shifts in Flint? Pass along what you think you might realistically be able to send - starting Wednesday morning.

NOT PUBLIC KNOWLEDGE.

Send me a response by noon tomorrow

I am requesting the continued use of troopers from Lapeer , Tri-City and Caro (1). You'll see that I am asking for one additional from Lapeer and Tri-City to support the expected National Guard soldiers arriving. Again, our mission is one of security to the water team deliveries. The hours have changed and will be each day. Reporting location

Lencia,

We need to provide coverage to the SEOC through Saturday, the 30th of January. Please check the schedule and look for double coverages to include when Sgt. McKee is working that he might be able to cover the Ops Desk, providing that there is sufficient coverage at the watch desk.

Lt. Johnson, if your available any dates next week, please coordinate those dates to Lt. Jones.

Thank you both!

Subject: Flint Water MSP SEOC Schedule (1-14 thru 2-6-16)

To all,

The SEOC staffing needs are being extended for another week 1-31-16 thru 2-6-16. The operational hours will remain 8:00 a.m. to 8:00 p.m. I have attached a new schedule with open shifts highlighted in yellow. Please advise what shifts you are available to work by either sending an email to Lt. Valencia Jones (Scheduling Lieutenant) or by signing up on the sheet at the Ops Desk.

The MICIMS incident is 2015-10-01-City of Flint-Water Contamination/Shortage Make sure you are logging into MICIMS in the role of SEOC OPS Public Safety MSP

Our assignment at the SEOC is dual at this time.

1) We are in the Ops Section as the Public Safety Coordinator
2) We are also serving as the Safety Officer for the SEOC

We would like to first schedule lieutenants that may be doubled up on a shift. However, if overtime is used to fill a shift please use the following coding:

Index 28900 with PCA 28670

Thank you,

Spl/Lt. Mardella Horhn

Flint, Michigan 48503

RE: Flint Water Crisis / MSD
MSD Campus, Flint, MI

Dear Mark,

Please consider this as an update regarding the most recent information regarding the Flint Water Crisis and our continued efforts to ensure that the water made available to all students is as safe as possible given this community wide crisis. Per our understanding the State of Michigan Department of Education through the administration at the Michigan School for the Deaf took the initiative to test the school for lead when the city wide issue was discovered in the fall 2015. At which time the school building tested negative. However as a precaution the school advised students and staff to cease using the water for drinking and made water coolers available in all areas of the building. As concerned Landlords of the property we observed announcements from the State calling for funds to replace old faucets in public school buildings. Since the dormitory was constructed by the State in the 50's Lurvey White felt compelled that some of the older faucets might contain lead and may need to be replaced. As a precautionary measure we took the initiative to test the water for which a test came back positive for containing lead on January 15, 2016. All other testing has provided no trace of lead at both the Michigan School for The Deaf school building, as well as Powers Catholic High School. Both schools share the same campus wide water loop.

In recent weeks, the State DEQ, The City of Flint, and most recently an UM-Flint Symposium regarding safe levels for ingestion of lead, as well as equations that support leaching have publicized varying information. The underlying theme to the information provided is that the most prevalent circumstances for exposure to lead, over the DEQ's accepted levels, are water systems which have lead service lines, older faucets which are more likely to have a lead content and lead solder connections.

Prior to 2012, the State operated the dormitory since it's occupancy in the early 1950's. Although we don't have specific knowledge of upgrades throughout the years, no lead service lines are evident in the building. The water supply lines, and branch lines are copper and look to have been replaced at some point in its history. We do not know the age of the faucets and/or the older dated fountains.

The unknown composition of the faucets is a concern that we feel we need to address in a proactive and swift manner to ensure that no lead exposure occurs at that point of use. **We will be working around the clock this coming weekend, January 23, and January 24, to replace all (62) faucets located in the dormitory building**. **Additionally, the following weekend, we plan to install (3) new watering stations at specific locations designated throughout the dormitory. These stations will**

LURVEYWHITEVENTURES

have point of use filtering for lead, particulates, odor and microbial. A bottle filling station to assist with bottled water for the dormitory students is also included. I have attached specifications for your records.

Additionally, we plan to follow these installations with lead tests but understand that the school and DEQ will be the primary parties responsible for ongoing lead testing in the facility. It is our hope that the replacement will result in Lead free tests in the building. However we believe that it is important the school continue to follow all precautionary measures that the government has outlined until such advisements change.

We feel that rather than wait for potential outside assistance, we cannot delay taking action. The safety of the students is paramount to any other scenarios which may arise out of the Flint Water Crisis.

Please feel free to contact me directly with any questions or further concern.

Very truly,

David W. Lurvey
Partner

Flint Water Lead Project

Michigan Department of Health and Human Services
Situation Report for January 5, 2016

Governor Snyder declares a state of emergency for Genesee County due to the health and safety issues related to lead in city of Flint drinking water.

****NOTE: Contains potentially Identifiable Information- REDACT AS INDICATED****
New items for the day listed first and in bold print.

Daily Briefing and Situation Report prepared by Linda Dykema

Surveillance Indicators: People Tested 10/1/2015 to 12/18/2015: 2,182;
Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: 23
Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: 7
Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: 13
Severity Indicators: Hospitalized/Discharged-1/1; Deaths- 0

DAILY ACTIVITY SUMMARY

Elevated Blood Level (EBL) Environmental Investigations – ETC Contractors, Wes Priem, Courtney Wisinski

- **EBL report through 1/5/2016**
  - **20 families contacted**
  - **13 EBL investigations completed.**
  - **11 Water sampling completed.**
  - **6 EBL Reports Received.**
    - **4 homes with lead dust hazards**
    - **3 homes with lead in soil hazards**
    - **6 homes with lead-based paint hazards**
    - **2 homes with lead detected in tap water**
  - 6 investigations scheduled.
  - 5 applications received for the Lead Safe Homes Program, 1 family enrolled.
- HHS staff will accompany contractors on investigations to confirm compliance with protocols. Scheduled for 1/6/16.

MDHHS/Genesee County Health Department (GCHD) Case Management (CM) Services – Nancy Peeler

- **CM report through 12/31/15:**
  - **# of contacts attempted: 186 (0-5 year olds) and 12 (6-17 year olds)**
  - # offered CM: 109 (0-5 year olds) and 6 (6-17 year olds)
  - **# CM started: 25 (0-5 year olds) and 2 (6-17 year olds)**
  - **# of children receiving CM who live in Flint: 25 (0-5 year olds) and 2 (6-17 year olds)**
  - **# billed to Medicaid: 14 (0-5 year olds) and 1 (6-17 year olds)**
  - # other disposition: 23 (0-5 year olds) and 1 (6-17 year olds)
- **Families that have moved to other counties**
  - **Tuscola – contact made, local PH nurse advised the parent to get a follow-up venous test to confirm the elevated capillary test from October; around December 16, PCP at Hurley did a capillary instead of venous despite parent's request for a venous test. CM home visit scheduled for this week (parent was living with a relative, just moved into her own home this week).**
  - **Macomb – contact made, had not gone out yet as of 12/16; we are waiting for an update.**
  - **Oakland – waiting for a call back to give us updates.**

- **Livingston – contact made, parent accepted information over the phone, declined the home visit.**
- **Sanilac – waiting for a call back to give us updates.**

Epidemiology/Surveillance – Corinne Miller, Patti McKane, Martha Stanbury, Bob Scott, Jessica Cooper

- **MDHHS IRB approved Dr. Hanna-Attisha's research project.**
- Pending: hiring 2 epidemiologists to provide BLL surveillance support.

Filter & Water Distribution Sheryl Thompson

Filter Distribution 10/1/15 to 12/31/15			
	Received	Distributed	Remaining
Water Filters	15,000	11,415	3,585
Water Pitchers	720	235	485
Replacement Cartridges - Brita	9,000	1,475	7,525
Replacement Cartridges – PUR*	5,706	4	5,632
Replacement Cartridges - Zero	375	5	370

*The PUR replacement cartridges are being made available in all locations for the convenience of residents. Once the PUR cartridges are exhausted and more are needed DHHS will purchase additional ones. The current supply was given to DHHS and GCCARD by United Way.

Communications/Information Sharing – Linda Dykema, Eden Wells

- **Weekly (Tues. 8:00 am) coordination call with DEQ/LARA/HHS.**
- **GCHD (Jim Henry) is working with Flint residential child care facility to further evaluate lead levels in tap water. All current residents are > 6 years of age and have had venous blood tests: the highest was 2.3 mg/dL, most were <0.5 mg/dL.**

Health Education Resources Updates - Michelle Bruneau, Emily Houk

- **Provided final/updated versions of the final documents to Angela Minicuci for posting on the MDEQ website (MB)**
  - **Phosphate Fact Sheet**
  - **How to Clean your Aerator Fact Sheet**
  - **Hey Flint, It's Safe to Wash poster (update)**
- Continuing to write and coordinate additions to the EBL Case Manager Binder, now known as the MDHHS Lead Safe Family Guide Book. (MB)
- Pending: Filter cartridge changing fact sheet; clarifying uses of filtered/vs unfiltered water (MB)
- Pending: Lead and Nutrition fact sheet and Flint Parent Letter revisions.

Toxicology - Kory Groetsch, Lisa Quiggle, Jennifer Gray

- **Working on Child EBL Access database, which will be used to ensure that each child/family is offered all available SOM services and activities related to EBL cases.**
- Reviewing copper drinking water action level.

WIC

- No updates.

Healthcare/Providers

- Medical Services Administration: Letter L 15-73, dated December 30, 2015, Blood Lead Guidelines to Address the City of Flint Residents' Potential Exposure to Lead, was sent to Practitioners, Clinics, Laboratories and Maternal Infant Health Program (MIHP) Providers in the City of Flint.

DEQ Information - Linda Dykema as Liaison

- **The DEQ laboratory will notify HHS (Linda Dykema) of water sampling results > 100 ppb to allow for immediate public health actions to interdict exposure to high lead levels in Flint drinking water. Notification will only be provided for results from the free water testing offered by the city, not the public schools where taps have been taken out of use.**
- **DEQ has completed water sampling at 10 Flint Public School facilities. 3 reports are completed and posted. 10 private schools and/or day care centers are on the waiting list. DEQ filmed sampling and will post the completed video on their web page as a demonstration of the intensity and completeness of the plumbing evaluation and water sampling efforts.**
- The DEQ reported lead water levels of 213 and 2,516 ppb in a residential Flint child care facility. DEQ contacted the facility on 12/30/15 and instructed them not to use those taps for drinking water consumption.

Fight Lead with Nutrition

Who is at risk?

Exposure to lead is especially risky for young children and pregnant women. Small bodies can absorb lead more quickly, and lead is most harmful during early growth and development. Lead exposure can cause long-term problems such as decreased bone growth, learning delays, and behavioral issues.

What can you do?

- ☑ **Encourage** parents/guardians to get their child screened for lead poisoning by their doctor.
- ☑ **Contact** parents/guardians if you think their child is showing signs of lead poisoning.
- ☑ **Prevent** stomachs from being completely empty by serving small snacks between meals.
- ☑ **Provide** healthy, balanced diets with a variety of foods to children in your care.
- ☑ **Serve** more foods with calcium, iron, and vitamin C to prevent more lead from being absorbed.

Signs of Lead Poisoning

- Irritability
- Behavioral problems
- Difficulty concentrating
- Headaches
- Loss of appetite
- Weight loss
- Sluggishness or fatigue
- Stomach pain
- Vomiting or nausea
- Constipation
- Pale skin from anemia
- Metallic taste in mouth
- Muscle and joint pain
- Seizures

Why are calcium, iron, and vitamin C important?

Calcium strengthens bones and prevents lead absorption.

- Dairy products such as milk, cheese, and yogurt
- Leafy green vegetables such as spinach, romaine lettuce, and kale
- Calcium fortified foods such as orange juice

Iron helps prevent lead from being absorbed.

- Beans and lentils
- Lean red meats, fish and chicken
- Iron-fortified cereals, breads, and pasta
- Peanut butter*
- Dried fruits*

Vitamin C helps the body absorb iron from food.

- Citrus fruits and juices such as oranges, orange juice, and grapefruit
- Other fruits such as strawberries and kiwi
- Bell peppers
- Tomatoes
- Potatoes

* This food is a choking hazard for children under 4 years of age.

Resources

1. When do I need to use filtered tap water?

Use filtered tap water for drinking (including coffee, infant formula, drink mixes), cooking (even if boiling the water), washing fruits and vegetables, and brushing teeth.

You can use unfiltered tap water for washing your hands, washing dishes, mopping, cleaning counters, washing clothes, showering, and baths (don't let kids drink the water).

2. What resources (such as bottles of water or filters) are available?

Water Resource Sites
Hours of Operation 9 a.m. - 9 p.m.
Free bottles of water, water filters, replacement cartridges, and home water testing kits are available at these locations.

- Fire Station #1 310 East 5th St. Flint, MI 48502
- Fire Station #3 1525 Martin Luther King Ave. Flint, MI 48503
- Fire Station #5 3402 Western Rd. Flint, MI 48506
- Fire Station #6 716 West Pierson Rd. Flint, MI 48505
- Fire Station #8 202 East Atherton Rd. Flint, MI 48507

Water Filter Pickup Locations
Hours of Operation 9 a.m. - 4 p.m.

- Michigan Department of Health and Human Services 125 E. Union St. Flint, MI 48502
- Michigan Department of Health and Human Services 4809 Clio Road Flint, MI 48504
- Genesee County Community Action Resource Department 2727 Lippincott, Flint, MI 48507
- Genesee County Community Action Resource Department 601 N. Saginaw, Flint, MI 48502
- Flint City Hall 101 Saginaw St #310, Flint, MI 48502

3. How can I stay up-to-date about the Flint Water situation?

Visit the following website to learn more and sign up for email updates from the Flint Water Response Team: http://www.michigan.gov/flintwater

4. Where can I find more information to protect the children in my care?

Visit the following website to learn about lead screening, lead community awareness events, frequently asked questions, information for parents, and fighting lead with nutrition: http://www.gchd.us/flint_drinking_water_resources.php

5. I still have questions about lead in Flint water. Who can I call?

Call United Way 2-1-1 if you have questions about lead in Flint water.

Donations Management Plan

This plan was designed to support donations management of the Flint Recovery Effort and assist with the coordination of material and financial donations.

I. Needs Assessment of individuals

To ensure the donations are meeting the needs of Flint residents, a communication system to track the needs and make adjustments of requested donations is outlined below.

A. Identifying and Meeting Individual Needs

- 211 will provide a report to identify trends from the information they have collected – demographics of who requested assistance and what services they requested
- 211 will be listed as the number for people to call, to allow all information regarding requests for assistance or offers to help to go to one location. The system will assist people with understanding how to volunteer/donate or receive assistance for the Flint water issues.
- To manage the increase of calls and manage caller volume, 211 will partner with other communities 211 operators
- Information is being collected that identifies people who need assistance with installations and other face to face contact.
- Information will be tracked to identify needs and determine if additional donations need to be requested. 211 will provide regular updates.

II. Material and In-Kind Donations

When donation arrangements have been made, Wendy and Pam will be sent and email alert by Janet.

A. Donation List

- Materials: Water – individual bottles, gallon jugs, and larger.
- In-Kind: Labor to install filters, trucks to deliver materials

Donors should be directed to Janet Hunter HunterJ8@michigan.gov
Internal Phone to provide to donors not for publication: cell 989-763-9421

B. Publicize Items to Donate

- The donation list will be sent to partners to post with their networks and post on state, county, and city sites and social media
- Donation items and drop off locations will be listed in a press release.
- Press releases will inform public of donation opportunities
- Government organizations and community partners will be asked to post on their web-sites and social media
- 211 will have all information to share with those who contact them
- Additional information requests for donating can be directed to the Michigan Community Service Commission, Janet Hunter HunterJ8@michigan.gov

B. Warehouse Location – Drop off Location for Large Donations of Water

- A warehouse location to store surplus of donations is located at: 4315 Clio Rd, Flint, MI
  Refer interested donors that have more than one semi truck of water to Janet Hunter HunterJ8@michigan.gov (Internal Phone, not for publication: cell 989-763-9421)

C. Public Drop off locations of Water

- Donations will be tracked at the sites.
- Inventory and burn rates will be tracked to identify need for donations.
- Small Water Donations: – cases and pallets 100 cases or less deliver to:
  Monday - Friday 9:00 am - 4:00 pm Catholic Charities Center for Hope 517 E. Fifth Ave
  Saturday -Sunday 9:00 am – 4:00 pm Red Cross 1401 Grand Traverse
- Large Water Donations – 100 cases or more, one Semi Truck
  Monday - Friday 8:00 am - 4:30 pm Food Bank of Eastern Michigan 2300 Lapeer Rd
  810-239-4441 If Food Bank receives donations offers of more than one semi truck or if they are full, they will refer donor to Janet Hunter to make arrangements to donate to the warehouse.

III. Cash Donations www.flintkids.org

A. Financial Donations

- United Way, Community Foundation of Greater Flint, Hurley Children's Hospital and the Greater Flint Health Coalition have come together to create a fund that will address both the short-term and long-term needs of Flint residents. The Community Foundation is managing all financial donations and no administrative fee is assessed Direct Donation requests to www.flintkids.org or
  phone 810-232-8121 (United Way) 810 -767-8279 (Community Foundation of Greater Flint)

ELKAY®

SPECIFICATIONS

EZH2O® Bottle Filling Station with Filtered Single LZ Cooler

Model Enhanced LZS8WSLP & LZS8WSSP

RATED FOR INDOOR USE ONLY

PRODUCT SPECIFICATION

Unit shall include an electric water cooler with bottle filling station. LZS8WSLP & LZS8WSSP shall deliver 8 GPH of 50°F of drinking water at 90°F ambient and 80°F inlet water. Lower unit shall have pushbar activation. Bottle filling unit shall include an electronic sensor for touchless activation with an automatic 20-second shut-off timer. LED light illuminating the water dispensing area, brightening as water is being dispensed. Shall include a Green Ticker™ displaying count of plastic bottles saved from waste. Bottle filler shall provide a 1.1 gpm flow rate with laminar flow to minimize splashing. Shall include the WaterSentry® Plus 3000-gallon capacity filter, certified to NSF/ANSI 42 & 53, with visual filter monitor to indicate when replacement is necessary. Unit shall automatically detect a new filter and reset visual filter monitor accordingly. Unit shall have the ability to turn off refrigeration system as needed, in addition to self diagnosing system issues and relay messages related. Shall include integrated silver ion anti-microbial protection in key areas. Unit shall meet ADA guidelines. Unit shall be a lead-free design which is certified to NSF/ANSI 61 and 372 and meets Federal and State low-lead requirements. Unit shall be certified to UL399 and CAN/CSA 22.2 No. 120 & is FCC compliant.

☐ LZS8WSLP (light grey)
☐ LZS8WSSP (stainless)

These units are replacing LZS8WSLK and LZS8WSSK, respectively.

STANDARD FEATURES

- Sanitary, touchless activation with auto 20-second shut-off (Bottle Filler)
- Easy-touch front and side pushbar controls (Cooler)
- Visual User Interface display includes:
  - Innovative Green Ticker™ counts bottles saved from waste
  - LED Visual Filter Monitor shows when replacement is necessary
- WaterSentry® Plus 3000-gallon capacity Filtration System, certified to NSF/ANSI 42 & 53 (Lead, Class 1 Particulate, Chlorine, Taste & Odor)
- Integrated Silver Ion Anti-microbial Protection in key areas
- Quick Fill Rate: 1.1 gpm
- Laminar Flow provides minimal splash
- Real Drain System eliminates standing water
- Cooler panel finishes: Light Gray Granite Vinyl Clad Steel or Stainless Steel
- Automatic filter status reset with each filter change

COOLING SYSTEM

- Compressor: hermetically-sealed, reciprocating type, single phase. Sealed-in lifetime lubrication.
- Condenser: Fan cooled, copper tube with aluminum fins. Fan motor is permanently lubricated.
- Cooling Unit: Combination tube-tank type. Self-cleansing. Continuous copper tubing with stainless steel tank. Fully insulated with EPS foam which meets UL requirements for self-extinguishing material.
- Refrigerant Control: Refrigerant R134a is controlled by accurately calibrated capillary tube.
- Temperature Control: Electronic temperature control requires no adjustment
- Temperature Sensing Device: Fully solid-state temperature sensing has no moving parts.

CONSTRUCTION

- Stainless Steel basin with integral drain
- Galvanized structural steel cooler chassis provides structural integrity
- Stainless Steel bottle filler wrapper with ABS plastic alcove
- Cooler cabinet available as Light Gray Granite Vinyl Clad Steel or Stainless Steel (additional cost) construction
- Flexi-Guard® Safety Bubbler utilizes an infused anti-microbial pliable polyester elastomer to prevent accidental mouth injuries. Flexes on impact.

Replacement Filters: Available as Singles and Multi-packs. Order part numbers:

- 51300C (single)
- 51300C_3PK (three)
- 51300C_12PK (twelve)
- 51300C_24PK (twenty-four)
- 51300C_48PK (forty-eight)

Optional:

- Remote access to unit information/diagnostics Contact Elkay or order P/N 1000001858

Warranty: 5 year limited warranty on the unit's refrigeration system. Electrical components and water system are warranted for 12 months from date of installation or 18 months from factory shipment, whichever date falls first.

CAPACITIES CHART

Model	Voltage / Hertz	Chilling** Capacity	F.L. Amps	Rated Watts	Approx. Ship Wt.	ADA Compliant	UL399 and CAN/ CSA 22.2 No. 120 Certified	NSF/ANSI 61 and 372 Certified	NSF/ANSI 42 and 53 Certified (Filter only)	FCC Compliant
LZS8WSLP	115V / 60 Hz	8.0 GPH	4.2	370	71 lbs.	•	•	•	•	•
LZS8WSSP	115V / 60 Hz	8.0 GPH	4.2	370	71 lbs.	•	•	•	•	•

**Based on 80°F inlet water & 90°F ambient air temp for 50°F chilled drinking water.

This specification describes an Elkay product with design, quality and functional benefits to the user. When making a comparison of other producer's offerings, be certain these features are not overlooked.

In keeping with our policy of continuing product improvement, Elkay reserves the right to change specification without notice. Please visit elkay.com for the most current version.

EZH2O® Bottle Filling Station with Filtered Single LZ Cooler Model Enhanced LZS8WSLP & LZS8WSSP

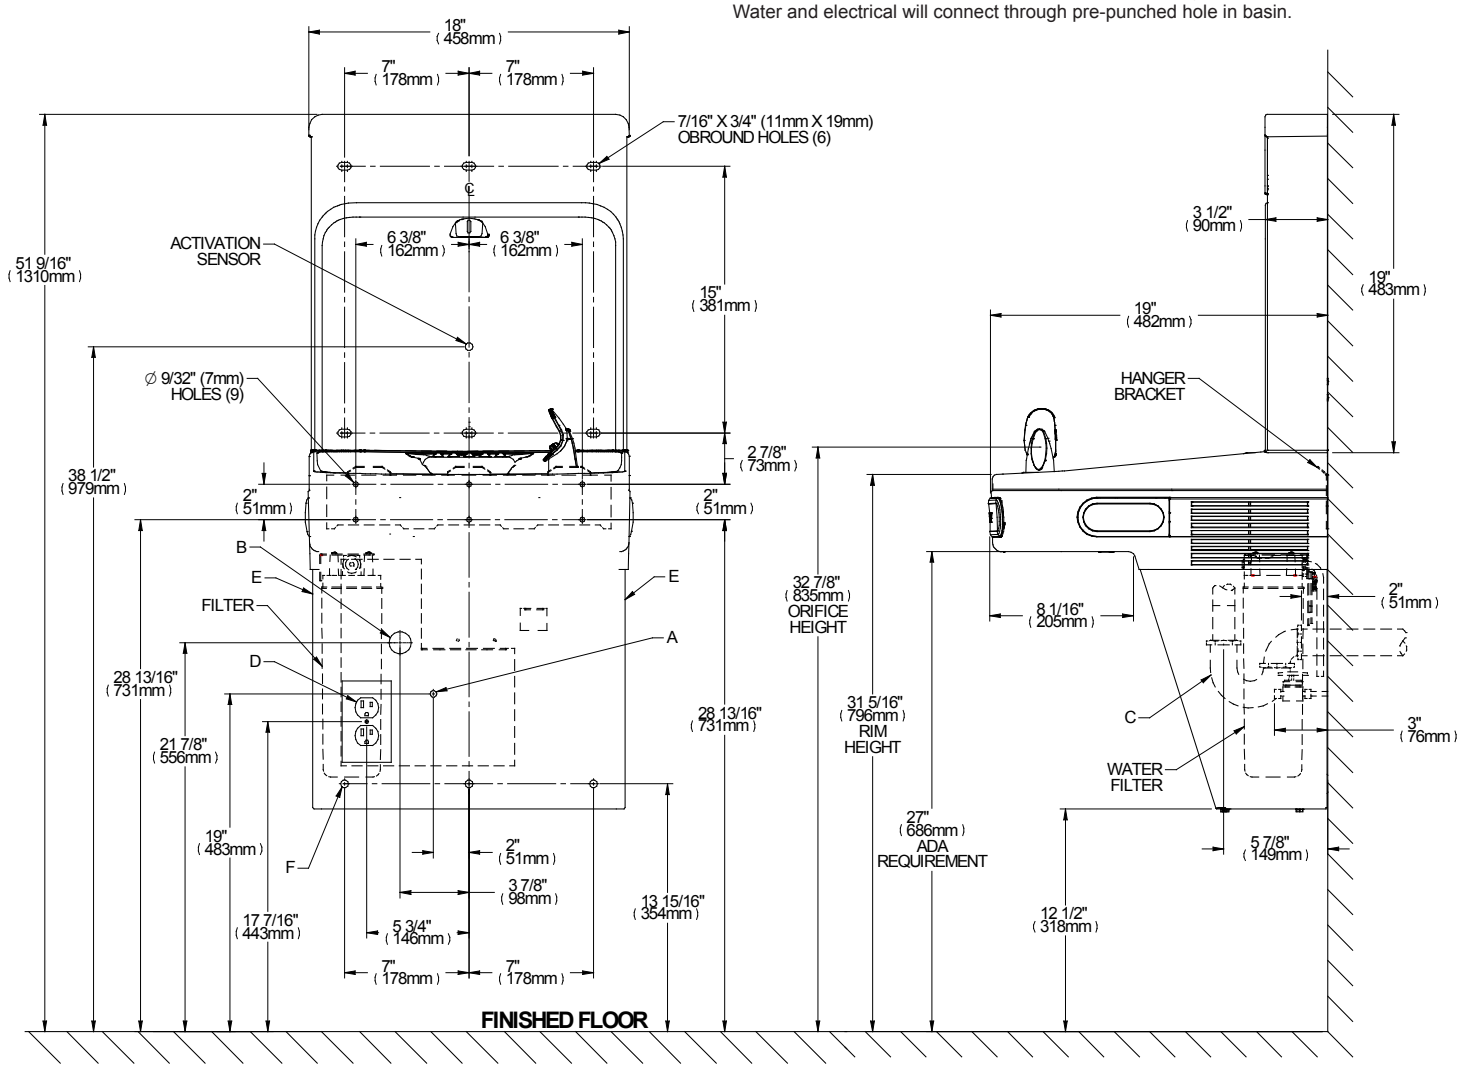
ELKAY® *ROUGH-IN DIMENSIONS*

RATED FOR INDOOR USE ONLY

IMPORTANT! INSTALLER PLEASE NOTE:
These units are designed and built to provide water to the user which has not been altered by materials in the cooler waterway. The grounding of electrical equipment such as telephone, computers, etc. to water lines is a common procedure. This grounding may be in the building but may also occur away from the building. This grounding can cause electrical feedback into a water cooler creating an electrolysis which results in a metallic taste or an increase in the metal content of the water. This condition is avoidable by installing the cooler using the proper materials as shown.

NOTICE
This water cooler must be connected to the water supply using a dielectric coupling. The cooler is furnished with a non-metallic strainer which meets this requirement. The drain trap which is provided by the installer should also be plastic to completely isolate the cooler from the building plumbing system.

Bottle Filler unit will mount on bracket attached to wall by 6 holes (as shown). Water and electrical will connect through pre-punched hole in basin.



REDUCE HEIGHT BY 3 INCHES FOR INSTALLATION OF CHILDRENS ADA COOLER

LEGEND:
A = Recommended Water Supply location. Shut-off Valve (not furnished) to accept 3/8" O.D. unplated copper tube. Up to 3" (76mm) maximum out from wall.
B = Recommended Waste Outlet location. To accommodate 1-1/4" nominal drain. Drain stub 2" (51mm) out from wall.
C = 1-1/4" Trap (not furnished).
D = Electrical Supply (3) Wire Recessed Box Duplex Outlet.
E = Insure proper ventilation by maintaining 6" (152mm) minimum clearance from cabinet louvers to wall.
F = 7/16" (11mm) Bolt Holes for fastening to wall.
NOTE: Installations Must Use Ground Fault Circuit Interrupter (GFCI).

Requirements for Licensed Food Establishments Using City of Flint Water

January 13, 2016

Attention: This applies to licensed restaurants, grocery stores, convenience stores, food processors and food warehouses.

- The best way to determine if water contains lead is to have it tested. Safe results can be posted to inform consumers.
- To schedule a free collection and analysis of your food establishment's water for lead, call 1-800-292-3939 and state you're a "Flint food establishment requesting a water test." Be prepared to provide a time when your water system can be sampled where water won't have been used for at least 6 hours. Sampling appointments as early as 5 a.m. are available.
- Restaurants with general questions should contact Genesee County Health Department at: 810-257-3612.
- Grocery or Food Processing establishments with general questions should contact MDARD at: 1-800-292-3939.

Unless the water has been tested and found to not have a lead concern, do the following:

- Flush water lines for 5 minutes each day before using or serving water and after 6 hours of no water use. Then flush other equipment such as pop machines for at least 1-2 minutes.
- Install an NSF Standard 53 certified filter on the faucet where drinking/cooking water is obtained from. Approved filter information for faucet or in-line filters can be found at: http://nsf.com/newsroom/statement-regarding-flint-water-system-lead-issue-and-to-certification-nsf. Filters must be changed based upon the manufacturer's recommendations.
- Use cold water and store it for immediate consumption.
- Always use cold water for drinking, cooking and cleaning/rinsing food.
- Hot water must be used for dishwashing.

Other equipment that may use city water:

- Ice machines – Install a water filter on the supply line or use bagged ice in drinking water.
- Pop machines – Flush for 1 minute daily or use bottled beverages.
- Coffee machines or Tea Urns – Flush for 1-2 minutes daily or use filtered water. These products may be very low risk as young children under 6 are not likely to consume these.
- Slush machines – Use filtered water.
- Spray misters – Flush for 1-2 minutes daily or use filtered water.

A licensed plumber can check your plumbing and service lines for lead soldering or lead service lines.

SUBJECT: National School Lunch Program: Michigan Request for Waiver of the Potable Water Requirement – Approval

TO: Julie Mikkelson
Program Director
Special Nutrition Programs
Midwest Regional Office

This letter is in response to a request from the Michigan Department of Education (DoE) to waive the potable water requirement in the Richard B. Russell National School Lunch Act, 42 U.S.C. 1758, Section 9(a)(5), and found in regulations at 7 CFR 210.10(a)(1)(i). The requirement provides that schools must make available during the school lunch program free potable water where meals are served. The Michigan DoE has requested this waiver on behalf of the Flint Community Schools in Flint, Michigan, because the public water source for Flint residents is contaminated with high levels of lead. The waiver request is approved.

A public health emergency was declared by Genesee County, in which Flint is located, due to evidence of increased lead levels in children because of contaminated water. The high lead levels in the Flint area water system are a result of corrosive water from the Flint River degrading the lead service lines and city pipes that it passes through.

Because of financial challenges within the Flint Community Schools district, the district does not have surplus funds available to pay for the large volumes of bottled potable water that would be needed to meet the requirement until the public water contamination issues are resolved. The schools will continue to use bottled water for food preparation.

Based on the seriousness of the problems within the Genesee County water system, FNS is waiving the requirement that the Flint Community Schools make potable water available to students during the lunch service for the remainder of the 2015-2016 school year.

We recognize that repairing the water supply system is a long term and costly project, but ask that the Michigan DoE apprise FNS of the progress of repairs to the water supply system before the beginning of school year 2016-2017 in order to determine if it is necessary to extend the waiver request.

If you have questions, please contact Tina Namian, Chief, School Programs Branch at 703-305-2634.

Introduction

Purpose of the Guide

This guide provides a framework or strategy for government and non-government disaster recovery stakeholders at all levels to assess, plan for, and support the recovery of communities following events that do not rise to the level of or receive a Stafford Act declaration (herein referred to as "non-Stafford Act events"). To support this overall objective, this guide focuses on achieving three major goals:

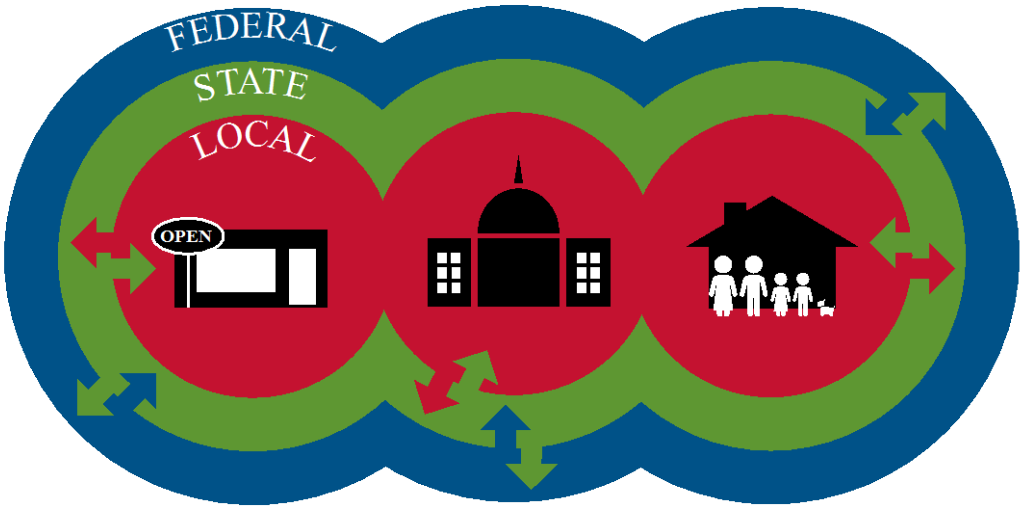
1. Emphasize the importance of local, State, and Tribal governments in assessing and addressing the needs of affected communities following non-Stafford Act disasters
2. Encourage the development of engaged partnerships between emergency management and non-emergency management stakeholders
3. Provide a framework that supports unified recovery-focused coordination between local, Tribal, State, and Federal agencies, non-governmental organizations, and the private sector

These objectives are intended to provide recovery stakeholders the means to identify and coordinate the resources necessary to support sustainable recovery solutions at the State, Tribal, and local level utilizing the principles of the National Disaster Recovery Framework (NDRF).

For the purposes of this document, non-Stafford Act events are defined as events that have recovery requirements exceeding the capability of individuals and the local community, but do not exceed the capabilities of the State.

Background

Subsequent to a Stafford Act declaration, the State and Federal government coordinate available resources to assist individuals and communities recover from the disaster. Although resources made available through specific Stafford Act authorities would not be provided in a non-Stafford Act event, many resources are available to States, Tribes, and local governments that can be used to support the recovery of the whole community.



The impact of concentrated damage can be overwhelming, even to well-resourced or resilient communities. Often times systems are disrupted, need exceeds individual resources, regular service providers are overwhelmed, and networks necessary to address disaster related needs do not exist. With capabilities exceeded, outside resources and expertise may be required to support the local community.

State agencies may have programs or grants that can generally be *re-prioritized* to meet identified recovery needs and goals. Federal presence, if warranted, is typically limited to technical assistance following non-Stafford Act events; however, a limited number of Federal agencies like the Small Business Administration (SBA) and the United States Department of Agriculture (USDA) do maintain programs or authorities that can directly support the needs of impacted communities outside Stafford Act declaration.

Principles and Concepts of the National Disaster Recovery Framework

The resources and needs of impacted States, Tribes, and communities may differ following a non-Stafford Act event; however, the nine core principles and the key concepts set forth in the NDRF can be equally applied to any event and any jurisdiction to holistically support recovery. For more information visit the National Disaster Recovery Framework website at www.fema.gov/national-disaster-recovery-framework .

Core Principles:

- Individual and family empowerment
- Leadership and local primacy
- Pre-disaster recovery planning
- Partnerships and inclusiveness
- Public information
- Unity of effort
- Timeliness and flexibility
- Resilience and sustainability
- Psychological and emotional recovery

Key Concepts:

Structure
The NDRF provides a scalable structure for organizing recovery operations around the needs of the community through the six identified Recovery Support Functions (RSFs);

- Community Planning and Capacity Building
- Economic
- Health and Social Services
- Housing
- Infrastructure
- Natural and Cultural Resources

These sector-specific functions can be developed at any level of government to facilitate problem solving and foster coordination among recovery stakeholders.

Planning
Recovery planning is set forth in the NDRF as a critical activity that should begin prior to an event and extend through all phases of the emergency management cycle. Successful recovery planning requires active engagement with and between all levels government, nongovernmental organizations, the private sector, and the community itself in order to increase post-disaster collaboration and unified decision-making.

Leadership
The NDRF outlines leadership positions at the local, State, and Tribal levels through Local Disaster Recovery Managers, State Disaster Recovery Coordinators, and Tribal Disaster Recovery Coordinators. Individuals in these positions are intended to serve as the primary point of contact for recovery for their jurisdiction, and are responsible for organizing, coordinating, and advancing recovery in all phases of the emergency management cycle.

Following a non-Stafford Act event, the State may also request the support of a Federal Disaster Recovery Coordinator or recovery advisor/liaison to provide technical assistance. When deployed or engaged, these representatives support the State by providing relevant subject matter expertise, and facilitating enhanced coordination between Federal agencies and State recovery leadership.

When combined with the full involvement of all stakeholders and realistic and well-communicated expectations, the concepts and principles outlined in the NDRF can be used as building blocks to develop resiliency and support a successful recovery following a non-Stafford Act event.

General Recovery Needs

Understanding the needs of a community is critical to the development of appropriate structures, plans, and partnerships to support recovery. Specific needs will vary by event and community, and need to be assessed holistically following an event. Categorizing needs prior to an event may be helpful in identifying recovery partners and programs. Examples may include:

Individual needs

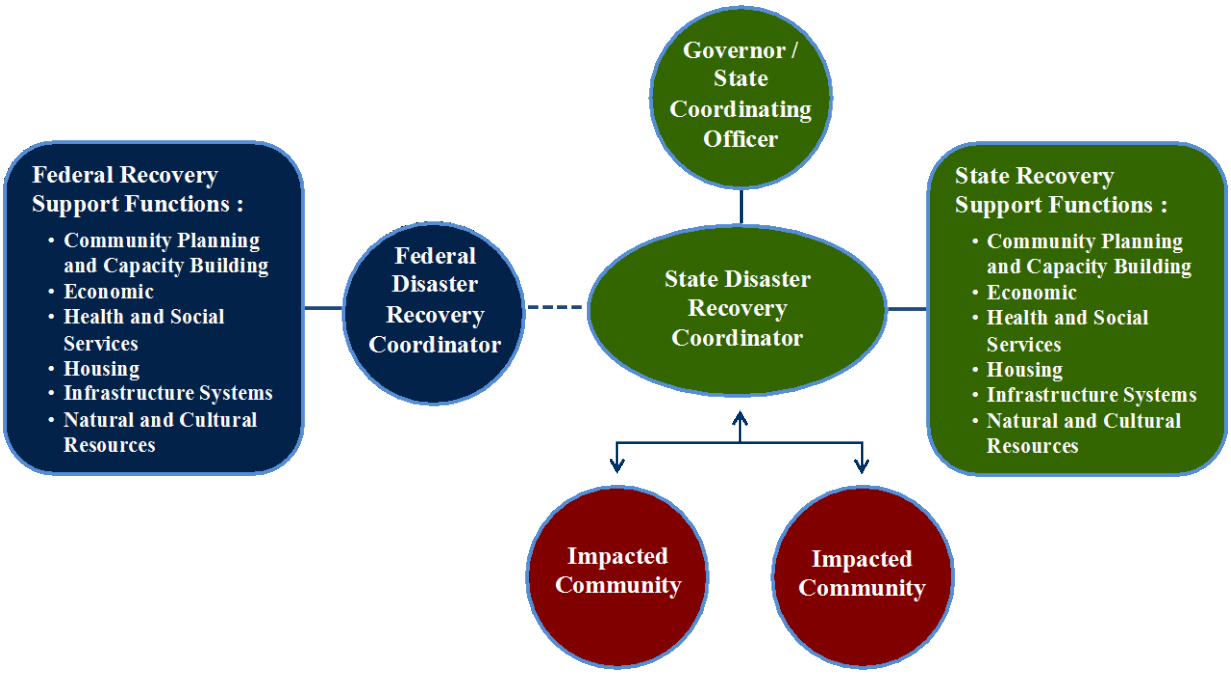
- Temporary housing (rental assistance or other temporary housing)
- Home repair/rebuild assistance (real property and mechanicals)
- Medical, dental, funeral assistance (including the replacement of damaged durable medical equipment)
- Personal property (clothing, household items, furniture, appliances) replacement assistance
- Transportation or vehicle replacement assistance
- Replacement of job related tools and specialized/protective clothing
- Moving and storage assistance
- Legal assistance
- Insurance claims assistance
- Mental health needs
- Employment related assistance
- Food replacement
- Agricultural support for farmers and ranchers
- Assistance to mitigate against the effects of future events

Government needs

- Recovery planning support
- Debris removal cost recoupment
- Legal and contract support
- Economic/Business stabilization support
- Reimbursement for emergency protective measures taken in the response phase
- Assistance to support repairs to roads, bridges, and other infrastructure
- Assistance to support necessary repairs to water and utility networks
- Assistance for damaged public buildings
- Support for public healthcare facilities
- Assistance for damaged equipment
- Insurance claims assistance
- Support to ensure environmental and historic considerations are taken throughout recovery
- Assistance to mitigate against the effects of future events

Non-Stafford Act Recovery Support Structure

The NDRF can provide a structure to support unified coordination between all governmental and non-governmental recovery stakeholders following non-Stafford Act events. While it is expected that the State and affected community will work together to scale this structure according to specific recovery needs, the structure defined in the NDRF may be helpful in defining and aligning the roles of local and State governmental and non-governmental recovery stakeholders.



The recovery structure defined in the NDRF centers around multi-agency coordination facilitated by the Disaster Recovery Coordinators/Manager and the RSF Coordinating Agencies. Multi-agency coordination is a process that allows all levels of government and all disciplines to work together more efficiently and effectively. Multi-agency coordination is a National Incident Management System (NIMS) compliant method of providing coordination to multidisciplinary, policy-level decision makers brought together to support incident level operations. This organizational concept is particularly relevant at the State and Federal levels where organizational leadership is brought together to identify resources to support needs in the impacted jurisdiction.

Local Non-Stafford Act Recovery Support Structure

Successful recovery coordination efforts stem from well-planned, well-coordinated and inclusive local recovery efforts. The local recovery support structure is made up of operational elements brought together to establish and prioritize recovery goals, develop community focused recovery plans, ensure clear and consistent public messaging, and support resource coordination.

Overall leadership for the local recovery coordination group is provided by the Local Disaster Recovery Manager (LDRM), identified by local emergency management or by the office of the senior elected official. This facilitative role centers on coordinating operational elements to meet recovery goals.

Local recovery Coordinating agencies/organizations are designated based on relevant authorities, roles, resources or capabilities. These agencies can support the LDRM and the overall recovery effort by ensuring coordination and providing resources and subject matter expertise in their given functional area.

Potential local leadership and Coordinating agencies may include:

Leadership

City/County office of Emergency Management or the office of senior elected leadership

Coordinating Agencies/Organizations

City/County Department of Commerce or Planning and Development Commission
City/County Department of Public Works and Engineering
City/ County Department of Health or Department of Human Services
City/County Department of Emergency Management
Local Housing Authority
City/County Parks Department

The local recovery structure must also coordinate with keystone partners from local faith and community based organizations, the private sector, educational institutions, and regular service providers that support children, elders, people with disabilities, and people with other functional and access needs. These community leaders provide essential support on an every-day-basis. Understanding the roles of these individuals and organizations allows local recovery leadership to identify needs and leverage resources more effectively.

Appreciating the actual capabilities and needs of a community is essential to supporting and enabling local actions.

Many non-governmental organizations have disaster programs which play a pivotal role in supporting the recovery of impacted individuals and communities. These organizations coordinate through local, State, and national coalitions known as Voluntary Organizations Active in Disaster (VOAD). VOAD member agencies can support a variety of needs including:

- Individual and community needs assessments
- Case management training and support
- Construction (repair/rebuild) support and coordination
- Long Term Recovery Group (LTRG) formation support
- Debris removal from private property
- Grant assistance
- Resource identification and fundraising support
- Disaster mental health or emotional and spiritual care
- Youth focused resiliency programs
- Support for faith leaders in impacted areas
- Coordination of spontaneous volunteers
- Donations management support
- Information and referral support

More information on Voluntary Organizations Active in Disaster can be found at http://www.NVOAD.org

State/Tribal Non-Stafford Act Recovery Support Structure

The State/Tribal recovery support structure is designed to augment recovery resources. This often requires the re-prioritization of resources so the intent and priorities of senior elected leadership must be made clear at the outset. Individual State/Tribal agencies may contribute operational elements to support local recovery operations; however, State/Tribal-level recovery coordination is conducted by policy-level decision makers with the authority to commit resources on behalf of their agency.

Leadership for the State/Tribal recovery coordination group is provided by the State/Tribal Disaster Recovery Coordinator (SDRC or TDRC), identified by State/Tribal emergency management, the office of the Governor, or Tribal leadership. The person in this role is responsible for facilitating coordination with and between State/Tribal agencies and the impacted jurisdictions(s).

State RSF Coordinating agencies are designated based on relevant authorities, roles, resources or capabilities and can support the SDRC/TDRC and the overall recovery effort by ensuring coordination with and between the impacted communities and State agencies working within their functional area(s) (RSF).

Potential State leadership and Coordinating agencies may include:

Leadership

State Emergency Management or the Governor's Office

Coordinating Agencies

State Department of Commerce or Economic Opportunity
State Department of Transportation
State Department of Health and Human Services
State Emergency Management Agency
State Department of Housing
State Department of Natural Resources

Additional State agencies and organizations may be identified as supporting agencies when their specific capabilities, resources, or programs can be used to support impacted communities. When scaling the State/Tribal recovery structure, recovery leadership must consider the actual needs of impacted communities and the mechanisms necessary to coordinate the broad range of support available through regular State programs and non-governmental organization partners.

Federal Non-Stafford Act Recovery Support Structure

The Federal recovery support structure following non-Stafford Act events does not change from that outlined in the NDRF. This structure is scalable and it may not be necessary for staff to be physically present in the state to provide support. Additional information on the Federal recovery support structure can be found in the NDRF.

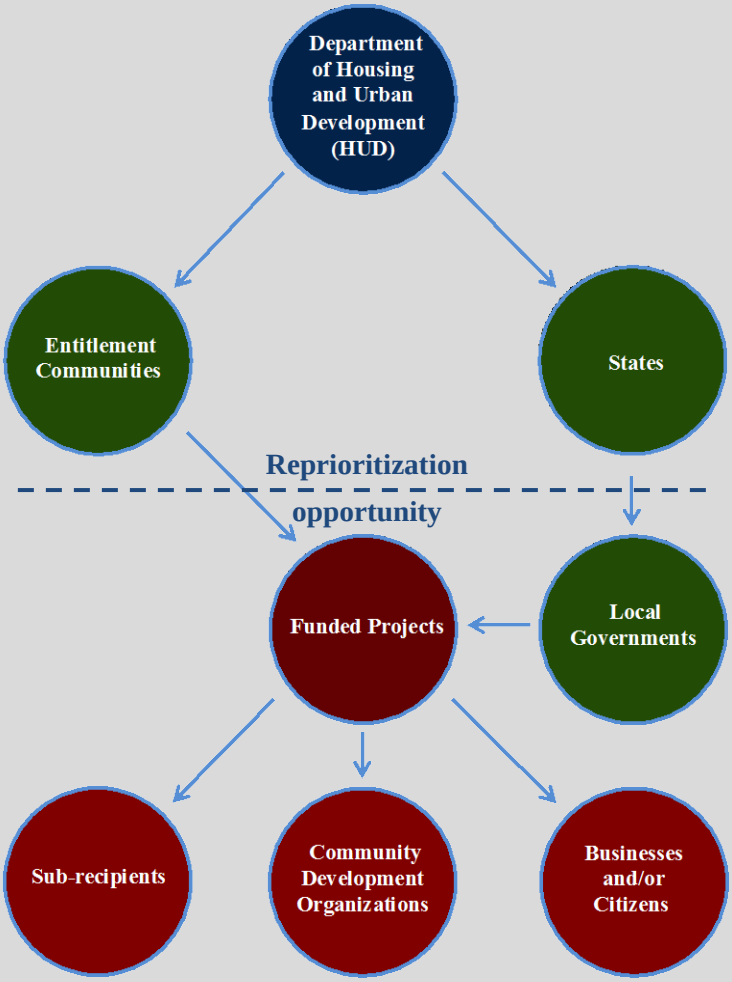
The following list of Federal agencies represents some of the resources and technical assistance that may be available to support impacted jurisdictions, States/Territories, and Tribes following non-Stafford events:

Department of Commerce
Department of Defense, U.S. Army Corps of Engineers
Department of Health and Human Services
Department of Homeland Security, Federal Emergency Management Agency
Department of Housing and Urban Development
Department of the Interior
United States Department of Agriculture

State recovery leadership and State Recovery Support Function leads are encouraged to coordinate with Federal agencies through regional or field offices as appropriate, to discuss authorities relevant to disaster recovery and better understand how non-disaster programs already being administered may have relevance following an event. More information on Federal recovery programs can be found on the National Disaster Recovery Program Database and at DisasterAssistance.gov

Non-Stafford Act Programs in Action:

Department of Housing and Urban Development
Community Development Block Grants (CDBG)



This flow chart outlines how CDBG funding is allocated to benefit programs and communities. Funds flow from the U.S. Department of Housing and Urban Development to major urban areas (Entitlement Communities) and States. These funds are then allocated to approved projects or communities according to priorities or State formulas.

Following a disaster, States and Entitlement Communities can shift funding priorities (at dotted line), for unused funds, and approve projects that support individual and community recovery needs. All approved projects must meet certain criteria and address specific program goals; however, CDBG funds are flexible and can be used to meet a variety of needs.

Governmental, Non-Profit, and Private-Sector Coordination

Integrating and coordinating with governmental, non-governmental and private-sector associations and their member agencies/organizations can be key to successfully addressing the needs of impacted communities. These partners may include sector-specific associations with missions directly or indirectly related to emergency management. Associations can support planning, coordination, and the development of agreements/understandings that support and leverage the capacity of member agencies. Additionally, associations can develop or improve overarching recovery coordination processes that independent organizations may not have the capacity to develop on their own.

GOVERNMENTAL ASSOCIATIONS

Governmental Associations provide coordination between agencies of all types and are engaged at the national, regional, State, and local levels. These organizations can provide additional coordination, lessons learned, and programmatic/subject matter support via peer-to-peer networks of government entities (mutual aid). Engagement with government associations can encourage resiliency through the development, promotion, and coordination of tools and best practices. Examples of government associations include:

- Council of State Community Development Agencies
- Emergency management associations (such as the National Emergency Management Association, the International Association of Emergency Managers, and local, county, and State associations of emergency managers)
- City/County Manager Associations
- National Association of Regional Councils
- National League of Cities
- State and national associations of county or municipal governments
- State and national associations of health departments (such as National Association of County and City Health Officials)
- State and national public works associations (such as the American Public Works Association)
- Tribal Associations

EXAMPLE:

International Association of Emergency Managers

The International Association of Emergency Managers (IAEM) serves to advance the profession by promoting the principles of emergency management; to serve members by providing information, networking and professional development opportunities; and to advance the emergency management profession.

Learn more at www.IAEM.com

NON-PROFIT AGENCIES, ORGANIZATIONS

Non-profit agencies, organizations, and associations can play a critical role following non-Stafford Act events. These key partners provide outside resources, and training that can help local non-profit, faith-based, and community-based organizations to maximize the support they provide in an affected community. This support is generally coordinated through member organizations and provided via peer-to-peer networks similar to mutual aid. Non-profit associations can be helpful to State and local governments working to expand their capacity by supporting the identification of member

organizations and helping to explain the resources and missions of their members and provide introductions. Examples of nonprofit associations include:

- Academic Associations
- American Planning Association (APA)
- State and national offices of civic organizations (such as Lions Club International, Kiwanis International, and Rotary Clubs)
- Disability service and advocacy organizations (such as the State Protection and Advocacy Agency, and the local Centers for Independent Living)
- Faith-based associations
- Foundation Associations (such as the Council on Foundations and the Association of Small Foundations
- Disaster Long Term Recovery Groups (LTRG)
- State and National Non-profit Associations
- Non-profit legal associations (such as the American Bar Association, the Legal Services Corporation, and the National Legal Defender Association)
- Trade unions
- Voluntary Organizations Active in Disaster (such as National VOAD and State VOAD)
- Community Organizations Active in Disaster (COAD)
- State and National offices of youth councils and organizations (such as the Boys and Girls clubs, Future Farmers of America, 4H clubs, and the Boy Scouts and Girl Scouts of America)

EXAMPLE:

The Extension Disaster Education Network (EDEN)

EDEN links Extension educators from across the U.S. and various disciplines, enabling them to use and share resources to reduce the impact of disasters.

Learn more at eden.lsu.edu

THE PRIVATE SECTOR

By actively engaging private sector partners *prior* to an event, and working to establish mutually-supportive relationships, recovery leadership can better take into account the needs and resources of the whole community and support successful recovery.

By working to establish public-private partnerships, recovery leadership can develop relationships with key stakeholders who have insight into economic and community needs as well as access to potential resources. While well-developed mutually supportive relationships with individual business partners is a goal, private sector associations and trade groups can help to provide recovery leadership with more information on the resources and needs of their membership and facilitate introductions to key stakeholders. Examples of private-sector associations include:

- Business Associations
- Professional Associations
- Local, State, and National Chambers of Commerce

EXAMPLE:

The Business Civic Leadership Center (BCLC)

BCLC helps businesses communicate and collaborate with each other and with the nonprofit and government sectors to make disaster relief, recovery, and reconstruction activities more effective.

Learn more at bclc.uschamber.com/program/dis

Pre-Event Recovery Coordination and Non-Stafford Act Capacity Development

Pre-disaster recovery planning, coordination and capacity development is set forth in the NDRF as key to the successful recovery of communities affected by disaster. This is particularly true of non-Stafford Act events, where a premium is placed on coordination in order to maximize the impact of available resources. By identifying recovery leadership, defining roles, engaging with partners, expanding partnerships, planning, training, and exercising prior to an event, States can develop the resources and structure necessary to support impacted communities following any event.

Resource and Guidance Development

- Identify recovery leadership at all levels of government and define positions, authorities, roles, and responsibilities.
    - Determine how the State/Tribal/local Disaster Recovery Coordinator or equivalent will be identified, and what the specific authorities, roles, and responsibilities of the position will be.
    - Identify State/Tribal/local Recovery Support Function Coordinating agencies and define the authorities, roles, and responsibilities of these positions.
    - Develop guidance to support local jurisdictions in identifying and developing recovery leadership.
- Identify traditional and non-traditional State, Tribal, and Federal non-Stafford Act programs that can be used to support the needs of impacted communities.
    - Promote agency-specific policy development by all identified recovery stakeholders.
    - Promote the development and maintenance of State/Tribal and local recovery resource lists that outline the potential assistance available from state and or local agencies and recovery partners.
- Support the development of non-Stafford Act recovery coordination plans as part of each jurisdictions broader recovery plan.
    - Promote the inclusion of all governmental, non-governmental, and private sector stakeholders in the development and maintenance of recovery plans and partnerships.
    - Plan for the needs of individuals with disabilities and others with access and functional needs, children and seniors as a fundamental aspect of the recovery plan rather than as a supplement, annex, or separate plan.
- Promote the development of engaged recovery-focused partnerships at all levels and between all sectors of government, non-governmental organizations and the private sector.
    - Develop recovery-focused memorandums of understanding (MOU) or memorandums of agreement (MOA) between state agencies and agencies with identified recovery roles.
    - Develop recovery-focused mutual aid and Emergency Management Assistance Compact (EMAC) agreements with other States, Tribes, or local jurisdictions as appropriate.

- Promote the development of local, State, and National non-governmental organization consortiums (such as State/National VOADs, COADs, Inter-faith Councils, Disability related advocacy groups, and Private Sector networks).
- Work with government agencies to encourage collaboration between local, State and Tribal governments.

Pre-Disaster Coordination

- Promote non-Stafford Act support forums for idea and information sharing between recovery stakeholders at all levels.
  - Gather and disseminate lessons learned and best practices from other non-Stafford Act recovery operations to Federal, Tribal, State, local, non-governmental, and private sector partners.
- Organize State agencies with identified recovery roles according to RSFs or state recovery structure.
  - Promote the development of recovery taskforces according to identified RSFs
  - Support the identification and coordination of agency functions, roles, and capacity to support non-Stafford Act disasters.
- Insure that non-governmental organization partners are fully integrated into State, Tribal, and local coordination and capacity building initiatives.

Post-Event Recovery Coordination

Defining, coordinating and addressing the needs of an impacted community following a non-Stafford Act event requires active coordination and planning between all levels of government and with all sectors of society. This section outline steps that States, Tribes, and local communities can take to conduct a more accurate needs assessments, develop appropriate goals, and enhance multi-agency coordination.

Community Impact Assessment

- Ensure coordination with departments/organizations active in the response phase to discuss the current situation, activity to date, major areas of concern, and the transition to recovery. (i.e. share damage assessment numbers and identified community impacts, share known locations of displaced/evacuated residents)
- Conduct comprehensive damage and impact assessment to identify potential community needs and strategic recovery challenges across the 6 Recovery Support Function areas. Examples may include:
    - Convene a multidisciplinary impact assessment team to ensure that assessments are as efficient and comprehensive as possible. The team should be composed of governmental, non-governmental, and private sector stakeholders representing all identified RSFs.
    - Coordinate with existing community information and referral networks (2-1-1, 3-1-1, etc.) to support the identification of community needs.
    - Insure that assessments provide a base line need in each of the identified functional areas (i.e. Total number of damaged homes, number of homes with failed structural elements, and the number of destroyed homes).
    - Provide State/Tribal and Federal technical/subject-matter/policy support as appropriate to support local needs assessments.
- Coordinate local and State/Tribal governmental and non-governmental agencies/organizations to identify existing individual and community resources that can be used to support recovery – including insurance, continuity of business plans/support, locally administered programs, and donated/volunteer resources.
- Seek out the input of elected leadership, governmental agency/office leadership, faith leaders, faith and community based organization leadership, key private sector stakeholders, and individuals from the impacted community in order to identify community structures and priorities.
- Provide State and Federal technical/subject-matter support as appropriate to support local assessments.

Non-Stafford Act Planning and Recovery Strategy Development

- Develop State and local recovery strategies that support the needs, plans, and goals of impacted communities.
    - Engage local leadership and RSF taskforce stakeholders to support the development of local recovery strategies.
    - Involve the impacted community (public) during the development of the recovery strategy – considerations should be taken to include non-English speaking populations, people with limited resources, and people with access and functional needs.
    - Insure that recovery strategies take into account the specific needs of seniors, people with disabilities, and people with limited resources.
    - Insure that case management and other coordinative elements are incorporated into each community's recovery strategy in order to maximize impact and avoid overlap or gaps in service.
    - Request or provide State/Tribal/ Federal technical, subject-matter, and policy support as appropriate to support the development of local recovery strategies.
    - Develop a State recovery strategy to ensure the unified coordination of State/Tribal and Federal agencies supporting impacted jurisdictions.
- Support the development of local Business Recovery Plans for individual impacted businesses
- Support the development of Individual Recovery Plans for impacted survivors
    - Ensure that case management is available to assist impacted survivors to identify and coordinate resources necessary to support the holistic sustainable recovery solutions.
- Support ongoing recovery planning at the State and local level to align available resources with identified goals, priorities, and progress.
    - Promote local leadership in recovery planning.
    - Involve all recovery stakeholders in recovery planning initiatives. Include local and State/Tribal governmental agencies, non-governmental organizations, and local service providers.
    - Ensure that all recovery plans are in line with the goals and strategies of the impacted community.
    - Provide a mechanism for continued State and Federal technical assistance support as appropriate.
    - Ensure that State recovery planning is scaled to meet the coordination needs of supporting state agencies and takes into account the evolving needs of affected jurisdictions.
    - Promote public feedback opportunities to insure that recovery strategies and priorities continue to be in line with the needs of the community –considerations should be taken to include non-English speaking populations, people with limited resources, and people with access and functional needs.

Non-Stafford Act Coordination and Support

- Ensure that recovery leadership at the local, State and Tribal levels is adequate to support the recovery needs, strategies, and plans of impacted communities.
    - Assess the need to identify or assign a Local Disaster Recovery Manager (LDRM).
    - Assess the need to identify/assign, and deploy a State/Tribal Disaster Recovery Coordinator (SDRC/TDRC).
    - Assess the need for Federal technical assistance.
- Promote the development of Recovery Support Functions and recovery focused multi-agency coordination groups at the local, State, and Tribal levels as appropriate.
    - Implement RSF task forces as appropriate
    - Promote the broad inclusion of current and potential recovery partners – to include non-governmental organizations and the private-sector to ensure that technical support and programmatic resources are known, available, and coordinated.
    - Promote coordination between counterpart local, state, and national non-governmental and private-sector partners to maximize an understanding of available support and ensure coordination.
    - Promote the development of Long Term Recovery Groups (LTRG) and the use of case management to coordinate long-term unmet needs assistance to disaster survivors.
    - Identify the need for Federal RSF support to local and State/Tribal recovery functions.
- Ensure that the appropriate technical assistance is available from the State and through mutual aid networks to support local recovery assessment, planning, and program administration.
    - Coordinate and/or deploy technical assistance teams, made up of identified State/Tribal recovery partners, to support local communities in the assessment of disaster impacts and the development of local recovery strategies.
    - Identify the potential for peer-to-peer/mutual aid assistance to support local recovery coordination and planning efforts.
    - Ensure the development of an interface between local, State/Tribal, and Federal agencies to streamline policy discussions and promote an understanding of the processes and requirements associated with requesting and administering supplemental assistance.
    - Assess the need for Federal technical or programmatic advisors to support State/Tribal and local recovery efforts.
- Ensure that all non-Stafford Act programmatic assistance (financial and in-kind) is available to and coordinated with local recovery leadership.
    - Ensure that supplemental support is in alignment with identified local goals, strategies, and plans to maximize impact, identify gaps, and avoid duplication.
    - Identify additional State/Tribal and local programs that can be used, reprioritized, or altered to support the needs of affected communities identified in the assessment process.
    - Assess the need for and, if needed, request additional non-Stafford Act assistance from the State/Tribe or other Federal agencies.

Appendix 1: Case Study – State of Illinois, 2012 Spring Tornadoes

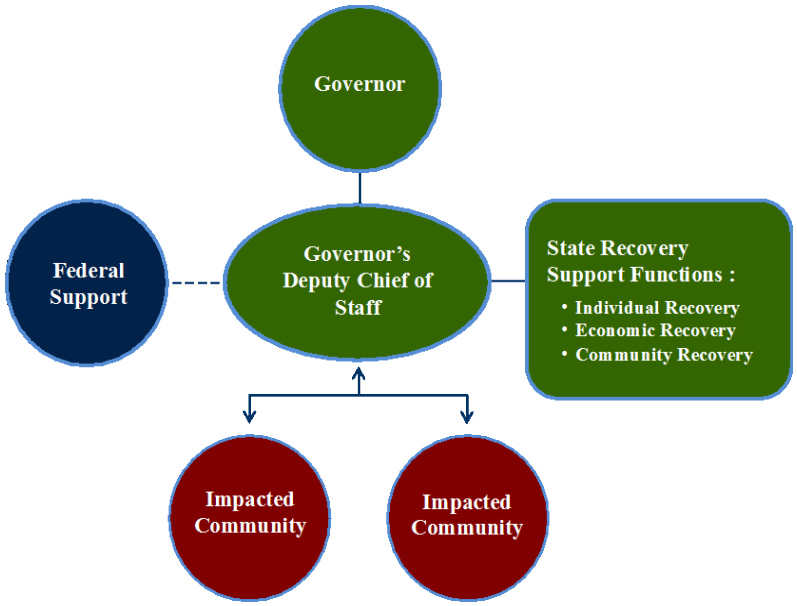
Overview:

In the early hours of February 29, severe storms and tornadoes tore through Gallatin, Massac, Saline, Union, and Williamson counties of Illinois. Around 5a.m. an EF4 tornado touched down in the City of Harrisburg in Saline County, and an EF3 tornado touched down in the Village of Ridgway in Gallatin County. The State estimated that 440 homes were impacted by the event, of which 176 were destroyed or suffered major damage. Eight people in Harrisburg lost their lives as a result of the tornado, making this the deadliest Illinois disaster in nearly a decade.

Subsequent to the determination that the event did not exceed the capabilities of the State of Illinois, FEMA Region V deployed two specialists to provide technical assistance in support of State efforts to identify and coordinate recovery assistance around the needs and goals of the impacted communities.

Strategy:

On March 25, 2012 the Governor's office held a meeting with twenty-three State agencies to outline the intent of leadership and begin coordinating state recovery support. Three Recovery Support Functions (RSFs) were outlined according to the goals of the state and the impacted communities, and leadership was assigned.



State RSFs and assigned State agency leads:

- Individual Recovery – Illinois Emergency Management Agency
- Economic Recovery – Illinois Department of Commerce and Economic Opportunity
- Community Recovery – Illinois Department of Commerce and Economic Opportunity

Over the ensuing week, RSF leads coordinated with local, State, Federal, and non-governmental partners to conduct comprehensive needs assessments in the impacted area and identify sources of non-Stafford Act assistance.

On April 2, 2012 the Governor's office issued a press release announcing $13 million in State assistance available to support recovery needs in the impacted communities. This package, made up of reprioritized existing State and Federal programs and block-grants, addressed needs in all three identified State RSFs.

Following the announcement, State agency representatives met in the affected communities to outline programmatic requirements, coordinate assistance, and support the development of a unified local recovery plan.

Key Elements and Lessons Learned:

Local needs assessments and recovery goals are critical to the identification and coordination of potential recovery support. Recovery efforts share many similarities; however, the impact of a disaster on a community is ultimately complex and unique. By conducting holistic community recovery assessments and engaging with the public, recovery leadership will be better equipped to set appropriate recovery goals, establish structures, and inform outside partners of needs. The State can support this effort by offering/providing technical expertise from state agencies, or helping to coordinate mutual aid support from experienced jurisdictions outside of the impacted area.

Senior leadership must clearly state recovery goals and priorities. Since support available to impacted communities following non-Stafford Act events is primarily accomplished through re-prioritizing existing funds, programs, and personnel, senior elected leadership must make clear the intent to redirect these funds to support impacted communities to agency level decision makers at the outset.

An understanding of how currently available programs can support the recovery of impacted communities is essential following non-Stafford Act events. Many of the resources available to support the recovery of impacted jurisdictions following non-Stafford Act events are available through existing programs. Understanding how block-grants and other programs/resources may apply to the recovery of affected citizens and the community is essential when considering potential resources.

A scalable, flexible, and adaptable support structure is crucial. Location-based, or in person, support from State and Federal recovery partners is not always warranted. Coordination requirements for current and potential support should be considered to ensure that the structures established are appropriately scaled.

Supporting recovery requires more than programmatic resources. Technical assistance is often key to successfully supporting recovery operations. The establishment of State subject-matter expert strike teams to support local assessments, planning, and resource identification should be considered as a best-practice.

Governor Quinn Announces Up to $13 Million in New Relief for Southern Illinois Communities

Governor Secures State, Federal Resources to Help Southern Illinois Families, Businesses, and Local Governments Recover from Tornado

HARRISBURG – April 2, 2012. At the direction of Governor Pat Quinn, the heads of a number of state agencies today announced in Harrisburg up to $13 million of financial aid and construction projects to help families, businesses and local governments recover from the deadly tornado that ravaged several Southern Illinois communities on Feb. 29. The package put together at the Governor's instruction includes reimbursements to local governments for some of their disaster-related expenses, road improvements, grants to help homeowners repair or rebuild damaged homes, and low-interest business loans to create jobs and help businesses recover.

"This assistance package offers real solutions for the long-term recovery effort in Harrisburg and other communities," Governor Quinn said. "Recovery from this tornado won't happen overnight, but these resources will help residents and businesses of hard hit areas in Southern Illinois begin to rebuild their lives."

Following FEMA's denial of assistance for people affected by the tornado on March 10 and denial of an appeal on March 21, Governor Quinn moved quickly to secure support for people and businesses through the U.S. Small Business Administration (SBA). That request was approved the following day, and the SBA began meeting with people interested in the low-interest, long-term loans on March 23.

"In the weeks since the severe storms and tornadoes hit Southern Illinois in February and early March, I have met with representatives from federal, state, and local emergency management agencies to discuss the ongoing recovery efforts in Harrisburg, Ridgway and surrounding areas," said U.S. Senator Dick Durbin (D-IL). "I will continue to work with Governor Quinn and the Illinois Congressional Delegation to seek further opportunities for federal assistance to help these communities rebuild."

In addition to the SBA loans, the state's multi-agency relief package includes:

- **Assistance from Illinois Department of Commerce and Economic Opportunity (DCEO)** – Up to $5 million from the Community Development Assistance Program (CDAP) will pay for public infrastructure improvements, housing rehabilitation and reconstruction efforts. In partnership with Ameren Illinois, another $1 million from the Energy Efficiency Trust will fund energy efficiency incentives through Ameren's Act on Energy program to benefit customers affected by the disaster. Additionally, DCEO will make as much as $750,000 in Workforce Investment Act grants available to cover wages for dislocated workers to participate in disaster

OFFICE OF GOVERNOR PAT QUINN **NEWS**

cleanup and structured work-based learning.

- **Assistance from Illinois Finance Authority (IFA)** - Up to $2 million in U.S. Department of Agriculture-Rural Development (USDA-RD) business loans will be available through IFA under a relending in Gallatin, Saline and Williamson counties. Loans from a minimum of $50,000 up to a maximum of $250,000 may be used for the purchase of land, construction or renovation of an industrial or commercial building or purchase of machinery and equipment. The IFA will partner with local banks to market the program to local businesses hurt by the recent storms and tornadoes.

- **Assistance from Illinois Department of Transportation (IDOT)** – Twenty-one municipal road improvements in Harrisburg will be completed at an estimated cost of $1.58 million.

- **Assistance from Illinois Emergency Management Agency (IEMA)** – Reimbursements up to $1.5 million to affected local governments for some of their disaster-related expenses will be made through the state's Disaster Response and Recovery Fund, which supports emergency response and recovery efforts.

- **Assistance from Illinois Housing Development Authority (IHDA)** – IHDA will commit up to $1 million in federal HOME Funds using the Single Family Owner Occupied Rehabilitation (SFOOR) Program. Up to $40,000 per household in forgivable non-payment loans will be made available to homeowners in affected areas. The funds can be used to build or renovate destroyed or damaged homes.

- **Delta Regional Authority** – Governor Quinn secured $400,000 in federal funding to reimburse local governments for expenses related to debris removal.

"Ameren Illinois is delighted to partner with the Illinois Department of Commerce and Economic Opportunity to help make recovery a little easier for residents of the Harrisburg and Ridgway areas," said Michael Moehn, Ameren Illinois senior vice president of customer operations. "Through our ActOnEnergy® program and the Warm Neighbors Cool Friends Home Repair Program, residents will be able to receive the financial assistance they need to meet the highest energy efficiency standards as they repair and rebuild. This will allow them to save money today and in the years to come."

Governor Quinn has directed his staff to continue to work with local, federal and non-governmental agencies to secure additional support for families in the affected areas.

This assistance package is in addition to nearly $1.4 million of in-kind state assistance already provided to the affected region. Shortly after the tornado stuck, Governor Quinn surveyed the damaged area and activated the State Emergency Operations Center to coordinate the deployment of state resources and personnel in support of local response and recovery efforts. The state's response included large deployments from IDOT, the Illinois Department of Corrections and the Illinois State Police, as well as assistance from several other state agencies and mutual aid organizations.

"The state of Illinois has been a trusted partner with us since the day the tornado struck," said Harrisburg Mayor Eric Gregg. "Recovery after a disaster of this magnitude isn't easy. This state assistance package will give our recovery efforts a significant boost. I appreciate Governor Quinn's continued commitment to helping our communities recover."

OFFICE OF GOVERNOR PAT QUINN **NEWS**

Governor Quinn directed state officials to start developing the state assistance package immediately after the state's request for FEMA assistance for individuals and subsequent appeal were denied. The administration has been exploring all possible opportunities to deliver relief and assistance to Southern Illinois' impacted communities.

Additional information about the state's response efforts is available at www.Ready.Illinois.gov.

FDD Flint Water Emergency Response

Incident Action Plan

Michigan

Department of
AGRICULTURE
& Rural Development

Operational Period

02/01/2015 0500 to 02/05/2016 1700

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name:	2. Operational Period:	Date From: 2/1/2016	Date To: 2/5/2016
FDD Flint Water Emergency Response		Time From: 0500	Time To: 1700

3. Objective(s):

- Ensure responder and public safety
- Continue scheduling and performing "first draw" water sample collection for testing as requests arrive to Division staff, including 100% high risk establishment water supplies sampled.
- Conduct follow up assessments at food establishments on the City of Flint water supply that were found to be non-compliant with requirments during initial assessments.
- Conduct in-use water sampling, for verification purposes, at firms identified with 1) initial "first draw" results where lead was detected, and 2) at re-assessments of previously non-compliant firms.
- Mail water sample test results to all firms with telephone notification of firms where lead was detected.
- Enhance data management procedures to support field operations and daily update reporting.
- Provide timely updates to Agency Administrators and the State Emergency Operations Center, and appropriate partner agencies.

4. Operational Period Command Emphasis:

Initiate Phase 2: Verification and Compliance Assistance

- Site visits will be conducted in teams of two inspectors, to address possible negative community reaction. Be mindful of safety while out in the field. Immediately contact the Operations Section Chief / Safety Officer with any concerns.
- Be aware that the FDD response is taking place within the scope a much larger state and local response effort. New information may come in at any time, everyone's flexibility is appreciated.
- Follow the chain of command as appropriate.

General Situational Awareness

Inspectors encountering potentially violent situations should leave the area immediately. All needing access to Flint Water Plant need to have access cards issues. Flint weather for the operational period. Staff in State cars should be aware of potential risks due to negative reactions to State government.

MON Feb 1	40°/30°	Cloudy	10%	WNW 17 mph	68%

6. Work Assignments:

- Teams will initiate follow-up assessments and sampling in-use water, if not already sampled previously. Teams will continue collection of first-draw samples at firms that have been scheduled by appointment.
- In-use water samples will be collected at firms where initial sampling found lead in any concentration other that "Not Detected". (Assignments are given to field teams by OSC based on risk and scheduled sampling requests by 4:00 pm for the next day). OSC and Deputy OSC will verify assignments prior to sending out to teams.
- Handouts and FI-101 are left as instructed. Staff continue to report significant problems or concerns to OSC. Fields teams will also complete a survey monkey for follow-up assessments
- Field teams have been given instructions for capturing costs and time associated with this response.
- Office will verify sampling appointments each day for the following day. These appointments will be sent to OSC by 2:00 pm for the next day.

7. Special Instructions:

Field staff have been instructed to work in pairs until further notice. If they are not in pairs, they must notify Tom T. (Safety Officer)

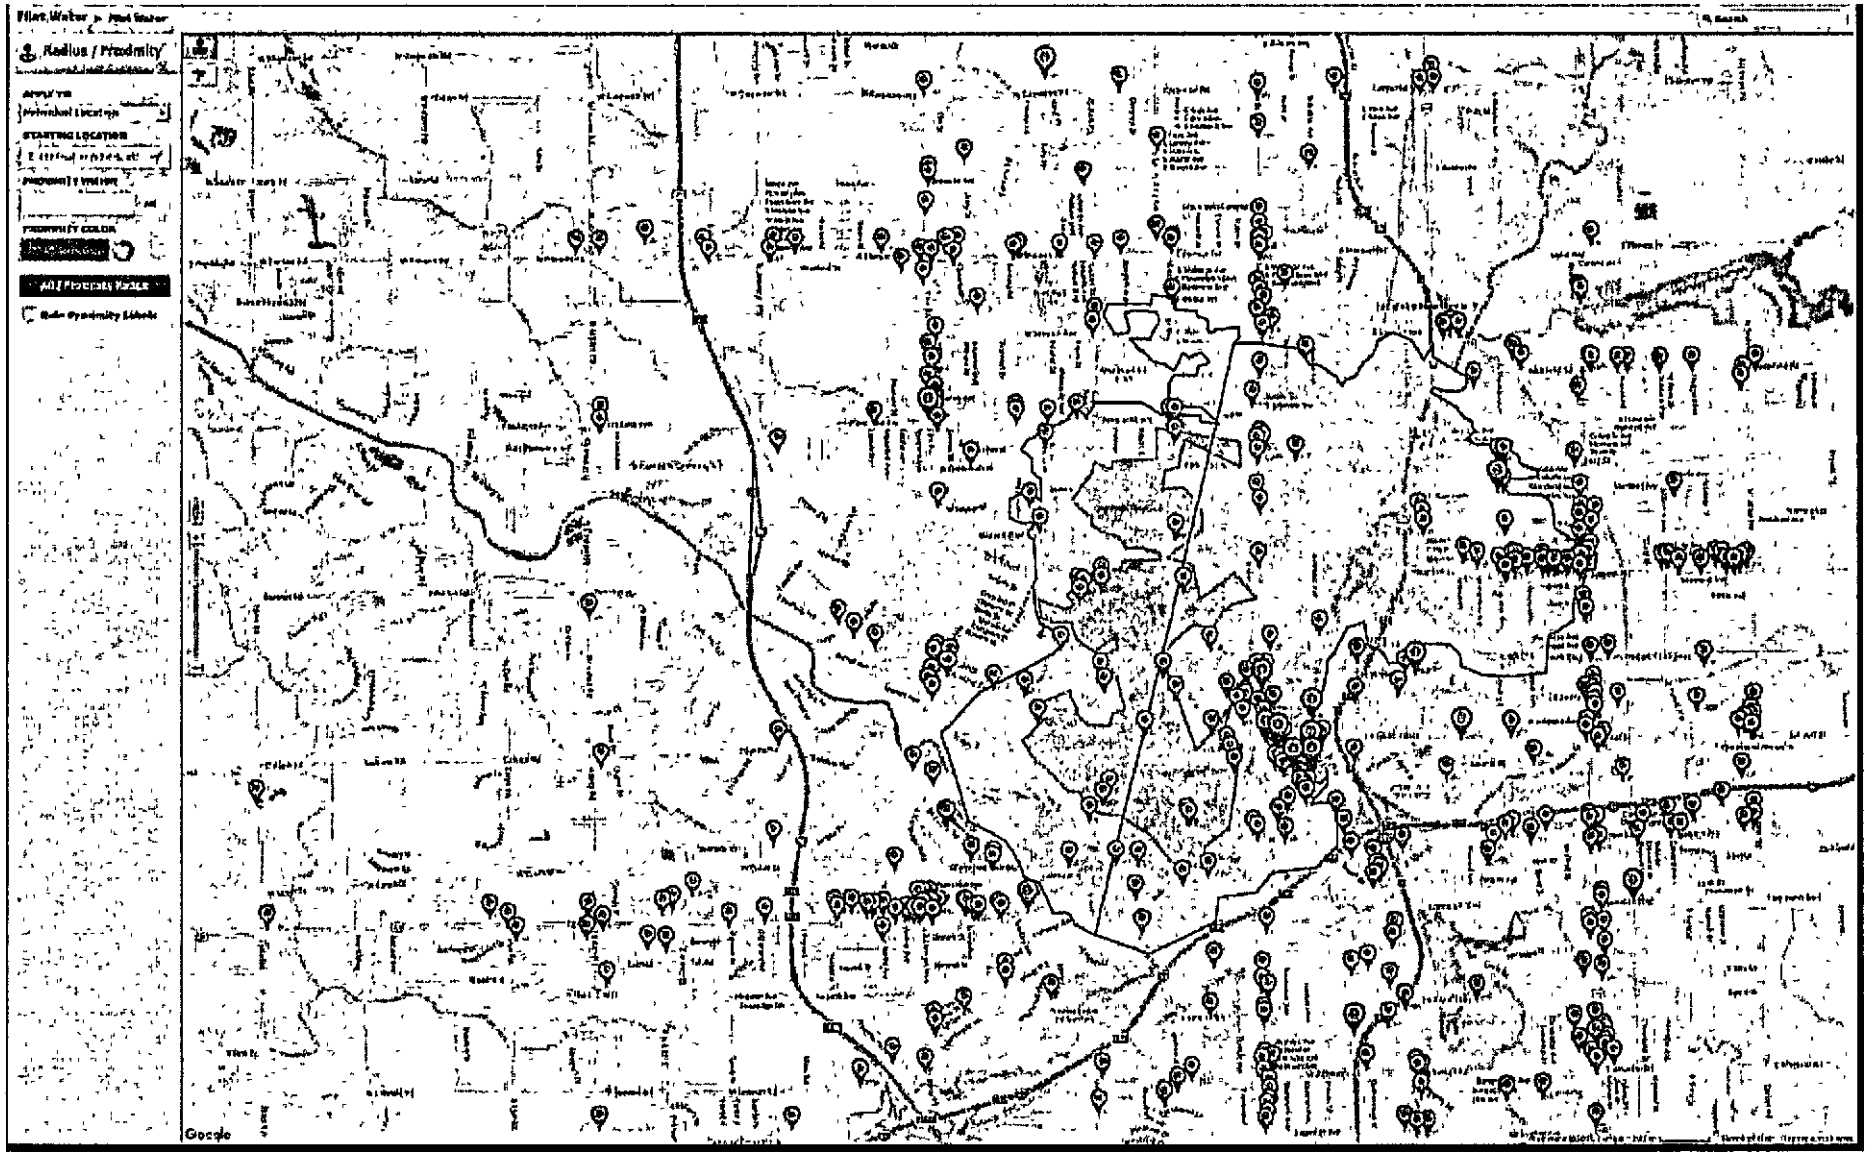
MDARD and LHD facility locations based on Blood Lead risk map (1/22/2016)



STATE OF MICHIGAN
JOINT INFORMATION CENTER

NEWS RELEASE

FOR IMMEDIATE RELEASE
January 31, 2016
Release: #25

State outlines initiatives to determine safe drinking levels and to provide long-term assistance to Flint children

Flint, Mich. – Strategies to determine when Flint's water is safe to drink and to ensure that the city's children have access to comprehensive health care are key to the state's long-term solutions in the Flint water crisis.

Short-term, Gov. Rick Snyder is urging every Flint resident to get a water test kit.

"Almost 5,000 homes submitted water tests, but we want to encourage everyone to submit a water test. Please pick up a free water test kit at one of the Flint fire stations and return the sample to the same location," Snyder said. "We want to ensure that all homes are getting the proper immediate attention and the home water tests will help in that process. If you need assistance, please call United Way 2-1-1 for help."

In addition to the federal emergency declaration, which was granted on Jan. 16, Snyder has requested more federal help for Flint: "While the USDA denied my request to expand WIC nutrition support for Flint children ages 5-10, I'm asking that agency to reconsider. I'm also encouraging the federal government to grant my requests to extend Medicaid eligibility to all Flint residents ages 21 and under, provide long-term health care services for children and help with lead abatement."

On Friday, Snyder signed legislation that will allocate $28 million for more water resources and expanded health care initiatives, including more school nurses, diagnostic tests and community education through the Genesee County Health Department. He also plans to include additional long-term aid for Flint in his FY 2017 budget proposal to be unveiled early this month.

Here's what key Michigan departments are doing to help with the Flint water emergency:

Michigan Department of Environmental Quality
The Michigan Department of Environmental Quality (DEQ) has embarked on a five-part strategy to establish a baseline of data to determine when the water is safe to drink.

The strategy includes:

- Residential water testing: At-home water testing done by residents is key in guiding experts to areas of concern.

MORE

To date, of 4,924 total residential water samples, tests show that 93.7 percent of homes are below the actionable level of 15 parts per billion (ppb) for lead:

- 4,616 samples at 15 ppb or less for lead (93.7%);
- 4,179 samples at 5 ppb or less for lead (84.9%);
- 308 samples over 15 ppb for lead (6.3%);
- 37 samples over 150 ppb for lead (0.75%); and
- 26 samples over 1,300 ppb for copper (0.5%).

Water samples will only be accepted by using the official water testing kits provided at the water resource sites and by the water response teams. To process these samples as efficiently as possible, the Michigan Department DEQ lab is operating seven days per week and is capable of processing 1,000 tests per day. Residents can access these reports online at www.mi.gov/FlintWater. Results are mailed to each residence tested.

- School testing: Michigan DEQ in collaboration with the Michigan Department of Licensing and Regulatory Affairs (LARA) has tested all 13 public schools in the city and continues to test non-public schools, children's centers and senior centers. The state will retest the public schools once it has completed replacing water fixtures. Fixture replacement has begun at Freeman School, which will be retested after water flushing happens within the next week.

- Food service/restaurant provider testing: Michigan DEQ is working in collaboration with the Michigan Department of Agriculture and Rural Development (MDARD) to test establishments and ensure they are using water filters, flushing water systems properly and using the correct food and water standards.

- Blood level testing: Michigan DEQ is working in conjunction with the Michigan Department of Health and Human Services (MDHHS) to ensure that residents with high blood lead levels have their water tested for lead. Homes with high water lead levels are provided additional services by MDHHS and the Genesee County Health Department to ensure residents' exposure to lead is minimized.

- Flint water distribution system testing: Michigan DEQ and the City of Flint are working to monitor and test the quality of the water as it travels throughout the city's water distribution system. Additionally, sentinel sites are being established to set a baseline for data collection.

Michigan DEQ is working with the EPA on trend analysis and data sets that will be reviewed by the Flint Water Interagency Coordinating Committee, which includes water quality experts to help local, state and federal officials provide a consensus conclusion on water quality and safety.

Michigan Department of Health and Human Services
In response to the elevated blood lead levels found in some Flint children, the MDHHS has worked closely with partners at the state and local level to reach and educate families and providers about what they can do to help protect the health of Flint residents.

These actions include funding to Genesee County Health Department for nurses to work with families when an elevated blood lead level has been detected. During follow-up visits, nurses coordinate with environmental health investigators to meet with families in their homes to identify lead exposures, answer questions and provide water filters.

MORE

As part of the effort to test Flint residents, the following data includes all children and adults tested since Oct. 1, 2015:

- 67 of 3,351 Flint residents tested showed an elevated blood lead level;
- 38 of 1,505 children under the age of 6 showed an elevated blood lead level;
- Seven of 963 children between 6 and 17 years of age showed an elevated blood lead level; and
- 22 of 883 adults over the age of 18 showed an elevated blood lead level.

Because lead stays in the blood for only a few weeks after exposure, these numbers do not provide a comprehensive picture of how many people may have been exposed. MDHHS continues to focus on ensuring that all children in Flint have access to additional behavioral, educational, nutritional and healthcare supports, as well as encouraging every resident to get tested for elevated blood lead levels.

Emergency Management Response
Today, water response teams comprised of city, county and state personnel, American Red Cross and volunteers continued door-to-door delivery efforts. These teams are canvassing neighborhoods providing free bottled water, filters, water replacement cartridges and water testing kits to City of Flint water system consumers not yet identified as having a water filter. These door-to-door efforts also include the 266 homes outside of the city limits on the municipal water system.

Additionally, homebound residents who need supplies should call United Way 2-1-1 or 810-257-3600. The United Way 2-1-1 is collecting a list of individuals needing home delivery and is providing that information to the Genesee County Sheriff's Department.

Since Jan. 9, 2016, the following resources have been distributed to residents, both at the water resource sites and by water response teams:

- 234,490 cases of water
- 100,593 water filters
- 32,093 water testing kits

Water resource sites remain open daily from 9 a.m. to 9 p.m. and can be found at the five city fire stations. For locations, go to www.michigan.gov/flintwater.

Due to an overwhelming response from individuals who want to donate, please direct inquiries to FlintDonations@michigan.gov or 517-420-4162. You can also donate online at www.helpforflint.com.

Additional information is available at www.michigan.gov/flintwater, or by calling United Way 211.

Gov. Snyder Approves $28 Million in Immediate Aid for City of Flint
Appropriation will fund several programs to address Water Crisis

FOR IMMEDIATE RELEASE
January 29, 2016
Release #: 23

Flint, Mich. – Gov. Rick Snyder today, signed a $28 million budget supplemental which assists Flint residents by addressing the city's on-going water crisis. The supplemental, which Snyder called for in his State of the State Address January 19th, was approved by the legislature Thursday and signed by the Governor this morning.

"I thank the Legislature for their quick action to make this additional $28 million a reality. It is a necessary next-step in ongoing recovery efforts for the city," Snyder said. "We know that more money will be needed to address long-term concerns and I want to reassure the families of Flint that I remain dedicated to fixing this problem."

House Bill 5220, approved unanimously in both the House and Senate, will help ensure Flint residents have access to safe, clean drinking water in addition to the following:

- Supply free bottled water, faucet filters, and testing kits for Flint residents;
- Put nine nurses in local schools to monitor student health and well-being;
- Provide better nutrition for students and infants through WIC and in-school nutrition programs;
- Replace fixtures in schools, daycares, nursing homes and hospitals;
- Provide for an infrastructure study using independent experts;
- Treat any children who have high lead levels in the blood, using diagnostic testing, nurse visits and environmental assessments in the home.

Gov. Snyder will propose a long-term funding solution to address the ongoing needs of Flint in his Feb. 10 formal budget recommendation to the legislature.

In the continuing effort to identify the location of lead pipes and other components of Flint's water infrastructure, Geographic Information Systems (GIS) experts from the

City of Flint, State of Michigan, the University of Michigan–Flint, and Federal Emergency Management Agency (FEMA) have translated hundreds of hand-drawn plat maps and hand-written notes from the 1980's into digitized maps. The maps are helping the State target its response and determine where safe water is needed.

"Since most of the water system infrastructure is underground, we can't simply walk out and survey it," said Capt. Chris A. Kelenske, deputy state director of emergency management and homeland security and commander of the Michigan State Police Emergency Management and Homeland Security Division. "This mapping will be a critical component of the State's coordinated response in Flint."

Once maps are fully digitized, they will be synced with 2015 parcel data and can then be overlaid with Census and infrastructure information which will allow analysts to pinpoint which inhabited homes have lead service lines.

Additionally, efforts continue to ensure city-wide distribution of bottled water, filters, water replacement cartridges and water testing kits.

Water response teams continue door-to-door delivery efforts with American Red Cross and other volunteers visiting 924 Flint homes today. Since Jan. 9, 2016, the following resources have been distributed to residents, both at the water resource sites and by water response teams:

- 216,605 cases of water
- 98,641 water filters
- 31,111 water testing kits

Additionally, water resource sites remain open daily from 9 a.m. to 9 p.m. and are located at:

Fire Station #1 (also a water bottle recycling site)
310 East 5th St.

Fire Station #3
1525 Martin Luther King Ave.

Fire Station #5 (also a water bottle recycling site)
3402 Western Rd.

Fire Station #6
716 West Pierson Rd.

Fire Station #8 (also a water bottle recycling site)
202 East Atherton Rd.

Due to an overwhelming response from individuals donating water and other items, a new office has been set-up to assist with donations and inquiries on how individuals can assist. Please direct future inquiries to:

FlintDonations@michigan.gov

Additional information is available at www.michigan.gov/flintwater, by calling 211 or 844-875-9211 or visiting www.helpforflint.com

Attachments: Cottage Foods - Flint Water.docx

Attached is a first draft for comment. My suggestion would to make this look prettier and share it with MIFMA and farmers market managers in the Flint area for sharing with their cottage food vendors. We don't really have any way to reach cottage food vendors directly. Also, we can probably get this posted to the Flint Water website once it has been approved through the JIC.

Feedback, please.

Subject: SEOC question

This question is from Civil Rights (a CR Commission member asked this): How is MDARD protecting the public from cottage food operators, either with or without a license, from foods being produced with Flint water? Concern is that these operators could theoretically be "exporting" the problem by selling in Grand Rapids or other places at Farmer's Markets.

Subject: RE: Questing regarding test results

Every time this question has been asked I've heard the same answer – that the test results are sent by DEQ Lab to the coordinator in Flint, who manages the follow up to the source of the test sample. We asked and got a deviation from this for our samples. We flag our samples so they know to get back in touch with MDARD. If FDD hasn't figured out what we're going to do with that information yet, that needs to happen. Sample results are going up on the website – as a courtesy to the business and to make sure the public health is protected, as soon as we know there's a problematic level from a business, someone from MDARD needs to call them to verbally let them know to stop using water or make whatever adjustments are necessary.

Brad

Subject: Questing regarding test results

Good morning Brad,

Lisa Hainstock has a question about how the test results are being communicated back to the businesses. MDEQ is sending the test results to us in scanned, PDF files. The test results themselves are being sent to Mike Glasgow, 4500 N. Dort Hwy, Flint, MI 48505 but MDARD doesn't know if the results are being shared with the businesses.

She asked Jen B. and she didn't know, but said this had been discussed. Byron doesn't know either. Sandra is out sick.

Do you know? Call me after the briefing and I can connect you with Lisa and Tim (who is IC now.)

Thanks.

Subject: *RE: SEOC question*

In a brief discussion with Sean yesterday, we talked about maybe modifying the information page that was sent to licensees to address things cottage food producers should be doing. (I assume they would be the same things licensed food producers are doing – home filter, flushing, bottled water...).

I can look at the handout if I have time (I'm at the JIC today). It would be helpful if someone with more expertise than me can tell me if there are any significant differences in what cottage food producers need to be doing compared to licensed food establishments.

I know Lori is working with Genesee MSUE to ID urban gardens in Flint. A fact sheet and recommendations for them would also be helpful. Just not sure what to tell them. Any guidance?

Thanks!

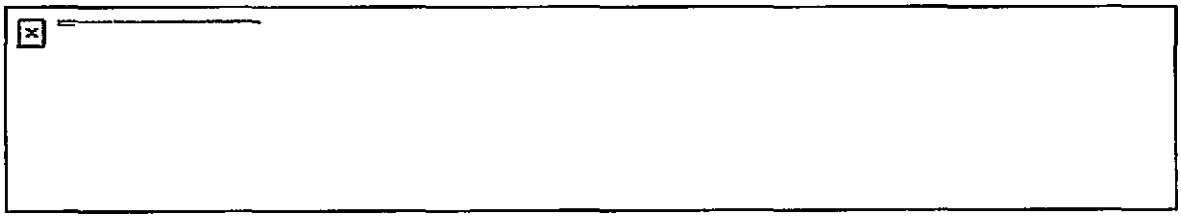
Subject: Thank you for your service



THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and *commitment to make Michigan a better place to live, work and play. I appreciate the way you care* about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

Subject: fyi - New State Emergency Operations Center

I'm at the new State Emergency Operations Center – opened today, and still under construction but operational. It is attached to the General Office Building at the Secondary Complex. The old phone numbers for the desks at the SEOC are no longer working numbers; whoever is out here is best reached via cell phone. I'm here today and Saturday; I think Kay will be here on Sunday.

Thank you for offering to contact this person Sean.

Donnie at Corunna Road Bar Inc. 3110 Corunna, zip is 48532. He states that he needs to know "the lead in this area" so that he knows what type of filter to use at this business. He also stated that the Health Department wants this filter installed immediately and that there is not enough time to get a water sample result.

Hey Jennie,

I have a Mark Keller from the Clear Water Systems in Hartland. He does the water testing for the local Home Depot in Hartland. He is wanting to be able to help the residents of flint by going into the their homes to help do the water tests. However he needs someone to give him the test for him to do. I did get his information and told him that someone one would be in touch with him about this. He can be reached at 810-499-1740.

Subject: Flint water - ID cards
Importance: High

Notice from MDEQ: All MDARD people going out for assessments, giving out filters, water, etc. should have a "Flint Water Volunteer" I.D. card. These can found at the local EOC. Reason for this is to have a uniform credential to show people and help prevent unauthorized people from taking advantage of the situation.

I know we have our inspector badges but we could have a situation where there is a new employee at a convenience store with English as a second language etc. The message is going out for people in Flint to look/ask for these ID cards.

Subject: Consistent Sampling/Test Result Messaging

Can we (DEQ, DHHS, DLARA & DARD SEOC Reps) have a conference call today with you (or designee, Liz?) today to discuss consistent messaging on test results, badging of sampling teams, etc. regardless of agency? This may be already under Liz's responsibilities? I was questioned by all these agencies when I walked into the SEOC so we need coordination to start now and they are looking to DEQ for direction.

Subject: Flint Water Tests

Hey Jennie,

I have a Mark Keller from the Clear Water Systems in Hartland. He does the water testing for the local Home Depot in Hartland. He is wanting to be able to help the residents of flint by going into the their homes to help do the water tests. However he needs someone to give him the test for him to do. I did get his information and told him that someone one would be in touch with him about this. He can be reached at 810-499-1740.

Subject: JIC schedule for the next 2 weeks

All -

First, thank you. Your willingness to help in the Joint Information Center has been nothing short of awesome. I have been told what an amazing asset each of you have been.

Below is the JIC schedule for the next two weeks:

Jennifer Holton
February 4
February 9

Heather Throne
February 2

Cheri Cavanaugh
February 2
February 10

Megan Sprague
February 3
February 8

Jeanne Hausler

February 5
February 11

I don't know assignments yet, but will pass it along when I do.

Thanks again!
Jen

Brad what does the phrase below from your report mean? I'm not aware of any legal level were enforcing other than 15 ppb forester. I've heard of a 4 ppb level mentioned but have no idea of the source. We're not the water standards experts. We need clear direction of what the legal enforceable levels are. I can't have staff write a legal food code violation for something that legally complies with standards. I checked both EPA and CDC websites today and both read 15 ppb for drinking water.

Thanks.

What is minimum level and what is the legal reference?

"water samples that are found to be above the minimum level for drinking water and below the action level of 15."

Kevin Besey, FDD Director, MDARD
517-582-1156

On Jan 27, 2016, at 5:00 PM, MSP-EOC-MDARD <MSP-EOC-MDARD@michigan.gov> wrote:

> This is a short list of what I included in the sit rep for today's actions at the SEOC.
>
> Food establishment assessment totals for today: 20 assessments and 0 water samples collected. Assessment totals completed to date: 185 assessments, 26 water samples collected.
>
> Forwarded response to SBA questions to Brad D. and Deb M. for follow up with Executive office.
>
> One item that will need further follow-up is the development of a response/enforcement strategy for water samples that are found to be above the minimum level for drinking water and below the action level of 15. MDEQ, MDHHS (Health) and MDARD are all picking up samples, as results come back we will need to identify a set of responses for various levels of lead appropriate for the facility and water use. This needs to happen and be resolved as soon as possible as lab results will be reported from the lab in the next few days. *I recommend that a conference call with MDEQ MDHHS and MDARD staff, I can chair the call once the appropriate staff are identified. I am in the office Thursday and Friday and will be out M-Th next week.*

Following up with MDE and question regarding notification and follow up on filters for Flint community schools/food service programs. Question was what about filters for purchase as they are currently using bottled water for food prep etc. Contacted Sean D, Liaison to Genesee County HD regarding this question, and verified with MDEQ/MDHHS the following:

MDEQ and MLARA are working with the all Flint Community Schools to sample, replace equipment and provide support to the school system. Additionally sampling is being done over the weekends due to the requirement that the water has not been used for a minimum period of time prior to sample collection. Verified with Sean D. that MDARD/Genesee LHD will be following up with parochial/private/charter schools in the affected area, both sampling and guidance. Discussion with MDEQ verified that they will continue to work with LARA at the schools on replacement and sampling and are expanding the program to include child care facilities, a plan should be available for review within the next 24 hours.

Initiated discussion with MDEQ/MDNR, MDHHS (Health) and MDARD regarding response to samples at or above action levels for Lead in water. Goal is to develop consistent health based actions for samples found to be at or above action levels and share with our state, local and federal partners as appropriate.

I will be in the office on Thursday and Friday if you have any questions or would like to follow up.

Subject: DCDS Coding for Staff from Other Agencies

Hi Carol

I just spoke with LARA here in the SEOC, regarding the staff they're supplying to the lab and the coding they should use in DCDS. DLARA, MDARD, and future resources that fill in to help for this incident, can't charge DEQ Index, PCA, project and phase numbers. They'll use their own and their time will get accounted for otherwise.

Anastasia, if you disagree, let us all know ASAP. Thanks everyone.

Subject: Potential Issues with State Vehicles

Sandra and Tom,

Just a heads up from a safety perspective please remind the staff in state vehicles that are marked to be aware of their surroundings to assure their safety. Some issues have been reported with MDEQ vehicles that are marked as MDEQ (appears to be isolated, but).

While this may not be an issue for MDARD staff, a reminder to keep aware of their surroundings and maintain situational awareness is something that after a few days of working in an area we/staff may become a little complacent about, just want to keep everyone safe.

If you have any questions please let me know , I am in the office Thursday and Friday.

Jaime,

As we discussed I wanted to follow up on this and let you know what I know.

MDEQ and MLARA are working with the all Flint Community Schools to sample, replace equipment and provide support to the school system. Additionally sampling is being done over the weekends due to the requirement that the water has not been used for a minimum period of time prior to sample collection.

Contacted Sean D, Liaison to Genesee County HD regarding this question, and verified with MDEQ/MDHHS the above information.

I also verified with Sean D. that MDARD/Genesee LHD will be following up with parochial/private/charter schools in the affected area, both sampling, guidance and assessment of the facilities actions.

Discussion with MDEQ verified that they will continue to work with LARA at the schools on replacement and sampling and are developing a plan to expand the program to include child care facilities and some others, a plan should be available for review within the next 24 hours please contact Jen at the EOC desk for further details if needed.

Additionally as we discussed in the activity log it was noted that MDE would be contacting the Flint community schools. I also found reference to a document being developed by MDE for distribution to schools that was in the process of being condensed (from ten pages to two) which I believe also address the issues being raised in this email thread.

I would suggest that the Food Program director be directed to the school system superintendent for information on which schools have been sampled and what actions they will need to take as a result of the sampling and replacement of fixtures that have been identified by MDEQ/LARA.

MDARD has supplied through the JIC the requirements for Food Service (restaurants/bars etc.) and Food establishments on how to manage their water use in response to this incident. To my knowledge that document was posted to the Flint Water response webpage.

Let me know if you have any additional questions.

Jaime, can you get a number or email for us to give to the Flint COmmunity Schools food service director regarding filters?

He says he knows nothing.

Louis

Good morning,

We have been really busy with the media contacting the district this week.
Flint Schools has used jug/bottle water for food prep.

Is there a water filter that will filter out lead that the district could purchase?

Thank you,

You are receiving this email because you participate in the Michigan Department of Education's (MDE) Child and Adult Care Food Program (CACFP) or the National School Lunch Program (NSLP). Do you use the City of Flint water? If so, do you have a water filter, or an alternate source of water for your participants in the Child Nutrition Programs? Please respond to this email by COB Tuesday, January 26, 2016. Thank you for your time to respond to the MDE.

Hello Deb.

Gerald Moore is the SBA Michigan District Director and I have attached a power point which may explain some of your SBA questions. Connie Logan is the Deputy District Director for the SBA. She's out of Detroit and can let you know who the best person in her organization is to assist and act as the local point of contact. Connie's number is SBA staff from the District Office will assist through long term recovery. SBA Office of Disaster staff will assist if a declaration is declared for a short duration.

MICHIGAN	477 Michigan Ave, Suite 515 Detroit, MI 48226 P: 313-226-6075 F: 313-226-4769	Gerald Moore	DD
		Constance P. Logan	DDD
		Catherine Gase	PIO

As we discussed, from what we can determine the only declaration which SBA may be able to provide is Economic Injury. The Michigan Emergency Management is proceeding with their due diligence regarding providing five small businesses that have sustained substantial economic injury which enables SBA to provide working capital loans to small businesses impacted by the disaster upon the Governor's request. If the Governor decides not to appeal FEMA's decline for individual assistance, we can proceed with a Governor's request for an SBA Economic Injury Declaration. If the Governor does appeal the FEMA IA request, we will work with FEMA on the Governor's Economic Injury request.

Please let me know if you have other questions.

Brenda,

Thanks for the call back this afternoon. I took notes, but I want to make sure I understood everything and am able to convey the information to my superiors. Would it be possible for you to send me an outline or bullet points for eligibility for a business to receive an SBA loan both for economic issues and for physical issues?

Also, is there a local SBA contact in Flint or in Michigan that it would be appropriate for us to work with? Thanks very much for your help.

Good afternoon Brenda,

I was given your name by Linda Pollack, Office of Chief Counsel, Deployable Field Counsel, FEMA, as the person to contact regarding low interest loans for businesses in Flint that may need to replace pipes, etc. due to lead contamination. Are there programs in place for this type of issue?

We would appreciate any information that we can provide to these business as we continue our assessments of their water systems. We are dealing primarily with food processors, food establishments that prepare foods (e.g. grocery store delis), and restaurants.

Thank you for your assistance.

Hi Jamie,

Thank you for your interest in having MDARD work with Flint residents to understand lead issues as they may impact local growers and gardeners. A few people you should reach out to in this effort:

Terry McLean, MSUE, mcleant@msu.edu
Julia Darnton, MSUE and MIFMA VP, darntonj@msu.edu
Erin Caudell (as you mentioned already) and Franklin Pleasant of Flint Ingredient Co. and the Local Grocer, caudelle@msu.edu

I know initial conversations have started around soil testing, hose filters and nutrition education information. Terry, Julie and Erin are incredibly well connected and respected in the Flint area.

Thanks, and please don't hesitate to let me know if there is anything I can do.

FOR IMMEDIATE RELEASE
Wednesday, Jan. 27, 2016

Gov. Rick Snyder appoints field experts to oversee long-term solutions for Flint water system

LANSING, Mich. – Gov. Rick Snyder today named a group of medical and field experts to the Flint Water Interagency Coordinating Committee to set in place long-term solutions to Flint's water system.

The 17 member committee, housed within the Michigan State Police, will be asked to make recommendations regarding the health and welfare of people exposed to lead,

study Flint's water infrastructure and determine potential upgrades, review Flint Water Task Force recommendations, and establish ways to improve communication between local and state government.

"Flint residents deserve clean, safe drinking water, and I am confident that the expertise represented on this committee will be a tremendous asset as we continue to address the water crisis in Flint," Snyder said. "I am grateful to these appointees for their willingness to serve on this important committee."

Karen Weaver is the mayor of the city of Flint. She earned a bachelor's degree from Tougaloo College, a master's degree from Long Island University, and a doctorate from Michigan State University.

Jamie Curtis is the chairman of the Genesee County Board of Commissioners. He earned a millwright apprenticeship certificate from Mott College. Curtis is a representative of Genesee County who shall be submitted by the Genesee County Board of Commissioners.

Marc Edwards is a professor at Virginia Tech with numerous awards and honors for his work. He earned a bachelor's degree in bio-physics from SUNY Buffalo, and both a master's and doctorate of science in environmental engineering from the University of Washington. Edwards will represent subject matter experts.

Mona Hanna-Attisha is the director of the pediatric residency program at Hurley Medical Center. She earned a bachelor's degree in resource ecology and management/environmental health from the University of Michigan, a doctorate from Michigan State University College of Human Medicine, and a master's from the University of Michigan School of Public Health.

Natasha Henderson is the city administrator and chief administrator officer for the city of Flint. She earned a bachelor's degree from the University of Arkansas – Pine Bluff, and a master's in business administration from Texas A&M University – Texarkana. Henderson is a representative of the city of Flint who shall be submitted by the mayor of the city of Flint.

Jim Koski retired as the Saginaw county drain commissioner, a role in which he had served from 1977 to 1980 and again in 1996 to 2011. He is a representative of Genesee County who shall be submitted by the Genesee County Board of Commissioners.

Lawrence Reynolds is president and CEO of the Mott Children's Health Center. He earned a bachelor's degree in political science from Wayne State University and a doctorate from Howard University College of Medicine. Reynolds will represent subject matter experts.

Laura Sullivan is a professor of mechanical engineering at Kettering University. She

earned a bachelor's degree in premedical engineering from Arizona State University, and both a master's degree and a doctorate in materials science and engineering from the University of Texas at Arlington. Sullivan is a representative of the city of Flint who shall be submitted by the mayor of the city of Flint.

Mark Valacak is the health officer of the Genesee County Health Department and an instructor at the Michigan State University College of Human Medicine. He earned both a bachelor's degree and a master's of public health degree from the University of Michigan. Valacak is a representative of Genesee County who shall be submitted by the Genesee County Board of Commissioners.

One additional member will be named at a later date.

The following members will also serve on the Coordinating Committee:

- Harvey Hollins, director of Office of Urban Initiatives within the Executive Office of the Governor;
- Col. Chris Kelenske , deputy state director of Emergency Management and Homeland Security within the Michigan Department of State Police;
- Keith Creagh, director of the Department of Environmental Quality, or his or her designee;
- Nick Lyon, director of the Department of Health and Human Services, or his or her designee;
- Mike Zimmer, director of the Department or Licensing and Regulatory Affairs, or his or her designee;
- Nick Khouri, state treasurer, or his or her designee;
- Brian Whiston, superintendent of public instruction, or his or her designee;

Members will serve three-year terms expiring Dec. 31, 2018. Their appointments are not subject to the advice and consent from the Senate.

Subject: SBA loans

I spoke with Brenda Ballew at SBA, Eastern District, and she said that Michigan does not have a "declaration" in place (this is separate from the FEMA declaration). She said the governor must ask for it and it goes through MSP/SEOC. That being said, even with a declaration in place, it will only be for economic hardship (I think was the word) and not for physical damage. In order to get a loan for physical damage, they would have to come in and do an assessment to would have to say that 25% of the homes/business had more than 40% of physical damage which would probably be impossible since it's not roofs, windows, etc., just pipes.

She did say there was a "certification" in process, but that would not cover pipes either. Capt. said something this morning at the 8:30 meeting and I will circle back with Gabe or someone to see if there was more about that. I know he said that SBA was working with the local chamber of commerce, and I think that is related to the economic hardship issue. If that's not the case, I will let you know.

She said she thought she had heard something about HUD offering something, but wasn't sure if that included just homes or businesses too. Loans weren't mentioned in this release http://www.hhs.gov/blog/2016/01/19/ground-week-hhs-lead-federal-response-flint.html so not sure that is the case.

So, I think this might be a dead end.

Subject: MDARD - assistance with testing home canned products for lead

Circling back on this – I have talked with MDARD's Director, Kevin B., Sandra W., and Craig VB – if a homeowner is concerned about home canned foods and lead, we can arrange to get a representative sample tested. The homeowner would need to call us: 800-292-3939. That will be relayed to our Food & Dairy Division, who will arrange with the caller on how and when to pick up the sample. MDARD's Food & Dairy staff will arrange to get the sample to the MDARD Lab in East Lansing. Though our Lab doesn't do the test, they'll arrange sending it out to an available lab and they'll track it. We will be able to use the FDA RRT grant funds to cover the costs of shipping and testing the sample, unless/until we get inundated with this request – then we'll have to look at other sources.
As someone here pointed out, home canned foods are a major part of some families' nutrition.

Our lab does not test for lead – we would have to send it out to another lab.

Subject: MDARD lab testing for lead?

Kay,

We got a question from an individual who canned vegetable with tap water last summer in Flint. I'm going to call him back and check on his water source, but I wanted to check if the MDARD lab would check for lead in food.

Thanks for any info,
Jennifer

To: MSP-EOC-MDARD
Cc: Holton, Jennifer (MDARD)
Subject: RE: Fact Sheet

Actually, that all has already been done actually. Like you noted, there are other animals that may be owned. In addition, there are many unlicensed dogs. I just heard that there is a list of "hot zones" in the city. Do you know how we can get a map of the hot zones? This will be our targeted areas of surveillance testing in our plan, if we are able to this.

Subject: RE: Fact Sheet

Michele,

I spoke with the SEOC Public Information Office and those numbers are not available to me. Even if we had those numbers, it wouldn't help because there's no way to know how many of those homes have pets.

His suggestion was to work with the county to see how many dogs are licensed in the hot zone. That would at least give you a number to start with. It's all rather random though since cats are not required to be licensed, and I'm sure many of the dogs are not.

You may want to call Paul Wallace (who will be invited to be on the call) as he may be able to access the license numbers. You probably have it, but Paul's contact information is as follows:

Paul Wallace
Genesee County Animal Control
G-4351 W Pasadena Ave
Flint MI 48504

To: Schalow, Michele (MDARD)
Subject: RE: Fact Sheet

Those numbers are not available to me here. All the "numbers" are being released by the Governor's office or the Joint Information Center. The numbers of homes visited are being posted on the Michigan.gov/flintwater site, however I don't think they posted testing numbers yet. Also, numbers of homes visited does not equal number of tests. The residents have to take the sample and return it for testing.

Why do you need this information?

Gabe and Michelle,

Our Animal Industry Division is planning to have the conference call Friday afternoon (they will be sending out a Doodle poll to settle on a time). In addition to MDARD staff, participants will include representatives from the Michigan Veterinary Medical Association, Michigan State University, Human Society of America, Genesee County Animal Control, and the ASPCA. Is there anyone else you suggest we include on the call? I will forward Paul Wallace's information from the email below to make sure he is included.

Let me know.

Kay,

Can you take a look at the below email and consider adding the requested information into your PSA for pets?

"ASPCA (and others) want a PSA that lists signs/symptoms of lead poisoning in a companion animal, directs people to a veterinarian, and contains the admonishment that's already published in your link."

Genesee County Animal Control has a basic outline already created if needed.

Thanks,
Gabe

Please work with agriculture on the issues identified below. Can we develop some sort of PSA that addresses these concerns?

If we don't assist I believe they will move forward without our messaging...

From: Wallace, Paul [mailto:PWallace@co.genesee.mi.us]
Sent: Thursday, January 21, 2016 1:36 PM
To: Kuzera, Michelle (MSP)
Subject: RE: Information for pets

Michelle:
Thanks for getting into this so quickly – funny thing is, this document/link is something I've never seen before, can you tell me where/how it's published, so I and my staff can direct people to it? I think it looks great and the fact that it's out there gives us some traction right out of the gate.

ASPCA (and others) want a PSA that lists signs/symptoms of lead poisoning in a companion animal, directs people to a veterinarian, and contains the admonishment that's already published in your link. I don't know if that's something that you're capable of; in what venue or in what form, or if you're even interested at this point.

I have a basic outline from our Shelter vet if you want it. Please advise....and thanks again!

Subject: Information for pets

Paul,

Please see the fact sheet below

http://www.gchd.us/docs/Popular_Pages/Lead/2015-10-21_-_Lead_-_Flint_Water_FINAL_504265_7.pdf

This appears to be the extent of the messaging on animal safety. There is a little section in this PDF. This same information is also being included in a new flyer from the state.

Do you find this an appropriate first step in message? What additionally would these special interest groups like to see as far as messaging is concerned?

MDARD is requesting to post a daily report on food establishments passing inspection (see attached). Currently, the food establishment guidelines and letter are included in the In the Body section on www.michigan.gov/flintwater, but we will be adding a new section to the website for Testing Results that will include blood lead level testing, school water testing, DEQ water sampling, and these reports for restaurants.

To: JICManager
Cc: Holton, Jennifer (MDARD); Walker, Sandra (MDARD); Besey, Kevin (MDARD)
Subject: Food establishment compliance list for daily posting.

Good morning. As you know, MDARD food inspectors have been conducting compliance checks of food establishments in Flint to make sure they are following requirements under the Food Law/Food Code to assure the water they are using is safe.

We would like to begin posting on a daily basis to the Flint Water site a PDF of the updated results of these compliance checks. Below (in italics) is a proposed statement to post with the PDF. A document that outlines the requirements for food businesses should already be posted on the Flint Water site, but I can't find it. I have attached it as an FYI so you know what I'm talking about. This needs to be linked from the underlined word in the proposed statement below.

The most recent compliance tracker PDF is also attached. This is the document that will be updated each day. MDARD's plan is to forward the updated compliance document each day by noon to the JICManager (or to a designee) for posting each week day.

I am seeking approval of the wording and instructions for how best to share this information with the JIC each day for posting. Please call if you have questions! Sorry this is so convoluted. Hopefully the actual posting will be simple!

Proposed statement:

*The following Flint food establishments have received compliance checks and have been found to be following the **requirements** for use of Flint City water as directed by the Genesee County Health Department and the Michigan Department of Agriculture and Rural Development.*

Thanks,

Jeanne

Subject: Small Business Loans

Good morning Linda,

Per our conversation this morning, we are interested in information that we can pass along to business regarding low interest loans. Our Food Inspection staff are in the process of assessing all of our licensees in Flint. There are some businesses that will most likely need to repair/replace piping, etc. \

Thanks very much for your help.

Subject: Question

Good morning Brad,

I am trying to follow up on a question that was asked in one of the first meetings with Genesee regarding the sampling of water at schools in Flint. It was said that all the schools were all sampled.....but only three schools data was on the Flint site. Did we ever get an answer back on the other results from the unlisted schools?

Please let me know if I should direct this question back to the SEOC again.

Thanks,

SD

Subject: Flint Greenhouses

HI Brad,
I checked with Tom Lawrence, inspector for Genesee County. We looked at the nursery database, and do not see any greenhouses in the city of Flint. There are a few places that have nursery dealer licenses but they are mainly the big box stores and pharmacies. Tom thought there used to be 3 greenhouses that grew vegetables in the city but PPPMD doesn't regulate them. He knew one of them has been out of business for over a year. The other two he was unsure if they were still in business or how they irrigate the plants. If you would like us to look into this more let us know.
Thanks
John

Subject: IAP draft pieces

Hi Lisa,

Here's draft forms for the IAP. Jennifer has the 204, which is still waiting for Tom's approval. You might check in with her on that status.

On the 202, I'll add the weather to situational awareness box when I PDF them, so don't worry about that.

Here's how I would proceed:

- Check over each one and make whatever edits you see fit
- Run them by Sandra (print or digital is fine)
- After her approval, get them to me – email, S:, sharepoint, whatever.
- I will PDF them into a final form
- Print one hard copy out, for Sandra so sign and us to keep on file.
- The rest can be ready for distribution by Monday
